Will Rogers Remarks:

S.S. ILE DE FRANCE, Feb. 4.—[To the Editor of The Times:] Lindy's lake kinder sobered up today and bunches of us began drawing a dividend on our passage money by being directed to where the dining saloon was for the very first time. I see by a delayed American paper that Mr. Coolidge is going to print the history of the United States on a single rock. Well, I could print the history of the present results of this disarmament conference on the head of a pin and have room enough left for the chorus of "Yes, We Have No Bananas." See you in person Thursday.

Yours,
WILL ROGERS.

RUSSIA MAY TRY PLAN OF ONE FOR ALL

Soviets Ponder Adopting Standardized Clothing, Houses, and Even Food

MOSCOW, Feb. 4. (AP)—With an eye to establishing complete equality among its citizenry and of hastening the dawn of pure Communism, the soviet government is considering adoption of standardized low-priced dresses and shoes for the masses as well as a uniform type of houses, furniture, beds and even standard forms of food.

Under this system all members of Russian society will be reduced to a common level and there will be no ground for anyone to complain that his neighbor is better clothed, housed, or fed than himself.

Under the system there obviously will be no place for women who seek style and distinction in their clothes. Already there is a movement afoot to abolish feminine dress goods by the yard and to substitute simple Standardized costumes for women.

Soviet Embassy in Paris Guarded

PARIS, Feb. 4. (AP)—A strong force of French police guarded the Russian Embassy here today after a complaint by soviet officials that supporters of Gen. Alexander Paul Koutiejoff were planning a raid on the building.

Meanwhile, the disappearance last week of Gen. Koutiejoff, who succeeded the Grand Duke Nicholas in command of the White Russians, continued a mystery.

Followers of the general insist he was kidnaped by soviet agents.

WORLD GOES "TALKIE"

American Films Set High Mark

Exports During 1929 Make New All-Time Record of 282,215,480 Feet

Theaters in Every Country Being Wired Rapidly for Showing Pictures

BY LAWRENCE M. BENEDICT
"Times" Staff Correspondent

WASHINGTON, Feb. 4. (Exclusive)—Despite legislation in many countries limiting the importation of foreign motion-picture films and other barriers erected against their exhibition, exports of films from the United States during 1929 approximated 282,215,480 feet and exceeded the previous high record exports of 1912 by about 9,000,000 feet, according to a review of the year's trade today by N. D. Golden, assistant chief, motion-picture division, Department of Commerce.

The popularity of American sound and dialogue pictures in our major foreign markets is directly responsible for this increase in trade, according to Mr. Golden.

Since early in 1929, when American sound and dialogue films were first shown in foreign countries, he said, this new medium of entertainment, especially in English-speaking countries, has steadily gained favor, with the result that sales of our films to such countries as the United Kingdom, Australia and New Zealand showed an increase greatly in excess of 1928.

RAPID PROGRESS

"The wiring of theaters in foreign countries for the showing of sound and dialogue pictures is going along at such a rapid pace that any figures on the subject become out of date almost as soon as published," Mr. Golden said.

Researches made by the Department of Commerce as of January 1, 1930, outside of the United States and Canada, show that approximately 2200 foreign theaters were wired for sound and dialogue pictures. Of this number, about 1300 are in Europe, 400 in the Near West, 200 in Latin-America and the remaining fifty in other parts of the world.

Concerning legislation attempting to restrict the importation of American films, Mr. Golden pointed out that there is no reason to believe that greater difficulties will be present in 1930 than those encountered during 1929.

This thought, he stated, is premised on the inconveniences resulting to exhibitors as a result of the tightening up on legislative problems developed in European markets during 1929. For a period of six months pending the temporary settlement of the French film quota law, no new attacks are expected for distribution of American pictures in France. As a result of this condition French exhibitors lost the revenues derived from exhibition of such pictures. This loss, according to European trade reports, has been instrumental in checking the spread of such legislation in other countries.

GOOD CUSTOMERS

Latin America, according to the review, continued as one of our best markets for films with imports to that region during 1929 totaling 79,697,870 feet, compared with 78,960,444 feet during the previous year. Argentina, Brazil and Mexico are shown as ranking among the first ten foreign markets for our films.

Exports of films to the Near West during the year amounted to 62,839,477 feet, compared with 54,335,108 feet for 1928. Popularity of sound motion pictures in Australia and New Zealand, the two English-speaking countries of this region, is reported to be primarily responsible for this growth in trade.

Canada lent further support to the acceptance of American sound and dialogue motion pictures in English-speaking countries, almost doubling imports of American pictures as compared with 1928, according to Mr. Golden.

Africa is shown by the review to have increased purchases of American films by nearly 2,000,000 feet, as compared with 1928, while the remaining parts of the increased exports were scattered over many other countries.

Motion-picture projectors of standard and substandard gauge exported during the year were valued at $804,260.

Son Follows White's Trail

EMPORIA (Kan.) Feb. 4. (AP)—W. L. (Young Bill) White, junior editor of the Emporia Gazette, has entered politics.

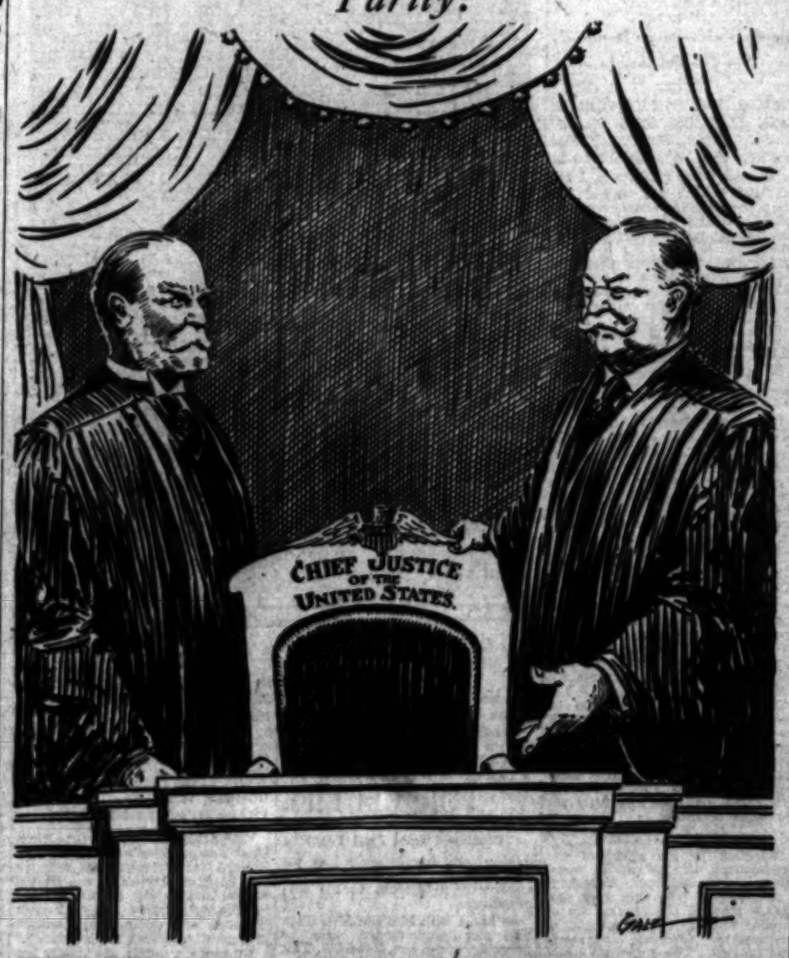
The son of William Allen White, Kansas author, publisher and one time candidate for Governor of Kansas, yesterday announced his candidacy for the Republican nomination for State Representative from the East Side district of Lyon county.

His father headed an independent State ticket in 1920.

Fourth Brace of Twins Born

HUNTINGTON (Ind.) Feb. 4. (Exclusive)—Mr. and Mrs. Harvey R. Clark are the parents of twin girls. This is the fourth set of twins in the family of twelve.

The other three sets were all boys, born within forty-four months. Eleven children are living.



"SCOTTY" SAYS HE'S BROKE

Death Valley Character Blames Cancelling Trip to Loss of $6,000,000 on Stock Market

KANSAS CITY (Mo.) Feb. 4. (Exclusive)—Walter (Death Valley) Scott, about the last picturesque character of the old wild west, says he is broke. He announced it here today on the way back to his home near Tonopah, Nev., believe it or not.

"I've been cleaned out in the stock market," Scotty said, when he stepped from the Santa Fe California Limited today at Union Station. "Yes, sar, I've been taken for a cleaning. Six million berries. Oh, well, that's not so bad. I'll earn it back."

PARIS TRIP ALL OFF

"Scotty" had intended to go to Paris and make whoopee, but when he arrived in Chicago Saturday he was told by friends and a business partner he had lost considerable in speculation. So he says:

"Losin' the berries don't worry me much.

"What's got me goin' is that thar castle I'm puttin' up on my range out thar. It's costin' me around $4,000,000 and I've already got $2,800,000 sunk in it. Anyway, it's a pippin."

"Scotty" attracted considerable attention as he walked the station platform here. He wore a red tie, a six-gallon hat, a white shirt and oxford shoes. He had no overcoat.

BACK TO HIS RANGE

"I don't like overcoats," he explained. "They just get in your way. But what's worryin' me is that castle. Here, now, I was all set for a big time in Paris. I had my passports and everything. I was going to raise plenty of whoopee on the boat, too, but now it's all over. I've got to go back to my range and make those berries I lost."

"Scotty" calls himself "imperor" out in his country. He has a range ninety by 100 miles and says he has 125 men working for him.

"That ain't news about how many ginks I got workin' for me. But it is news when a bird like me loses six million berries on speculation. Wow! Then I has to figure on how I'm goin' to finish that castle. My partner in Chicago has got 100,000,000 berries, but that's his dough, not mine. Well, anyway, I'm goin' back to the dust and get to work. I'll have the dough back in a year or two and that thar castle will be finished on time, or my name ain't 'Death Valley Scotty.'"

CHICAGO PARTNER REFUSES TO COMMENT

CHICAGO, Feb. 3. (Exclusive)—Albert M. Johnson, multimillionaire capitalist and partner of "Death

SUBMARINE AGROUND IN SNOWSTORM

Vessel on Ledge for Five Hours Before Navy Tug Gets Her Off Safely

PORTSMOUTH (N. H.) Feb. 4. (AP) The submarine O-3, bound from New London, Ct., to Portsmouth, ran aground tonight in a heavy snowstorm a few miles south of Portsmouth Harbor. She was aground five hours before the Navy tug M. Mitchell Davis got her off shortly after 11 p.m.

The vessel went aground on a ledge off the Rye coast between Odiorne Point and the Wallis Sands Coast Guard station.

Several Navy and Coast Guard boats were on their way to the scene to offer aid in taking the underwater vessel off the ledge. A brief wireless message informed the navy yard here that the submarine had been floated and was proceeding into the harbor.

Couzens Clears Morgan's Firm

WASHINGTON, Feb. 4. (AP)—The New York banking firm of J. P. Morgan & Co. was exonerated today by Chairman Couzens of the Senate Interstate Committee of "bringing any pressure to bear" in connection with negotiations of the International Telephone and Telegraph Corporation to purchase the communications facilities of the Radio Corporation of America.

After the committee had made public correspondence requested from Sostehenes Behn, chairman of the telegraph corporation, concerning the transactions, Couzens said: "I think the Morgan firm acted very diplomatically."

CROSLAND SUED FOR DIVORCE

Wife of Film Director Files Suit in France; Cruelty Asserted

CANNES (France) Feb. 4. (Exclusive) — Mrs. Juanita Fletcher Crosland, wife of Frederick Alan Crosland, motion-picture director, filed suit for divorce today on charges of cruelty and desertion.

Mrs. Crosland, a former actress, has a residence in Castel des Pines, near Cannes. Her husband at the present time is in America. They were married in New York, August 13, 1917, and have one child.

Serious Illness of Conan Doyle Comes to Light

LONDON, Feb. 4. (AP)—Sir Arthur Conan Doyle, creator of Sherlock Holmes, is ill with heart disease and has been confined to his bed for the past few weeks.

The illness became known today when word was received that spiritualists of Australia, England and the United States are offering special prayers for his recovery.

Overwork during the spiritualist campaign in Scandinavia is said to have weakened his heart so that a walk of 100 yards left him breathless.

Reduction of Southern Gas Rate Ordered

SAN FRANCISCO, Feb. 4. (AP)—A reduction in gas rates estimated at $200,000 a year by the Southern Counties Gas Company was ordered by the State Railroad Commission here today. The reduction, which was not contested by the company, will be effective on all meter readings taken on or after Monday.

The principal decrease will be to general and industrial consumers.

Fifteen Injured in Stormy Trip

NEW YORK, Feb. 4. (AP)—The United States liner George Washington was at her pier at Hoboken, N. J., today, having docked three days late after a stormy passage during which fifteen passengers suffered cuts and bruises.

The voyage was described by Capt. A. B. Randall, master, as one of the worst he has experienced on the Atlantic.

Mrs. Chaplin Loser in Suit

NEW YORK, Feb. 4. (AP)—Judgment for $616.25 against Lita Gray Chaplin, former wife of the screen comedian, was entered today in municipal court for Nicholas Gyory, her former manager. The suit was not contested.

Gyory asserted the money was due him as salary and for expenditures he made in December while acting as her manager on a vaudeville tour through the West.

CALIFORNIA'S RATING RISES

Golden State's Federal Tax Payments Growing; Now Fifth in Rank and Still Increasing

By a Times Staff Correspondent

WASHINGTON, Feb. 4. (Exclusive)—California paid $164,078,934 into the Federal Treasury in 1929 in internal revenue taxes, according to final figures given out at the Treasury today. This is an increase of more than $22,000,000 over the calendar year of 1928, when the State contributed $140,975,897.

New York, of course, led the parade with a 1929 figure of $959,251,777. North Carolina, due to cigarette taxes, was second with $386,089,533; Illinois third with $359,183,682, and Pennsylvania fourth with $337,977,697.

Then came California in fifth place.

Total internal revenue collections for the country amounted to $3,128,219,360, as compared with $2,775,276,956 for the year before.

California's income tax payments for 1929 totaled $141,789,816, an increase of more than $25,000,000 over the previous year. Of the 1929 figure $89,449,139 was in corporation taxes and $72,340,681 in individual taxes.

The Treasury also made public complete figures for the first six months of the present fiscal year.

These show collections in California of $65,690,469, as compared with $54,124,699 for the same half-year in 1928.

AGREEMENT TO PROLONG NAVAL HOLIDAY REACHED

American and English Delegations Also Decide on Immediate Capital Ship Cut

(Copyright, 1930, by New York Times.)

LONDON, Feb. 4. (Exclusive)—The American and British delegates have reached an understanding on the following points:

First, the battleship holiday of ten years provided in the Washington naval treaty of 1922 shall be extended for five years until the end of 1936.

Second, the British and American capital ship fleets shall be reduced at once to fifteen battleships each instead of waiting for that level to be reached in 1936.

This accomplishment represents the fruits of the private negotiations between Premier Ramsay MacDonald and Secretary of State Henry L. Stimson. Naturally, it remains to bring forward this Anglo-American agreement formally when the naval conference reaches the formal discussion of battleships which will not be until after agreement has been reached on the various categories of auxiliary ships.

JAPANESE NOTIFIED

Both the British and American delegations today notified the Japanese of this accord for the reduction of battleship strength. The matter interests the Japanese for their force of battleships now standing at ten is due to come down to nine in 1936. This indicates Japan will be expected to agree to scrapping one battleship at this conference.

It is understood the British and Americans also have been discussing submarines and while both delegations stand theoretically on their demand for the abolition of undersea boats, their realization of the impracticability of achieving this result now, because of the opposition of the French and Japanese, has brought them to the consideration of the submarine strength they wish.

It is reported they look to a tentative total of 100,000 tons each as practicable. This, of course, comes up against the French program calling for 130,000 tons of undersea boats. However, the idea is prevalent that the French will reduce this figure by 30,000 tons if they get satisfaction in other directions.

SAVING TO BE LARGE

Since the British capital ship total now stands at twenty and the American total at eighteen, the tentative agreement between Secretary Stimson and Premier MacDonald means the scrapping this year of five British battleships and three American ships, which, counting one Japanese vessel would mean more than 200,000 tons. While no decision as to ships has been reached at this stage it is presumed the Americans will scrap the Florida, Utah and Wyoming and the British would scrap four ships of the Iron Duke class and one other. The oldest Japanese capital ship is the Kongo, of 27,500 tons.

The Japanese have not yet committed themselves regarding their one ship. Suggestions that the Japanese be called on to scrap two ships meet a reception which indicates there is little chance of Japan going further than one ship.

It costs about $3,500,000 yearly to keep an American ship in commission. Therefore there is an indicated saving in the proposed accord of $10,000,000 yearly for America or $80,000,000 for the five years of the proposed holiday extension. The British saving might be estimated at $40,000,000 or $70,000,000 for the period and the Japanese saving at about $10,000,000.

REPLACEMENT CANCELED

However, a much greater saving is indicated by the decision not to replace ships as provided by the replacement schedules of the Washington treaty. England and America are due to lay down eight capital ships each and Japan six by 1936. Secretary Stimson has calculated this would mean an expenditure by the United States of $400,000,000.

A. V. Alexander, First Lord of the Admiralty, has estimated the cost to the British at $300,000,000 and the Japanese cost would be around $200,000,000. This means the cost of building the ships provided by the Washington treaty would be about $900,000,000. Counting the saving in maintenance cost by the

(Continued on Page 2, Column 1)

LIBERTY DUE FOR HAITI

Hoover to Name Inquiry Board

Commission to Decide When and How United States Will Step Out

Gen. Russell Praised for Accomplishment of Occupation Period

WASHINGTON, Feb. 4. (AP)—President Hoover intends to appoint a committee this week which will determine when and how the United States government is to withdraw from participation in the affairs of the island of Haiti.

The President announced his intention of appointing five or seven persons to constitute such a commission shortly before the House concurred today in the Senate resolution providing $50,000 for the study. Later the Senate agreed to a slight change the House had made in the measure and sent it to the White House.

Disavowing any desire for the country to be represented abroad by military forces, but praising the police and rehabilitation work done in Haiti by the marines, Mr. Hoover said the United States now needed a new and definite Haitian policy based on facts gathered by unbiased men.

BOARD TO BE NAMED

"Now that the Senate and House have approved the appropriation for a thorough inquiry into our problems in Haiti," said President Hoover, "I shall appoint a commission at once to undertake it. I hope to be able to announce this personnel within a week.

"The primary question which is to be investigated is when and how we are to withdraw from Haiti. The second question is what shall we do in the meantime. Certainly we shall withdraw our marines and officials sometime. There are some people who wish for us to scuttle overnight. I am informed that every group in Haiti considers that such action would result in disaster to the Haitian people. On the other hand, our treaty of 1915, under which our forces are present in that country, in the main expires in 1936, or six years hence. We have no mandate to continue the present relationship after that date.

OBLIGATION HELD

"We have an obligation to the people of Haiti and we need to plan how we will discharge that obligation. There is need to build up a certainty of efficient and stable government, in order that life and property may be protected after we withdraw. We need to know, therefore, what subsequent steps should be taken to co-operate with the Haitian people to bring about such results.

"The answer to these questions must be worked out in broad vision, after careful investigation of the entire subject by men of unbiased minds. It is for this reason that I have proposed to send a commission to Haiti to determine the facts, to study and survey the whole problem in the light of our experience in the past fifteen years and the social and political background of the Haitian people, to confer with all sides, to recommend

(Continued on Page 2, Column 2)

ORTIZ RUBIO IN SEAT TODAY

Great Throng of Americans Fill Mexico City to See Inauguration of New President

MEXICO CITY, Feb. 4. (AP)—Pascual Ortiz Rubio, a typical example of the Mexican leaders developed during the hectic revolutionary period since 1911, will be inaugurated tomorrow as President of the Mexican Republic.

In the prime of life when Francisco Madero became the first revolutionary President after the overthrow of the Porfirio Diaz dictatorship, Ortiz Rubio has risen to the supreme office of the republic through a series of important civilian posts.

The term to which he was elected last November was to fill out that of the assassinated President-elect Obregon. As the candidate of the National Revolutionary party, he overwhelmingly defeated his principal rival, Jose Vasconcelos.

GREAT THRONG PRESENT

Provisional President Portes Gil, whom he succeeds, will hold the office of Secretary of the Interior in Ortiz Rubio's Cabinet.

The inaugural ceremonies have brought the greatest gathering of Americans to Mexico City in twenty years. Hotels were so crowded tonight that many visitors had to return to the United States. Seventy excursionists from Wichita, Kan., and other midwestern cities were among them.

The overflow extended even to the railroad yards, which were crowded with long lines of pullman cars serving as temporary hotels. Special trains from San Diego, St. Louis, San Antonio, New Orleans and other American cities arrived today to swell the crowds.

The first part of the inaugural program, which will culminate at noon tomorrow with the actual ceremony in the national stadium, took place today. The special ambassadors and the Diplomatic Corps in full dress uniform marched as a group from the Foreign Office to the National Palace to bid farewell to Provisional President Portes Gil.

ORTIZ RUBIO'S RISE

A continuous round of official functions followed and will last until the Presidential reception at the National Palace tomorrow night.

The newspapers today devoted themselves to eulogizing the work of Portes Gil during his fifteen months

(Continued on Page 2, Column 6)

NAVAL HOLIDAY TO BE EXTENDED

Britian and America to Have Fifteen Capital Ships

Japan Expected to Scrap at Least One Battleship

French Argument on Cut in Submarines Indicated

(Continued from First Page)

scrapping of nine capital ships immediately, it is seen the agreement indicates a saving of $1,000,000,000,-000 for America, Britain and Japan.

Whether the British and Americans intend to obtain the scrapping of French and Italian capital ships is not yet known. There probably would be small difficulty in accomplishing that, since neither nation wishes to build any 35,000-ton capital ships. However, the French have been considering seriously the problem created for them by Germany's pocket battleship, which exceeds in combatant power a 10,-000-ton cruiser with eight-inch guns. The French, therefore, are considering the construction of ships of 16,000 or 20,000 tons to be able to outclass in speed and armament the German Ersatz-Preussen and her promised sister-ships.

CONVERSATIONS FREQUENT

Private conversations were held almost hourly today dealing with important subjects which hold possibilities of other achievements comparable to the battleship agreement. The conference delegates, sitting as a committee of the whole, met again this morning at St. James' Palace to consider methods of procedure.

At the opening of the meeting Mr. Alexander proposed that the British plan for warship limitation, submitted to the other delegations last night, be made the basis of discussion instead of the French compromise proposal. This was beaten by the French, who held the meeting to its promise to proceed with the French scheme, the British suggestions being considered as they came up in juxtaposition with items in the French plan.

PROCEDURE PROGRESS SLOW

As the French scheme was gone over, paragraph by paragraph, many reservations were registered, notably those of the Americans and Italians. The Americans called attention to the fact that the British proposal contained an item providing for the division of cruisers in two classes by tonnage and to this they objected. The French plan had divided cruisers into two classes, those carrying eight-inch guns and those carrying six-inch or smaller guns. While not opposing this division in principle, Secretary of the Navy Charles Francis Adams and Hugh S. Gibson, American Ambassador to Belgium, made it plain they must reserve approval of the British plan.

It is quite apparent no great progress has been made on methods of procedure. This is no reason for pessimism. It only indicates that instead of the nations setting forth their maximum tonnage demands, to be whittled down during the negotiations, it is probable another method will be followed, namely, that of not filling in the blanks of the French scheme until approximate final tonnage can be written down.

Lindbergh Fourth in School's Poll on Important Personages

LYNN (Mass.) Feb. 4. (Exclusive)—President Hoover is the most important living man, according to a majority of pupils in the four ninth-grade divisions at the Pickering Junior High School. Col. Charles A. Lindbergh was relegated to fourth position.

The ten most important living men as selected by Pickering pupils are President Hoover, Rear-Admiral Byrd, Thomas A. Edison, Col. Lindbergh, Henry Ford, Calvin Coolidge, King George, Rockefeller, Stimson and MacDonald.

Mussolini was not named.

HOOVER TO PICK ISLAND BOARD

(Continued from First Page)

the steps which will lead to the liquidation of our responsibilities and at the same time assure stable government in Haiti.

RUSSELL PRAISED

"As I have stated before, I have no desire for representation of the American government abroad through our military forces. We entered Haiti in 1915 for reasons arising from chaotic and distressing conditions, a consequence of a long period of civil war and disorganization.

"We assumed by treaty the obligation to assist the Republic of Haiti in the restoration of order; the organization of an efficient police force; the rehabilitation of its finances, and the development of its natural resources. We have the implied obligation of assisting in building up a stable self-government.

"Peace and order have been restored, finances have been largely rehabilitated, a police force is functioning under the leadership of marine officers. The economic development of Haiti has shown extraordinary improvement under this regime. It is marked by highway systems, vocational schools, public health measures. Gen. Russell (the present American commissioner to Haiti) deserves great credit for these accomplishments.

"We need now a new and definite policy looking forward to the expiration of our treaties."

CIGAR MAKER KILLED

MADERA, Feb. 4. (AP)—Charles Bethorn, 55 years of age, Oakland cigar manufacturer, was killed on the Golden State Highway south of here last night when his automobile overturned. His wife was driving.

CASTLE'S WORD SOOTHES JAPAN

New Ambassador Strikes Friendly Keynote

Predominance in Orient Unchallenged, He Says

Naval Conference Demands Not Unreasonable

TOKIO, Feb. 4. (AP)—William R. Castle, Jr., United States Ambassador to Japan, said today that "whatever may be accomplished at the London naval conference, I am sure that nobody will suggest to Japan any sacrifice endangering its national security or challenging its preponderant naval strength in the Orient."

Making his first public utterance in Japan in an address at a dinner of the American-Japan Society in his honor, the new Ambassador said:

"It is a wonderful thing to be representative in Japan of a nation desiring nothing but friendship. I know of no two nations whose interests more thoroughly coincide than those of Japan and America.

AIMS IDENTICAL

"Just as we believe that the influence of the United States on the American continent is a guarantee of peace, so do we believe that the power of Japan in the Orient is due to the vigor and forward-looking nature of its government and people, which leads to order, progress and peace in the Western Pacific."

Continuing, Ambassador Castle said:

"President Hoover did not send me to Japan to insist upon the American viewpoint in such controversies as may arise in London. He sent me in order that there might be someone in Tokio able fully and frankly to express his ideas.

"Before leaving Washington I said to him that I was sure that my mission was to be one of cooperation. In this he heartily agreed. We must co-operate because we are equally eager to make this conference a success for our own sakes, but not less truly for the whole world."

UNWISE AGITATION

Referring to the effect of the development of aviation on naval values, the Ambassador remarked:

"This shows how dangerous and unwise may be the stirring up of popular opinion by the press of any country favoring any single type of ship. The American press, for example, said so much about 10,000-ton cruisers that many people believe that the conference will stand or fall on this type.

"Would it not be more accurate to say that the conference will stand or fall according to the measure of goodwill of the participating nations? Here, certainly, Japan and America stand firmly together."

CAN SHED WEAPONS

In alluding to the Kellogg peace pact, Ambassador Castle said:

"If we have agreed to live in peace surely we can discard some of the weapons that we have forged against each other."

The Ambassador then turned to the subject of Chinese relations, saying:

"It is absurd to talk of friction between Japan and America over the development of the great potential markets of China. There, more than anywhere else, should be cooperation instead of rivalry. Japan needs American raw materials to manufacture what the Chinese want; America needs the good will of Japanese traders in China in the distribution of American - made goods.

CHINA'S UPBUILDING

"We may differ at times concerning the best method of helping the Chinese to attain political and economic stability but our fundamental aims are identical—the upbuilding of a prosperous and contented nation.

"We have no quarrel on the subject of China. I can see none even faintly looming in the distance."

Navy Rescuers May Telephone to Submarine

WASHINGTON, Feb. 4. (AP)—A system of two-way voice communication between surface vessels and submarines resting on the sea bottom has been developed by the Navy.

The device is similar to speech-amplification units used in auditoriums, though more rugged and equipped for hydrostatic rather than atmospheric pressure. Watertight, it is designed for rough usage, and is equipped with an electromagnet to hold it against the hull of a submarine.

Tests have proved the apparatus satisfactory. With minor improvements it will be installed as standard equipment on submarine rescue vessels.

New Political Party Proposed

NEW YORK, Feb. 4. (AP)—Creation of a new political party to be known as the Liberal party was proposed in an address here tonight before directors of the Association Against the Prohibition Amendment by Dr. Samuel Harden Church of Pittsburgh, president of the board of trustees of Carnegie Institute.

The new party, he said, "would aim to extirpate all those organizations that are holding liberty in bondage, and it would disperse all those political groups in the churches which are endeavoring to enact their religious and moral tenets into laws of the land."

Retiring Chief Justice's Life Ebbs

[Associated Press telephoto]

Stricken Statesman Taken Home

The weakened condition of William Howard Taft was noticeable when he arrived in Washington yesterday from Asheville, N. C. He is shown here being taken from from the train in a wheel chair.

TAFT FIGHTS FOR HIS LIFE

(Continued from First Page)

relatives and friends about him, for the most part he was listless and apparently indifferent to his surroundings.

At home with him are Mrs. Taft, who had accompanied him to Asheville, and a son, Robert A. Taft of Cincinnati, who yesterday presented the resignation of the Chief Justice to President Hoover. Other relatives living at a distance had not been summoned.

After a rather fatiguing overnight ride from Asheville, Mr. Taft with his wife, his physician and a trained nurse, arrived here at 7:05 a.m. They remained aboard their car for half an hour while it was transferred from a lower level to one even with the street.

SMALL CROWD

The former President was fully dressed as the train drew into the station through which he had passed time and again in triumph, once to be inaugurated President, another time to take the oath as Chief Justice of the United States and even longer before to begin duties as Secretary of War in the Cabinet of Theodore Roosevelt.

Only a few persons, mostly newspaper men, were gathered for this home-coming. They had a rather long wait. Dr. Hagner gently impressed on his distinguished patient that the time had come to go home.

Finally the physician and friends assisted Mr. Taft to his feet and helped him along the narrow passageway between his stateroom and the side of the Pullman coach. Seating the former President in a straight chair, the attendants gently lifted him down the car steps and placed him in a wheel chair.

FACE COLORLESS

Mr. Taft's face was wan and colorless. There was no doubt of the strain the effort entailed as he sought to assist those who were helping him. Occasionally he raised drooping eyelids to glance about him, but it was evident that he was partially dazed.

As Dr. Hagner told him the wheel chair furnished a tight fit, the ghost of a smile flitted across his countenance. Slowly the chair was wheeled across the station concourse and after a pause at the entrance while photographers' flashlights exploded, Mr. Taft was helped into the automobile of Associate Justice Sutherland, a close friend and former colleague.

Mrs. Taft alone rode with her husband from the station to their home on Wyoming avenue. Dr. Hagner, the nurse and attendants followed in another car. Mr. Taft was helped into the house through a side door and taken to a second-floor bedroom on an elevator which was installed several years ago when he first was stricken with heart disease.

MENTAL REVIVAL

The return home seemed to give the former President a new grasp on his mental faculties as well as control over his muscles. He was able to walk almost unassisted to his bedroom.

"Well, now you are home again," Dr. Hagner remarked, as Mr. Taft was placed in bed. The patient responded with a smile.

As Mr. Taft arrived home, he was silently greeted by several hundred neighbors and others, who long had waited on the lawn and the sidewalks in front and on the side of the Taft residence.

Throughout the day a procession of messenger boys passed in and out, bringing telegraphic greetings from friends in every section of the country.

A number of neighbors, friends and distant relatives also visited the home to make solicitous inquiries and to leave cheering words for Mrs. Taft and her distinguished husband.

HOOVER WRITES PRAISING EX-PRESIDENT

WASHINGTON, Feb. 4. (AP)—President Hoover today wrote to William Howard Taft accepting his resignation as Chief Justice of the United States, and saying he would "like to add my personal appreciation of the long and distinguished service of a great American to his country."

In making public his letter, the President said:

"The Chief Justice has given an almost unparalleled career to the highest responsibilities in the nation. He leaves his great trust as Chief Justice not only with universal esteem and gratitude but with the affection of the whole American people."

President Hoover's letter to Mr. Taft was as follows:

"My dear Mr. Chief Justice:

"I was deeply pained at receiving your letter of resignation today. For some time I have been aware of the shock you received to your health and have been fearful lest this event should occur. In accepting your resignation I would like to add my personal appreciation of the long and distinguished service of a great American to his country.

"Yours faithfully,

"HERBERT HOOVER."

COOLIDGE COMMENTS ON CHANGE IN JUSTICES

MT. DORA (Fla.) Feb. 4. (AP) Former President Coolidge, who is here on a vacation, said today that "everyone will regret that the ill health of Chief Justice Taft has made it impossible for him to remain at the head of the Supreme Court of the United States."

"He is the only man," Mr. Coolidge said, "who has filled the office of President and Chief Justice of the United States. His service has been so long and distinguished that he is entitled for that reason alone to retire. I have known of his failing health for several years, but his wonderful courage and cheerfulness made him determined to remain in the service of the people as long as he could.

"I have said before that this is not a one-man country. This event has again demonstrated it. The country has found a man of experience, learning, ability and character so well equipped for the office of Chief Justice of the United States in Charles Evans Hughes that we may feel confident the public welfare will be conserved and the high character of our court of last resort will be maintained. This generation has been fortunate to command the services of two such men in such varied positions of importance."

Graves of Indian Fighters Found

SAN FRANCISCO, Feb. 4. (Exclusive)—The long-forgotten and obliterated graves of two soldiers who fell in one of the last skirmishes of the Modoc Indian War in 1873 have been unearthed in Modoc National Forest, according to the United States Forestry Department. Workmen of the Southern Pacific Railroad found the skeletons and uniform buttons of the United States Cavalry. According to Maj. C. B. Hardin, U.S.A., retired, the skeletons undoubtedly are those of two enlisted men shot from horses during the last of the Indian war.

An attempt to identify the two Indian fighters will be made at Washington.

Western Union Office Robbed

DETROIT, Feb. 4 (AP)—A well-organized gang of ten men tonight held up the main office of the Western Union Telegraph Company in the center of the financial district here and escaped with approximately $3000.

Eight of the robbers, armed with revolvers and a sub-machine gun, guarded the two entrances to the building and the two automobiles in which the get-away subsequently was made.

The other two, carrying revolvers, entered the office, herded eleven employees and twenty customers into corners and scooped up the money from cash drawers.

HUGHES TO TAKE JOB NEXT WEEK

Senate Confirmation Held to be Assured Soon

New Chief Justice Escaping Any Opposition

Congress Glad That He Will Quit World Court

WASHINGTON, Feb. 4. (AP)—Confirmation of Charles Evans Hughes by the Senate as Chief Justice seems assured, and next week, immediately after that business is transacted, he will take over the new post.

A day of reflection on the nomination of the former Secretary of State and former Supreme Court jurist developed no sign of opposition to him in the Senate. Chairman Norris of the Senate Judiciary Committee feels no haste is necessary in consideration of Mr. Hughes, however, and stood by his decision to await the regular meeting of the committee Monday.

Surprised Washington learned today that the selection of Mr. Hughes by President Hoover as a successor to William Howard Taft was no surprise to Mr. Hughes. Mr. Hughes had been to the White House several times in recent weeks.

CONFERENCE HELD

Soon after Chief Justice Taft's last breakdown, it became apparent to his intimates that future service on the bench was unlikely for him. This word was conveyed to the President. A breakfast conference with Mr. Hughes followed.

Senate leaders were clearly relieved to learn that the nominee for Chief Justice intends resigning his post on the World Court. The World Court subject is a controversial one in the Senate, and the issue is soon to come up there again on the question of American adherence. But Senators who are determinedly opposed to Mr. Hughes's views in favor of adherence to the World Court, as well as to his political and economic views, feel that is no basis for opposition to him for the highest tribunal of the land.

REGULAR PROCEDURE

Senator Norris made it clear that the Hughes nomination will be treated like any other coming before the Judiciary Committee. If a well-grounded request for a hearing of the nominee is made, he will refer the nomination to a subcommittee like other nominations. He has received no such request and no complaint against the nomination, however.

The Senate Judiciary Committee has been giving careful attention to the judicial nominations. Some district attorneys and marshals have been called before the committee to explain their attitude on law enforcement in response to protests against them.

While some of these nominees have been asked about their personal habits with reference to prohibition, Chairman Norris has made it clear that he does not consider that question a proper one in consideration of the nominee's fitness.

LEAGUE WORRIED OVER RETIREMENT OF HUGHES

GENEVA, Feb. 4. (AP)—Something approaching consternation was produced in League of Nations headquarters today by the receipt of the news that Charles Evans Hughes had been appointed Chief Justice of the United States and consequently would be lost to the Permanent Court of International Justice at The Hague.

It is felt that Mr. Hughes's retirement from the World Court bench will be a particularly heavy lost to the court at a time when the adhesion of the United States still is a delicate matter and reorganization of the court is about to take effect.

At present, League officials feel, there is no similarly outstanding figure among American jurists whose name naturally suggests itself for the vacant post.

INAUGURATION WILL BE TODAY

(Continued from First Page)

of office and to commenting on the composition of the new Ortiz Rubio Cabinet.

Prior to taking office, Ortiz Rubio had been a deputy, the Governor of Michoacan, Secretary of Communications and Public Works, Minister to Berlin and Ambassador to Brazil. In the army he rose to the rank of brigadier-general.

His military career began in Venustiano Carranza's army, in which he served as a captain when Victoriano Huerta was forced out of the presidency. Later he turned against Carranza and was made a general of brigade in Obregon's army.

Born March 10, 1877, in Michoacan, he was graduated from the National Engineers School in 1900 and until the Madero government came into power followed his profession without taking an active interest in politics.

DEATH VALLEY SCOTTY BROKE

(Continued from First Page)

Valley Scotty" for twenty-five years, refused to discuss Scott's reported financial dilemma here tonight.

Johnson recently retired as chairman of the board of the National Insurance Company, selling his holdings at the reported price of $25,000,000.

(A description of Death Valley Scotty's baronial castle written by Harry Carr was published in last Sunday's Los Angeles Times, together with a sketch of what is known of his career and the source of his wealth.—Ed.)

WILBUR ASKS BIDS ON KETTLEMAN OIL

WASHINGTON, Feb. 4. (AP)—Secretary Wilbur today called for bids for the sale of royalty oil accruing to the United States from two leased wells on government land in the Kettleman Hills oil field, California. The contract will run from April 1, 1930, to June 30, 1931. Bids will be received up to noon March 1, next.

"Always in Good Humor says Bill "and my Folks, too

William A. Freeman, Jr., ... Ecks the spoon in preparation ... Ecking the word.

YOUNG BILL FREEMAN, Jr., of 707 South Street, Key West, Florida, has started in early telling the world his secret of health. "I don't know that I would have been the cause of divorce," writes Bill, through his mother, "but certainly the first three months of my life my mother was a nervous wreck, and so was I. I never saw father because he didn't like my disposition—and every day it was a fight at our house—either castor oil or an enema, and I was just about ready to quit home.

"Finally, they started in giving me a half teaspoonful of Nujol night and morning. I am five months old now, and I take Nujol every other night, which keeps me so well regulated that I am always in good humor, and so are my folks."

How simple it is, after all. No drugs, no medicines, no irritating cathartics. Just simple and natural lubrication which our bodies need as much as any machine. Nujol is not absorbed by the body. It is non-fattening; it can form no habit; it cannot hurt the smallest baby. What it does is keep our bodies internally clean of the poisons we all have and which, unless they are swept away as regularly as clock work, give us headaches, make us feel sick, low in our minds, blue, down on the world.

Nujol is as tasteless and colorless as pure water. Start this very night and see how different you will feel after a few days. It costs [illegible] cents and it makes you [illegible] million dollars. You can buy it at any drug store in a sealed [illegible] With millions of people all over the world keeping well with Nujol, there is no reason why you, too, should not be joyous, full of pep, with the happiness that comes of good health. Get a bottle today.

Ride For . 5¢

A nickel for the first one-fifth mile, 10c for each one-half mile after—that's the Black & White Cab rate, the lowest in America. And there's no charge for extra passengers.

Black & White service makes driving easy and economical. No hunting for parking space. No parking fee. No long walks with burdensome bundles. No waits for crowded cars or buses. You ride in comfort from door to door behind a courteous, dependable, uniformed chauffeur. A cab is as near as a telephone.

Reduce the Acid

In sick stomachs—instantly

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will know what to do. Other methods will never appeal to you after you prove this for your own self. It will save a great many dispensable days.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting acids. 25c and 50c a bottle at all drug stores.

"Milk of Magnesia" has been a Registered Trade Mark of The Chas. H. Phillips Chemical Company and predecessor Charles H. Phillips since 1875.

NAVAL HOLIDAY TO BE EXTENDED

Britian and America to Have Fifteen Capital Ships

Japan Expected to Scrap at Least One Battleship

French Argument on Cut in Submarines Indicated

(Continued from First Page)

scrapping of nine capital ships immediately, it is seen the agreement indicates a saving of $1,000,000,000,-000 for America, Britain and Japan.

Whether the British and Americans intend to obtain the scrapping of French and Italian capital ships is not yet known. There probably would be small difficulty in accomplishing that, since neither nation wishes to build any 35,000-ton capital ships. However, the French have been considering seriously the problem created for them by Germany's pocket battleship, which exceeds in combatant power a 10,-000-ton cruiser with eight-inch guns. The French, therefore, are considering the construction of ships of 18,000 or 20,000 tons to be able to outclass in speed and armament the German Ersatz-Preussen and her promised sister-ships.

CONVERSATIONS FREQUENT

Private conversations were held almost hourly today dealing with important subjects which hold possibilities of other achievements comparable to the battleship agreement. The conference delegates, sitting as a committee of the whole, met again this morning at St. James' Palace to consider methods of procedure.

At the opening of the meeting Mr. Alexander proposed that the British plan for warship limitation, submitted to the other delegations last night, be made the basis of discussion instead of the French compromise proposal. This was beaten by the French, who held the meeting to its promise to proceed with the French scheme, the British suggestions being considered as they came up in juxtaposition with items in the French plan.

PROCEDURE PROGRESS SLOW

As the French scheme was gone over, paragraph by paragraph, many reservations were registered, notably those of the Americans and Italians. The Americans called attention to the fact that the British proposal contained an item providing for the division of cruisers in two classes by tonnage and to this they objected. The French plan had divided cruisers into two classes, those carrying eight-inch guns and those carrying six-inch or smaller guns. While not opposing this division in principle, Secretary of the Navy Charles Francis Adams and Hugh S. Gibson, American Ambassador to Belgium, made it plain they must reserve approval of the British plan.

It is quite apparent no great progress has been made on methods of procedure. This is no reason for pessimism. It only indicates that instead of the nations setting forth their maximum tonnage demands, to be whittled down during the negotiations, it is probable another method will be followed, namely, that of not filling in the blanks of the French scheme until approximate final tonnage can be written down.

Lindbergh Fourth in School's Poll on Important Personages

LYNN (Mass.) Feb. 4. (Exclusive)—President Hoover is the most important living man, according to a majority of pupils in the four ninth-grade divisions at the Pickering Junior High School. Col. Charles A. Lindbergh was relegated to fourth position.

The ten most important living men as selected by Pickering pupils are President Hoover, Rear-Admiral Byrd, Thomas A. Edison, Col. Lindbergh, Henry Ford, Calvin Coolidge, King George, Rockefeller, Stimson and MacDonald.

Mussolini was not named.

HOOVER TO PICK ISLAND BOARD

(Continued from First Page)

the steps which will lead to the liquidation of our responsibilities and at the same time assure stable government in Haiti.

RUSSELL PRAISED

"As I have stated before, I have no desire for representation of the American government abroad through our military forces. We entered Haiti in 1915 for reasons arising from chaotic and distressing conditions, a consequence of a long period of civil war and disorganization.

"We assumed by treaty the obligation to assist the Republic of Haiti in the restoration of order; the organization of an efficient police force; the rehabilitation of its finances, and the development of its natural resources. We have the implied obligation of assisting in building up a stable self-government.

"Peace and order have been restored, finances have been largely rehabilitated, a police force is functioning under the leadership of marine officers. The economic development of Haiti has shown extraordinary improvement under this regime. It is marked by highway systems, vocational schools, public health measures. Gen. Russell (the present American commissioner to Haiti) deserves great credit for these accomplishments.

"We need now a new and definite policy looking forward to the expiration of our treaties."

CIGAR MAKER KILLED

CASTLE'S WORD SOOTHES JAPAN

New Ambassador Strikes Friendly Keynote

Predominance in Orient Unchallenged, He Says

Naval Conference Demands Not Unreasonable

TOKIO, Feb. 4. (AP)—William R. Castle, Jr., United States Ambassador to Japan, said today that "whatever may be accomplished at the London naval conference, I am sure that nobody will suggest to Japan any sacrifice endangering its national security or challenging its preponderant naval strength in the Orient."

Making his first public utterance in Japan in an address at a dinner of the American-Japan Society in his honor, the new Ambassador said:

"It is a wonderful thing to be representative in Japan of a nation desiring nothing but friendship. I know of no two nations whose interests more thoroughly coincide than those of Japan and America.

AIMS IDENTICAL

"Just as we believe that the influence of the United States on the American continent is a guarantee of peace, so do we believe that the power of Japan in the Orient is due to the vigor and forward-looking nature of its government and people, which leads to order, progress and peace in the Western Pacific."

Continuing, Ambassador Castle said:

"President Hoover did not send me to Japan to insist upon the American viewpoint in such controversies as may arise in London. He sent me in order that there might be someone in Tokio able fully and frankly to express his ideas.

"Before leaving Washington I said to him that I was sure that my mission was to be one of cooperation. In this he heartily agreed. We must co-operate because we are equally eager to make this conference a success for our own sakes, but not less truly for the whole world."

UNWISE AGITATION

Referring to the effect of the development of aviation on naval values, the Ambassador remarked:

"This shows how dangerous and unwise may be the stirring up of popular opinion by the press of any country favoring any single type of ship. The American press, for example, said so much about 10,000-ton cruisers that many people believe that the conference will stand or fall on this type.

"Would it not be more accurate to say that the conference will stand or fall according to the measure of goodwill of the participating nations? Here, certainly, Japan and America stand firmly together."

CAN SHED WEAPONS

In alluding to the Kellogg peace pact, Ambassador Castle said:

"If we have agreed to live in peace surely we can discard some of the weapons that we have forged against each other."

The Ambassador then turned to the subject of Chinese relations, saying:

"It is absurd to talk of friction between Japan and America over the development of the great potential markets of China. There, more than anywhere else, should be cooperation instead of rivalry. Japan needs American raw materials to manufacture what the Chinese want; America needs the good will of Japanese traders in China in the distribution of American - made goods.

CHINA'S UPBUILDING

"We may differ at times concerning the best method of helping the Chinese to attain political and economic stability but our fundamental aims are identical—the upbuilding of a prosperous and contented nation.

"We have no quarrel on the subject of China. I can see none even faintly looming in the distance."

Navy Rescuers May Telephone to Submarine

WASHINGTON, Feb. 4. (AP)—A system of two-way voice communication between surface vessels and submarines resting on the sea bottom has been developed by the Navy.

The device is similar to speech-amplification units used in auditoriums, though more rugged and equipped for hydrostatic rather than atmospheric pressure. Watertight, it is designed for rough usage, and is equipped with an electromagnet to hold it against the hull of a submarine.

Tests have proved the apparatus satisfactory. With minor improvements it will be installed as standard equipment on submarine rescue vessels.

New Political Party Proposed

NEW YORK, Feb. 4. (AP)—Creation of a new political party to be known as the Liberal party was proposed in an address here tonight before directors of the Association Against the Prohibition Amendment by Dr. Samuel Harden Church of Pittsburgh, president of the board of trustees of Carnegie Institute.

The new party, he said, "would aim to extirpate all those organizations that are holding liberty in bondage, and it would disperse all those political groups in the churches which are endeavoring to enact their religious and moral tenets into laws of the land."

Retiring Chief Justice's Life Ebbs

(Associated Press telephoto)

Stricken Statesman Taken Home

The weakened condition of William Howard Taft was noticeable when he arrived in Washington yesterday from Asheville, N. C. He is shown here being taken from from the train in a wheel chair.

TAFT FIGHTS FOR HIS LIFE

(Continued from First Page)

relatives and friends about him, for the most part he was listless and apparently indifferent to his surroundings.

At home with him are Mrs. Taft, who had accompanied him to Asheville, and a son, Robert A. Taft of Cincinnati, who yesterday presented the resignation of the Chief Justice to President Hoover. Other relatives living at a distance had not been summoned.

After a rather fatiguing overnight ride from Asheville, Mr. Taft with his wife, his physician and a trained nurse, arrived here at 7:05 a.m. They remained aboard their car for half an hour while it was transferred from a lower level to one even with the street.

SMALL CROWD

The former President was fully dressed as the train drew into the station through which he had passed time and again in triumph, once to be inaugurated President, another time to take the oath as Chief Justice of the United States and even longer before to begin duties as Secretary of War in the Cabinet of Theodore Roosevelt.

Only a few persons, mostly newspaper men, were gathered for this home-coming. They had a rather long wait. Dr. Hagner gently impressed on his distinguished patient that the time had come to go home.

Finally the physician and friends assisted Mr. Taft to his feet and helped him along the narrow passageway between his stateroom and the side of the Pullman coach. Seating the former President in a straight chair, the attendants gently lifted him down the car steps and placed him in a wheel chair.

FACE COLORLESS

Mr. Taft's face was wan and colorless. There was no doubt of the strain the effort entailed as he sought to assist those who were helping him. Occasionally he raised drooping eyelids to glance about him, but it was evident that he was partially dazed.

As Dr. Hagner told him the wheel chair furnished a tight fit, the ghost of a smile flitted across his countenance. Slowly the chair was wheeled across the station concourse and after a pause at the entrance while photographers' flashlights exploded, Mr. Taft was helped into the automobile of Associate Justice Sutherland, a close friend and former colleague.

Mrs. Taft alone rode with her husband from the station to their home on Wyoming avenue. Dr. Hagner, the nurse and attendants followed in another car. Mr. Taft was helped into the house through a side door and taken to a second-floor bedroom on an elevator which was installed several years ago when he first was stricken with heart disease.

MENTAL REVIVAL

The return home seemed to give the former President a new grasp on his mental faculties as well as control over his muscles. He was able to walk almost unassisted to his bedroom.

"Well, now you are home again," Dr. Hagner remarked, as Mr. Taft was placed in bed. The patient responded with a smile.

As Mr. Taft arrived home, he was silently greeted by several hundred neighbors and others, who long had waited on the lawn and the sidewalks in front and on the side of the Taft residence.

Throughout the day a procession of messenger boys passed in and out, bringing telegraphic greetings from friends in every section of the country.

A number of neighbors, friends and distant relatives also visited the home to make solicitous inquiries and to leave cheering words for Mrs. Taft and her distinguished husband.

HOOVER WRITES PRAISING EX-PRESIDENT

WASHINGTON, Feb. 4. (AP)—President Hoover today wrote to William Howard Taft accepting his resignation as Chief Justice of the United States, and saying he would "like to add my personal appreciation of the long and distinguished service of a great American to his country."

In making public his letter, the President said:

"The Chief Justice has given an almost unparalleled career to the highest responsibilities in the nation. He leaves his great trust as Chief Justice not only with universal esteem and gratitude but with the affection of the whole American people."

President Hoover's letter to Mr. Taft was as follows:

"My dear Mr. Chief Justice:

"I was deeply pained at receiving your letter of resignation today. For some time I have been aware of the shock you received to your health and have been fearful lest this event should occur. In accepting your resignation I would like to add my personal appreciation of the long and distinguished service of a great American to his country.

"Yours faithfully,

"HERBERT HOOVER."

COOLIDGE COMMENTS ON CHANGE IN JUSTICES

MT. DORA (Fla.) Feb. 4. (AP) Former President Coolidge, who is here on a vacation, said today that "everyone will regret that the ill health of Chief Justice Taft has made it impossible for him to remain at the head of the Supreme Court of the United States."

"He is the only man," Mr. Coolidge said, "who has filled the office of President and Chief Justice of the United States. His service has been so long and distinguished that he is entitled for that reason alone to retire. I have known of his failing health for several years, but his wonderful courage and cheerfulness made him determined to remain in the service of the people as long as he could.

"I have said before that this is not a one-man country. This event has again demonstrated it. The country has found a man of experience, learning, ability and character so well equipped for the office of Chief Justice of the United States in Charles Evans Hughes that we may feel confident the public welfare will be conserved and the high character of our court of last resort will be maintained. This generation has been fortunate to command the services of two such men in such varied positions of importance."

Graves of Indian Fighters Found

SAN FRANCISCO, Feb. 4. (Exclusive)—The long-forgotten and obliterated graves of two soldiers who fell in one of the last skirmishes of the Modoc Indian War in 1873 have been unearthed in Modoc National Forest, according to the United States Forestry Department. Workmen of the Southern Pacific Railroad found the skeletons and uniform buttons of the United States Cavalry. According to Maj. C. B. Hardin, U.S.A., retired, the skeletons undoubtedly are those of two enlisted men shot from horses during the last of the Indian war.

An attempt to identify the two Indian fighters will be made at Washington.

Western Union Office Robbed

DETROIT, Feb. 4 (AP)—A well-organized gang of ten men tonight held up the main office of the Western Union Telegraph Company in the center of the financial district here and escaped with approximately $3000.

Eight of the robbers, armed with revolvers and a sub-machine gun, guarded the two entrances to the building and the two automobiles in which the get-away subsequently was made.

The other two, carrying revolvers, entered the office, herded eleven employees and twenty customers into corners and scooped up the money from cash drawers.

HUGHES TO TAKE JOB NEXT WEEK

Senate Confirmation Held to be Assured Soon

New Chief Justice Escaping Any Opposition

Congress Glad That He Will Quit World Court

WASHINGTON, Feb. 4. (AP)—Confirmation of Charles Evans Hughes by the Senate as Chief Justice seems assured, and next week, immediately after that business is transacted, he will take over the new post.

A day of reflection on the nomination of the former Secretary of State and former Supreme Court jurist developed no sign of opposition to him in the Senate. Chairman Norris of the Senate Judiciary Committee feels no haste is necessary in consideration of Mr. Hughes, however, and stood by his decision to await the regular meeting of the committee Monday.

Surprised Washington learned today that the selection of Mr. Hughes by President Hoover as a successor to William Howard Taft was no surprise to Mr. Hughes. Mr. Hughes had been to the White House several times in recent weeks.

CONFERENCE HELD

Soon after Chief Justice Taft's last breakdown, it became apparent to his intimates that future service on the bench was unlikely for him. This word was conveyed to the President. A breakfast conference with Mr. Hughes followed.

Senate leaders were clearly relieved to learn that the nominee for Chief Justice intends resigning his post on the World Court. The World Court subject is a controversial one in the Senate, and the issue is soon to come up there again on the question of American adherence. But Senators who are determinedly opposed to Mr. Hughes's views in favor of adherence to the World Court, as well as to his political and economic views, feel that is no basis for opposition to him for the highest tribunal of the land.

REGULAR PROCEDURE

Senator Norris made it clear that the Hughes nomination will be treated like any other coming before the Judiciary Committee. If a well-grounded request for a hearing of the nominee is made, he will refer the nomination to a subcommittee like other nominations. He has received no such request and no complaint against the nomination, however.

The Senate Judiciary Committee has been giving careful attention to the judicial nominations. Some district attorneys and marshals have been called before the committee to explain their attitude on law enforcement in response to protests against them.

While some of these nominees have been asked about their personal habits with reference to prohibition, Chairman Norris has made it clear that he does not consider that question a proper one in consideration of the nominee's fitness.

LEAGUE WORRIED OVER RETIREMENT OF HUGHES

GENEVA, Feb. 4. (AP)—Something approaching consternation was produced in League of Nations headquarters today by the receipt of the news that Charles Evans Hughes had been appointed Chief Justice of the United States and consequently would be lost to the Permanent Court of International Justice at The Hague.

It is felt that Mr. Hughes's retirement from the World Court bench will be a particularly heavy lost to the court at a time when the adhesion of the United States still is a delicate matter and reorganization of the court is about to take effect.

At present, League officials feel, there is no similarly outstanding figure among American jurists whose name naturally suggests itself for the vacant post.

INAUGURATION WILL BE TODAY

(Continued from First Page)

of office and to commenting on the composition of the new Ortiz Rubio Cabinet.

Prior to taking office, Ortiz Rubio had been a deputy, the Governor of Michoacan, Secretary of Communications and Public Works, Minister to Berlin and Ambassador to Brazil. In the army he rose to the rank of brigadier-general.

His military career began in Venustiano Carranza's army, in which he served as a captain when Victoriano Huerta was forced out of the presidency. Later he turned against Carranza and was made a general of brigade in Obregon's army.

Born March 10, 1877, in Michoacan, he was graduated from the National Engineers School in 1900 and until the Madero government came into power followed his profession without taking an active interest in politics.

DEATH VALLEY SCOTTY BROKE

(Continued from First Page)

Valley Scotty" for twenty-five years, refused to discuss Scott's reported financial dilemma here tonight.

Johnson recently retired as chairman of the board of the National Insurance Company, selling his holdings at the reported price of $25,000,000.

(A description of Death Valley Scotty's baronial castle written by Harry Carr was published in last Sunday's Los Angeles Times, together with a sketch of what is known of his career and the source of his wealth.—Ed.)

WILBUR ASKS BIDS ON KETTLEMAN OIL

WASHINGTON, Feb. 4. (AP)—Secretary Wilbur today called for bids for the sale of royalty oil accruing to the United States from two leased wells on government land in the Kettleman Hills oil field, California. The contract will run from April 1, 1930, to June 30, 1931. Bids will be received up to noon March 1, next.

"Always in Good Humor," says Bill "and my Folks, too"

William A. Freeman, Jr., licks the spoon in preparation for licking the world.

YOUNG BILL FREEMAN, Jr., of 707 South Street, Key West, Florida, has started in early telling the world his secret of health. "I don't know that I would have been the cause of divorce," writes Bill, through his mother, "but certainly the first three months of my life my mother was a nervous wreck, and so was I. I never saw father because he didn't like my disposition—and every day it was a fight at our house—either castor oil or an enema, and I was just about ready to quit home.

"Finally, they started in giving me a half teaspoonful of Nujol night and morning. I am five months old now, and I take Nujol every other night, which keeps me so well regulated that I am always in good humor, and so are my folks."

How simple it is, after all. No drugs, no medicines, no irritating cathartics. Just simple and natural lubrication which our bodies need as much as any machine. Nujol is not absorbed by the body. It is non-fattening; it can form no habit; it cannot hurt the smallest baby. What it does is keep our bodies internally clean of the poisons we all have and which, unless they are swept away as regularly as clock work, give us headaches, make us feel sick, low in our minds, blue, down on the world.

Nujol is as tasteless and colorless as pure water. Start this very night and see how different you will feel after a few days. It costs but few cents and it makes you feel a million dollars. You can get it at any drug store in a sealed bottle. With millions of people all over the world keeping well with Nujol, there is no reason why you, too, should not be joyous, full of pep, with the happiness that comes of good health. Get a bottle today.

Ride For . 5¢

A nickel for the first one-fifth mile, 10c for each one-half mile after—that's the Black & White Cab rate, the lowest in America. And there's no charge for extra passengers.

Black & White service makes driving easy and economical. No hunting for parking space. No parking fees. No long walks with burdensome bundles. No waits for crowded cars or buses. You ride in comfort from door to door behind a courteous, dependable, uniformed chauffeur. A cab is as near as your telephone.

Reduce the Acid

In sick stomachs—Instantly

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will know what to do. Chronic sufferers prove this for your own satisfaction and save a great many disappointments.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting acids. 25c and 50c at any drug store.

"Milk of Magnesia" has been the Registered Trade Mark of The Chas. H. Phillips Chemical Company, successor to Chas. H. Phillips, since 1875.

MAINE BATTLES ALIEN-BAN BILL

Northeast Joins Southwest Against Box Measure

Canadian Labor Restriction Declared Grave Peril

Law Would Ruin Pulp-Paper Industry of State

By a "Times" Staff Correspondent

WASHINGTON, Feb. 4. (Exclusive)—The northeastern tip of the country today joined in the fight being waged by the Southwest against the proposed restriction of immigration from other nations on the Western Hemisphere.

The entire Maine delegation in the House appeared before the House Immigration Committee to protest against imposition of immigration quotas which would curtail the supply of Canadian labor as contemplated in the Box and Johnson bills now pending before the committee. The arguments were much the same as those presented by witnesses from California, Arizona, New Mexico, Texas and other southwestern states that an uninterrupted flow of labor across our international borders is essential if American industry is not to suffer severe loss.

PAPER MAKERS PERILED

Representatives Beedy, White, Wilson and Snow of the Pine Tree State, told the committee that without French-Canadian woodsmen, the pulp-paper industry of Maine will be entirely wiped out as without this expert labor it can not survive competition from the Canadian mills.

Representative Nelson suggested that if quotas are placed on other nations on this hemisphere some provision be made to allow seasonal entry of workers. This same suggestion has been made many times by witnesses interested in the Mexican phase of the proposed legislation.

The other Maine Congressmen declared opposition to any quota on Canada. The proposed bills would reduce entries from that country from 102,000 to something like 50,000 a year.

Backing up the Congressmen, James A. Gulnac of Bangor, Me told the committee that the Maine potato industry can not exist without Canadian labor.

GRANGE CHIEF SPEAKS

The arguments all the way along closely paralleled the testimony given by spokesmen for the Southwest. Maine cannot obtain manual labor from anywhere but Canada, just as the Southwest cannot get it except from Mexico.

E. Drederick Brenckman, Washington representative of the National Grange, presented the opposition of his organization to placing a quota limit on Mexican immigration. The Grange representative named to make a study of the farm labor situation in the southwest before approving any bill partially to exclude the entry of Mexicans.

CHANNEL WORK AUTHORIZED

CRIME RAMPAGE SHOCKS CHICAGO

Officials Mass Forces as Murder Orgy Grows

War Council Interrupted by New Killings

Net Result Four Indicted for Carrying Guns

BY JOHN P. GALLAGHER
"Times" Staff Correspondent

CHICAGO, Feb. 4. (Exclusive)—Police Commissioner William F. Russell and State's Attorney John A. Swanson massed their forces tonight to bring to an end an orgy of death and dynamiting that is unprecedented even in Chicago. In the last five days eight men have been shot in cold blood on the streets, six of them dying instantly and the two others will die; and in a twenty-four-hour period five dynamite explosions wrecked property valued at more than $150,000.

The officials held two conferences today, one this morning and one tonight. The meeting this evening was for the purpose of discussing ways and means of solving the murders of four men: Barney J. Mitchell, treasurer of the Checker Cab Company, and his chauffeur, Glenn Jackson, who were found shot to death in a Checker cab last Thursday morning; Julius Rosenheim, a police investigator, who was shot and instantly killed last Saturday morning as he stepped from his North Side home, and Joseph Cada, a beer runner, who was shot to death in his automobile last Sunday morning, and to further investigate the cause of the shooting of Johnny Genera, who was ambushed and shot by four men after being lured to a restaurant in Chinatown. Genera is dying. The officials were also to look into the five dynamite blasts, one of which wrecked three buildings causing a loss of $100,000.

CRIME INTERRUPTS

Before the morning conference got well under way the participants were interrupted by the report that William Healy, 27 years of age, was shot and probably fatally wounded in a beer flat. Shortly thereafter came another report that Philip Marchese was shot and killed in the presence of a group of school children on the West Side. Then came word to Swanson that the body of a man had been found in the wreckage of a building bombed on Monday. Following that came a deathbed statement from Healy telling who shot him and identifying the beer flat as being operated by Mrs. Bridget McMahon, whose son, "Smiling Jack" O'Brien, was hanged for murder several years ago.

And still another report came to the conferring officials that several sticks of dynamite were found in a room of the Lake Shore Castle Hotel, 640 Sheridan Road.

CONFERENCE ADJOURNS

With this appalling record of crime before them Russell and Swanson adjourned their conference until this evening. Several hours after the night session got under way they were again interrupted while subordinates reported that Joseph Biccere, who runs a lunch counter at 740 South State street, was called upon by two mysterious visitors at his place of business who after a brief talk pulled revolvers and shot him to death.

After the conferences State's Attorney Swanson announced that he had set in motion the machinery of his office and the grand jury to proceed in a new way against gangsters and that four indictments were voted during the day against Danny Stanton, Frank Diamond, Tony Accardo and Machine-gun Jack McGurn for carrying pistols, this procedure being instituted instead of permitting the gunners to be tried in the municipal courts where they have been able to get one continuance after another.

Police Commissioner Russell announced that every effort will be made to round up known gangsters and that he hopes within a day or two to have the situation in hand.

The bombings so far this year according to Gordon L. Hostetter, director of the Employers' Association of Chicago, caused damage totaling about $200,000. All last year's bombings, he said, caused a damage of only $19,000.

MARCHESE ONCE HELD

Marchese, today's gang fatality, was arrested on June 13, 1925, after he had shot Mike Lombardi during a quarrel. He escaped prosecution on that charge.

Marchese was walking along Lexington street late this afternoon. Near by scores of children were playing in the yard of the Irving School. A spectator said he saw two men come out of an alley and sneak up behind Marchese. They both fired and then they ran back into the alley.

The shooting of William Healy this morning was marked on the police books as "cleared up" during the afternoon when Lieut. Walter Storms of the Detective Bureau visited the wounded man. A priest had been called for Healy and the attending physicians told Healy there was little chance for him to live. Then the wounded gangster violated the underworld code and "squawked." He said he was shot by George Campion, Jerry Cotter and Jack Neville, the latter a union labor business agent. He maintained he did not know the reason they shot. Campion later was placed under arrest and the police are searching for the others.

Drys Who Fell Off Wagon May Give Testimony

WASHINGTON, Feb. 4. (AP)—If the House wet bloc has its way witnesses at the hearings on prohibition beginning before the House Judiciary Committee on the 12th inst. will include prominent persons once dry, but now wet.

Chairman Graham of the committee has said everybody will be heard and the opponents of the Eighteenth Amendment, along with advocates of its modification, are preparing a slate of persons they want to testify.

The bloc has decided, however, not to suggest the calling of former Gov. Al Smith of New York or Nicholas Murray Butler, president of Columbia University. Their views against the dry laws are well known.

CHICAGO YIELDS TO ULTIMATUM

Virtual Dictatorship Will Exist in City

Council Agrees to Accept Aid of Committee

Strawn and Associates to Buy Tax Warrants

CHICAGO, Feb. 4. (AP)—Chicago today accepted a virtual dictatorship in an attempt to drive the wolf from its governmental doors.

Without one dissenting vote, the City Council capitulated to the ultimatum of the Silas H. Strawn citizens' rescue committee and pledged the city to co-operate with the committee.

The co-operation means that the Strawn group, backed by more than $50,000,000, will advance money as it is needed for economic functioning of the city government.

OTHERS CALLED ON

The City Council also called upon the school board, the public library directors and the municipal tuberculosis sanatorium board to adopt similar resolutions of co-operation. Cook County Commissioners already had signified their willingness to submit their needs and pay rolls to the Strawn committee.

Relief is expected to be accomplished through the purchase of tax anticipation warrants by Strawn and his colleagues, the purchases to be made as the money is needed and only when the committee approves proposed expenditures.

Capitulation of the city brought hope to the many thousand city and county employees who have been without pay since Christmas. They looked tonight to the action of the governmental agencies which have not yet pledged co-operation, for on them depends the help from the Strawn group. Before leaving for Washington yesterday Mr. Strawn said relief depends upon co-operation from all officials.

TAXES POOLED

The committee consists of seventy-five capitalists, the majority of them large taxpayers in the city and county, who have pooled their estimated taxes against the time when tax bills can be sent out next June 1. Delay in the collection of taxes for 1928 and 1929 because of several reassessment orders caused the present situation.

Control of the money advanced to the city and county by the committe will be in the hands of an executive committee of fifteen with Strawn as chairman.

CREAMERY HEAD DIES

SAN MATEO, Feb. 4. (Exclusive) Peter Mogensen, 50 years of age, president of the Spreckels Creamery for the last six years and a figure identified with the dairy industry of the Pacific Coast for thirty-three years, died at his home here today from a heart attack.

BITS OF NEWS FROM RENTAL COLUMN

Aggressive Publicity Drive Recommended

State-wide Conference Held at Sacramento

SACRAMENTO, Feb. 4. (AP)—More funds for protection of State forests and wider publicity for forest conservation movements were recommended to the State Board of Forestry by representatives of more than a score of interested organizations meeting here today.

It was urged that funds for forest protection be raised by an annual progressive increase of $200,000 "until adequate protection is obtained," the money to come from general State funds or by legislative enactment.

Delegates from all parts of the State, representing the lumber and cattle industries, fraternal and civic groups, conservation bodies, fire organizations, women's clubs, the American Legion, State grange and other groups, urged the State Forestry Board to "sell the idea of forest protection to the public" as one means of obtaining funds from future legislatures. Speakers cited the present State highway system as a successful instance of selling an idea to the public.

It was suggested that control of brush fires in areas apart from timber, is not properly a function of the State Forest Service, and that this work be taken over by fire protection districts with which the State forces should co-operate.

You
ARE PAYING FOR A PACKARD
Why not own one ?

If you are driving a car similar in size to the Packard Standard Eight

—but lower in price, even by *half*

—then you are paying the costs of Packard transportation.

And without the advantages of Packard performance, Packard comfort, beauty and distinction.

A surprising statement! Yes. But the conservative statement of a conservative company.

It all reduces to this:

Because first cost is lower it does not follow that operation and maintenance costs are lower. They are virtually the *same* for the Packard Standard Eight and any car down to half its price.

And even if first cost is *twice* as much for the Packard Standard Eight, final cost is no greater if the Packard is kept *twice as long*. And it generally is.

You will *want* to keep your Packard, too. Its characteristic beauty of design is not depreciated from year to year by frequent and radical changes. Its motor and chassis are protected by automatic lubrication, insuring long and trouble-free life.

Let us work out the exact figures with you—comparing costs of the car you are now driving with costs of the distinguished Packard Standard Eight.

Then let us appraise your present car. If it is of average value it will make or exceed the down payment on your new Standard Eight. The remainder may be arranged in convenient monthly payments, if you prefer to buy out of income.

CONSTITUTION GROUP NAMED

Fifteen Men to Study State's Basic La wCode

Commission Will Decide on Changes Needed

Six Angelenos Appointed to Board by Young

SACRAMENTO, Feb. 4. (AP)—Fifteen members of a commission authorized by the 1929 Legislature to study California's constitution and ascertain if a new document is needed, were named today by Gov. Young. The existing constitution was adopted July 4, 1879. This was the State's second constitution, the first being adopted November 13, 1849.

The commission will be made up of the following men:

Newton W. Thompson, chairman, Alhambra, former State Senator from 1909 to 1917, and a Los Angeles business man.

Dr. John Willis Baer, Pasadena, banker and former president of Occidental College.

E. W. Camp, Los Angeles attorney, selected, the Governor said, for his interest in civic affairs and knowledge of public utilities.

George E. Cryer, former Mayor of Los Angeles and now a practicing attorney in that city.

GEORGE FARRAND NAMED

George E. Farrand, Los Angeles attorney, who helped organize and was a member of President Hoover's Federal Farm Board.

Will J. French, San Francisco, director of the State Department of Industrial relations. Selected by the Governor for his knowledge of labor conditions and needs.

J. C. Gill, San Bernardino, banker and former Lieutenant-Governor of Illinois.

Dr. John R. Haynes, retired Los Angeles physician, said to be interested in direct legislation.

Leslie R. Hewett, Los Angeles attorney; State Senator from 1911 to 1915, and for eleven years judge on the Superior Court bench in Southern California.

Irving Martin, Stockton newspaper publisher, selected to represent the interior of California.

PROF. MURRAY CHOSEN

Prof. O. K. Murray, dean of the school of jurisprudence at the University of California, Berkeley.

Chester H. Rowell, Berkeley publicist, selected for his interest in constitutional problems.

Robert G. Sproul, president-elect of the University of California, Berkeley.

Edward F. Treadwall, San Francisco attorney, author of an annotated volume of the California State constitution and recognized as a leading authority on constitutions.

E. A. Walcott, San Francisco; for many years executive secretary of the Commonwealth Club, and declared to be interested in civic affairs.

The Governor said he would suggest to the commissioners that they hold their first meeting early next week at the home of the chairman.

The people are to vote in November on a measure proposing to call a constitutional convention and, Gov. Young declared, the work of the commission may by that time aid the electorate decide how to vote on the matter.

MODEL TO BE FORMED

The bill creating the commission was introduced in the 1929 Legislature by Senator Ralph E. Swing of San Bernardino. It provides that members of the commission shall serve without compensation in their study of the constitution of this and other States to determine the need for a revision of California's constitution.

The commission is to submit to the Governor for transmission to the 1931 Legislature a full report of its findings and recommendations relating to the need of a constitutional convention.

Included in the commission's report is to be a draft of a model constitution for the consideration of the Legislature or of any constitutional convention that might be held.

The sum of $5000 was appropriated out of the State Treasury for use by the commission in employment of expert and other clerical assistance and payment of actual and necessary expenses incurred in carrying out provisions of the act.

Wilbur May Be Given University of Illinois Offer

CHICAGO, Feb. 4. (AP)—Secretary of the Interior Wilbur is included in a list of educators under consideration as successor to Dr. David Kinley, president of the University of Illinois, who will retire at the end of the present school year.

This was disclosed yesterday when a committee named to pick Dr. Kinley's successor met in Chicago with H. W. Chase, president of the University of North Carolina, another of those under consideration.

It is understood that Secretary Wilbur, who is president of Leland Stanford University, but on leave of absence, has not given the committee any hope that he will accept the presidency if offered to him.

Contest Filed on Baird Will

SAN FRANCISCO, Feb. 4. (AP)—Mrs. Marie Baird Baldwin Sproule, wife of William P. Sproule, former president of the Southern Pacific, today was made principal defendant in a contest filed in Superior Court here to revoke the will of her mother, Mrs. Veronica C. Baird.

The petition for revocation of the will, which left Mrs. Sproule all of the estate, worth between $500,000 and $1,000,000, was filed in behalf of Thomas R. Baird, son of Mrs. Veronica C. Baird, and Miles T. Baird, grandson of Mrs. Baird.

The contestants declare a second will revoking the one now in probate was written by Mrs. Baird.

GOV. KOHLER ORDERED TO STAND TRIAL

Corrupt Practices Act of Wisconsin Held Legal by State Supreme Court

MADISON (Wis.) Feb. 4. (AP)—The Wisconsin Supreme Court today upheld the constitutionality of the Corrupt Practices Act in its application to elective officers and ordered Gov. Kohler tried on charges of violating the act.

Members of the Progressive Republican faction in Wisconsin, political opponents of the Governor, sought his removal from office on the grounds that he violated the Corrupt Practices Act by spending more than $100,000 in his 1928 campaign. The statutes permit the expenditure of $4000.

The court's decision today was on the demurrer filed in the case by the Governor's attorneys and sustained by Circuit Judge Wickham of Eau Claire.

Judge Wickham ruled the Corrupt Practices Act "so far as it purports to confer a right of removal of the Governor from office" was void.

From the decision attorneys representing the Progressive group appealed to the Supreme Court.

Philip La Follette, brother of United States Senator La Follette, William T. Evjue, Madison newspaper publisher; Senator Roberts and Assemblyman Reis, leaders of the Progressive political groups, filed the charges against the Governor.

PLEA MADE FOR LIFE OF MRS. DUGAN

Arizona Board Called on to Commute Sentence of Death and Imprison Her

FLORENCE (Ariz.) Feb. 4. (AP)—In an impassioned plea Stanley Samuelson, Tucson attorney, urged the board of pardons and paroles here today to commute the sentence of Mrs. Eva Dugan from the death penalty to one of life imprisonment.

Samuelson, in his plea, said Mrs. Dugan was convicted on evidence that was purely circumstantial, and therefore should not suffer the extreme penalty. No definite action on Mrs. Dugan's application is expected for several days.

Mrs. Dugan, who was convicted of murdering Mathew J. Mathis, aged Tucson rancher, is under sentence to hang the 21st inst.

Five Banks in North Carolina County Close

RUTHERFORDTON (N. C.) Feb. 4. (AP)—Five Rutherford county banks with resources of more than $2,500,000 closed their doors today.

The banks closing were the Rutherford County Bank and Trust Company, at Rutherfordton, with resources of more than $1,000,000; its two branches at Spindale and Union Mills; the Farmers' Bank and Trust Company of Forest City, and a branch of this bank at Carpleen.

A notice, signed by the directors, declared the affairs of the banks have been put in the hands of the State Banking Department for the protection of depositors.

Girl Goes to Bury Uncle But Lands in Cell

SAN FRANCISCO, Feb. 4. (AP)—Hazel Madden, 22 years of age, Los Angeles manicurist, came here to bury her uncle, Charles Foster, but landed in a city prison cell today not far from the morgue, where her uncle's body lay.

With four men and three other young women she was arrested on complaint of William Rice of the Mayflower Hotel that he attended a "party" with them and "after a while missed $140."

Miss Emma Brose, 29, at whose home the group gathered, declared the charge "ridiculous" and Miss Madden made tearful denial of having done anything wrong.

Bank of Labor Authorized by Mexican Chief

MEXICO CITY, Feb. 4. (AP)—The National Bank of Labor, to foster industry through financing of cooperative manufacturing and other producing establishments, was authorized today in a decree issued by provisional President Portes Gil.

The bank has long been a hope of the retiring President, who succeeded in obtaining the support to make it a reality on the eve of his quitting office. Its authorized capital will be 5,000,000 pesos (about $2,500,000) half of which has been subscribed by the Federal and State governments. The other half will be marketed.

Air Transport Line Suspends

TULSA (Okla.) Feb. 4. (AP)—Erle P. Halliburton, president and general manager of the Southwest Air Fast Express, Inc., today announced discontinuance of operations of his air lines system until such time as airport and weather conditions will permit safe flying.

The announcement followed nearly a month of unregulated schedules and but occasional operation due to storm, fog, snow and sleet.

The system serves St. Louis, Kansas City, Oklahoma City, Tulsa, Fort Worth, Dallas, Wichita Falls, Sweetwater, Abilene and Midland, Tex.

BEAN POOLING PLANS DRAWN

Farm Board Backs National Marketing Association

California Man Will Head Co-operatives' Agency

Producing States Divided Into Five Districts

WASHINGTON, Feb. 4. (AP)—Operation plans of the National Bean Marketing Association as the central sales agency for merchandising dry beans handled by co-operatives were announced today by the Federal Farm Board.

Declaring that the association expects to be an important factor in marketing the 1930 crop, the board said that instead of a single pool for all dry beans it is proposed to have separate pools for the different varieties.

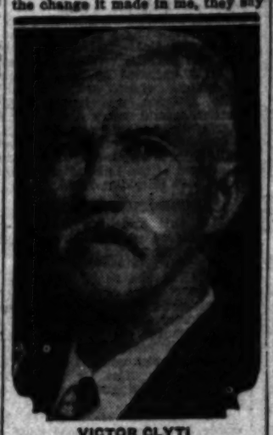
The bean-producing States have been divided by the association into five districts as follows: New York and Michigan; Idaho, Wyoming and Montana; Colorado and New Mexico; lima and baby lima section of California; other varietal sections of California.

The authorized capital stock of the association is $1,000,000. Articles of incorporation, the board was informed, will be filed in Delaware within a few days. Officers of the association will be: President, R. L. Churchill of Oxnard, Cal.; vice-president, Joe Plummer of Denver, president of the Colorado Bean Growers' Association; secretary-treasurer, H. C. Stephens of Denver, sales manager of the Colorado and New Mexico Bean Growers' Association.

Churchill, Stephens and L. E. Osmer, manager of the Michigan Elevator Exchange, Lansing, will act as sales managers.

Now Has Vigor And Strength Of 15 Years Ago

"I've taken fifteen bottles of this new Sargon medicine and I don't begrudge one penny I spent on it. My friends have been amazed at the change it made in me, they say



VICTOR CLYTI

I look years younger, and I feel as strong and vigorous as I was fifteen years ago.

"I'd gotten in such rundown condition I felt tired and listless, and about half-sick all the time. I had dizzy spells, especially when I was badly constipated, and the drastic purgatives I was always taking brought about an inflamed condition of the bowels which nothing I tried would relieve. My appetite went back on me; I couldn't sleep well, and didn't have enough energy or ambition for anything.

"Sargon benefited me wonderfully, almost from the first bottle, and it's the greatest medicine I ever got hold of! It gave me a hearty appetite; built up my strength and made me sleep better, so that I get up in the mornings feeling alert and full of energy. Sargon Soft Mass Pills gave me the most satisfactory results of any laxative I ever used. Instead of just purging, they work in a smooth, easy manner and had a soothing effect on my bowels that corrected the inflamed condition that other laxatives had brought about. I don't have dizzy spells any more either and my whole system is in healthy condition.

"I'm telling everybody I can about Sargon and will be glad to have others get in touch with me. It's a real pleasure to endorse such a remarkable medicine."

The above statement was made by Victor Clyti, who has been a resident of Los Angeles for forty-five years and lives at 1017 Monterey Rd.

The Sargon Man at the Owl Drug Store, 6th & Broadway is meeting the public daily and telling just what this revolutionary new medicine means to weak, sick, debilitated men and women. He cites actual facts, for Sargon's great reputation is based on actual results accomplished: not empty promises. Sargon may be obtained at all Owl Drug Stores in Los Angeles and other cities.—[Advertisement.

DRESSMAKERS OUT ON STRIKE

New York Industry Crippled by Disorders

Number of Workers Idle Totals 25,000

Conference Convened by Gov. Roosevelt

NEW YORK, Feb. 4. (Exclusive)—An army of dressmakers, estimated by their commanders to number at least 25,000 men, women and girls, marched out on strike today in New York and crippled the ladies' ready-to-wear industry at the peak of its early spring season.

The strike is being conducted by the International Ladies Garment Workers' Union, affiliated with the American Federation of Labor. President William Green of the federation, at a mass meeting January 31 last, pledged the union full support of the federation for the strike.

Gov. Roosevelt announced this morning in Albany that he had invited leaders of the striking workers and their employers to a conference at the Capitol Friday. Last winter when the union cloak-makers struck to enforce demands somewhat similar to those now made by the dressmakers, the Governor intervened, and as a result, an impartial commission was set up satisfactory to both sides in the dispute. The dressmakers demand a similar commission in their branch of the garments trades.

Extra police were on duty from early morning onward in the garment district. Between 10 o'clock and noon the sidewalks along part of Seventh Avenue were so packed it was impossible to walk at an ordinary pace.

Picketing by the strikers will be resumed tomorrow.

Magistrate William C. Dodge held seven men in $10,000 bail on charges of

DRESSMAKERS OUT ON STRIKE

New York Industry Crippled by Disorders

Number of Workers Idle Totals 25,000

Conference Convened by Gov. Roosevelt

NEW YORK, Feb. 4. (Exclusive)—[illegible] army of dressmakers, estimated [illegible] shops to number at [illegible] 25,000 men, women and girls, walked out on strike today in New York and crippled the ladies' ready-to-wear industry at the peak of its [illegible] spring season.

The strike is being conducted by the International Ladies Garment Workers' Union, affiliated with the American Federation of Labor. President William Green of the federation, at a mass meeting January [illegible], pledged the union full support of the federation for the strike.

Dr. Roosevelt announced this morning in Albany that he had invited leaders of the striking workers and their employers to a conference at the Capitol Friday. Last night the union cloak-makers agreed to enforce demands somewhat similar to those now made by the dressmakers, the Governor announced, and as a result, an impartial commission was set up satisfactory to both sides in the dispute. The dressmakers demand a similar [illegible] working in their branch of the [illegible] trade.

[illegible] police were on duty from [illegible] to guard in the garment district [illegible] between 10 o'clock and noon [illegible] when a large part of Seventh [illegible] was jammed as packed as it was impossible to walk at an ordinary [illegible].

[illegible] picketing by the strikers will be [illegible] tomorrow.

Assistant William C. Dodge held [illegible] in $10,000 bail on charges [illegible] of violating the Sullivan law prohibiting the carrying of weapons. Only four arrests were reported during the walkout.

DRUNK DRIVER? NO, IT'S HORSE

New Yorker's Alibi Offers Suggestion for Autoist, in Winter, Anyhow

NEW YORK, Feb. 4. (Exclusive)—There was a look of righteous indignation on the face of Thomas Downey, 36 years of age, when he was arraigned today for disorderly conduct.

"It was not me that was drunk, Your Honor," he protested. "It was that horse of mine, Lulu Belle. Somebody poured gin in her nose bag and she got cock-eyed."

Magistrate Adolph Stern suppressed a grin and turned to the arresting officer.

"One of 'em was drunk," the latter asserted. "The wagon zig-zagged all over the street and finally side-swiped a street car."

Downey was given two days in jail.

GOLD STAR MOTHERS' TRIP FUND SOUGHT

WASHINGTON, Feb. 4. (AP)—Chairman Wood of the House Appropriations Committee introduced a bill today to provide $5,388,367 for pilgrimages of gold-star mothers to European cemeteries. Gold-star mothers and widows of World War soldiers, sailors and marines buried in European cemeteries would be given a two weeks' visit at government expense under the appropriation.

UNIFORM STATE AIR LAWS URGED

Secretary for Aviation to Seek Model Statute

Commonwealths Must Pattern on Federal Example

Imperative Need of Drastic Rules Pointed Out

WASHINGTON, Feb. 4. (AP)—Uniform State aeronautical legislation through the country to curb accidents was urged today by Clarence M. Young, assistant Secretary of Commerce for aeronautics.

Maj. Young pointed out that under the present law if a pilot is rejected in his application for a Federal license because his craft is not airworthy or because of personal unfitness he may engage in intrastate commerce without restrictions from the government.

UNFIT HAVE ACCIDENTS

"And, unfortunately," he said, "it is this class of aircraft and airmen who have been contributing in a large measure to the recent aircraft accidents with their resultant injuries, fatal and otherwise, to both passengers and pilots."

"The remedy, under existing Federal law," the Secretary continued, "requires suitable State legislation—legislation which, among other things, must take into consideration the imperative need for uniformity throughout the United States in the matter of airworthiness of aircraft, competency of airmen and, most particularly, in the operation of aircraft in the air.

SAFETY NOT GRADED

"Once an aircraft is in the air there can be no distinction between its interstate or intrastate character. It must be equally airworthy, the pilot must be equally competent and the same rules as to passing, crossing, signaling and landing must be rigidly observed. Inasmuch as there can be but one standard of airworthiness, only a limited range of piloting ability and no variation in rules, then it would seem obvious that the State laws dealing with regulations should provide requirements identical with those of the Federal law."

GIRL WHO WALKS BACK SUSTAINED

Wisconsin's Supreme Court Rules Her Boy Friend Commits Crime

MADISON (Wis.) Feb. 4. (AP)—The girl who walked home had her day in court today—and in the State's highest court, too.

The Supreme Court, in effect, found that making a young lady escort herself home from an automobile ride is a crime.

It sustained Judge Breidenbach's District Court decision against a writ of habeas corpus to release James Ambrose, West Allis, from a year's sentence. He was convicted on complaint of a 19-year-old girl. His attorney, asking the writ, said the offense did not constitute a felony. Judge Breidenbach refused the writ and the high court sustained that finding.

KING, UTAH SENATOR, GOES TO HOSPITAL

WASHINGTON, Feb. 4. (AP)—Senator King, Democrat, Utah, has entered Johns-Hopkins University Hospital at Baltimore for observation after another attack of stomach trouble. His condition was not regarded as serious.

AIR-MAIL RATE CUT PROPOSED

House Measure Designed to Reduce Loss

Bill Accords With Ideas of Postmaster-General

Authorizes Him to Reject All Contract Bids

By a "Times" Staff Correspondent

WASHINGTON, Feb. 4. (Exclusive)—Said to have been drawn in accordance with the idea of Postmaster-General Brown, a bill was introduced in the House today by Representative Waters of Pennsylvania, chairman of the subcommittee on Air-Mail Contracts providing for a reduction in air-mail carrying rates in an effort to reduce the loss to the government for that service.

The bill also changes the measurement of air mail from a pounds-per-mile to a space-weight basis, the same as that applying in the case of mail carried by rail.

Moreover, the measure would authorize the Postmaster-General to use his own judgment in accepting bids. He could reject the lowest offers if he decided such action was to the best interests of the country.

Representative Waters is said to have drafted the bill after conferences with the Postmaster-General and the measure seems to carry out the theories which the latter has advanced in recent speeches and statements.

Waters said that hearings on the bill will be held within the next few weeks.

FORMER ANGELENO KILLED

OKMULGEE (Okla.) Feb. 4. (AP) Addison H. McKallip, Okmulgee hotel owner, was injured fatally today when he accidentally fell from a second floor fire escape of his hotel to a concrete courtyard, fracturing his skull. McKallip formerly operated a hotel at Los Angeles.

More POWER per pound in THE DYNAMIC NEW ERSKINE

$895
TO $1125 AT THE FACTORY

IN the Dynamic New Erskine, power is unleashed to the full by the use of a new and unique full-power muffler, pioneered by Studebaker. Seventy eager horsepower, rubber-cushioned in a long and low-swung chassis, provides more power per pound than in any other car under $1000.

It is a BIG motor car—and a beautiful one! The wheelbase of The Dynamic New Erskine, 114 inches long, makes possible body lines of fluent grace. It is an impressive motor car, in style as truly as in spirit. Wherever you drive, The Dynamic New Erskine will acquit itself to your pride and to the credit of your judgment.

Back of this dynamic car stands the Studebaker institution with its 78 years of manufacturing integrity.

Sound business practice VERSUS legal supervision

TRAFFIC supervision is intended as a measure of safety. Yet many accidents occur daily. Laws enacted for the protection of the public are often disregarded.

The fact that all financial institutions in California are also rigidly regulated by law, is not an absolute guarantee of their soundness.

Fidelity's solidity is not based upon the fact that its affairs are supervised by California law.

Every dollar invested with Fidelity is safe-guarded through sound investment. In addition Fidelity maintains at all times unusually large and liquid reserves.

FIDELITY SAVINGS AND LOAN ASSOCIATION
"All that the name implies"
Sixth & Spring Sts.—Los Angeles

A CLEAR COMPLEXION

Ruddy cheeks—sparkling eyes—most women can have. Dr. F. M. Edwards for 20 years treated scores of women for liver and bowel ailments. During those years he gave his patients a substitute for calomel made of a few well-known vegetable ingredients, naming them Dr. Edwards Olive Tablets. Know them by their olive color.

These tablets are wonder-workers on the liver and bowels, causing a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, take one of Dr. Edwards Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards Olive Tablets—now and then to keep fit. 15c, 30c and 60c.

ITCHING ENDS WHEN ZEMO TOUCHES SKIN

—thousands say. It's wonderful the way soothing, cooling Zemo brings relief to skin which itches and burns. Even in most severe cases, itching disappears almost as soon as Zemo touches the tender and inflamed surface. To draw out local infection and help to clear away unsightly blemishes, we know of nothing better than invisible Zemo. Always keep this family antiseptic on hand. Use it freely. It's safe as can be. 35c, 60c and $1. All dealers.

FAT WOMAN LOSES HUSBAND'S LOVE

The above headlines appeared in a New York newspaper in connection with a divorce trial that has attracted wide attention.

"She was a beautiful woman," one witness testified, "but she got fat and is not attractive any more."

Thousands of women are getting fat and losing their beauty just because they do not know what to do.

If you are fat how would you like to lose it and at the same time gain in physical charm and acquire a clean, clear skin and eyes that sparkle with buoyant health?

And gain in energy and activity?

Why not do what thousands of women have done to get rid of pounds of unsightly fat? Take one-fourth teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast and keep it up for 30 days. Then weigh yourself and see how many pounds you have lost.

You'll have the surprise of your life and best of all a bottle of Kruschen Salts that will last you for 4 weeks costs 65 cents—you'll probably say it's worth one hundred dollars after you take the first bottle.

I lost 19 pounds while taking my first bottle of Kruschen, writes a western woman, and I feel better than I have for years.

Kruschen Salts are a blend of 6 natural revitalizing salts your body, nerves and glands must have if you are to enjoy good health. Ask at any Ord Drug Store or any druggist for a bottle of Kruschen Salts and start to lose fat today.—[Advertisement.

JURORS DEBATE FATE OF BRADY

Texas Murder Trial Draws Toward Close

Prosecutor Asks Death for His Friend

Defense Blames Bootleg for Girl Slaying

AUSTIN (Tex.) Feb. 4. (AP)—John W. Brady's murder trial was in the hands of the jury tonight. Final arguments were completed late this afternoon.

Shortly after 11 p.m. the jurors told the Sheriff they needed to know more about the charge. Judge J. D. Moore was telephoned, but he said he could not give any instructions except when asked in writing and while his court was in session in the morning.

Dist.-Atty. Henry Brooks, son of Brady's former law partner, made the State's final accusation that the former Appellate Court judge in sound mind and with an intention to murder, stabbed Miss Lehlia Highsmith, a stenographer, half his age, to death, through jealousy.

"It is as much your duty to give justice to John Brady, your friend, as it is mine to stand here and prosecute John Brady, my friend," Brooks said in conclusion of the closing argument. "It is a death penalty case if there ever was one."

E. A. Berry, chief of the defense, an elderly man himself and a friend of Brady's through long years, pleaded for the mercy of "him who spake as no mortal ever spake," and said, as he turned slowly away:

"I submit into your hands the fate of John W. Brady. I submit with it all he has ever been."

As the jurors walked upstairs Brady was taken to the jail, where he had been held since he killed the 26-year-old woman on the night of November 9, last.

The arguments of the lawyers—the defense calling Brady a brilliant man stripped of his strength and made insane by long use of bootleg liquor; the State insisting that he employed his knife as a jealous elderly lover—occupied the entire day.

Victory Place, Espee Crossing Finally Settled

SAN FRANCISCO, Feb. 4. (AP)—The State Railroad Commission ended a long-drawn-out controversy here today by authorizing the city of Burbank and Los Angeles county to construct a crossing of Victory Place under the tracks of the Southern Pacific Company's coast line through Burbank. The cost of the project, estimated at between $100,000 and $124,000, is to be borne two-thirds by the city and county and one-third by the railroad.

The commission's order provided that Burbank and Los Angeles county pay the expense of repaving Victory Place and the railroad company the cost of the overhead structure necessary to carry tracks additional to the two originally planned.

Frances White Granted Divorce

CHICAGO, Feb. 4. (AP)—Frances White, musical comedy actress, today was granted a divorce by Judge Sabath from Clinton T. Donnelly, New York theatrical manager. She testified they were married June 23, 1923, and that she was deserted without cause June 1, 1926.

Kansas Town Feels Tremors

CHANUTE (Kan.) Feb. 4. (AP)—Earth tremors, severe enough to shake buildings and arouse sleepers, were felt here between 1 and 2 a.m., and again at 4:15 a.m. today.

A rumbling noise followed the tremors.

DATA ON AIR CRASHES REQUESTED IN SENATE

WASHINGTON, Feb. 4. (AP)—A resolution requesting the Secretary of Commerce to transmit to the Senate all information concerning aircraft accidents in the United States since May 20, 1926, was introduced today by Senator Bratton, Democrat, New Mexico.

NOT EVEN TARDY IN TEN SCHOOL YEARS

[A. P. photo]
Miss Hazel Wehrly

PORTERVILLE, Feb. 4.—A record for school children to aim at has been achieved by Miss Hazel Wehrly, a senior in the high school here. She has not been absent nor tardy at school during the last ten years. There are about 800 pupils in the school. Miss Wehrly is proud of her record and admitted that it was not achieved without "several narrow escapes."

ROYAL PAIR ON JOURNEY TO SHRINES

Japanese Prince and Bride Continue on Ceremonial Required by Marriage

[Copyright, 1936, Chicago Tribune.]

TOKIO, Feb. 5. (Wednesday) (Exclusive) — Prince Kakamatsu, brother of the Emperor of Japan, and Princess Kikuko Tokugawa, a descendant of the ancient Shogun family, who were married yesterday before the imperial sanctuary at the Imperial Palace, continued today in the long but necessary routine of ceremonials which ancient Japanese custom requires to make permanent the bonds of marriage. They started on the journey which will take them to most of the important shrines of Japanese imperial ancestors before whom they must report their marriage, telling the bridegroom's ancestors that he is married to a descendant of their ancient enemies.

They will visit the Shrine of the Sun Goddess at Ise. At Kyoto they will invoke the spirit of Emperor Meiji, the Prince's grandfather, who sixty-two years ago forced Princess Kikuko's grandfather to relinquish supreme control of Japan which the Shogun dynasty had held for three centuries. After visiting the tomb of Emperor Jimmu, the first Emperor, and that of Emperor Taisho, the Prince's father, they will return to Tokio on the 10th inst.

AUSTRIA TO SIGN PACT WITH ITALY

Treaty of Friendship to be Entered Tomorrow as Result of Conference

ROME, Feb. 4. (AP)—Austria and Italy will sign a treaty of friendship and conciliation and a judicial pact Thursday as the result of a meeting here today between Chancellor Schober of Austria, and Premier Mussolini.

The treaty and pact are expected to go far toward smoothing over the difficulties of the two countries since the post-war rearrangement of frontiers and the advent of Fascism to power in Italy.

Chancellor Schober thanked the Duce for the Italian support given Austria at The Hague reparations conference and gave him the Austrian Grand Cordon with the gold star of merit.

COTTON FIGHT FUNDS SOUGHT

Arizona in Steps to Pledge Worm-War Revenue

Leaders Act to Raise Sum Asked by Washington

Railways, Mine and Farm Interests to Help

PHOENIX, Feb. 4. (AP)—Following receipt of a message from Washington today that "a commitment from responsible organizations" will be necessary in pledging the Federal government that Arizona's part of the compensation granted to Salt River Valley cotton growers in the noncotton-growing zone will be repaid, efforts to obtain such pledges were started.

At a meeting of representatives of mines, railroads, farm organizations and other business interests the Salt River Valley Water Users' Association officials announced they will guarantee $75,000 of the $320,000 reported necessary for the State's part of the first-year expenditure of the proposed three-year program to rid the valley of the pink boll worm.

James S. Cassey of Bisbee, reported to be speaking for most of the large mines of the State, said the mines will "do their part."

A. M. Crawford, State legislative examiner, submitted a proposed bill which he said will be introduced in the next Legislature, providing that the money advanced by the Federal government in 1930 will be repaid in three years instead of all during 1931 as at first proposed. If this plan meets with the approval of Washington officials, it was said, the Governor and heads of the central committees of the two political parties will be asked to indorse the bill.

The conference of the representatives was recessed until next Monday, when it is expected a definite answer will have been received from Secretary of Agriculture Arthur Hyde as to whether the government will allow the State to repay the money advanced in three payments instead of one.

GUARDSMAN DEATH QUIZ UNDER WAY

Enemy of Rum-Runners Killed With Revolver of Another at Boston Base

BOSTON, Feb. 4. (AP)—Investigation was made today into the death of Victor L. Harris, Coast Guard boatswain's mate, first class, who was found dead in his berth at the Coast Guard base Sunday.

Harris died of a bullet wound in the head. A service revolver, not his own, was near his body.

Harris would have been an important witness in rum-running cases in which he was the boarding officer.

Collection of Liquor Bribes Told at Trial

OKLAHOMA CITY (Okla.) Feb. 4. (AP)—Andry Graham, a former deputy sheriff, took the stand here today in the government's prosecution of Pottawatomie county officials and others for alleged wholesale liquor-law violations, and told how, after being recommended as a peace officer by a women's civic club, he had acted as a collector of protection money from bootleggers at the behest of his superior officer.

He received one-third of his collections, he said, and turned the remaining two-thirds over to Sheriff Frank Fox. The Sheriff, he said, told him he (Fox) "had to take care of the county attorney" out of his share. Randall Pitman, county attorney, and Fox, both under indictment, had been implicated in previous testimony as receiving protection money from the Earlsboro oil-field territory at about the same time.

New Distance Record Set By Radio Program

SCHENECTADY (N. Y.) Feb. 4. (AP)—A radio program traveled approximately 20,000 miles today in about one-eighth of a second.

The program was broadcast from W2XAF, the experimental short-wave station of the General Electric Company here, picked up by VK2ME, a short-wave station in Sydney, Australia, and rebroadcast back to Schenectady, where it was transferred to WGY, the General Electric Company's regular station, and again rebroadcast.

Company engineers said it was the first time to their knowledge such a feat had been performed over so great a distance.

GOVERNOR BALKS JAIL ESCAPE

Fleeing Prisoner Calls on Chief Executive to Ask Help for His Flight

PHOENIX, Feb. 4. (AP)—Dave Garcia, a minor held on a bad check charge, escaped from the Mesa (Ariz.) jail today and came to Phoenix to call on Gov. Phillips.

The Governor said the boy asked his advice about going to California and the Governor advised that he return to jail. The youngster seemed anxious to follow the suggestion and the Governor sent him back in his car.

POLICE COLLEGE ESTABLISHED

San Francisco Department to Operate School for Entire Coast

SAN FRANCISCO, Feb. 4. (AP)—Establishment here of a Coast-wide police college under the auspices of the San Francisco Police Department was announced today by Chief William J. Quinn.

The college grew out of the police school conducted here with officials of the department acting as members of the faculty. The results, Chief Quinn said, proved so beneficial that the privileges of the school are to be extended to all peace officers of the West who care to participate in them.

THEFT OF LIQUOR LAID TO ELKINS

Max Steuer Says Former Senator Stole Bequest to Brother's Fiancee

NEW YORK, Feb. 4. (AP)—Charges that Davis Elkins, former United States Senator from West Virginia, as executor, stole ten canvas bags of liquor from the estate of his brother, Stephen B. Elkins, were made in Surrogate's Court today by Max D. Steuer, an attorney, during the argument of a motion for the appointment of a temporary administrator for the estate.

Steuer, counsel for Mrs. Evelyn L. Martin, who received a $1000 monthly income from the estate of Stephen B. Elkins, her fiance, asserted that the liquor belonged to Mrs. Martin.

Under the terms of Elkins's will Mrs. Martin, in addition to the income, was to receive the contents of his apartment and half of the liquor stored there. She asserts that all of the liquor, twenty bags, was removed by the executor.

During a heated debate with Alfred L. Marill, attorney for the estate, Steuer charged that Elkins had made away with the estate's assets, besides "stealing" the liquor. The estate was worth more than $1,000,000 at the time of the testator's death, he asserted, whereas Marill said that its value is only $75,000.

Marill termed Steuer's charges "absurd."

Surrogate O'Brien took the motion for the appointment of a temporary administrator under advisement.

FINE HOME RANSACKED BY BANDITS

Plunder Valued as High as $300,000 Taken After Chicago Family's Capture

CHICAGO, Feb. 4. (AP)—Five robbers called at the E. B. Mallers home in Kellworth, a north shore suburb, last night, police said, and for nine hours ransacked the house, taking a leisurely departure in the Mallers automobile at 4 a.m. today with jewelry, silverware, clothing and money valued as high as $300,000.

Mallers, owner of a downtown skyscraper, belittled the robbery and fixed the plunder at $15,000, but admitted the band had sacked his home and left him without an extra suit, shirt or scarf.

Posing as a policeman and threatening the butler, the five men gained entrance to the house and were still in charge when Mr. and Mrs. Mallers returned at 2 a.m. Four of the men confronted the couple in the hallway and the fifth trapped the chauffeur in the garage. The Mallers and the servants were herded into a closet.

Flyer Praised for Risking Life in Broken Craft

WASHINGTON, Feb. 4. (AP)—Maj.-Gen. Wendell C. Neville, commandant of the Marine Corps, today sent a letter of commendation to First Lieutenant Clayton C. Jerome, who risked his life to land a plane with a broken control stick.

While practicing aerial acrobatics at the naval air station, San Diego, the control stick of Lieut. Jerome's plane broke off at the socket. Rather than abandon the plane via parachute, Jerome repaired the broken stick with his belt, necktie and handkerchief, landing the plane without damage.

CHAIN STORES' WAGES SMALL

Labor Department's Survey Points Out Evils

Girls Underpaid in View of Huge Sales Record

California Average Highest, Maryland's Lowest

WASHINGTON, Feb. 4. (AP)—The phenomenal increase in sales of chain stores of the 5 and 10-cent variety today was held by the women's bureau of the Department of Labor not to have been paralleled by advances in wages to girl employees.

Many of them are said to receive insufficient pay "to procure the necessities of life" on an average of $12 a week. Mary Elizabeth Pidgeon of the bureau said this average applied in the last quarter of 1933 to slightly more than 6000 girls in 179 limited-price stores throughout eighteen States and five additional cities.

Only 7 per cent of the girls earned as much as $18 a week, while 70 per cent earned less than $15 and the others less than $10.

The fixed selling price, irrespective of locality of the stores, does not influence wages in the various States, the survey showed. In California, the average was $16, the minimum wage permitted by law for experienced workers in that State.

Michigan with a $15 average and Kentucky with a $14 mean ranked next. The average of $8.80 for Maryland was the lowest reported for any State, while the average in Alabama, Georgia, Kansas, Mississippi, South Carolina and Tennessee was $9. Arkansas, Florida and Oklahoma reported an average of $10; Delaware and Rhode Island, $11; Ohio, $12 and Missouri and New Jersey, $13.

In the five additional cities average earnings were $12 in Boston, $13 in Indianapolis, $14 in New York and Milwaukee and $18 in Chicago.

Army Engineers to Map Railway for Nicaragua

WASHINGTON, Feb. 4. (AP)—A route for a Nicaraguan railway from Lake Nicaragua to the Atlantic Coast will be surveyed by United States Army engineers under an arrangement entered into by Secretary Hurley with the Nicaraguan government.

The American engineers are now engaged in surveying a canal route across the Central American republic.

The railroad survey will follow generally the course of the San Juan River valley.

CITY LEADS ALL IN AUTOMOBILES

Los Angeles County Has More Than Many States

SACRAMENTO, Feb. 4. (Exclusive)—Los Angeles has gone into a class by herself in automobile population. According to figures released today by the State Division of Motor Vehicles, Los Angeles has more automobiles than any other city in the world.

Los Angeles county, with a registration of 833,880 vehicles for 1929, has one out of all the automobiles in the State and has only one fewer car than England. Los Angeles county has twice as many motor vehicles as the German state and several thousand more than the French republic. The county has nearly twice as many motor vehicles as Chicago and 30,000 more cars than the state of Wyoming, Utah, Oregon, Idaho, New Mexico, Montana and Nevada combined.

COUPLE TO GIVE SECOND TWIST TO NUPTIAL KNOT

SAN FRANCISCO, Feb. 4. (AP)—A marriage ceremony can be performed in seven minutes while a trip to Mexico City requires nearly seven days. With this explanation, Ralston T. Wilbur, San Francisco jeweler and clubman, applied for a license to remarry his wife, the former Elizabeth Maurer of Los Angeles. The two were married in Mexico City in 1920.

"In order to effect some transfers of Oregon mining and timber property, we would have to go down there and verify the marriage records," he explained.

"We decided it would be shorter, simpler and more efficient to have a civil ceremony here."

Which answers the bewilderment of Wilbur's friends who saw the announcement that Ralston T. Wilbur and Elizabeth Maurer had applied for a license to marry.

Pair Rob Bank at San Carlos

REDWOOD CITY, Feb. 4. (AP)—Two unmasked bandits held up the Bank of America's branch bank at San Carlos, three miles north of here, shortly after noon today and escaped with $3000 in currency.

Forrest Laughlin, clerk, was alone in the bank when the robbers entered. They ordered Laughlin into the manager's office and bound him hand and foot with wire.

Smallpox Kills Many Mexicans

MEXICO CITY, Feb. 4. (AP)—A dispatch to El Universal today from Ionacapepec, Morelos, reported 600 deaths from smallpox there and nearby within the last fortnight.

The dispatch said the epidemic had killed 300 persons, most of them children, in that region in the last ten days, while approximately 400 persons perished within two weeks in the neighboring district of Axochiapan.

DORAN OPPOSES NO-POISON PLAN

Alcohol Diversion Feared in Case of Change

WASHINGTON, Feb. 4. (AP)—Prohibition Commissioner Doran said today in a letter to Representative Cramton, Republican, Michigan, that the proposal to use nonpoisonous denaturants in industrial alcohol would permit the diversion of millions of gallons and would deprive hundreds of industries of the industrial alcohol for their legitimate requirements.

The proposal to use nonpoisonous denaturants in industrial alcohol was made in a bill by Representative Sirovich, Democrat, New York.

"If the government is compelled to change or alter its policy in regard to the denaturing of alcohol," Doran wrote, "and required to substitute the denaturants referred to by Dr. Sirovich in quantities indicated, millions of gallons of industrial alcohol will be diverted for beverage purposes."

Air-Mail Pilot Breaks Record

SEATTLE, Feb. 4. (AP)—Breaking his own record of one hour and six minutes between Portland and Seattle, an air distance of 153 miles, Russell Cunningham, air mail pilot for the Pacific Air Transport Company, today set a new mark of one hour flat for the hop between the two cities.

Cunningham was flying a Boeing four-passenger ship with three passengers and several bags of mail.

DEATH TAKES PIONEER ENGINEER OF WEST

TOPEKA (Kan.) Feb. 4. (AP)—Joseph C. (Uncle Joe) Stewart, 87 years of age, pioneer mining engineer and wagon train operator of the West, died here today. Upon leaving the Union Army after the Civil War Stewart was one of the owners of a company which operated wagon trains from Kansas to California. He later was a mining engineer in Arizona.

CHURCH UNITY PLEA SOUNDED

Bishop Parsons Voices Hope at Annual Convention

SAN FRANCISCO, Feb. 4. (Exclusive)—A plea for the unity of all religious denominations was made today by Rt. Rev. Edward Lambe Parsons, Bishop of the California Diocese of the Episcopal Church, in an address which marked the theme of the eightieth annual convention of the diocese.

Thinking persons no longer can or should avoid the ultimate issue, he averred, and those who have not thought about it, must do so.

"Unity," the bishop averred, "is no longer the hope of a few idealists. It is the definite objective of a host of practical Christian leaders and it is becoming a matter of real consideration by the laymen of all churches."

Your DIAMOND will pay for itself

SOUNDS odd . . . Nevertheless it's true . . . Small monthly payments easily take care of themselves out of that part of your earnings that drift away with nothing gained . . . Thus in a short time your diamond pays for itself . . . No need to obligate yourself for a greater amount than you can conveniently pay . . . Later on your diamond may be exchanged for a larger one, with full purchase price allowed . . . This diamond also will pay for itself in the same way.

$100
The small design on this 18-karat gold ring is carried out with pleasing effect by the setting of the two diamond.

$110
Man's onyx ring of 14-karat green gold. Substantially made. The fine quality diamond is set in a white gold square, making a striking contrast with the black onyx.

$150
Man's ring of 14-karat green gold. The background is darkened, which brings the carved design out in bold relief. The fine quality diamond is set in a white gold top.

$200
A modernistic trend has been given to this attractive ring of 18-karat white gold. Two full cut diamonds are arranged on either side of the lovely gem in the center.

A large number from which to choose
$50 to $1500 and up

SLAVICK'S MAIL ORDER SERVICE
You have nothing to pay when ordering from Slavick's for free inspection.

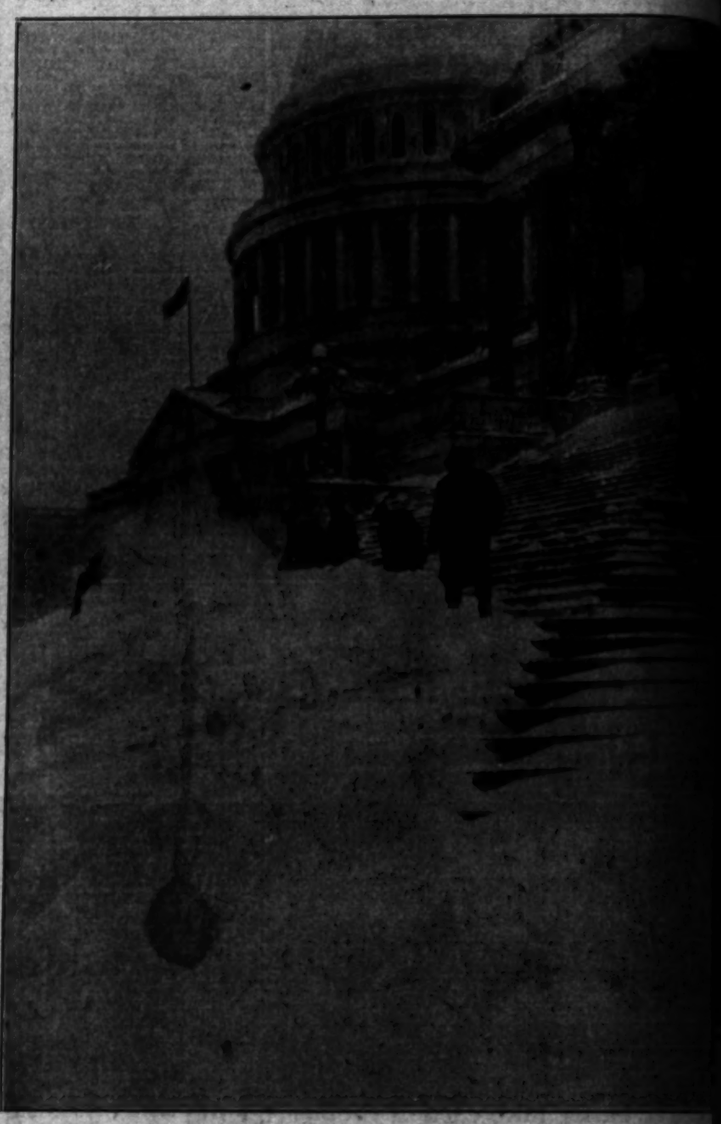
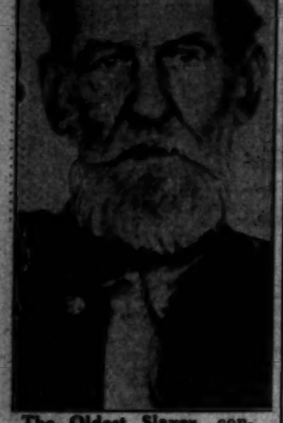
Pictorial Cross-Section of World's Latest News and Current Features

A Modern Version of Beauty and the Beast is presented in this photo showing Marjorie Bandsett of New York making friends with a bear on the beach of a southern resort. The bear doesn't appear to care so much for Marjorie, and Marjorie is only superficially pleased. (A. P. photo.)

He Was "Shootin' Straight" when he knocked over 194 out of a possible 200 clay pigeons. Referring to C. A. Young of Springfield, O., above, who won Dixie singles championship at Atlanta, Ga., last week. (A. P. photo.)



As January Went Out, the Most Severe Snowstorm That Has Visited the Capi in years descended and brought a horde of shovelers forth at the command of the official seneschals. The steps leading to the Capitol were impassable, as this photo shows, when solons appeared for morning conferences. Note heavy [illegible] on steps of building. (P. & A. photo.)



The Oldest Slayer, convicted as such in the United States, is J. K. Stevens, 83 years of age, of Little Rock, Ark., who must serve two years for a killing. (A. P. photo.)

Dogs Trained to Tie Knots, Scale Cliffs and perform other feats which may assist in the saving of human life, are being enlisted in the ranks of the Boy Scouts in the Northwest. Ace Sanderlin, trainer of dogs, is shown with four new members. (A. P. photo.)

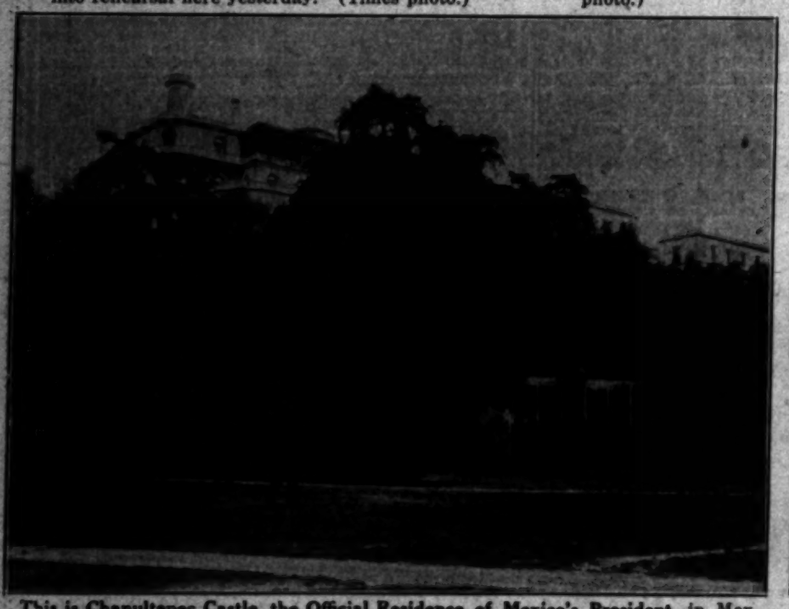
Among the Most Lovely of Princesses in the roster of royalty is Ileana of Rumania, who will wed a member of the German nobility soon. Ileana visited the United States a few years ago on a tour with her mother, the well-known Queen Marie. (A. P. photo.)

An Exciting Moment in the Hockey Game Between the Bears and Trojans, [illegible] at Big Pines camp during the three-day sports carnival, is pictured above. [illegible] fornia won, 6-3, but the victory was hard-earned. Photo depicts a scrimmage in midfield with Bear skaters taking advantage of a break.

A Gallop Aboard an Ostrich Assuaged the Ennui, if any, of this New York girl, one of thirty beauty-prize winners imported by Fanchon and Marco for their local stage "ideas." The New Yorkers went into rehearsal here yesterday. (Times photo.)

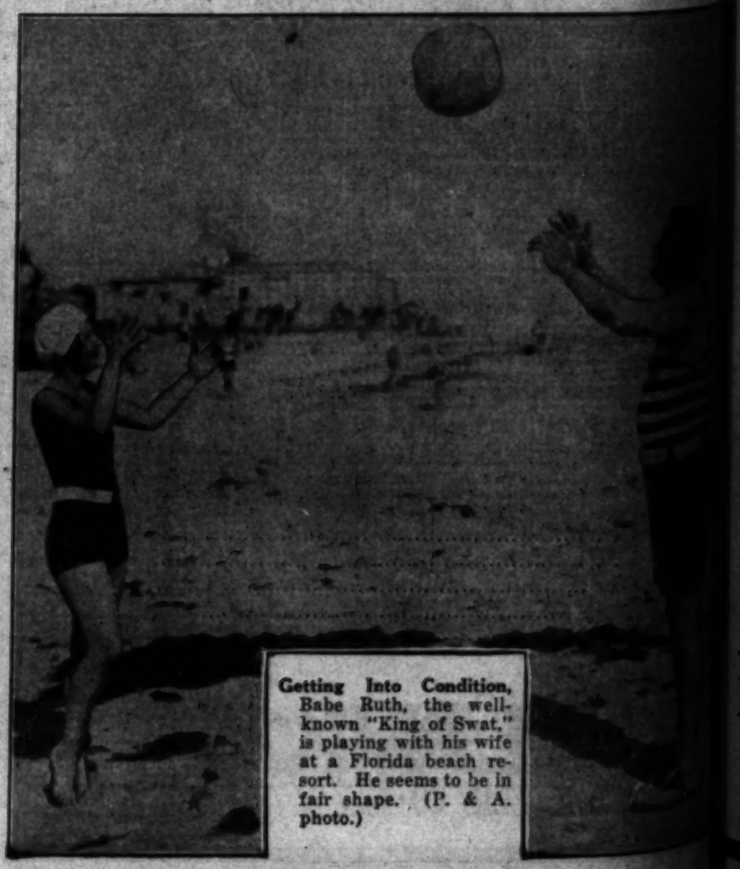
Successful as a Composer of Modern Music, Mrs. Edward Rose, Boston society woman, masquerading under the name of "Bert Rose," writes music in a luxuriously-appointed studio. She has established herself as a competent composer. (P. & A. photo.)

A Lot of Applesauce— Giovanna Grossi, Italy's youngest film player, is just "putting it on" for her audience. She's coming to Hollywood. (Herbert photo.)



This is Chapultepec Castle, the Official Residence of Mexico's President, in Mexico City, where Ortiz Rubio, the newly elected Chief Executive, will be at home after today. Decorators are busy remodeling the mansion for the reception of the new President. It is probable that demonstrations will attend inauguration. (A. P. photo.)

An Invitation to the Mayor of Spokane to attend the premiere of "No, No, Nanette," opening at the Orpheum today, was dispatched Sunday by Bernice Claire via a carrier pigeon. Miss Claire had some trouble attaching the message. (Times photo.)



Getting Into Condition, Babe Ruth, the well-known "King of Swat," is playing with his wife at a Florida beach resort. He seems to be in fair shape. (P. & A. photo.)

...RIFF SOUGHT ON OIL IMPORTS

... Operators Ask ... a Barrel Rate

... at Conference of ... Members

... Program Seen ... Policy

...Feb. 4. (AP)—As- ... of industry has carried ... the burden of any in- ... Franklin, spokes- ... association of 500 inde- ... operators, today pre- ... plan of the group for a ... levied on oil and 50 ... on refined petroleum ... conference of a num- ... and Representatives ... States.

... meeting was held ... Office Building, Frank- ... reports were 70,583,000 ... with refined products ... 11,000,000 barrels, and ... heavy in 1929 exceeded ... years.

... of industry has borne ... defection burden ... tried to pass it on."

... LITTLE

... that was worth $1 ... continued, "now costs ... At the same time build- ... costs of 61 valuation in 1913 ... U.S. items furnishings, ... products, 61.63. The av- ... composition is 61.51."

... Wickersham, Attorney-Gen- ... Colorado, and James H. ... president of the Gardner Petroleum Corporation, also urged a tariff on oil.

The logical result of continuation of the oil conservation program, Franklin asserted, "unaccompanied by some measure to restrict importation of oil and refined products, will be the ultimate destruction of that vast army of American citizens engaged in the petroleum industry, with its accompaniment of distress to hundreds of thousands now employed in oil fields, refineries, marketing agencies and allied industries."

FALSE FOUNDATION

"Oil operators," he continued, "have followed the conservation program with serious misgivings because of the fact that the whole movement has seemed to us to have been builded upon false foundation of fact."

Outlining oil reserves, Franklin contended any one of the States of Oklahoma, Texas and California "can produce as much oil as the entire United States has produced to date."

Again, he declared, "there is no overproduction in the United States now and there never has been if imported oil and refined products are not taken into consideration."

Production costs in other countries, Franklin said, are far below ours. Whereas the total cost to Atlantic and Gulf ports from those countries averages about 75 cents a barrel, the cost of pipe-line transportation in this country, alone, averages 76 cents, it was said.

ENGLISH BAN ON TALKIES URGED TO SAVE LANGUAGE

LONDON, Feb. 4. (AP)—Sir Alfred Knox, Conservative, rose in the House of Commons today to champion English as it is spoken in England against "ravages" of American language through the medium of talking pictures.

He asked William Graham, president of the Board of Trade, if something could not be done about this through limiting the import of American films and encouraging production of British films.

Graham pointed to the cinematographic act as designed to encourage British films, but added: "I'm not prepared to place direct restrictions on the importations of American talking films into this country."

Sir Alfred wanted to know if just now wasn't the time "to do something to protect the language and ideals of people in this country."

RAILWAY WORKERS ON STRIKE IN INDIA

BOMBAY (India) Feb. 4. (AP)—Employees of the Great Indian Peninsula Railway went on a strike at dawn today in behalf of demands for increased wages, security of tenure, "reasonable" hours, abolition of racial discrimination and non-victimization of union officials. The railroad's employees number 125,000, but the extent of response to the strike call is believed to have been only partial. The railroad has a mileage of 3956.

MEXICAN REBELS KILL TWO ARMY OFFICERS

MEXICO CITY, Feb. 4. (AP)—During a rodeo at Ixhuatlancillo, Vera Cruz, a band of Agrarians, headed by the Mayor of the town, turned on a Federal troop detachment and killed Col. Hermas Egildo Rosas, Capt. Zenon Gonzales and one soldier. Troops fought off the attack and captured six of their assailants.

DYE VALUATION POLICY UPHELD

Tariff Rates Will Continue on Present Basis

Independents Stand Solidly for Repealing Plan

End of Long Debate on Bill Now in Sight

WASHINGTON, Feb. 4. (AP)—After two days of debate, during which charges of price fixing were hurled against both the American and European chemical and dye interests, the Senate today voted to continue the post-war policy of protecting the domestic manufacturers by assessing duties on coal tar products on American valuation. All other ad valorem rates in the tariff law are based on foreign valuation.

Republican Independents stood solidly behind Senator La Follette of Wisconsin, spokesman for the group, in his attempt to repeal the section in the chemical schedule relating to American valuation, but the odds were too great against them. The vote for continuance of the policy of high protection was 57 to 22.

Twenty Democrats voted with thirty-seven Republican regulars for American valuation, while eleven Republicans and twelve Democrats opposed it.

With disposition of the dye controversy, the Senate finished the last committee amendment to the House bill. The end of the long tariff debate is in sight, with only individual amendments to be acted upon.

Several hundred amendments are pending, but party leaders expect many will be withdrawn and the bill placed in a position for a final vote by the 15th inst.

Now..moist cold and dry cold in the same refrigerator

Frigidaire equipped with the new Hydrator now offers you an extra service . . . See our special demonstration today.

Now, for the first time, you can have moist, raising cold for vegetables and dry, frosty cold for meats and other foods—both *in the same* cabinet. You can have the right type of refrigeration for every kind of food. You can enjoy a new convenience in your kitchen. All of these advantages are brought to your home by the new Frigidaire Hydrator . . . now standard equipment on all household Frigidaires.

And what a difference the Hydrator makes in quality and flavor!

Celery comes out of the Hydrator crisp and brittle. Lettuce takes on a dew-drenched freshness. Tomatoes become firmer. Parsley, cress and other garnishes seem almost to grow again!

You'll want to know more about the Hydrator. And you'll want to know more about the Frigidaire "Cold Control" which enables you to speed the freezing of ice cubes and desserts. You'll want to know more about Frigidaire's surplus power that keeps food fresher—longer. You'll want to see and examine the beautiful cabinets in rust-proof Porcelain-on-steel inside and out. So make it a point to attend our special demonstration.

Come in today

We want you to see the difference between vegetables kept in the Hydrator and vegetables kept in the ordinary way. We want to give you all the facts about the latest Frigidaires. We want to tell you about the low prices and liberal terms. Call at our display room now.

FRIGIDAIRE

A CHUCKLE FOR EVERYBODY

THE SON OF TARZAN

By Edgar Rice Burroughs

One day followed another with monotonous sameness for Korak living with his elephant companions in the forest glade. But for Meriem—his Meriem—a whole new world seemed to unfold itself daily. She spoke English now instead of Arabic. She could read and write it together with French. Whole phrases of that language came easily to her out of some mysterious past. Today she thrilled over a new excitement that was about to happen.

Visitors were coming! A party of English and Americans had accepted Bwana's invitation to spend a month of hunting with him. Meriem was all expectancy, wondering what they would be like, until at last they arrived. The youngest member of the group was the Hon. Morison Baynes, bored with his riches and the pleasures offered by his social contacts. Nature had favored him with a splendid physique and a handsome face.

Meriem was at first shy. Her benefactors had seen fit to ignore mention of her strange past and merely presented her as their ward. The guests found her charming. She was vivacious, sweet and unassuming, and a never exhausted storehouse of quaint and interesting jungle lore. Morison Baynes was attracted to her from the first, especially as they were the only unmarried couple there.

And Meriem, entirely unaccustomed to the companionship of such as Baynes, was fascinated by him. They rode often together and his tales of the great, gay cities with which he was familiar filled her with wonder and admiration. With the actual presence of the young Englishman the image of Korak became less real, almost a memory. To that memory she was loyal, but what weight has a memory in the presence of a fascinating reality?

TAX INCOME OF DISTRICT TO BE BIGGER

Annexation Will Provide Santa Barbara With Larger Annual Fund

SANTA BARBARA, Feb. 4.—If the petition to combine the Don and Tecolote school districts, now consolidated as the Tecolote union, with the Santa Barbara High School district, is approved, it will mean that income from taxes in this school district will be increased $75,000 if the present tax rate of 75 cents is maintained, it was revealed by County Auditor Albert T. Eaves.

The board set the 18th inst. as the date for the final hearing on the petition. The increase in revenue would come from the Elwood coastal oil field. The county auditor said the $75,000 would be greater if the oil figure was valued at the figure of $10,000,000 as reported.

Supervisor Fred G. Stevens of Goleta on voting to set a date for the hearing, inquired if the Goleta district was ever going to have a member of the board of trustees in this district. Superintendent of Schools Paul E. Stewart urged the Goleta Supervisor to get a candidate to run for office in that district. "I am sure a Goleta member would be elected if we could get a candidate," said Stewart. "We need representatives from Goleta and Carpinteria on the board."

Several months ago the Don and Tecolote elementary districts consolidated, forming a union school district. Property for a new school has been purchased and plans for a new building are being made.

Legislation to force an elementary school district to join a high school district was passed only last year. The law became effective here January 1, 1930.

Memorial to De Anza to Be Unveiled

ONTARIO, Feb. 4.—Several hundred persons from points in San Bernardino Valley are expected to assemble at Euclid Park Saturday afternoon to witness the unveiling of a large stone memorial by Boy Scouts, marking the trail over which Juan Bautisti de Anza traveled from Sonora, Mex., to Monterey, Cal., in blazing the King's Highway.

William Hartley, president of Ontario Kiwanis Club, today completed arrangements for a large bronze plaque to be placed on the eighton rock, secured by William Nugent, City Engineer, from Declez as the memorial marker. All service clubs of the community have united in defraying expenses of the tablet and rock.

Unveiling of the memorial has been set for 4:30 o'clock. This event will be the outstanding feature of the local observance of the anniversary of scouting which will be celebrated for one week, starting Friday.

Officers Raid Chinese Joint

SANTA BARBARA, Feb. 4.—Assisted by squads of police under Chief George Sloan and Lieut. H. S. Colt, Federal Narcotic Agents John Parrent, San Luis Obispo, and James L. Dausman, San Francisco, made a raid early this morning on Chinatown.

Armed with Federal search warrants issued in the United States District Court in Los Angeles the officers searched premises in the rear of 891 Santa Barbara street and 24 and 24½ East Canon Perdido street and took into custody two Chinese giving their names as Yee Tun and Yee You.

The two prisoners were booked as vagrancy drug addicts. Asserted drugs, pan shee and liquor were seized by the raiding squads.

It was necessary to enter the premises by force, axes and crow bars being used to break down doors to reach the interior of the places. Aside from refusing to open the doors and admit the officers, no resistance was offered.

Two Druggists Plead Guilty

POMONA, Feb. 4.—Samuel Nason, manager, and Morris Shimbana, coowner of the R. & B. Drug Store, 362 West Second street, were today sentenced to pay $100 fines and given suspended jail sentences by Judge E. H. Bowen in the local Police Court, as a result of complaints filed last week by J. A. Bentley, inspector of the State Pharmacy Board, charging them with operating a drug store in the absence of a registered pharmacist. Nason paid a fine several months ago following the enactment of Pomona's wine-tonic ordinance. Both men pleaded guilty to the latest charges and threw themselves on the mercy of the court.

EXTRA HELP AT WEATHER BUREAU

SAN DIEGO, Feb. 4.—Four men now are handling San Diego's Weather Bureau office. Dean Blake, meteorologist, today announced the appointment of Robert Palmer of San Diego as an assistant to aid in the receiving and disseminating of airways reports.

Palmer will assist the present force, which in addition to Blake, includes C. Eugene Sheppard, first assistant, and David Cohen, second assistant, working part time each day and on Saturdays and Sundays, Blake said. This is the first time that the local Weather Bureau office has had four men on duty.

AUTO THIEVES ARRESTED

Officers Said to Have Broken Up Gang Operating Out of Rosemead

ROSEMEAD, Feb. 4.—Discovery of a gang of asserted auto thieves, whose operations, it is said, extended throughout Los Angeles and the county district, with headquarters here, may account for the disappearance of at least twenty automobiles and a large quantity of parts, according to the report of an investigation revealed today by Capt. R. M. Conly of the Temple City Sheriff's office.

With the arrest last night of George Riesinger of 1901 Earle street, Rosemead, said to be the leader of the gang, five men are now in custody. The others, arrested Sunday, are Irvin L. and Orville L. Todd, brothers, both of the Earle-street address; Albert Guy of Pasadena and Al Friedman, address unknown. All are booked on charges of vagrancy and operating a wrecking yard without a permit.

Two of those under arrest admitted the automobile-theft scheme, deputies say, when they were questioned Sunday night. These statements led to the arrest of the others.

Alexander Feher, owner of an automobile wrecking yard at 230 West Valley Boulevard, furnished the information that started the investigation. According to Feher's report, three of the group stole several aluminum crankcases from his yard by getting his night watchman drunk.

The method used by the men, deputies state, was to "spot" a machine at a private residence. One of the gang would go to the front door and ring the bell. If someone answered, an inquiry would be made as to whether the car outside was for sale, if no one was found at home then he would haul the car away behind a tow car. Old machines, containing brass and aluminum, were said to be the principal loot. All the stolen cars were hauled to Rosemead, dismantled and sold to various wrecking yards, deputies say they have learned. A number of license plates were found hidden in a sedan, it was also revealed.

Further investigation of the operations of the five has been referred to Deputies Hastings and Hutchison of the Sheriff's office auto theft detail.

Gypsy Tribes to Gather in Santa Barbara

SANTA BARBARA, Feb. 4.—Some 2000 gypsies representing tribes and clans of every State west of the Rockies may be in Santa Barbara during the first week of March for the purpose of uniting against King Bimbo, asserted underworld gypsy leader, whose headquarters are in Chicago, but whose activities are said to reach out over the entire United States. That the gypsies may be in Santa Barbara at that time was indicated today when Mike Tony, leader of a group of Los Angeles gypsies, visited here with his attorney, Emil Vanbever.

Nearly 150 wanderers are now in Santa Barbara preparatory to the convention, the attorney said.

The reason given for the calling of the conference is that but with few exceptions all gypsies on the Coast and in the West in general are in small tribes, having broken up after the death of their queen in San Pedro several weeks ago. Since that time King Bimbo, who is said to employ regular underworld tactics in his manner of extracting blackmail money and hush money, has been so severe on his "subjects" that they are revolting. They contend that by uniting, they will be strong enough to defy the Chicago king and his gunmen whenever he tries to gain money in the West. According to Tony, Bimbo makes frequent trips to the Coast, lifting gypsies all along this district of money, girls and anything that takes his fancy. Having tired of this "king" and his methods, the western gypsies are to unite and openly defy him.

Leaders from several of the tribes are already in Santa Barbara, choosing this city because of its central location between San Francisco and Los Angeles, the two great gypsy centers of the West.

It is expected that as soon as word is received by other gypsies of the mass meeting here they will start pouring into Santa Barbara arriving by hundreds, bringing with them all of their equipment in regular tribal fashion.

EXCURSION PARTY ON GOOD-WILL TOUR

SAN DIEGO, Feb. 4.—Composed of prominent business men and their families, San Diego's delegation of twenty-five voyagers on the first of two good-will cruises into the waters of the west coast of old Mexico boarded the Dorothy Alexander when she arrived here from Los Angeles this morning.

The Admiral liner immediately put to sea for Ensenada, where the 200 vacationists will have their first taste of Mexican hospitality during an eighteen-hour stopover at that port. A festive celebration in honor of the good-will excursionists was arranged by Mayor David Zarate of Ensenada.

According to advices received from R. B. Schutten, assistant general passenger agent of the Pacific Steamship Company, the interest taken by leading business men of San Diego and Los Angeles in the first good-will cruise led to the plans to duplicate the voyage.

After visiting Cedros Island, Mazatlan, La Paz and Magdalena Bay, the Dorothy will conclude the first twelve-day, 2300-mile voyage, by docking at Los Angeles Harbor on the 15th inst. She will sail from that port on the second cruise at 9 o'clock the night of the 17th inst.

DISTRICT MEET OF LEGION

HUNTINGTON PARK, Feb. 4.—Lawrence Klinker, Commander of the Nineteenth District of the American Legion, announced that the next meeting of the Commanders' and Adjutants' Association will be held in North Long Beach on the evening of the 5th inst.

CROWN CITY GEM THIEVES WORK FAST

Culprits Get Valuable Jewelry from Automobile Parked on Street

PASADENA, Feb. 4.—While scores of persons passed the spot yesterday afternoon, daylight thieves entered an automobile parked at 935 East Colorado street, pried the locks off a large wooden box and escaped with 681 rings and other jewelry valued by the owners, the E. W. Reynolds Company of Los Angeles, at $7728.

W. E. Barner, wholesale jewelry salesman and custodian of the large stock of samples that was stolen, reported to the police that the thieves must have worked fast as he was absent from the automobile for less than five minutes.

Detective Lieutenants Henry Collins and William Cropsey, who investigated the daylight jewelry raid, found a crowbar in the machine, which had been purchased yesterday from the New York Hardware Company in this city.

The loot, which was contained in the four sample cases taken, included rings valued at $4509 and 177 bracelets valued at more than $2000. Watches and other miscellaneous jewelry will bring the total loss to $7735, the Reynolds company reported this afternoon.

A large stout man of foreign appearance, accompanied by a woman, is asserted to have been seen sitting in Barner's car shortly before the theft was discovered.

Capt. Carl Grisbach, head of the local police identification bureau, is attempting to obtain fingerprints from the crowbar. A reward for the recovery of the missing articles has been offered by the jewelry concern.

First Subway for Ventura

VENTURA, Feb. 4.—The $4500 bid of the Ford Construction Company of Ventura was accepted today by the Board of Supervisors for construction of a pedestrian subway on Ventura avenue in front of the E. P. Foster grammar school.

Seven bids were read to the board and the lowest was accepted.

The subway is to be forty-six feet long, at a maximum depth of thirteen feet. The tunnel itself will be seven feet in height and five feet in width. Entrances will be at right angles to the tunnel, or parallel with the street. Lights are to be installed in the tunnel, connected with a switch in the school building. The subway goes under eleven pipe lines, which run under the Avenue School District and the county and the city of Ventura will each pay half the cost of the work.

WOODMEN OF WORLD TO INSTALL OFFICERS

REDONDO BEACH, Feb. 4.—Officers of the local camp of the Woodmen of the World will be installed tomorrow evening, with E. P. Martin of Denver, Colo., Deputy Head Consul, and John H. Foley of Los Angeles, manager of the order, heading the delegation of visitors.

The degree team of La Fiesta, under Capt. Lane, will have charge of the installation ceremonies. New officers are Roy W. Popejoy, Council Commander; Ernest Hutson, Advisory Lieutenant; B. F. Stropa, Escort; Joe Gentry, Banker; E. A. Kerley, Clerk. Walter Blagg is past Council Commander.

VALLEY CANNERY USED MILLIONS OF TIN CANS

SAN FERNANDO, Feb. 4.—The Fernando Canning Company, within the next few days will wind up the spinach pack of the season, which, because of recent adverse weather, is not as large as the previous year. The plant will now "lay by" until the apricot season comes on. The cannery set a new record in work done on all of its packs of last season. For the volume of business handled, more than 10,000,000 cans were used to pack apricots, peaches, tomatoes and spinach.

BAD BRAKES WERE CAUSE OF ACCIDENT

Inquest at Ontario Into Death of Five High School Lads, Sunday

UPLAND, Feb. 4.—Testimony brought out at a Coroner's inquest here today disclosed that faulty brakes caused the death of five boys in San Antonio Canyon Sunday when their light touring car plunged into an eighty-foot canyon while traveling at a speed of sixty miles an hour. Shortly after the accident it was said the boys were trying to outdistance a traffic officer on the steep grades and dangerous curves leading from Camp Baldy resort.

Los Angeles County Traffic Officers Heywood and Lawrence testified at the inquest over the bodies of Melvin Leiter, 17 years of age; Samuel and James Hubbard, 18 and 16, respectively, all of Los Angeles, that they had inspected the wreckage of the touring car in the canyon and, in their opinion, the brakes of the car were at fault. The car was so badly smashed it was impossible to tell whether the brakes had burned out or the bands had worked loose. It was said also at the inquest that as the machine bearing the six boys, two in the front seat, two in the rear seat and one on each running-board, passed a man standing at the edge of the highway, one of the boys yelled at him that the brakes were not holding.

Verdict returned following the inquest read: "Injuries received from automobile going off Hog's Back grade on San Antonio Canyon road; injuries being fractures of the skull, death being accidental."

Charles Caldwell, only survivor of the crash, was removed to a Los Angeles hospital from San Antonio Community Hospital last night, still unconscious and in a critical condition.

An inquest over William Brown, 15, and Howard White, 14, also of Los Angeles, was scheduled today at Pomona.

School Teacher Struck by Auto

VENICE, Feb. 4.—Anna Vrin, a school-teacher, of 248 San Juan avenue, Venice, was dragged fifteen feet after being struck by an automobile last night at Trolleyway and Avenue, 18, police here reported. At the Santa Monica Hospital today her condition was not considered dangerous, though one wheel of the car had passed over her body. John A. Hackett, 18 years of age, boy driver of the car, was said by witnesses to have driven into the woman while she was crossing the intersection on foot. He is the son of Mrs. Helen Hackett Gerety, wife of Edward Gerety, former Venice Mayor, and was placed in custody of his parents until his hearing. His mother was said to have been with him in the car at the time of the accident.

CONTRACTORS ASK CHANGE IN LAW

COMPTON, Feb. 4. — Ordinarily, ordinances regulating trades in small cities are aimed at favoring the local man, but Compton has made the startling discovery that its building ordinance has actually been favoring outside contractors. Resident contractors and subcontractors are all well known to Building Inspector J. H. Park, and they can't very well escape paying licenses. But Park has discovered that outside subcontractors have been doing extensive work here without paying a license merely by posing as doing the work by day labor under a general contractor.

Local contractors became somewhat aroused and, headed by Councilman Carl Dawson, are forming an organization in an attempt to eliminate such practices in the future. Meanwhile, Park is requiring owners of land on which buildings are being erected to sign affidavits regarding their relations with contractors in instances in which he suspects the ordinance may be surreptitiously violated.

AIRPLANE FACTORY WORKS TWO SHIFTS

SANTA MONICA, Feb. 4.—Large army contracts are keeping production at the Douglas Aircraft factory, Clover Field, rushing along at top speed, Harry Wetsel, general manager, stated today.

During January, fifteen planes of the O-38 type, were built, and by the end of the present month, thirty ships of this class will have been delivered to March Field, Riverside, he said. During March and April, next, fifty-three ships of the O-35 model will be constructed.

GAS CAUSES DEATH

Coroner's Jury Returns Verdict in Case of Fatal Explosion at South Gate

SOUTH GATE, Feb. 4.—A Coroner's jury in an inquest held this morning at Pyle's mortuary in the deaths of Mrs. Amanda Warnicke, Mrs. Mary Lannon and Mrs. Lon Dugan, following an explosion at the home of Mrs. Warnicke early Sunday morning, returned a verdict that their deaths were the results of burns and inhalation of flames caused by an accidental explosion of gas.

Mrs. Lannon sustained third-degree burns over one-half of her body, and her lungs were seared with inhalation of the flames. Mrs. Warnicke and Mrs. Dugan sustained third-degree burns over large portions of their bodies and their lungs were also affected by inhalation of flames.

The explosion occurred early Sunday morning after the three women and Mr. Lannon and Mr. Dugan had returned to the Warnicke home, havin, taken Mr. Warnicke to his work. One of the men lighted a match with which to light a cigarette, when escaping gas in the house ignited, causing the explosion. The three women and two men were all badly injured and were taken to the Suburban Hospital. Mrs. Warnicke passed away Sunday and Mrs. Lannon and Mrs. Dugan died yesterday.

Funeral services for Mrs. Warnicke and Mrs. Dugan are to be conducted jointly tomorrow morning at 10 o'clock at the Pyle undertaking establishment here. Guardian Chapter, Eastern Star, of this city will have charge of the services at Angelus Abbey. Arrangements for the funeral services of Mrs. Lannon have not yet been made.

CITY TO ERECT BUILDING

Pasadena to Have New $200,000 Structure, Ordered at End of Stormy Session of Directors

PASADENA, Feb. 4.—This city is assured of a new $200,000 police, jail and emergency hospital headquarters, to be erected on city-owned property located on the north side of Holly street, between Broadway and Marengo avenue, as the result of action taken by the Board of City Directors today.

The 5-to-2 vote instructing City Manager R. V. Orbison to prepare plans for the new building was followed by a heated discussion between the directors, in which shouts of "liar!" "waste of money" and "spite action" reverberated down the City Hall corridors.

The motion to erect a new hall of justice in lieu of the former plan of remodeling the old City Hall at Union street and Fair Oaks avenue was opposed consistently by Directors N. J. Shupe and Carl Wopschall. It provides that funds will be secured for the project by selling the old City Hall, now used by the police department, to the light department for a consideration of $130,000. This amount will be augmented by the $60,000 previously set aside for remodeling of the old structure.

"You know you're raiding the light fund!" Shupe shouted after the vote was taken. "One individual admits that this project is being pushed through out of spite."

"Anybody that says I did it for spite is a liar!" retorted Director James T. Jenkins, leaping to his feet.

"Yes, he told me that, and another party, too," Wopschall informed Shupe.

"Move we adjourn," interrupted Director Irving S. Monroe.

"Yes, for the good of the people," chuckled Shupe, as he left the room.

As the "city fathers" were putting on their hats Shupe, Jenkins and Wopschall shook hands, Jenkins apologizing for the "liar" he had tossed at Maj. Shupe.

Although the proposal to turn over all local first-aid work to the Pasadena Hospital has not been abandoned formally by the Board of City Directors, today's action providing for erection of a new building to house the city's police, jail and emergency hospital forecasts abandonment of the Pasadena Hospital's proposal in the near future.

Officers Find Fugitive in Bed in Apartment

COMPTON, Feb. 4.—Cleverly arranged blankets on his bed failed to conceal Capt. C. A. Dixon, 1293 East Cedar street, Compton, who was today lodged in the Los Angeles City Jail following his apprehension last night by Sergt. C. F. Andrews of the local police force. Andrews took Dixon into custody as he glimpsed the tip of his elbow protruding from beneath the blankets despite assertions of Mrs. Dixon that he was away in the East, according to reports filed today. Dixon was wanted on charges of issuing checks with no funds in the bank.

Carl Mervin, proprietor of a cafe at 910 West Second street, Los Angeles; E. C. Vincent, Los Angeles night club owner and a Los Angeles officer called at the local police station with fictitious checks ranging in amounts from $33 to $900. Andrews was sent out to assist them.

The group called at the apartment and Mrs. Dixon informed them that her husband had left for the east Sunday, they asserted.

"But I just saw him today," Andrews replied.

"That couldn't be possible," Mrs. Dixon is asserted to have replied.

Informing the woman he was an officer Andrews asked permission to search the apartment. She consented but stepped back against the bedroom door, according to the officers.

"That's the room I want to search first," Andrews demanded.

He opened the door and at first saw nothing out of the ordinary. But as he was about to leave he happened to notice the tip of an elbow which the covers failed to conceal.

"Who is that?" Andrews demanded.

Dixon chawled out.

Investigation disclosed, police said, that Dixon had been passing checks in Los Angeles drawn on a local bank. But they were all returned with the notation "Parties Unknown." Each check was made out with a check protector; Dixon's name was typewritten in as payee and the signature scrawled at the bottom was supposedly that of another person. But officers said microscopic examination disclosed that the same penman both signed each check and indorsed it.

New School Opposed at Mass Meeting

POMONA, Feb. 4.—Taking issue with the Pomona Board of Education in its announced program of establishing a non-English-speaking school in the south side section of the city, a mass meeting of 400 local citizens, meeting in the Hamilton school last night, unanimously adopted two resolutions which will be forwarded to the board at its next meeting.

One resolution requested the board to take immediate steps to see that all pupils attend the school in the district in which they reside, while the second asks that they desist in their determination to erect a non-English-speaking school at the southwest corner of Main and Grand avenues.

E. C. Hogsett, one of the leaders of the protesting citizens, presented both of the resolutions and also introduced data tending to show that the erection of such a school would seriously affect property values in the section surrounding the structure.

PASADENA ASKS BIDS ON CIVIC AUDITORIUM

PASADENA, Feb. 4.—Final action to assure construction of a $1,300,000 civic auditorium will be taken in the near future, it was indicated today, when the Board of City Directors ordered City Manager R. V. Orbison to secure detailed cost estimates on the project.

Although one local group of taxpayers favors construction of a less costly structure containing only a flat-floor convention hall, the cost estimates asked are to be based on the original plans providing for a two-unit building containing facilities for conventions and also for local gatherings requiring a theater-type structure equipped with a raised stage and sloping floor.

LONG BEACH LAWYER VICTIM OF ILLNESS

LONG BEACH, Feb. 4.—Attorney Elmore O. MacAdams, well-known member of the Long Beach bar, died suddenly last night after a brief illness. He had been nominated for the office of junior vice-president of the bar association, and was slated for election at this month's meeting. A graduate of the University of Colorado, he practiced in Denver and Ouray, Colorado, before coming here nine years ago. Funeral services will be held Friday morning at the J. J. Mottell chapel.

BURGLAR SUSPECT HELD BY POLICE

VENTURA, Feb. 4.—A suspect was being held in the Oxnard City Jail today, the result of burglaries last night in three Oxnard drug stores. It is the belief of Chief of Police Joe Kerrick that the stores were entered by a drug addict in search of drugs, and an investigation is being made by Kerrick and Deputy Sheriff Carl Wallace, identification expert.

WOMAN WORRIES AUTHORITIES

Suicide Attempt and Hospital Escape Reported

Fails to Kill Seven-Year-Old Son With Chloroform

Husband Says Wife Has Been in Ill Health

COMPTON, Feb. 4.—Mrs. Anna S. Lee, 39, 1245 Tenth street, Hermosa Beach, sent police of the seaside city and Compton on two hurried chases today. Found in a local apartment-house in an attempt to chloroform herself after the first search the woman again sent officers out when she escaped from the Compton Emergency Hospital, according to police reports. Police Chief E. L. Messenger of Hermosa Beach asserted the woman had unsuccessfully attempted to chloroform her 7-year-old son, Everett Lee, last night. She had been ill for some time, her husband, H. B. Lee, told the officers.

Chief Messenger's report disclosed that the 7-year-old lad was easily revived when the husband discovered the attempt to chloroform him. But this morning the woman escaped from her home on foot. Inquiries disclosed that she reached here an hour later and began a tour of the drug stores in an attempt to buy chloroform and was finally successful. She told the druggist she wanted to put a dog out of its misery.

In a short time a man rushed into the Compton Police Station to report that the woman had been found lying in the hallway of an apartment at 319 South Tamarind street. Capt. J. L. DeWitt and Sergt. C. F. Andrews went to the scene and reported they found Mrs. Lee lying behind a gas stove, her head wrapped in new handkerchiefs which were saturated with chloroform. A partly filled bottle lay at one side. The officers also found a note, partly in long hand and partly typewritten, giving her home telephone number and address.

The local fire department's resuscitator squad was called and in a few minutes restored the woman to consciousness. First aid was offered by Dr. A. A. Eurke. She was then transferred to the local emergency hospital.

Two hours later, according to hospital reports, Mrs. Lee asked the nurse to get her a drink. As the latter stepped out she arose, ran out the side door, and disappeared.

Police were again called out and searched the neighborhood. She was finally discovered a quarter of a mile away at Elm and Acacia streets by Fire Chief Edward Dowd and Clyde Shaw, a fireman.

Officers were puzzled over one mysterious circumstance. When they first found Mrs. Lee in the local apartment hallway she had no shoes and her feet showed evidences of having walked for some distance without them. But when discovered by the fire chief the second time she had on her own shoes as identified by her husband. She was returned to the emergency hospital.

Accident, Says Coroner's Jury

OCEANSIDE, Feb. 4. — The death of William Fisher, 20-year-old local youth, was due to suffocation, a Coroner's jury found in its verdict returned at the inquest held here today under the direction of Deputy Coroner Harry R. Leech.

Fisher was buried by a cave-in at a sewer ditch in which he was working in South Oceanside yesterday afternoon. J. R. Hovey, who was holding timbers at the top of the trench while Fisher was manipulating jacks for the sewer pipe, described the collapse of the earth which buried his coworker. Hovey was whirled into the ditch by the slide, but managed to extricate himself. No one was held responsible for the fatal accident.

The body is at the Berry mortuary awaiting the arrival of W. V. Fisher, the youth's father, who was due to reach Oceanside tonight from Arizona.

Heavy Fine in Liquor Case

SANTA MONICA, Feb. 4.—A fine of $500 for possession of a large stock of liquor, with the alternative of 500 days in the County Jail, was the sentence imposed on F. J. Deardorff, whose garage on Fourth street, this city, was raided last week by Santa Monica police.

Police Judge Spencer gave Deardorff a few days to raise the fine.

About $1000 worth of the finest liquors obtainable constituted the haul in the police raid. It was the Santa Monican's first offense, and Judge Spencer declared the penalty would have been heavier but for this consideration.

NEW COMMANDER AT MARCH FIELD

RIVERSIDE, Feb. 4.—That Lieut. James M. Bevans, head of the March Field cadet school, has been ordered to Panama was announced today by Maj. M. L. Harmon, post commandant. Maj. Harmon in making the announcement, revealed that Lieut. Townsend Griffiss will succeed Lieut. Bevans as cadet commander. Other changes at March Field made public today include the ordering of Lieuts. Fred Nelson, Wilfred Hardy and Aubrey Hornaby to the Philippines. In order to make up time lost during the rains of January, night flying is being done virtually every evening by the advanced cadet class. Maj. Harmon stated today that the public is cordially invited to witness the flights each evening.

ILLNESS FATAL TO SPANISH PIONEER

CAMARILLO, Feb. 4.—Word was received here today by Adolfo Camarillo of the death of his sister, Mrs. Adelaide Moraga, at her home in Santa Barbara yesterday, following a paralytic stroke. Mrs. Moraga was one of the few members of a pioneer Spanish family residing in this section of California. Services will be held in the Camarillo chapel donated by the Camarillo family to this town that bears their name, on Thursday.

BANK ELECTS OFFICERS

MAYWOOD, Feb. 4.—F. M. White has been elected president of the Maywood Bank, Charles Kramer, first vice-president; O. B. Kellogg, second vice-president, and Roy Franklin, cashier. Other members of the board of directors are H. Stanley Benedict, M. H. Paige, Joe Somo and C. T. Simms.

BILLBOARDS BANISHED FROM MAIN BOULEVARD

SANTA PAULA, Feb. 4.—Billboards extending from city limits to city limits along Harvard Boulevard, an important artery in this city, will not mar the beauty of the landscape for long, it was indicated last night at the meeting of the City Council.

When requested by the Southwest Improvement Club to ban the unsightly advertising boards from Harvard Boulevard the Council through the Mayor said that as soon as the contracts with the sign companies run out they will not be renewed.

Until that time there will be no further action on the billboards, it was indicated. The City Council had previously been asked to do away with the boards in the southwest and southern sections of this city, but the action was postponed until the legal status of the city's rights could be determined.

WORKMAN SURVIVES ELECTRIC SHOCK

WEST LOS ANGELES, Feb. 4.—Hurled to the floor six feet below an iron frame on which he was standing today, when 4400 volts of electricity from a feeder switch passed through his body, Albert Chatle, employe of the Los Angeles Bureau of Power and Light, at the West Los Angeles substation, was expected to survive the shock, police here reported.

Chatle, who lives at 5149 South Arlington avenue, Los Angeles, was working on the frame, and was believed to have touched his scalp to an adjoining power line. His scalp, left hand and foot were badly burned. He was rushed to the Receiving Hospital, where Police Surgeon Boem gave first-aid treatment.

MASONS START WORK ON PROPOSED TEMPLE

SOUTH PASADENA, Feb. 4.—Work on this city's $100,000 Masonic temple will be started next week, it was announced today following action of the lodge building committee in awarding the contract to R. S. Martin of San Gabriel, on his bid of $49,000 on the general contract. Col. L. J. Mygatt is building committee chairman.

Four subcontracts were let: Heating, Jones Heating Company of Pasadena, $8512; wiring, Jones Electric Company of this city, $3700, and painting, Bliss Paint Company of Pasadena, $2065. The contracts will be signed within a few days, Col. Mygatt asserted.

The new Masonic headquarters will be rushed to completion on a site located at Monterey road and South Fair Oaks avenue.

FINANCIAL

TRACTOR PROFIT REGISTERS GAIN

Caterpillar Declares Extra of 25 Cents

Earnings for 1929 Increase 40 Per Cent Over 1928

Are Equal to $6.93 Per Share Compared With $5.72

SAN FRANCISCO, Feb. 4. (Exclusive)—Directors of the Caterpillar Tractor Company today declared an extra dividend of 25 cents a share and issued to stockholders the annual report on operations for 1929, which disclosed a substantial increase in earnings over the preceding year.

The extra dividend of 25 cents a share was declared payable March 15, next, to stockholders of record the 18th inst. and is in addition to the regular quarterly dividend of 75 cents a share, which was also declared payable the same date.

Net earnings of the company for the year ended December 31, last, reached a total of $13,059,634 after all charges excepting the reserve for Federal income taxes, which is equivalent to $6.93 a share on the 1,282,240 shares of capital stock outstanding.

INCREASE LARGE

This compares with $9,295,839 reported for 1928, after similar charges, which was equal to $5.72 a share on the 1,625,000 shares then outstanding, and represents an increase of $3,763,905, or more than 40 per cent.

The total net sales of the organization aggregated $51,212,461, as compared with $35,071,600 in 1928, an increase of $16,740,861, or more than 47 per cent. The steady increase in sales from year to year has been instrumental in the lowering of prices for its products, the last cut in December, being the sixth reduction within the past four years. Sales in 1927 totaled $26,928,088.

QUARTER'S NET UP

Net profits for the quarter ended December 31, last, amounted to $4,479,117, or double those for the same period of 1928, when the net earnings were $2,233,795. In the third quarter last year the company earned $2,580,000, in the second quarter, $3,500,000 and in the first quarter, $2,500,000.

The balance sheet as of the close of the period showed an improved working-capital position, with current assets substantially increased and current liabilities materially reduced.

Capital surplus stood at $15,318,295, against $6,146,178 at the close of 1928 and earned surplus amounted to $18,245,693, against $12,291,926 at the end of 1928. Patents formerly carried at $278,208 were written down to $1 because of the difficulty of appraising the value, it was stated.

Tone Quiet on London Market

LONDON, Feb. 4. (Exclusive)—The stock market had a quiet tone today with little business transacted. Industrial issues were easier. Traction and talking-machine securities were lower. The oil group was dull. Rhodesian Mines and Congo borders were easier. Margerine and molasses issues were easier. Match shares were steady. Cables and Wireless B had a better tone. Tobacco, artificial silk and textile securities had a steady tone, while rubber shares were easier. Ford Motors, Ltd., was quoted around £3 5-16, Brazilian Traction ordinary around 40, and International Nickel around 39½.

The gilt-edged division had a steady tone today. Foreign issues generally were quiet. Home and Argentine rails were easier.

BUSINESS IN BANK FIELD HELD SOUND

Slight Let-Down in Pace from 1929 Reported by Security-First

While business and industrial activity in Los Angeles and Southern California declined from the levels of January, 1929, and the preceding month of December of last year, the fundamental factors underlying the general business situation are sound according to the monthly summary of business issued yesterday by the Security-First National Bank of Los Angeles.

This slackening is indicated by the decline in bank debit figures for six of seven cities in this territory for which the figures are available. Los Angeles bank debits dropped 14.6 per cent below those of January, 1929, and ⅘ of 1 per cent below December totals. The report continues:

Operations in oil fields, iron and steel fabricating plants, meat packing establishments, automobile tire factories, and furniture factories in Southern California were, in general, carried on at lower levels during January, 1930, than during January, 1929. The value of building permits issued in Los Angeles during January, 1930, was more than double that of December, 1929, and was 21.3 per cent larger than January, 1929. The comparatively large January building valuation total, however, was due to a few permits issued for large amounts.

There was comparatively little difference in the volume of trade at retail during January, 1930, as compared with January, 1929, as measured by sales of department stores. However, the situation in other lines of retail trade was not so favorable in some cases.

Doherty Utility in Mid-Continent Expansion Deal

NEW YORK, Feb. 4. (Exclusive)—Negotiations have been completed, subject to the action of stockholders for the acquisition of the large oil and gas holdings of the Foster Petroleum Corporation in the Mid-continent field, or Oklahoma City pool, by Henry L. Doherty & Co., it was announced today. The property is to be taken over by the Indian Territory Illuminating Oil Company, one of the largest producers of high-grade oil in the world and a subsidiary of Cities Service.

The Oklahoma field was opened in December, 1928, by a discovery of a well of the Indian Territory company. Since then this company and the Foster Petroleum Corporation have brought in jointly owned wells which have broken all records for the State of Oklahoma in the volume of both oil and gas. These companies have completed a total of forty-three producing wells in this field and will have a potential production of approximately 400,000 barrels daily from the Oklahoma City pool alone.

The Indian Territory company will upon completion of the new project, own leases on approximately 70 per cent of what is now regarded as the most productive area in the Oklahoma City pool. The combined property includes leaseholds on approximately 9200 acres in this field.

Security Loan Volume Stands

SAN FRANCISCO, Feb. 4. (Exclusive)—Security loans of reporting member banks of the Twelfth Federal Reserve district as of January 29, were reported yesterday at $447,000,000, unchanged for the week. The loans on January 30, 1929, amounted to $408,000,000.

Detailed distribution of all the loans stated in millions of dollars, follows:

	Jan. 29, 1930	Jan. 22, 1930	Jan. 30, 1929
Security loans	477	477	408
All other loans	897	883	877
Total loans	1,374	1,360	1,285
Reserves with Federal Reserve Bank	108	113	114
Borrowings at Federal Reserve Bank	9	10	44

Education Bond Issue Awarded

Weeden & Co., was the successful bidder for a $55,000 issue of City of San Bernardino high-school district 5 per cent bonds, due 1948, at a premium of $2355, it was announced yesterday.

Other bidders and premiums offered were: William R. Staats Co., $2319; Bank of Italy, $2093; American National Company, $2038; Anglo London-Paris Co., $1983; Detroit Company, $1980; Dean, Witter & Co., $1979; William Cavalier Company, $1938, and Harris Trust and Savings Co., $1930.

AIR-MAIL POLICY BULLISH

Proposed Law Opens Field to All Carriers, Provides for Extension of Existing Services

BY EARLE E. CROWE

Business of the air transportation companies began to look up yesterday. The much discussed mail policy of the Postoffice Department was disclosed in the draft of a proposed bill submitted by Postmaster-General Brown to the House Committee on Postoffices, which recommends the reorganization and extension of the government's air-mail system.

Companies in the air-transport business undoubtedly will consider the proposed legislation as bullish on the industry. The Postmaster-General's recommendations commit the government to a definite expansion program in air mail, giving the department authority to extend routes and for the first time to transport first-class mail in airplanes in available space not utilized by mail specifically routed by air.

COMPENSATION FIXED

The latter proposal referring to first-class mail is taken to mean that the government will fill the space under contract with regular first-class mail if the contract space is not fully occupied at the time mail planes depart. Under this system the mail carriers would not be compelled to gamble on the volume of mail, as they do under the present method, but would be paid fixed compensation for a definite amount of space. In return the government would expedite the country's mail by diverting traffic from railroads to airplanes whenever extra space is available.

Carriers are now paid by the pound, and only a few of the routes are profitable. The maximum rate of $1.25 per mile for contract space, as provided in the bill, is understood to have the support of the air-mail companies as a just compensation. Recently the Postmaster-General was quoted as stating that a proper factor in fixing rates should be allowed for night flying, flying over mountains, and flying over territory frequently covered by fog.

Under the system of paying by the pound the present contractors are obliged to take off whether the Postoffice Department furnishes one pound or 1000 pounds. Elimination of this gamble is provided by the proposal for the purchase of space on a mileage basis.

All transport companies now operating are eligible under the proposed legislation to carry mail, and companies now possessing contracts are protected by a provision calling for proper consideration of rights over routes now served. The Postmaster-General, furthermore, would be given the authority to grant contracts without competitive bidding.

CARRIERS LISTED

Principal companies affected in this part of the country are Western Air Express, Transcontinental Air Transport, Pickwick Airways, Pacific Air Transport, West Coast Transport, and Mid-Continent Air Express. Of this group, Transcontinental Air Transport, Pickwick Airways, West Coast Transport and Mid-Continent Air Express are not mail-contract companies at present, but would be eligible for contracts under the proposed law.

Western Air Express is undoubtedly in a preferential position. This company now has the Salt Lake contract, and unquestionably will be a candidate for the Los Angeles-El Paso and Los Angeles-Kansas City business, two routes it now operates for passenger travel. In addition, Western Air would be in a position to share in the Los Angeles-to-Portland business, and the Denver to Kansas City traffic by the annexation of West Coast Transport and Mid-Continent Air Express, companies controlled by the Talbot-Hanshue interests.

Transcontinental Air Transport will likely share in whatever contracts are granted for portions of the transcontinental route. Pickwick Airways is in a strategic position to carry mail to Mexico and Central America over its existing passenger routes.

Laundry Group Reports Sales at Record High

Sales of the laundry and linen supply subsidiaries of the Consolidated Public Service Corporation during 1929 reached a total of $6,308,067 which is the second largest volume for any similar organization in the world, officials of the company announced yesterday. Consolidated Laundries Corporation of New York, which had sales of approximately $10,000,000, is reputed to be the largest.

Sales of the Home Service Company, one of the subsidiaries which operates a chain of fourteen laundry plants in the metropolitan area here, amounted to, $4,631,903, and the other unit, United Linen Supply Company, which operates five plants in this section, had sales of $1,671,163.

It is understood that a large majority of the stock of Home Service and United Linen has been deposited for exchange with Consolidated Public Service stock and that application will shortly be made to list the new company's stock on the Los Angeles Stock Exchange. Consolidated Hotels, Inc., which operates more than 100 hotels and apartment-house properties in this city, is the other subsidiary of Consolidated Public Service Corporation.

INSURANCE UNIT REPORTS

SAN FERNANDO, Feb. 4. (Exclusive)—Net profits of $1,570,000 after all charges were reported today by the Fireman's Fund Insurance Company for the year ended December 31, last. This amount is equal to $4.37 a share on 300,000 shares outstanding.

MONTJOY RETURNS

Lynn Montjoy, Pacific Coast manager of G. L. Ohrstrom & Co., returned to Los Angeles yesterday from a tour of northern offices. He visited San Francisco, Seattle, Spokane and other northern cities.

Profits Told by Alleghany Corporation

CLEVELAND, Feb. 4. (Exclusive) Alleghany Corporation in a report issued today covering the period February 15, 1929, to December 31, last, showed net profits of $4,276,930, equal after dividends accrued on preferred stock to 53 cents a share on 4,152,540 common shares outstanding.

Gross profits since organization as of February 15, 1929, to the end of the year just closed, totaled $7,080,063. Earned surplus after providing for preferred dividends of $2,086,690, was $2,190,341.

The balance sheet as of December 31, last, listed the investments of the corporation at $316,885,162. The market value of these investments as indicated by the closing bid price on that day was $322,520,645.

Regulation of Cotton Future Mart Planned

WASHINGTON, Feb. 4. (AP)—A bill to require regulation of cotton futures markets by the Federal government was introduced today by Senator Ransdell, Democrat, Louisiana.

Under the measure all cotton futures exchanges would be required to obtain a Federal operating license from a commission comprising the Secretaries of Agriculture and Commerce, and the Attorney-General.

It also would provide for only one notice day and one delivery each month, and would limit deliveries on future contracts to not more than four places, each of which must be a deep sea port in a cotton-growing State designated by the Secretary of Agriculture. New York would be excluded as a place of delivery.

Clay Materials Concern Tells Finance Status

Gladding, McBean & Co., issuing its balance sheet as of December 31, last, yesterday reported surplus of $3,786,527, as compared with $3,584,254 at the close of the preceding year, an increase of $202,273. Total assets were listed at $10,847,080, as against $10,198,557, a gain of $648,523.

Current assets amounted to $3,557,923 and current liabilities were $437,753, a ratio of 8.13 to 1, as compared to the ratio of 7.06 to 1 at the close of 1928, when current assets were $3,156,022 and current liabilities, $446,903.

The statement showed 221,531 shares of no-par stock outstanding, which were carried at $6,416,649. At the close of 1928 there were 213,529 no-par shares outstanding. Earnings of the company for 1929, it was estimated, will approximate $4.99 a share on the 222,531 shares, which would be about the same as the approximate earnings per share in 1928.

Leighton Votes Drop in Dividend

To facilitate an expansion program and at the same time maintain an ample working-capital position, directors of the Leighton Industries, Inc., will reduce the usual $1 annual dividend on the Class B stock to 50 cents and the management, which holds 40,000 shares of the 117,000 outstanding, will temporarily accept Class C nondividend-paying stock for their holdings, which will be convertible back to "B" stock after certain stipulations have been complied with, according to a letter to stockholders to be mailed today. The dividend on the "A" stock is unaffected.

The letter stated that earnings in 1929 applicable to the Class A stock amounted to $228,800, against dividend requirements of $87,000. This leaves a balance for the "B" stock of $141,800, on which the $1 per share dividend on the total 117,000 shares outstanding would amount to $117,000.

Indemnity Unit Reports Growth

SAN FRANCISCO, Feb. 4. (Exclusive)—Associated Indemnity Corporation wrote net premiums of $3,309,859 in 1929, an increase of 80.5 per cent over 1928, and Associated Fire and Marine Insurance Company wrote $331,289 net, C. W. Fellows, president of Associated Insurance Fund, Inc., the parent company, announced here today.

On December 31 the assets of the corporate group showed an increase of approximately $6,000,000 in the year. Heavy investment made during the period in new departments and territory were largely carried by current earnings, including added equities in unearned premium reserves, Mr. Fellows stated. These investments are rapidly being justified by an increasing volume of business, he said.

WEST COAST INDUSTRIAL SHOWS GAIN

Pacific Clay Products Reports Net Increase on 1928 of $25,553

Pacific Clay Products in a preliminary report for the year 1929 issued yesterday showed net profits of $399,864.05, equal to $4.03 a share on 99,157 1-2 shares of capital stock outstanding, as compared to $374,330.52, or $3.78 a share in 1928.

During the year the company maintained dividends at the rate of $2.40 per share and at the same time reduced its bonded indebtedness from $405,000 to $226,500. The original bonded debt was $780,000 and, under the bond indenture, retirements are required to be made annually at the rate of $50,000. These requirements, the report stated, have been invariably anticipated by the company so that extinguishment of the entire bonded debt may be expected prior to its maturity.

Cash on hand as of December 31, last, was $517,136.86, an increase of $62,106.06 over the amount at the close of the preceding year. Total current assets were $1,304,848.59, a gain of $42,184.48, while total current liabilities were $136,503.75, a decrease of $29,217.08. The current ratio was 9.56 to 1, as compared to 7.62 to 1 at the end of the preceding year.

Although material additions to the property account were made during the year, the charge-offs against depletion and depreciation resulted in a reduction of $88,015.51 to $1,355,507.23 in property account. The surplus during the year increased from $447,986.12 to $609,872.17, or a total addition to surplus of $161,886.05. Net assets were given at $2,197,393.17, as compared to $2,035,486.12 at the close of 1928. Book value per share increased from $30.53 to $32.16 during the year.

Moderate Drop Shown in Daily Output of Oil

NEW YORK, Feb. 4. (AP) — The daily average gross crude-oil production in the United States decreased 20,600 barrels for the week ended the 1st inst., totaling 2,385,000 barrels, says the weekly summary of the American Petroleum Institute. The daily average production east of California was 1,384,400 barrels, a decrease of 29,000 barrels.

Refineries representing 95 per cent of the estimated daily potential refining capacity, operating at 71.4 per cent of their capacity, reported daily average run of crude oil to stills as 2,477,000 barrels. Daily average the previous week was 2,511,300 barrels for refineries representing 98.9 per cent of potential capacity operating at 72 per cent of their capacity.

Daily average production difference:

	Daily av. Production Barrels	Diff. Barrels
Oklahoma	412,000	43,550
Kansas	111,000	—
North Texas	110,000	—
West Central Texas	18,000	300
West Texas	242,000	4,700
East Central Texas	31,000	100
Southwest Texas	61,000	400
North Louisiana	37,000	350
Arkansas	37,000	400
Coastal Texas	174,000	4,000
Coastal Louisiana	31,000	300
Eastern (not including Michigan)	121,000	700
Michigan	84,000	—
Wyoming	84,000	7,000
Montana	9,500	100
Colorado	9,400	100
New Mexico	10,400	200
California	710,600	8,400
Total	2,385,000	80,600

Daily average imports of petroleum at principal ports for the week were 206,571 barrels, compared with 222,857 for the previous week, and 269,786 for the four weeks ending the 1st inst.

Daily average receipts of California oil at Atlantic and Gulf coast ports for the week, were 56,857 barrels, compared with 108,000 for the previous week, and 91,964 for the four weeks ended the 1st inst.

STOCKHOLDER LIST OF TRANSAMERICA GROWS

Approximately 9000 stockholders are being added monthly to the register of the Transamerica Corporation, the company announced yesterday in connection with a report showing a total of 171,000 stockholders. When plans were announced last October for a campaign to increase the number of stockholders to 500,000, there were 138,000 names on the list. This figure increased to 150,000 in November and has increased steadily since that time.

COTTON MARKET

NEW YORK, Feb. 4. (AP)—Some further liquidation and foreign selling were absorbed on a moderate opening decline in the cotton market here today. Prices later rallied on covering or rebuying by recent sellers, who appeared to be influenced by talk of an improved technical position and overnight developments in the co-operative marketing situation. The volume tapered off on the advance, which were not fully maintained, but the midafternoon market was fairly steady and about 12 to 16 points net higher.

RANGE OF PRICES

NEW YORK, Feb. 4.—Cotton futures closed:

	Open.	High.	Low.	Close.
Jan.	13.84	13.97	13.82	13.87

CANADA CO-OPERATIVE HIT

Wheat Pool With 48,000,000 Bushels Carry-over from 1928 Incurs $13,500,000 Carrying Charge

BY J. F. SINCLAIR

(Copyright, 1930, by the North American Newspaper Alliance)

TORONTO (Ont.) Feb. 4.—The Canadian wheat pool is having its own trying times these days. In the field of national commodity marketing, it is one of the greatest experiments ever attempted.

Up to this time—unlike Brazil's natural resources, Canada has only begun. Yes, this is still a young man's country."

The Canadian Bank of Commerce is building a new head office in Toronto to cost about $5,000,000 and it will be one of the show places of this aggressive city of 600,000 people.

Canada's navy consists of three 3000-ton trawlers, all of which are now frozen in for the winter. So Canada's expense bill for its navy upkeep is not a source of worry to business.

"Canada's delegation to the naval conference in London is larger than the personnel of our entire navy," commented the Rt. Hon. Arthur Meighen, former Prime Minister, now a leading business man of Toronto.

"But I see the Canadian representatives have been in conference with Italy over the problem of parity," he added. "Of course, Canada must play a careful hand. You see, we can't reduce much more and have any navy left. Still, we might throw in two of our ships and keep one. But if war should come in winter what would we do with our navy frozen in? There's a problem for you."

in its coffee experiment—it has not had the backing of the government. It is really a co-operative and not a governmental endeavor.

The wheat carry-over of 1928 was 48,000,000 bushels. By December, 1929, this carry-over was still in the hands of the pool and it had incurred a carrying charge of 28 cents per bushel, or roughly about $13,500,000.

Now the 1929 wheat crop was short in Canada. Also in Argentina and Australia. It looked like a good time to hold wheat. The world needed it and apparently there was not much of it. It was a clear case of speculating for the "rise."

But the wheat carry-over in Argentina, United States and Canada was the largest on record. This fact was really underestimated.

Along with this condition Europe began to agitate for home-grown wheat. In scores of big shops in England appears this sign: "No American wheat used here." Other European countries are pushing their own substitutes if they have no wheat to market.

On August 1 wheat closed on the Winnipeg market at $1.73. On August 30 it was down to $1.52. The last of September saw it close at $1.43. November closed at $1.41.

Still Canada holds on. It has diminished her business; it has hurt her trade and it has caused her money to be at a discount in the United States. Her bankers, who have loaned about $1 a bushel, are anxious to clear the debt. A new crop is in the making. It costs money to carry over wheat. Can they or can they not work it off at a profit?

The Canadian pool handles a little over 50 per cent of the wheat crop. No one today can tell for a certainty just what the result will be.

"I understand that the governments of the western provinces are back of the wheat pool, and this will add considerable stability to the situation," said Sir John Aird to me in discussing this situation.

Sir John Aird, president of the Canadian Bank of Commerce, an $800,000,000 institution, also told me conditions were clearing up in Canada preparatory to a real business advance.

"I do not believe that Canada was as much affected by the stock market crash in November, last, as was business in the United States," Sir John said. "We have a diversification here in our business life divided roughly into three parts: One is the purely farming industry, which has been for so long our biggest; the second is the development of our natural resources, including mining and water power, and the third is the rapid expansion of our manufacturing enterprise.

"All three are showing a remarkable development over the last decade, but especially is this true in the development of our mining and manufacturing. While the United States has been at work a long time and has developed much of her nat-

Oil Unit Plans Listing Boost

Application of Rio Grande Oil Company to list 250,000 additional shares on the New York Stock Exchange is understood to have been made by the company in connection with the pending merger with the Sinclair Consolidated Oil Corporation.

The company has not yet issued any official statement as to the purpose of the new listing. The present number of shares outstanding is 1,294,833.

Gas Utility in Split-up Move

BALTIMORE, Feb. 4. (Exclusive) Directors of the Consolidated Gas Company of Baltimore today voted to offer common stockholders one share of new stock at $60 for each ten shares held.

The regular quarterly dividends on the common and preferred shares were declared payable April 1 to stock of record March 15.

PROFITS OF OFFICE BUILDING UNIT TOLD

Gross income of the Merchants' Exchange Building as of January 31, is at the annual rate of $165,000, it was reported yesterday. Occupancy of the building for January equaled 91 per cent of capacity on the basis of long-term leases now executed. During January the building was reported sold to a local capitalist.

For Liquid Funds

A Convertible High-Yielding Obligation Due in 22 Months

Prominent financial counsellors are today advising investors to keep at least a portion of their funds in liquid form in order to be prepared to take advantage of any changes in the security markets that may occur.

For This Purpose We Offer

General Public Utilities Company

Convertible Secured 6% Notes due Dec. 1, 1931

Price 99 and interest, yielding over 6.60%

Security—Over 110% of the Notes' face amount of Company's First Mortgage and Collateral Trust 5½% Bonds deposited with Trustee. These Bonds have an equity in property values exceeding $1630 per $1000 Bond.

Earnings—During 1929 over 1.9 times *all* fixed charges, including subsidiaries' preferred dividends.

Conversion Feature—Holder may exchange Notes at face amount into First Mortgage and Collateral Trust 5½% on a 6½% yield basis, receiving the balance in cash.

Further information will be furnished without obligation on your part

NEW YORK CURB STOCKS

NEW YORK, Feb. 4. (AP)—Price movements in the curb exchange were rather erratic but final quotations were again irregularly higher. The market appears to have temporarily lost some of its pep, initial blocks of 1000 to 2000 shares taking the place of opening transactions of 3000 to 5000 shares in some of the speculative favorites last week. New soft spots continue to crop out from time to time, but the aggregate borrowing demand for stocks shows little change, covering operations in some issues apparently being offset by fresh sales on rallies in other stocks.

Public utilities continued to lead the list in activity although several waves of selling swept through that group. Electric Bond and Share dipped to 91¼, rallied to 96, and closed just below this top for a net gain of 2¾ points. American and Foreign Power, American Gas and Electric, Arizona Power and a few others advanced a point or two. Duke Power broke 3½ points.

Arkansas Natural Gas issues were active and strong. Southwest Gas Utilities advanced 2¾ points. Indian Territory Illuminating Oil extended its gain on buying influenced by the announcement it had acquired large gas and oil holdings in the Mid-continent Field from Foster Petroleum. Gulf Oil advanced a point and Vacuum declined nearly a point. Borne Scrymser dropped 4½ points.

Radio shares were firm despite reports of extensive price cutting in the industry. Dubilier, after a long period of inactivity, was marked up about 2 points. Pilot Radio crossed 13 to a new high on the current recovery on the announcement the company had sponsored a proposed commercial good-will flight to South America.

Investment trust and trading corporation shares were mixed, with the principals of Electric Shareholders preferred, Goldman Sachs, International Utilities B and Shenandoah preferred being offset by the heaviness of American States A and Lehman Corporation.

The closing price is omitted when same as the bid, and both low and close when same as the high.

TONE STRONGER ON ZINC MARKET

Price Stiffens as Bargain Lots Disappear

Statistical Situation Still Continues Weak

Lead and Copper Hold Firm at Old Levels

BY CHARLES F. WILLIS

(Editor The Mining Journal, Phoenix.)

Bargain lots of zinc have been rapidly disappearing so that the price has strengthened to 5.25-5.30 f.o.b. St. Louis. Lead and copper have remained strong at the same price, 6.25 f.o.b. New York, and 17.77½ f.o.b. refinery, respectively, with no indication of early change.

Buyers of zinc have taken advantage of the very low price of that metal and, because of the small size of their own stocks, have been buying in larger quantities during the past two weeks than for a long while past. Zinc went as low as 5.00, forced selling bringing individual lots to that price, but the greater part was sold at about 5.15. The zinc market may be characterised as active, but unprofitable to zinc producers and smelters.

At the present price of zinc, 5.25 to 5.30, the sellers are generally taking orders as far forward as April, although some are not willing to go beyond March and some are even turning down current business at the present price. Every effort is being made by the sellers to get the price up and if it were not for the fact that occasional distress metal comes in sight at low prices the whole zinc market could be bettered.

ZINC PRODUCTION HIGH

The December world production figure for zinc did not help the situation as it showed the production to be the highest on record since May, amounting to 136,088 tons, as against 130,940 tons in November and 127,130 tons in December, 1928. The record month of the year was May with 140,379 tons. The world output in 1929 amounted to 1,611,610 tons, compared with 1,576,578 tons in 1928, thus betting a new high record for a one-year period.

Lead sales, while not up to activity of several weeks ago, still remain active. Buying is now for February and there is a reluctance on the part of the producers to sell beyond February at current prices. There is not much talk of increasing prices on account of general market conditions, but the producers apparently do not want to be tied up with a lot of orders on their books when the time comes that an advance can be handled.

The more satisfactory condition of the lead market is also shown in the world production figures for December. World output of pig lead amounted to 160,089 tons in December, against 173,904 tons in November and 161,206 tons in December, 1928. Total output for 1929 amounted to 1,931,796 tons, a monthly average of 160,983 tons, against 1,831,060 tons and a monthly average of 151,797 tons in 1928.

COPPER UNCHANGED

The situation regarding copper has not changed materially. Production cuts have now started in pretty well all over the world. The December cuts, although small, show up slightly in the December production figures, but will show up larger when the January figures are published. There have been many rumors as to a lowering of the price, but the rumors are coming from those interested in depressing the prices of the shares, rather than those concerned with the buying or selling of the metal.

Foreign buying of copper has been much improved as it is evident that the time has come when European industry had to have the metal, and the European industrial conditions indicate that the demand will continue in good volume. Domestic buying in January was much better than in December and the demand for copper products is stated to have greatly improved. A substantial volume of February business has been booked.

It is generally stated that the present world production of copper, i. e., after the curtailment, is about on the level with 1927, which was 1,674,518 tons, as against 2,136,621 tons in 1929. The monthly average in 1929 was 178,002 tons, against 159,705 in 1928 and 141,196 in 1927. The peak month of 1929 was April with 196,826 tons produced, while December was the smallest month of the year with 165,344 tons.

World production of blister copper in December was at the lowest rate for any period since September, 1928. The December output was 165,344 tons, equivalent to a daily rate of 5334 tons, as compared with 170,588 tons produced in November, when the daily rate was 5686 tons. The drop of 1341 tons in the December output was largely due to the reduction in output in the United States. A slight curtailment was noted in Africa.

The world's output for the year set a new high record for all time, the total being 2,136,621 tons, a gain of 219,550 tons over the previous record established in 1928. The 1929 gain was equivalent to 11 per cent.

MARKET FLASHES

NEW YORK, Feb. 4. (AP)—Stocks firm; Columbia Gas and Electric crosses 90 to year's highest. Bonds steady; French government 7s and 7½s make new highs. Curb firm; leading utilities rally. Foreign exchanges easy; Latin-American currencies weak. Cotton higher; trade buying. Sugar easy; commission houses selling. Coffee lower; easier Brazilian cables.

CHICAGO, Feb. 4. (AP)—Wheat higher; good export demand. Corn firm; unfavorable weather. Cattle steady to weak. Hogs higher.

YOUR INCOME TAX

No. 2

Failure to receive a form does not relieve a taxpayer of his obligation to file an income-tax return and pay his income tax within the period prescribed—on or before March 15, 1930, if the return is filed on the calendar-year basis, as is true with most individuals. Forms may be obtained upon request, written or personal, from the offices of collectors and deputy collectors of internal revnue. The tax may be paid in full or in quarterly installments, due on or before March 15, June 15, September 15, and December 15.

Persons whose net income for 1929 was derived chiefly from salary or wages and was not in excess of $5000 should make their returns on Form 1040A. Persons whose net income was derived from a business or profession, including farming, or from the sale or rent of property, although the amount was less than $5000, are required to use the larger Form 1040. The use of Form 1040 also is required in the case where the net income was in excess of $5000, regardless of whether from salary, business, profession, or other sources.

The filing period ends at midnight March 15, 1930. The returns should be filed with the Collector of Internal Revenue for the district in which the taxpayer lives or has his principal place of business.

(This is the second in a series of thirty-five articles on Federal income tax procedure supplied by the Bureau of Internal Revenue.)

AMERICAN THERMOS BOTTLE INCOME UP

CINCINNATI, Feb. 4. (Exclusive) American Thermos Bottle Company reported today net profits for 1929 of $332,488, equal after preferred dividends, to $2.26 a share on Class A stock, against $226,383, or $1.19 a Class A share in 1928.

LOS ANGELES EXCHANGE

Edison and Byron Jackson Supplant Former Leaders and Head General Upturn

Southern California Edison and Byron Jackson featured trading on the Los Angeles Stock Exchange yesterday and scored substantial advances for the session. Other stocks reflected an underlying strength in response to a demonstration of bullish activities resumed on the New York board. While some eased slightly toward the close from the higher levels, a number continued in an upward direction to the end.

Edison reached a new high for the recovery movement with an advance of 1½ points to 61 and after a transfer of 2600 shares closed the session at 60 7-8. Edison rights leaped 10 cents to a new high at 3.25. Byron Jackson, which recently has jumped into a prominent position in relation to the market activity, scored another gain of more than a point to a high at 30 3-4. The stock closed at 30 5-8, up 1 point net.

Transamerica and Pacific Finance continued to trade in a brisk fashion, the latter being more active than usual, but neither showed any change after fluctuating within a narrow range.

Standard Oil of California was the outstanding issue of the petroleum group which, as a whole, traded in a comparatively listless fashion. Standard reached a high at 61 and ended at 60 7-8, up 5-8 net. Rio Grande eased 1-4 to 18½ while the others showed practically no change.

Pacific Gas and Electric, inactive on this board, traded at 55 5-8, up 2 7-8 from the last sale here, and Pacific Public Service moved up 3-8 to 28 5-8. Pacific American Fire Insurance was a strong spot, gaining 1 3-4 points on light sales. California Bank dropped 4 points to 115, Emsco Derrick, 1 1-4 to 30 1-4, and Douglas Aircraft, 3-4 to 13.

Sales totaled 27,639 shares valued at $730,970; previous day, 19,433 shares valued at $579,866.

DIVIDEND OMITTED BY WAHL COMPANY

CHICAGO, Feb. 4. (Exclusive)—Directors of Wahl Company today voted to pass the preferred dividend to be paid on accumulations for the quarter ended September 30, 1929. Directors were re-elected at the annual meeting. C. J. Prechette was elected vice-president and treasurer; L. W. Brigham, secretary, and J. R. Wershing, assistant secretary and assistant treasurer. Other officers were re-elected.

PACIFIC LIGHTING ANALYZED

Pacific Lighting Corporation is the subject of a bullish analysis published by A. M. Kidder & Co. of New York, according to advices received here by Sutro & Co. from its head New York office.

Capital Set-up Change Planned for Garner Oil

Directors of the Garner Royalties, Incorporated, voted yesterday to reorganize the capital structure of the company by issuing new stock of $25 par value per share in exchange for the present mill value stock and also proposed to change the name of the company to Garner Royalties, Ltd. Both proposals are to be submitted to stockholders.

Class A and Class B stock, both of $25 par value, will be issued in exchange for units of the present capital on the basis of four new for each unit. The present preferred Class A and Class B stock will be canceled. The new Class A stock will be the preference issue.

This action has been taken, according to the announcement, to give the company a standing in both western and eastern markets. The change in name is to conform with recent legislation which will permit limited liability to stockholders.

NEW FINANCING PLAN OF AIRPORTS VOTED

Stockholders of the Los Angeles Metropolitan Airports, Inc., have authorized the board of directors to proceed with the details of new financing to the amount of $100,000, according to Lloyd L. St. John, secretary-treasurer. He said that this amount was underwritten at a special meeting, subject to rights of stockholders. The financing will probably be in the form of debentures and the details will be announced shortly. At the annual meeting to be held March 4, an expansion program will be submitted to the stockholders for approval.

KINNER GETS NEW ORDER FOR MOTOR

Kinner Airplane & Motor Corporation, Ltd., has received an order for fifty K5 100 horsepower engines from the Lincoln Aircraft Company of Lincoln, Neb., which will be installed in the Lincoln PT two-place training biplane widely used at various schools and training fields, Robert Porter, chairman of the Kinner company, announced yesterday. The Lincoln company is now engineering two other models to be equipped with the Kinner engine and expect to build a larger job for the new Kinner 190-horsepower, five-cylinder engine.

ANDREWS IS VISITOR

David J. Andrews of the New York office of Doremus & Co., is visiting the local offices of his company. Mr. Andrews will remain here for an indefinite period.

SAN FRANCISCO

SAN FRANCISCO, Feb. 4. (AP)—Stock market opportunists flocked around Montgomery street counters to place orders for western stocks this afternoon, after a strong close on the Wall street exchange imparted new confidence in speculative circles. Seven new high records were set by individual stocks, and the Dutro averages climbed sharply to a 1930 record altitude.

Increase in turnover was shown by the share total of 31,375, for which $1,796,215 was paid. Purchases were about a half million dollars above yesterday's. Bond sales were only half of yesterday's, today's being $2,000.

Industrials kept the groups spotlight they have held thus far this year. New highs in that group were marked up by Caterpillar Tractor at 64 and Byron Jackson at 30¾. California Cotton at 43 and Pacific Motor at 31½.

Caterpillar's net gain was 1¾ points. It preceded announcement after the close of the market of earnings for 1929 of $6.13 a share after taxes, and declaration of an extra dividend of 50 cents. Pacific Motors and California Cotton moved on reports of favorable business and good earnings. Among the list of other western industrials which showed under strong demand were Hupp Motors, which ran to its limit for the day, and Hudson Motors. Both of the latter broke out of the market and put away in strong position for good investment.

The only other group showing the stars on brokers' boards for year high marks was the utility list. The public service representative issues were the favorites in most three to 1930 records. Consolidated Gas at 89¾, Pacific Gas at 57½ and Pacific Lighting at 107½.

Oil stocks participated in the general rise, with the exception of Tidewater preferred and Shell Union, which drew a moderate selling. North American moved more than a point on prospects of ultimate success of curtailment plans as affecting the whole industry.

Market followers today declared Kolster and Magnavox, the Radio Corporation of America specialties, all day at even prices each down an hr at 14. About 2,000 new Magnavox sold at four times their par value. Kolster sold at around thirty times today's quotations.

Other issues in today's market were Galland Laundry, at a new high at 45½, a gain of 2½ points; Pacific Western Oil, 2 points higher at 19½; Yellow and Checker Cab, at a new low of 20, down 2, and Universal Consol. down 1½ to a new low at 17.

MEETING CALLED

Kemper Radio Corporation, Ltd., will hold its annual meeting of stockholders Thursday, the 13th inst., at 10 a.m. at the offices of the company, 1236 South Santee street, according to notices mailed yesterday.

LOS ANGELES CURB

Constructive operations were manifested on the Los Angeles Curb Exchange yesterday as traders inclined toward the advance succeeded in moving forward a number of the more popular issues. The day's activity, however, held to a low level and showed little material change from that of the previous session.

Diamond Electric, following up a steady advance over recent sessions, was a feature of the market. In anticipation of a favorable report on earnings to be issued soon the stock shot up 3 3-4 points to a high and closed at 45½. The preferred jumped 5 points to 90. Neon of Delaware firmed up fractionally while Electrical Products of Washington eased 3-8 to 13½. Caterpillar Tractor added another 1¼ points to end at 64.

Fokker Aircraft continued a leader of the activity and strengthened 3-8 to 18 1-8 and fractional advances were chalked up for Cities Service, Neon of New York, Continental Credit, Gladding McBean and Intercoast. Elmer again traded briskly but slipped back slightly. Occidental Petroleum scored a sharp advance of 13½ points to 1.53½.

Sales totaled 37,585 shares valued at $267,943; previous day, 58,435 shares valued at $217,695.

NEW YORK BOND PRICES

NEW YORK, Feb. 4. (AP)—Continued inquiry for French government bonds brought out substantial rallies in these obligations today, carrying both the 7½s and the 7s to new highs. The former touched 123, closing at 122⅞ for a net advance of 4 points while the lower coupon obligation sold up to 119 before easing back to yesterday's final quotation, 118.

The entire foreign list was generally higher. Belgian listings rose ¼ to ⅞. Colombia 6s and Colombia Agricultural Bank 6s 1947 improved 1½ to 1⅝ points. Buenos Aires 6s, April, soared 3¼ and the same city's 6s of 1961 were up ¾.

The averages showed a small decline in domestic corporation bonds, but the undertone was considerably firmer, especially in the rails, which were rather active. Santa Fe general 4s, Baltimore and Ohio gold 4s, Rock Island refunding 4s, Missouri, Kansas and Texas prior lien 4s, Missouri Pacific general 5s, Nickel Plate 4½s, New Haven 4½s, and Southern Railway general 4s brought higher prices.

Numerous low priced industrials, especially the foreign issues, made a rather broad upward movement. Certainteed 6½s and Pressed Steel Car 5s gained about a point, North American Cement 6½s advanced 2¾, and Warner Sugar Refining 7s 3½. Remington Arms 6s rallied nearly 2 points to 95. There was active buying in Standard Oil of New Jersey 5s, which were marked up ¾. Cuba Cane Sugar bonds rallied 2 points.

Utilities were somewhat slow. The most active issue was the new American Telephone 5s, which held firm.

United States government Liberties and Treasuries attracted little attention but managed to hold most of yesterday's advance.

The quotations represent sales of bonds (in thousands of dollars) and the high, low and closing prices for today, given as reported transactions. The above is omitted when the same as the low, and both bid and ask when same as high.

FISHER'S INDEX

(Copyright, 1930, by Irving Fisher.)

The following table shows the average movement each week of prices and of the changes in the purchasing power of the dollar as computed by Prof. Irving Fisher from data based mainly on Dun's quotations. Average conditions for 1926 are taken as 100.

	Index Numbers of prices	Purchasing Power of dollar in cents above or below 1926 dollar
Base—		
*1914—December (lowest)	67.3	+ 48.6
*1920—May. (peak)	167.2	— 40.2
*1913—Average	69.8	+ 43.3
*Data 1913-22 same as B.L.S.		
1923—Average	101.1	— 1.1
1924—Average	98.9	+ 1.1
1925—Average	105.2	— 4.9
1926—Average	100.0	0.0
1927—Average	94.2	+ 6.2
1928—Average	98.2	+ 1.8
1929—Average	96.3	+ 3.9
1930—Week ended January 3	93.0	+ 7.5
Week ended January 10	93.1	+ 7.5
Week ended January 17	93.2	+ 7.3
Week ended January 24	93.7	+ 6.7
Week ended January 31	93.3	+ 7.3
January average	93.3	+ 7.2

OIL NEWS

BY HOWARD KEGLEY

The Southern Exploration Company has spudded in Timber Canyon No. 1, a wildcat well, on a 120-acre lease on the southeast quarter of the southwest quarter of Sec. 18, 4-3S, six miles east of Santa Paula, and will drill for deep production in an area which already has put out some light oil at depths between 900 and 1200 feet.

Acreage acquired by Southern Exploration is completely surrounded by leases of the Associated and Independent companies, and reports from that one of the companies soon may start a deep test there.

Most of the production obtained near Santa Paula has been heavy, ranging from about 18-deg. gravity. Although it is asserted that when the Ramillo, associated with the Timber Canyon Oil Company completed several shallow wells, the oil tested 40-deg. gravity.

About three-quarters of a mile east of Southern Exploration's Timber Canyon No. 1, the San Fernando-Permin Oil Company's Santa Clara No. 1 is drilling below 300 feet. It is on Sec. 13, 4-30. The Honolulu Oil Company holds eighty acres which adjoins Southern Exploration's acreage on the west and is a portion of an area which was geologized by the Associated Oil Company within the past year.

Northwest of Santa Paula, the General Exploration Company is moving in equipment and material for a number of tests on the Ferrer lease recently purchased from the Marion Petroleum Corporation. At least fifteen wells will be drilled there, several of them to deep tests.

Operations Start

The Pacific Western Oil Company has resumed drilling Tideland Permit No. 85-2 at Elwood and will continue it to completion. This project was suspended December 1, at which time all of the Elwood operators signed an agreement to halt operations in order to conform with the general movement to curtail oil field operations and production.

The Pacific Western's Goleta No. 2 likewise inland along the Elwood trend, another undertaking suspended since the curtailing agreement became effective, yesterday was rigging up and will spud in within a week. It is on the same lease where the company's Goleta No. 1 was brought in several months ago.

Permit Established

Dante Paul Grimm's January report for the Elwood field places the field's potential for February at 84,000 barrels of oil per day, which with the curtailment of 43.42 per cent to reach the field's 30,000-barrel quota. With an excess production of 63,097 barrels for January, the allowable production for February is 197,456 barrels.

Drilling Location

The General Petroleum Corporation is hauling in material for the construction of water lines preparatory to grading site for its deep test for oil on a 120-acre lease on Sec. 4, 4-3S-15 Buttonwillow. General's test is five miles northwest of the Shell Exploration Company's Elan No. 6, the first deep test for oil in that vicinity.

Gusher Oil Sand

Oil sand has been cored in the General Petroleum Corporation's Pegram No. 2, a tideland permit at Huntington Beach, and casing will be set at the top of the sand before operations are resumed to deepen. The sand was first encountered at about 5000 feet and ten feet of it was cored to ascertain its extent. Thirteen and three-eighth-inch casing will be landed this week.

Summit's Ferguson No. 2 is located at the edge of the surf at Seabright and on a huge pier that extends about 1700 feet out into the ocean. In the event oil is found near the shore, the length of the pier permits the immediate conversion of other derricks.

Rebound Near Chino

Considerable excitement in the vicinity of Chino was reported yesterday as a result of a gas blowout which is being drilled for Bannon and Hudson by the Kecken & Hall Drilling Company of Long Beach.

The gas prospect is situated five miles southwest of Chino. After it had cased and water over the top of the derrick for a time the well was capped. It was said to have a rock pressure of 250 pounds, but to be devoid of oil showings.

The depth of the hole was not learned from late reports. It is said that the operators plan to extend somewhat deeper in search for oil.

Going Deeper

The Standard Oil Company's No. 4, formerly a producer on Sec. 11, 4-3S on the north dome at Ketchen Hill, yesterday was drilling below 5000 feet and will be carried on down to about 7200 feet before a production test is attempted.

Standard's No. 81 was producing from a depth of 6673 feet for several days and offset the Milham Exploration Company's Elliott No. 1 recovery well. It was thought that Standard's production would be obtained if the well was killed to deepen it to the discovery well's formation at this point.

Progress Reported

Edwin P. Getty's No. 28 located in the Montebel lease in the southwestern portion of the Signal Hill field, has made good headway since resuming it. Yesterday it was drilling below 5050 feet and will continue to at least 6000 feet to try out the zone which proved so productive for a number of operators in the portion of the field.

Getty's Kolinn No. 1, located on a separate lease about four miles southeast of the Santa Fe Springs field, is drilling below 3050 feet in search of an extension of the proven area. The project is not far from a well drilled several years ago by the Rainbow Oil Company and which showed good showings although never completed.

Rebuilding Under Way

The Standard Oil Company reports activity in its No. 125 in the Long Beach field for approximately 150 barrels of oil per day from a depth of 4000 feet.

Bearish News on Wheat Crop Brings Upturn

CHICAGO, Feb. 4. (P)—Facing commencement of the 1930 crop scare season, wheat jumped higher today, although suffering temporary setbacks to below any level since July 1 last. Damage to domestic winter wheat by persistent alternate freezing and thawing weather was reported today from Eastern Illinois, Western Indiana, and from Texas. Under such circumstances, broadened speculative buying of wheat future deliveries set in and the upward swing of the market was also given impetus action of the Farmers' National Grain Corporation in making big purchases of rural arrivals of wheat at various leading grain centers.

Chicago closing quotations on wheat were firm at nearly the day's top figures, 1¼c to 1¾c a bushel higher than yesterday's finish. Corn closed 1⅛@1¼c to 2¾c advanced, oats ⅛c to 1½c up, and provisions unchanged to a rise of 10c.

Melting away of snow covering from wide stretches of domestic winter wheat territory was reported today as disclosing crop damage, and this circumstance did much to outweigh indications that foreigners were active sellers here at times. Another decidedly stimulating influence toward higher prices came from reports showing that the farm co-operative organization backed by government funds had bought about 250 cars of wheat today and that at variance with earlier advices the organization was taking country run wheat without enforcing quality restrictions which would have apparently excluded large shipments en route to Minneapolis from rural points northwest. Meanwhile dispatches were also at hand indicating improved bull abroad for wheat from Canada and the United States with Argentine wheat in less request and United States wheat afloat the cheapest wheat available.

Corn values developed independent strength. Affected by temporary wheat weakness, May and July corn sold at a new low price record for the season but gains ensued. Oats followed corn.

Provisions were responsive to an increase of only 5,400,000 pounds in western lard stocks in the last month, compared with 44,200,000 pounds increase last year.

LOS ANGELES MARKET

CATTLE—Although receipts were not excessively large, trade was very dull and several loads were held over the market. Prices on the load sold were enough lower to make the two-day loss amount to 25@40c. The stock was fairly active and fully steady with an early clearance. Top steers, 1250 pounds, 10.50; bulk, 8.75@9.75; cutters, 6.50@7.50; bulk, 7.00@7.50; heifers, 8.50@9.50; cows, 6.50@7.50; bulls, 6.75@7.50; calves, 8.50@9.50; feeder steers, 11.50@12.00.

SOUTH ST. PAUL, Feb. 4.—Cattle, 2000; steady; steers and yearlings, 9.75@10.50; cows, 6.25@7.75; heifers, 8.50@9.75; cutter cows, 5.50@6.25; bulls, 8.50; calves, 3000; steady; top, 10.50; feeder steers, 9.50; calves, 3000; steady; light, 12.00.

Hogs, 11,000; around steady; top 10c for 160 to 200-pound weights; packing sows, 4.00@8.10.

Sheep, 3000; fairly active; little trading; buyers talking weak to lower with sellers asking fully steady or 11.50 for good to choice lambs.

KANSAS CITY, Feb. 4.—Hogs, 9000; slow and uneven, 10@15c higher; 160 to 250-pound averages, 10.35@10.45; packing sows, 8.00@8.40.

Cattle, 7000; very scarce, steady; fed steers, 14.00; mixed yearlings and heifers, 13.00; rearlings up to 13.00; medium bulls, 8.00@8.50. Vealers, 13.00@13.50.

Sheep, 7500; slow, steady to 15c lower; fed lambs, 11.25@11.75; shorn lambs, 11.25; wooled yearlings, weights, 10.00.

OMAHA, Feb. 4.—Hogs, 27,000; top, 10.25. Choice butchers mostly 10.10@10.15; packing sows, 8.25@8.50.

Cattle, 5500; fed steers and rearlings mostly 11.00@13.00; heifers mostly 9.75@11.00; bulk beef cows, 7.00@8.25; practical top vealers, 9.50; stockers and feeder steers mostly 10.50@11.50.

Sheep, 13,000; top, 12.00. Lambs, early sales, 11.50@11.75; bulk, 11.50@11.75; ewes, 5.50; feeding lambs, 10.50@11.00.

DENVER, Feb. 4.—Hogs, 2600; about steady; top, 10.25 for 200 pounds, 9.50@10.10; packing sows, 7.50@8.00.

Sheep, 2200; no early sales or bids, talking around steady with Monday's close; top, 12.00 for short clipped Monday fat to 92-pound fed lambs, 11.00; 98 to 99 pounds, 10.50@10.75; 114 pounds, 10.25; ewes 9.00.

Cattle, 800; dull and weak; rearlings, 10.00; cows, 6.75@7.50; heifers, 8.50@9.50; bulls, 6.75@7.75; stockers and feeders, 9.00@10.50.

PT. JOSEPH, Feb. 4.—Hogs, 4800; fairly active, 10@15c higher; 160 to 250 pounds, 10.30@10.45; sows, 8.25@8.50.

Sheep, 15,000; slow, few lands around 85-pound fed wooled lambs, 11.75; about steady; undertone weak on weightier kinds; nothing done on aged sheep or feeders.

Cattle, 1500; around steady; steers and rearlings, 10.75@12.00; heifers, 9.50@10.25. Cows, 6.50@8.00. Medium bulls, 7.50@8.50; vealers, 14.50. Stockers, 10.00.

PORTLAND, Feb. 4.—Cattle and calves, steers 25c lower. Bulls and vealers unevenly lower. Steady to 50 lower. Receipts, cattle, 50; calves, 10. Steers, 1100 to 1450: good, 9.50@10.00; calves, 10.00@11.50; vealers, 11.50@13.50.

Hogs, steady; receipts, 350.

Sheep, steady; receipts, 200.

Shipper sheep and lambs nominal; receipts, 100.

COFFEE MARKET

NEW YORK, Feb. 4. (P)—Coffee, spot steady; demand moderate; Rio No. 7, 19¾; Santos No. 4, 15.

Rio futures closed quiet; approximately 25,000 bags; March, 8.53; May, 8.05; July, 7.78; September, 7.63; December, 7.50.

Santos futures easy; approximately 54,000 bags; March, 13.00; May, 12.16; July, 11.58; September, 11.10; December, 10.96.

DRIED FRUITS

NEW YORK, Feb. 4. (P)—Dried fruit, steady.

DAILY EASTERN CITRUS MARKETS

(By the Associated Press.)

Carlot shipments of California citrus, compiled from railroad passing reports for the California Fruit Growers' Exchange, were announced as follows:

SOUTHERN CALIFORNIA	Oranges.	Lemons.
February 7	122	14
Season to date	4,333	777
Last season to date	5,748	2,720
CENTRAL CALIFORNIA		
February 7	0	0
Season to date	1,113	0
Last season to date	2,502	334
NORTHERN CALIFORNIA		
February 7	1	0
Season to date	274	11
Last season to date	478	0

The market for California oranges was unchanged and for lemons a little better in spots at eastern and middle western auction centers yesterday. California carlot sales totaled fifty-three cars of oranges and five cars of lemons.

Analysis of trading gave the following price range per box:

ORANGES	Graded above choice.	Choice.	Graded above choice.	Choice.
New York	3.00@6.15	3.25@4.85	4.60@6.20	4.35@4.75

Free lawn bowling, Exposition Park, daily after 1 p.m.

Southwest Museum exhibit, Highland Park, afternoon.

Los Angeles Museum exhibit, Exposition Park, 10 a.m. to 4:30 p.m.

Permanent California exhibit, State Exposition Building, Exposition Park, 10 a.m. to noon.

The Huntington Library and Art Gallery are open from 1:30 to 4:30 to those holding admission cards. Admission cards may be had by sending a stamped and self-addressed envelope to the Library in San Marino, Cal.

Wrestling, Olympic Auditorium, 8:30 p.m. Everett Marshall vs. Dr. Karl Sarpolis.

"TIMES" THEATER GUIDE

MOTION PICTURES

Boulevard, Wash. at Vera.—"Sunny Side Up," something about Cinderella, if we've forgotten. Done in a tenement, with Janet Gaynor and Charles Farrell singing of love.

Carthay Circle, Carthay Center.—"Devil May Care." The adventurous spirit of Sidonie Saxe is brought to light in Metro-Goldwyn's by an agreeable musical drama of love and bravery.

Criterion, 642 South Grand.—"Anna Christie." Greta Garbo speaks for the first time in the talkies, and in fine style. Clarence Brown has done some of his best directing.

Figueroa, 1256 Vine.—"The Trial of Donald Westhof." Drama about a weakling who is at his wit's end. Nothing to further him in German films.

Grauman's Chinese, 6922 Hollywood Boul.—"Romance." Lawrence Tibbett sings, a powerful impression of an actor, and a vaudeville romance of nearly great quality.

Grauman's Egyptian, 6708 Hollywood Boul.—"Romance of the Rio Grande." On the order of "Old Arizona." Well played by Warner Baxter and Mona Maris.

Loew's State, 7th & Hope.—"Hot Stuff." Dumb-bell time in the Navy as stage play. "Dubs," but something happened to it.

Million Dollar, Bdwy. at 3rd.—"Half Way to Heaven." Opens today.

Palace, Bdwy. bet. 5th & 6th.—"Hallelujah." A return of King Vidor's drama of the South, credited by some as one of the best pictures of the year.

Paramount, Hill at 6th.—"The Love Parade." Delightful satire in operetta form about the effects of love on royalty, cleverly directed Maurice Chevalier and Jeanette MacDonald.

Rita, 2200 Wilshire.—"Three Live Ghosts." A semi-comedy with Beryl Mercer giving a splendid character study.

R.K.O., Hill at 8th.—"Dark Streets." Gunmen and sacrifice with Jack Mulhall doing some convincing work in a dual role.

R.K.O., Orpheum, Bdwy. at 9th.—"Be-Bo-Baseball." Opens today.

Tower, Bdwy. at 9th.—"Tiger Rose." The Northwest Mounted again, but the Lewis Velez who gets her man might inland and thunder and whatnot.

Uptown, Western at 10th.—"Bursetta." Not rated. Artistic, Bdwy. nr. 9th.—"The Locked Door." Murder and mystery, marriage and custody all made rather thrilling by Rod La Rocque in the leading role.

Warners' Downtown, Hill at 7th.—"Men of the Gods." An unusual picture of Rex Ingram's making, relating fast moving drama in the continent. Bartholomew is a standout.

Warners' Hollywood, Hollywood Blvd. at Wilcox.—"The Second Floor Mystery." Interesting semi-mystery thriller. Basil Rathbone, Chester Morris and Jacqueline Logan.

Wilshire, Wilshire Boulevard at Beverly Drive.—"Not Quite Decent." Not much plot, but this Venetian operetta has Nancy Welford's personality and a good score, especially as sung by Al Shayne.

Wilson's Playhouse, San Gabriel.—"The Desert Song," annual business of the setting of Sigmund Romberg to its usual standard. Hall D. Wilson, Inc.

Wilson's, 6126 Hollywood Blvd.—"And So They Were Married." Parker's adventures in comedy of seventeenth century sophistication, delightfully done by members of the Jessie Bonstelle company.

Wilshire, Bdwy. at 8th.—"Give and Take." Big business in a canning factory, with Kidd and Dill supplying a lot and the whole including just so much.

Vine-street, 1615 Vine.—"Sun-Up." Came the dawn in the Tennessee mountains, bringing drama, tragedy and Lucille LaVerne in her perennial masterpiece.

VARIETIES

Burbank, 6th and Main.—Burlesque.

Follies, 4th and Main.—Burlesque.

CALIFORNIA CHRISTIAN STUDENTS REGISTERED

Sixty new students, some of them transfers from junior colleges and other institutions, but most of them freshmen, have been registered for the new semester at California Christian College. Classes open tomorrow at 8 a.m. Tomorrow evening faculty and student body will join in a welcome to all new students, in a social hour in Haris Hall parlor on the campus. The feature will be a debate between California Christian College and Pacific University, of Pacific Grove, Or., scheduled for 7:30 o'clock, on the subject: "That Foreign Indictment of American Culture is Justifiable." Christian College debaters, who will uphold the affirmative, are Herbert Minard, student body president, and Morris Schollenberger. William Ladd and Robert Oliver will represent Pacific.

ELGIN GROUP WILL MEET

The Elgin Association of California will celebrate its twenty-fifth anniversary Saturday the 15th inst. with an all-day picnic at Westlake Park, Mrs. E. M. Timeroff, president, announced yesterday. Following luncheon at 1 p.m. there will be an election of officers and a program of speaking and music.

VITAL RECORD

INTENTION TO MARRY

The following notices of intention to marry were issued yesterday. Name and age given.

ALLEN — KENNEDY, Merrl G. Allen, 21; Evelyn C. Kennedy, 20.

ALLEN—HENDERSON, William D. Allen, 23; Margaret M. Henderson, 18.

BAOLIN — PHILLIPS, Arthur Baolin, 44; Adena A. Phillips, 37.

BAKER — GRIFFIN, Joseph M. Baker, 26; Lillie Griffin, 24.

BANK — DAY, Robert C. Barr, 27; Josephine O. Day, 22.

BAUER — FERGUSON, Charles Bauer, 40; Violet M. Jamerson, 28.

BETZER—DOWNS, Raxford S. Betzer, 30; Ruth Downs, 24.

BLAND—KERMAN, Gordon R. Bland, 30; Margaret A. Kerman, 21.

BONANO — MIROLLA, John Bonano, Jr., 22; Josephine T. M. Mirolla, 22.

BORETHER—WINTER, Charles J. Boretner, 33; Ruth E. Winter, 23.

BROWN — HOLCOMBE, Samuel Brown, 23; Chloie E. Kimbrough, 20.

CABALLAS—AMARAL, Narciso Caballas, 28; Rosario Amaral, 18.

CONDON—WARSHER, Maurice G. Condon, 40; Anne E. Warsher, 38.

DAVIS — SCANLAN, Arie B. Davis, 26; Marjorie A. Scanlan, 19.

DAVISON — NAPPER, Warren T. Davison, 21; Mayo E. Napper, 19.

DE SILVA—HORNER, Harry J. De Silva, 19; Ida Horner, 16.

DICKSON—GROVE, Edmund Dickson, 23; Charlotte C. Grove, 20.

DOLLMEIER—DOLLMEIER, Carl G. Dodge, 21; Pera L. Fuller, 19.

ELLIOTT—CLEMENTS, Fred B. Elliott, 27; Ruth A. Clements, 26.

FANCY—TASTO, Ralph S. Fancy, 28; Letta M. Tasto, 26.

FEUER — CARLSON, Mandell Feuer, 30; Florence Carlson, 34.

GARDINER—LOYD, Cecil L. Gardiner, 19; Alice Loyd, 18.

GOLDEN—THOMPSON, William G. Golden, 32; Mayme Thompson, 36.

GRIFFITH—LOPEZ, Frank G. Griffith, 37; Maria Lopez, 33.

HAZELAR—POORE, Clarence R. Hazelip, 37; Dora E. Poore, 24.

HAUG—LUCKENBURGER, Idan J. Haug, 36; Clara Luckenburger, 30.

HOLFORD—McMILLAN, Orville T. Holford, 31; Esther M. McMillan, 21.

JONES — HALE, Edwin D. Jones, 24; Mildred E. Hash, 21.

JOHNSON—HAMILTON, Warren D. Johnson, 63; Esther M. Hamilton, 50.

KELLERMEYER — ALLISON, William P. Kellermeyer, 22; Jane Allison, 22.

KELLEY — CURTISS, Perry J. Kelley, 35; Bertie Curtiss, 40.

LEEP—NEALE, David V. Leep, 58; Helen M. Neale, 49.

LEWIS — JEFFRIES, Miler Lewis, Jr., 21; Thelma E. Jeffries, 16.

LOTINO — KENNELLY, John Lotino, 35; Rina Kennelly, 32.

MARTIN—STELLWAY, Albert Martin, 24; Edna S. Stellway, 18.

MARTINI—BECHTOLD, Jack V. Martini, 23; Beatrice Bechtold, 24.

MARTINEZ—ALVARADO, William Martinez, Jr., 21; Stella M. Alvarado, 20.

MAXICK-LAPIDUS, Louis H. Maxick, 25; Betty Lapidus, 20.

McINTYRE—DOOKE, Ira F. McIntyre, 28; Hazel I. Cooke, 19.

McKINNEY-McCLEAN, William L. McKinney, 21; Elizabeth F. MacLean, 18.

McWHIRTER — O'MARLEY, Pommie McWhirter, 26; Florence G. O'Marley, 19.

MEDICA — COLSTON, George M. Medica, 23; Mary E. Colston, 24.

MENDOZA — PERSELEZ, Fernando Mendoza, 24; Maria L. Perselez, 20.

NELSON—WEST, Alfred Nelson, 35; Margaret West, 36.

PAYNE — REEVE, John Payne, 49; Zenia M. Reeve, 40.

PHILLIPSON—BLIGHT, Harold Phillipson, 28; Eva M. Blight, 23.

PUGHE—McCORMICK, William R. Pughe, 29; Enid I. McCormick, 26.

REILLY — THOMAS, Lloyd T. Reilly, 27; Evelyn Thomas, 21.

REYNOLDS — DUMAS, Howard A. Reynolds, 23; Marjorie Dumas, 21.

RICHARDS—CLARK, Charles F. Richards, 22; Alice L. Carr, 19.

RHODEBECK — ENTZMINGER, John R. Rhodebeck, 59; Pay L. Entzminger, 32.

HOOPER. R. C. Hooper.

Remains at the chapel of W. A. Brown, 1815 South Flower street.

HUBBARD. Accidentally, February 3, Arthur and James Hubbard, beloved sons of Mr. and Mrs. Wesley R. Hubbard of 329 East Sixty-ninth street; loving brothers of Jennie Mae Hubbard, Marjorie M. and Wesley R. Hubbard, Jr.

Funeral services Thursday, February 6, at 2 p.m. at the Dolmer A. Smith Mortuary, 731 West Washington street.

HUTH. The funeral services of Mrs. Christina Huth will be held today at 1:30 p.m. from the chapel of W. A. Brown, 1815 South Flower street.

KARR. February 4, Clarence Karr.

Funeral notice later. Cunningham & O'Connor, directors.

KINGSBURY. The funeral services of Mrs. Lena M. Kingsbury will be held today at 9 a.m. at Sacred Heart Church. Interment, Calvary Cemetery. W. A. Brown, funeral director.

KUNTZ. Sarah Ellen Kuntz, loving mother of Mrs. D. O. Kimber and Mrs. W. E. Bradley of Los Angeles, W. F. Kuntz of Ramona, Cal., and George A. Kuntz of Des Moines, Iowa.

Services will be held Thursday at 2 p.m. from Ruppe Mortuary, 950 West Washington street. Interment, Hollywood Cemetery.

LAKE. At 2510 Palm Drive, Frank Joseph Lake, beloved son of Mr. and Mrs. William A. Lake, and brother of Nell A. Lake, Mrs. Katherine Lake and Mrs. Margaret Summers.

Funeral services Thursday at 10 a.m. from the chapel of W. A. Brown, 1815 South Flower street.

LEITER. Melvin Vance Leiter.

Remains at the chapel of W. A. Brown, 1815 South Flower street.

LLOYD. February 1, Alfred E. Lloyd, beloved father of Vernon and Albert Lloyd; son of Mrs. Samuel Hartley of Portland, Or., and brother of Mrs. Lloyd and Mrs. Amelia Foster.

Funeral services today at 2 o'clock in the chapel of Godsen & Martinson, 825 West Washington street. Interment, Inglewood Mausoleum.

LOCKEN. Willie May, of 271 East Forty-second street, mother of Ruth Rosalie Locken and Mrs. Lockey of Los Angeles and Sullial Locker, U.S.N., and grandmother of Dick and Donald Rosalie.

Funeral Thursday at 1 p.m. from the chapel of Godsen & Martinson, 825 West Washington street. Interment, Inglewood Mausoleum.

MITCHELL. January 3, William A. Mitchell, husband of Ruth Mitchell and father of Esther Mitchell Francis and Ruth Mitchell Armstrong.

Services Thursday at 12 noon at the Little Church of the Flowers, Forest Lawn Cemetery. Pierce Brothers, directors.

MOODY. Oliver Edwin Moody of 249 Euclid avenue, Santa Monica, formerly of Decatur, Ill., devoted husband of Evelyn Moody, and father of Oma Moody Lawrence of Chicago and Edwin Thomas of Los Angeles. Mr. Moody also leaves four sisters and two brothers.

Funeral services will be held Wednesday at 1:30 p.m. from the Methodist Church, Santa Monica. Interment will take place in Chicago. (St. Louis and Chicago papers please copy.)

MOORE. Funeral services for Isabelle Gallagher Moore will be held today at 3 p.m. from the chapel of W. A. Brown & Co., 630 Venice Boulevard.

MORSE. At Santa Monica, February 4, Lillian Lee, wife of Hudson J. Morse. Remains at Brasee Brothers. Notice of funeral later.

NEELY. The funeral services of Mrs. Mary Ann Neely will be held today at 10 a.m. from the chapel of W. A. Brown, 1815 South Flower street.

NYE. At 1017 West Twenty-fifth street, February 4, Mrs. Harriet F. Nye, widow of the late Charles H. Nye; mother of William H. Nye of Covina and Mrs. Wm. Nye of Los Angeles.

Remains at Brasee Brothers. Notice of funeral later.

O'BRIEN. John A. O'Brien, aged 69 years, formerly of Danville, Ill.

Remains at The White Company, 604 West Washington street. Notice of funeral later.

O'CONNOR. At 822 East Forty-sixth street, February 3, Hattie, beloved wife of William O'Connor and sister of Mrs. Elmer Dowler and Leo Johns.

Funeral from the chapel of Sharp & O'Connor, 931 Venice Boulevard, Thursday, February 6, at 9 a.m. Requiem mass at St. Patrick's Church

CITY NEWS—EDITORIAL—SOCIETY—THE DRAMA

WATER GROUPS TO MEET TODAY

Plan Harmony on Boulder Dam Will be Aim

Committee Appointed for Metropolitan Board

Compromise With Imperial Valley Foreseen

In an effort to reach some sort of agreement as to the allocation between them of the waters of the Colorado River, committees representing the Imperial Valley Irrigation District and the Metropolitan Water District will meet today in Los Angeles.

The meeting was called at the request of the Imperial Valley people, who suggested that the Metropolitan district appoint a committee to confer with them before going to Reno where the adjourned Reno conference with Arizona and Nevada is to be resumed tomorrow. Chairman Scott of the Metropolitan board appointed the following committee to represent it at today's meeting: John C. Bullock, H. E. Workman of San Marino, Charles H. Toll and W. P. Whitsett. The Los Angeles Chamber of Commerce is to be asked to send a member. The committee will also go to Phoenix.

COMPROMISE SEEN

The difficulty between the two districts arises from the fact that the Imperial Valley and near-by agricultural interests are laying claim to a large part of the water of the Colorado River allocated to California, as against a clear title. The Metropolitan Water District must have 1,000,000 acre feet of water annually to supply Los Angeles and Southern California with water from the Colorado, its committee contends. Opposition has arisen in some quarters that a compromise between the two claims can be ironed out, with each district getting a part.

The conference at Reno was occasioned partly by the California Supreme Court ruling to settle their internal differences. An adjournment was taken last today at Phoenix and a request until tomorrow to enable Californians to come to Reno and talk it over.

CRITICISM VOICED

At a meeting of the board of directors of the Metropolitan Water District yesterday Director Hutton of San Marino indicated his impatience with the commission actions in California on the Colorado River, by suggesting that Californians should come to some agreement among themselves before they ask and permit the Governor to appoint an impartial commission to settle the problem. He felt that such a commission is too much influenced by what he termed "local interests." He also declared that the commission should reach a settlement with Arizona and Nevada and then take up local troubles.

"Before the Metropolitan district is organized," he said, "we should as well tell the commission that we get 1200 second feet from the Colorado river will not be interested in building the aqueduct."

FUTURE EXPLAINED

A. J. Adams, another director, declared that the news dispatches from the Imperial Valley did not accurately reflect the trend in the line of settlement.

Mayor Whitsett outlined the plan advocated by himself and others at the Reno conference as being a plea for unity of action by the members of the western states interested in an amicable settlement of the Boulder Dam controversy.

Directors from the Chuckawalla Valley and Palo Verde Mesa districts were on hand and expressed themselves as being in favor of the plan, but of the opinion that the benefits of the project should be confined to the districts immediately adjacent to the Colorado River.

Chairman Scott and his staff will go to Riverside today to make arrangements for the opening of the conference there tomorrow.

Counties to Aid State's Bureau

Appointment of cheeses for six months by the Police Commission, according to Fred A. Knowles, chief of the Central Station, will enable the State in inaugurating a bureau of statistics in connection with arrests and jail records provided for at the last session of the State Legislature.

Knowles has been instrumental in getting the Los Angeles station up to its present standard. The move was granted upon recommendation of Chief Horton, who said it is a feather in the cap of Los Angeles to be recognized as a leader in such work.

MYSTERY VEILS WITHERS PAIR

Peaceful Annulment Program Foiled

Grant Withers and Loretta Young

AMICABLE annulment of the Arizona marriage of Grant Withers and Loretta Young, screen actors, has gone on the rocks and the young bride has disappeared from the home of her mother, it was learned last night.

Efforts of Mrs. George U. Belzer, mother of Loretta, to locate her daughter since a family conference Sunday on the annulment action, have proven futile and additional mystery was thrown about the whereabouts of the young couple when conflicting reports were made at their residence at the exclusive El Royale, 450 North Rossmore.

From the Belzer home it was learned that Loretta had been away for two days and had not communicated with her mother, although it was understood that she was to continue to make her home there until the pending court action on the recent marriage is completed.

The annulment suit was filed recently by the mother, and at that time it was reported that the newlyweds agreed to the plan, and would wait until the bride had reached 18 years of age.

This plan evidently was not favored by Withers, as he countered with a demurrer to the action, and, according to the step-father of Loretta, has taken his wife to a new residence.

Friends of the couple in film circles knew of the leasing of the apartment in El Royale by Withers shortly before the Sunday air trip to Yuma, Ariz., for the wedding. This information was also supplied to the mother, who made attempts to locate her daughter at the fashionable home.

The management of the apartments admitted last night that Withers had leased quarters, but was certain that the actor and his new wife had not appeared to take over the rooms.

This understanding was not agreed to by one of the attaches of the building, who blurted out the information that Grant Withers and his wife were tenants of El Royale. His unexpected announcement was disconcerting to the spokesman for the management, who showed some displeasure at the revelations. The attache was unable to complete his first remarks, but did let it be known that "Mr. and Mrs. Withers are out for the evening."

The annulment action will be prosecuted vigorously, according to the announcement of George Belzer, the step-father, who declared that efforts of himself and his wife conducted the work, placing 3000 children in good homes.

(Continued on Page 2, Column 6)

WATER POST NOMINATION TO HONNOLD

Mayor Picks Engineer to Take Place of Haynes on Metropolitan Board

Mayor Porter yesterday sent to the City Council the nomination of William L. Honnold as a Los Angeles member of the directorate of the Metropolitan Water District of Southern California to replace Dr. John R. Haynes, immediately upon receiving the resignation of Dr. Haynes. Dr. Haynes retains the presidency of the Board of Water and Power Commissioners. Thus the personnel of the city board and the water district board are divorced, in line with the expressed policy of the Mayor.

In his letter of resignation, and in the reply, Dr. Haynes and Mayor Porter exchanged compliments, Dr. Haynes expressing his opinion of the importance of the proposed water and power bond issues. Dr. Haynes said he believed the water bonds should be submitted to the people this spring, with the power bonds being submitted this autumn.

The new nominee's address is 236 St. Pierre Road. He is a mining engineer, having been director and superintendent of South African mines. In 1915 he was a director of the Belgian Relief Fund in London. He has been connected with the iron and copper mining industry. He is a trustee of Pomona College.

Societies Plan Benefit Dance

A dance for the benefit of the homeless children fund has been arranged for the night of the 18th inst. at Elks' Temple by the joint committee, Native Sons and Native Daughters of the Golden West. Prizes will be awarded for the various dances. Ira F. Gay's Orchestra will furnish the music.

This charity ball is an annual event of the Native Sons and Native Daughters of the Golden West. For eighteen years the organization has conducted the work, placing 3000 children in good homes.

NATIONS INVITED TO GAMES HERE

Sixty-five Countries Sent Olympic Contest Bids

Parchment Documents First Step Toward 1932 Event

State Department Helps in Seeking Many Entries

To sixty-five nations scattered over the globe went yesterday the formal invitation of Los Angeles to participate in the tenth Olympic Games, to be held here in 1932. Each invitation, on parchment, bore the engrossed address of the nation to which it was sent, the great seal of the Tenth Olympiad Committee and the signature of William May Garland, president of the committee. The documents are in English and are addressed in the same language. All go out through the mails in regular fashion. Each asks that return notification be made to Los Angeles of its acceptance.

The signing of the documents by Mr. Garland was devoid of ceremony; in fact, it was something of a task for him, and took several hours. In his private office he attended to the work and the seal in gold was duly attached. The actual mailing was done by assistants and the entire series went to Postmaster O'Brien, who personally looked after their transmission through the foreign mails to the heads of similar committees in each country addressed.

TEXT FORMAL

The text of the invitations is formal, engraved on copper and printed on parchment, with the device of the games here in gold over the arms of the United States in color.

Together with these formal invitations of the games committee have gone forward governmental invitations directed to the heads of the various nations, which are sent through official channels of diplomacy. Thus even more significance is given to the request for attendance and participation. The State Department at Washington carried out this feature.

The combination represents the first formal steps in the task of organizing and conducting the games here.

The honor was awarded Los Angeles in 1920, when Mr. Garland, who might well be called the father of the Olympics here, attended the games in Antwerp.

INVITATION ACCEPTED

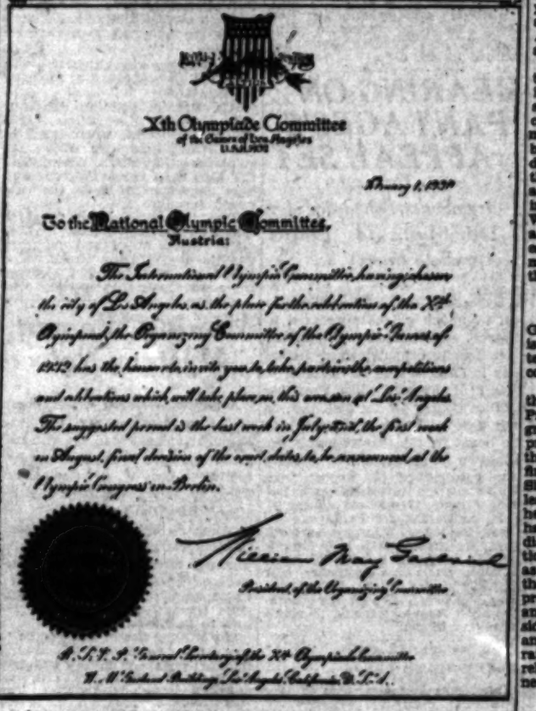
At that time he carried to the international committee invitations from the State, the county, the city and the various civic organizations here and of the State, asking that the 1924 series be held in Los Angeles. As the games for that year and for 1928 already had been awarded to Paris and Amsterdam, respectively, the committee unanimously voted the 1932 events to Los Angeles. Mr. Garland, it might be added, is not only president of the tenth Olympiad committee, but is also a member of the international Olympic committee named by Gov. Young to administer the money voted by the State Legislature in 1928 and approved by the electorate, for the financing of the contests two years hence.

The invitation suggests no actual date for the games, but indicates midsummer—June and July—as a suitable time. The rebuilding of the Coliseum for the purpose is assured through recent action by the City Council and the county, providing a total of 110,000 seats.

JUDGE HOLLZER GIVEN LAW INSTITUTE HONOR

Superior Judge Hollzer, who also is secretary of the State Judicial Council, yesterday received word of his election to life membership in the American Law Institute. The institute has as its particular objects the clarification and simplification of the law and its better adaptation to social needs. It also seeks to procure the better administration of justice and the encouragement of scholarly and scientific legal work.

World Asked to Send Its Athletes



Xth Olympiade Committee of the Games of Los Angeles U.S.A. 1932

January 1, 1930

To the National Olympic Committee, Austria:

The International Olympic Committee having chosen the city of Los Angeles as the place for the celebration of the Xth Olympiad, the Organizing Committee of the Olympic Games of 1932 has the honor to invite you to take part in the competitions and celebrations which will take place on the occasion of Los Angeles. The suggested period is the last week in July, the first week in August, final decision of the exact dates to be announced at the Olympic Congress in Berlin.

William May Garland
President of the Olympic Committee

B. S. F. S. "Council Secretary of the Xth Olympiad Committee
W. W. Garland Building, Los Angeles, California, U. S. A.

Olympic Invitations Signed

William May Garland, president of the organizing committee of the Tenth Olympiad Committee, signing invitations to foreign countries to participate in Los Angeles in 1932 and, below, photostatic copy of the invitation.

SCHENCK SEES FILM GAINS

Producer on Return from Tour Outlines Great Expansion Program of United Artists

A greater degree of financial security generally for the motion-picture industry as well as more work for picture players and studio workers is the forecast made for Hollywood by Joseph M. Schenck, president and chairman of the board of directors of United Artists Corporation, on his return last night from an absence of several months in the East and abroad.

"The production for United Artists studios will be on an unprecedented scale, striking out in new directions of screen entertainment and providing work for large casts of players and extras," Schenck declared in asserting that his company will spend more millions for sound features than in any previous year of its history.

JOSEPH SCHENCK

"A big outlay," he continued, "will also go toward studio improvements to meet changing conditions of synchronised films

(Continued on Page 2, Column 3)

Backfire Sets Plane Ablaze

A utility seaplane, which carries naval mail between the battle fleet, Los Angeles Harbor and San Diego, had a backfire while taking off for San Diego yesterday noon, which ignited the tail and one wing, but the blaze was extinguished without casualty.

Ensign D. A. Clousing, U.S.N.R., was pilot, and had with him several naval passengers. The disabled craft was towed to the carrier Lexington for repairs.

SALARY LEVY APPROVED

The Police Commission yesterday approved the application of the Los Angeles Fire and Police Protective Association for permission to assess members of the police and fire departments 1 per cent of all salaries received by each for a period of four days for additions to the fund maintained for sick or disabled fire and police officers not compensated by the city.

BUSINESS SOUND, SAYS RAIL HEAD

Outlook Favorable to Union Pacific President

Gray Tells Advertising Club of Expansion Plans

McGroarty Urges Support of Mission Play

Fundamentally there is nothing wrong with business in the United States, all the pessimistic diatribes of chronic calamity howlers and alarmists to the contrary notwithstanding, Carl R. Gray, president of the Union Pacific System, said substantially yesterday in an address to the Advertising Club at the Biltmore.

CARL R. GRAY

There are three classes of investors in stocks, he declared, namely: those who buy on margin and sustain losses; those who buy outright and are rewarded with dividends in spite of flurries, and those "who use stock-market losses as an alibi." Furthermore, according to the railroad executive, the Wall street debacle last fall was but a "hysteria of buying" and the losses incurred are not reflected in the mirror of business conditions throughout the country.

CONSUMPTION RISING

"The country is growing," said Gray, "consumption of commodities is increasing, and it is only a matter of time before we shall see a complete readjustment."

Gray chose as his subject, "How the Western Railroads Fit Into President Hoover's Prosperity Program." "He traced the history of prosperity in California, recalling that it rode into the State on the first train from the East in 1869. Since then, he pointed out, countless riches have found their way here, to be repaid in the form of harvests of crops and seas of oil dispatched to all parts of the nation. He referred to the railroads as large consumers, explaining that they use one-fourth of all the coal produced, 18 per cent of the lumber and 12 per cent of the fuel oil, besides an immense quantity of steel and other products. Thus do the railroads bear an extremely close relationship with the country's business.

EXPANSION TO GO ON

"President Hoover has not asked the nation's business heads to throw lavish sums about indiscriminately," he said, "but rather to continue with their policies of expansion. And that is precisely what most of the railroads are doing. We are striving to contribute to development.

"I doubt if there exists any place where despondency so prevails as in a fruitful territory that is without railroad transportation facilities. Its people are threatened with loss of what they have at their door. Fortunately, in the West we have a lot ahead. There are many developments still to come; railroads are alive to these and intend to carry on their programs of betterment. It requires only that managerial discretion shall be used as to where and how. We have a big job, and I believe every railroad man has an ambition to play a part.

"Inscribed on a wall of the inner court of the United States Chamber of Commerce in Washington is the wisdom of Daniel Webster. 'Let us develop the resources of our land,' it reads, 'call forth its powers, build up its institutions, promote all its great interests, and see whether we also, in our day and generation, may not perform something worthy to be remembered!' Speaking for the railroad men as a whole, I can say that we want to do something to be remembered."

McGROARTY SPEAKS

Gray was preceded by John Steven McGroarty, author of the Mission Play, who in a brief address urged the Advertising Club to foster the historic attraction as an advertising asset to California. On the 17th inst., he announced, the play will be given its 3000th performance, which will constitute a world record.

L. E. Seymour of the Peerless Laundry also spoke on the appreciation of California. Entertainment numbers were contributed by dancers and musicians of the Mission

(Continued on Page 2, Column 6)

The Lancer

by Harry Carr

SILENT witnesses are the burned-out brakes of the automobile that was wrecked on the Mt. San Antonio grade Sunday—killing five boys.

It is evident that these boys tried to go down the grade on high, stepping on the brakes when they came to the curves.

An infallible rule for driving on mountain roads is this:

Always come down hill in the same gear with which you climbed up hill.

THE DRAGON WALKS

I dare say that the dragon will not be wiggling in many more celebrations of Chinese New Year. The new generation of Chinese in California is too wise and too sophisticated. They do not seem to believe in much of anything—let alone dragon stories.

THE OLD SERVANTS

At that, Chinese house servants are coming back into vogue—especially in and around San Francisco.

These educated young sprigs of modern Chinatown have tried other jobs and have found that kitchen work pays the best with the least effort of anything they can find. Families who employ them tell me they are good; but they are not like the Chinese servants of the old days.

There will never again be servants like the Wongs and Ah Fongs of the old days. They were not kitchen help. They ruled the family; brought up the children and regulated the household with a gentle tyranny.

AH SING TO THE RESCUE

I knew one old-time family who went busted in the collapse of the boom of 1887. With tears the master of the house went to the kitchen to tell old Ah Sing that they could not afford to keep him any longer. The only reply was that Ah Sing put him out of the kitchen; he didn't allow anybody in his kitchen—fooling around.

The old fellow not only went on working for the family for nothing; but loaned the boss money enough to get started again.

"MY WORD GOOD"

I know another very striking case where a little boy had a Chinese nurse—a Chinese boy of 20. On occasion, Wing had promised his little charge something. The child's mother went back on the promise.

Wing not only quit the job but stole the child and refused to return him until the promise was fulfilled. "My word good," he said briefly to the chastened family.

TIN PAN ALLEY

The arrival of Oscar Straus to compose music for Hollywood talking pictures is an event of significance. It means—I hope—the collapse of the colony from Tin Pan Alley who have been making ditties for the talkies.

The phonograph, to a notable degree, improved the musical taste of America. The talkies can do more than that. The opportunities that present themselves to the talkies are staggering in their potentialities.

WHITEWASH REQUESTED

The Broadway Association yesterday appealed to the City Council to spray the walls of the buildings surrounding the old City Hall site with paint or whitewash, thus eliminating an unsightly condition. The Council referred the matter to the Bureau of Right of Way and Land.

BIRTH ANNIVERSARY JUST ANOTHER DAY TO AIRMAN

Col. Charles A. Lindbergh spent his twenty-eighth birthday anniversary yesterday just as he has spent the last eight years of his life—talking to men who fly and admiring things that fly.

No celebration of a birthday for Col. Lindbergh—that he made clear at noon with a casual, "Why, I haven't given it a thought."

And from the home of J. L. Maddux, where Col. and Mrs. Lindbergh are guests, last night it was reported nothing in the way of a special birthday cake or festivities was scheduled to make the day or evening any different from others in the life of the colonel.

COL. CHARLES A. LINDBERGH

For today he plans a busy time—more flying. He plans to leave this morning for the hills bordering Antelope Valley, where he and Hawley Bowlus again will go aloft in the little motorless sailplane which Bowlus flew to the American glider record of more than six hours and in which Col. and Mrs. Lindbergh won glider pilot licenses at San Diego last week.

And, ever practical so far as aviation is concerned, Col. Lindbergh, instead of making a birthday statement, explained that the loss of a wing tip while he was in the glider Monday really was nothing alarming.

"The ship's inherent stability is enough to make flying possible if both tips were removed," the colonel stated.

NOT IN DANGER

"As it is, the other aileron is reversible in action and I had all the control needed. Each time a glider lands on its single under skid it tips on one wing when it comes to a halt. The light material holding the tip in place probably received too great a strain and came loose.

"Mr. Bowlus expects to have the aileron repaired and we will continue our flights."

Col. Lindbergh remained at the Maddux home during the morning and part of the afternoon, but an evident desire to check up again on his and Mrs. Lindbergh's new Lockheed-Sirius monoplane at Burbank led him to visit the factory alone later in the day.

He did no flying, just talked to the men at the plant and looked his ship over; then returned to the city in preparation for today.

AIM SET HIGH

Although Col. Lindbergh said yesterday there "really is no occasion" for a statement about his reactions to recent aviation events,

(Continued on Page 2, Column 6)

TAXI WAR REACHES COURT

Red Top Accuses Yellow Cab Company of Plot to Wreck Business by Unfair Tactics

The price war among local taxicab companies reached Superior Court yesterday when the Red Top Cab Company sued the Yellow Cab Company for $400,000, asserting the defendants are using unfair and illegal means to prevent effective competition because of the lower rates of the plaintiff company.

The Red Top company which uses Ford cars, asks damages against the Yellow Cab Company, which uses a special heavier type car manufactured by General Motors, and names also as defendant, George Settle and Armour L. Phillips, husband of Clara Phillips, who is now serving a term in San Quentin for killing her love rival with a hammer.

It is asserted that Settle and Phillips are employed by the defendant company to embarrass and harass the Red Top company by making false and fraudulent representations to the State Corporation Commissioner to discourage the sale of stock. Plaintiffs also assert that there is an effort on the part of the Yellow Cab Company to undermine the morale of the plaintiff's employees by filing unnecessary and frivolous suits against the Red Top company and also to purchase fictitious and worthless claims against the plaintiff.

Bribery of employees also is charged, it being asserted there was an "espionage system" built up in the Red Top organization.

At a meeting of officers of the Yellow Cab Company, on January 6, last, it is asserted that inflammatory speeches against the plaintiff company were made, and that it was stated that the sum of $125,000 had been set aside to destroy the business of the Red Top company.

The suit was filed at the instance of Walter B. Allen, harbor commissioner, who also is president of the General Cab Company, owner of the Red Top Cab Company. Attorneys Woodruff, Musick and Hartke are representing the plaintiff. Jesse Robinson is secretary and general manager of the General Cab Company, and Elmer Robinson of San Francisco, is vice-president.

PEST GUARD STRENGTHENED

Aircraft Crossing Border from Mexico Will be Inspected at San Diego Under New Plan

Inspection by State horticultural authorities of all incoming aircraft operating between Mexican territory and Los Angeles hereafter will be made at a San Diego airport instead of at local fields, it was made known yesterday. The measure was approved and plans made to put it into immediate effect at a conference during the afternoon of State, county and Chamber of Commerce officials with representatives of aircraft companies in the office of County Horticultural Commissioner Ryan.

However, with the statement of A. C. Fleury, State senior quarantine supervisor, following his arrival from Sacramento to attend the meeting, that he will consent to the stationing of a State agricultural officer at Agua Caliente under certain conditions hope was expressed that it will be possible to eliminate the intermediate stop at San Diego. Co-operation with Federal customs officials is necessary to such an arrangement, Fleury said.

The meeting yesterday was called by Commissioner Ryan following the receipt of a letter from Charles W. Salter, assistant collector of customs, to the effect that he was in receipt of a letter from the Bureau of Customs at Washington stating that the new regulation is to be adopted. The letter stated that at a meeting of representatives of State and Federal agricultural officials the danger of permitting planes to fly direct from Agua Caliente to the interior of the State was stressed. It cited that farming areas are menaced by the possibility of pest-infected fruit being thrown overboard while en route here.

Resolutions were adopted recommending a change of inspection points by a recent convention of fruit growers and farmers at Sacramento and by the State Association of County Agricultural Commissioners.

Among those present yesterday were Dr. George P. Clements, man-

SECT MEMBERS REFUTE DABNEY

Fantastic-Titled Apostles of Mrs. Blackburn Talk

Plaintiff's Acceptance of Doctrines Described

Vision of Passing Angel Seen by Him Alone

Three defense witnesses, whose spiritual nom de plume, respectively, are "The Gravitation Upwards," "The Door Between Heaven and Earth" and "The Division Between Matter and Spirit," testified yesterday at the trial of May Otis Blackburn, religious leader charged in Superior Judge Fricke's court with grand theft.

All three, questioned by Defense Attorney Cochran, testified that their spiritual names were given them in "concords" established by Mrs. Blackburn. In brief, the remainder of their testimony was largely in contradiction of that given by Clifford Dabney, complaining witness, who asserted that he gave the woman church organizer $48,000 on her promise that she would reveal the secrets of the universe to him.

Walter Dingman—"The Gravitation Upwards"—recalled an incident, he said, when Dabney came to the headquarters of the Blackburn colony in the Santa Susana Hills with a complete ensemble of white, including shoes and socks, in a suitcase. Dingman declared that Dabney removed his clothing and, after carefully pressing the garments, put them on to go to a meeting. Other defense witnesses have testified the Dabney thought he had been transfigured into a divine being.

Walter Street — "The Door Between Heaven and Earth" — said Dabney once asserted that he could make the stars move and that his spirit had been taken on a trip through the solar system.

Claud Steffen—"The Division Between Matter and Spirit"—testified that once he and Dabney were walking together when the latter suddenly looked up into the air and said:

AIRPLANE, MAYBE

"Did you see that?"

"No, what was it?" Steffen testified he inquired.

"I just saw an angel fly by," was Dabney's answer, according to the witness.

Steffen's cross-examination by Dep. Dist.-Atty. Ferguson commenced shortly before court adjourned for the day.

ATTEMPT TO EVICT PAIR FROM HOME LAID TO TEN

Asserted to have attempted to evict Mr. and Mrs. H. D. Long from the house in which they were living at 1332 West Ninetieth street Monday evening, ten youths are scheduled to appear this morning before Justice of the Peace Carroll of Gardena on charges of disturbing the peace.

Deputy sheriffs from the Vermont-avenue sheriff's substation were summoned to the house by Long, who said the boys gained entrance by a ruse. The house, according to Deputy Sheriffs Darwin and Slattery, is owned by E. L. Smith, 317 North Laurel avenue, father of two of the boys, Julian Smith, 21 years of age, and Andy Smith, 16. The boys said the Longs were in arrears in their rent and that they went to the house to collect the rent or put the occupants out, the deputies reported.

Complaints charging disturbing the peace were issued against the two Smith boys and eight others, who gave their names as Leonard Crosby, 22 of 2951 East Olive street, Walnut Park; Gail Stewart, 16, of 3201 East Fifty-ninth street, Huntington Park; William Taylor, 19, of 6102 Maywood avenue, Huntington Park; Joseph Sarver, 19, of 2324 Olive street, Walnut Park; Bob Hunter, 20, of 6351 Middleton street, Huntington Park; Grant Edlefsen, 20, of 6317 Fishburn avenue, Bell; Raymond Kime, 18, of 7301 Marbriza street, Huntington Park, and Woodrow Knudtson, 17, of 2803 Hope street, Walnut Park.

Bail of $100 was set for Julian Smith and Crosby, each being more than 21. The others were released without bail pending their court appearance.

HEARING ON PANTAGES'S APPEAL SET

Arguments Scheduled for 13th Inst. in District Appellate Court

Indications that additional medical testimony will be introduced in support of Alexander Pantages's plea for freedom developed yesterday in Division One of the District Court of Appeals when Presiding Justice Conrey set the 13th inst. as the date on which arguments will be heard on the theater man's application for release on bail pending the outcome of his appeal from conviction for an attack upon Eunice Pringle, 17-year-old dancer.

In petitioning for Pantages's release, Pantages's attorneys set forth that the theater man is in serious danger of death because of heart trouble. It is also contended that Superior Judge Fricke, who denied two bail pleas, abused his discretionary power in refusing to admit Pantages to bail.

MRS. PANTAGES NOT PLANNING TO LEAVE

Mrs. Lois Pantages, wife of the theatrical magnate, yesterday denied to Mrs. E. M. Ladico, her probation officer, that she has any intention of leaving California or even Los Angeles while her husband is held in the County Jail.

Mrs. Ladico telephoned to ask her concerning an announcement made by Dist.-Atty. Fitts Monday night that Carmen Pantages, daughter of Mrs. Lois Pantages, has conferred with him about getting permission for her mother to go to Pueblo, Colo.

According to Mrs. Ladico, Mrs. Pantages asserted that she has no intention of leaving the city and stated that her daughter's interview with the District Attorney was on an entirely different matter.

Mrs. Pantages was granted probation after being convicted of manslaughter following an automobile accident causing the death of Joe Rokumoto, Japanese.

Los Angeles County Tax Near Bottom

Los Angeles is the second lowest California county in county tax rates for 1929-1930, it was revealed yesterday in a digest of county tax rates announced by the California Taxpayers' Association. This county has an inside rate of $1.374 and an outside rate of $1.574. These show an increase of 22.6 cents in inside and 20.6 cents in outside rates of the county over rates for 1928-1929.

Seventeen California counties show increases in their tax rates for the fiscal year 1929-1930 over the preceding year. The greatest increase is 62 cents in outside rates and 53 cents in inside rates, made by Lake county. Marin is second, with increases of 47 cents, inside, and 49 cents, outside of incorporated areas. Placer increased its outside rate 7 cents and decreased its inside rate 3 cents. El Dorado decreased 25 cents in outside rates and increased 49 cents in inside rates. Rates remained unchanged in Amador, Colusa, Orange, Plumas, Trinity and Tulare counties.

Decreases in both inside and outside county tax rates are shown by the following counties: Alpine, Butte, Contra Costa, Glenn, Humboldt, Imperial, Kern, Kings, Lassen, Mariposa, Merced, Modoc, Mono, Monterey, Riverside, San Bernardino, San Diego, San Francisco, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Solano, Sonoma, Sutter, Tehama, Tuolumne, Yolo and Yuba.

SCHENCK SEES FILMS GAINING

(Continued from First Page)

and this will involve labor, materials and the newest facilities."

Schenck confirmed reports that United Artists will reach out more definitely for the European markets. This program involves the construction of one of the largest picture houses in London, with a seating capacity of 4000, at a cost of $3,000,000. The property alone, he said, is worth $5,000,000, the improvement to cost $3,000,000. He said the film industry has not suffered from the recent stock crash either here or abroad.

The picture executive was accompanied to the Coast by Joseph H. Moskowitz, vice-president of the Art Cinema Corporation, a financing organization affiliated with the Schenck enterprises.

BABY FRAUD LAID TO WOMAN

Unique Furniture-Sale Plot Charged

If a person adopts a pretty girl baby, purchases $100 worth of baby furniture from the former guardians and then the former guardians regain possession of the child and refuse to give it up or return the money paid for the furniture, what should the other potential guardians do—prosecute, sell the furniture or adopt another baby?

This was the problem placed in the hands of Dep. Dist.-Atty. H. J. Scott and Marjorie Fairchild, District Attorney's investigator, yesterday by Mr. and Mrs. D. H. Volmer of Glendale, who charged that they had been defrauded of $100 while attempting to adopt a 9-month-old baby girl.

The trouble began, they said, when they advertised that they wished to adopt a baby girl. Through the advertisement Mr. and Mrs. Volmer told Scott, they met a Mrs. Herrera, who told them that her daughter had a baby girl that they might adopt. The daughter was seriously ill, Mrs. Herrera asserted to have said, and would welcome a chance to place the child with kind parents.

The Volmers then were permitted to take the baby home with them. The next day Mrs. Herrera returned and said that she would like to sell them the baby's furniture, according to the Volmers. The deal was closed and finally, Mrs. Herrera was permitted to take the child to see its mother once more before the adoption papers were signed.

The Volmers assert that this was the last they ever heard of the baby or their $100.

Mrs. Herrera and her daughter, Miss Margaret Knepper, of 1826 South Hope street, when taken to the District Attorney's office for questioning last night, denied that the baby is a blood relative and were noncommittal about the asserted furniture deal.

Both the mother and daughter said that the baby's name is Virginia Juanita Dean and that her parents live in Long Beach. The infant has been left in their care for some time, they assert. Mrs. Herrera declined to disclose the address of the infant's parents.

Dep. Dist.-Atty. Scott last night announced that he has not reached a decision as to what action will be taken in the matter.

Principals in Case
Margaret Knepper and
Virginia Juanita Dean

Missing Woman Mystery Solved

A city-wide search which, began at 2 p.m. yesterday, for Mrs. Jean Parquhar of Lakewood, O., who had failed to return to the home of her brother-in-law, W. H. Carter, 9127 North Stanley Drive, Beverly Hills, after leaving the house early in the morning to buy a railroad ticket, ended abruptly at 10:30 last night when the missing woman was found visiting friends two doors away. Mrs. Parquhar, who has been in Los Angeles three weeks, planned to return to Lakewood today.

She left the Carter home to go to the Santa Fe depot with several hundred dollars in money and $270 worth of traveler's checks in her purse to purchase the tickets. The Beverly Hills police broadcast the description of Mrs. Parquhar and made inquiries at all of the hospitals. Last night when Carter started to walk over to the police station he passed the home of King McCarthy, 135 North Stanley Drive, just as Mrs. Parquhar was coming out of the door.

Barber's Wife Denied Alimony

Eurette Leonard, beauty expert, may be able to make $40 a week at her trade, but she won't work in her husband's shop, she told Superior Judge Guerin in alimony court yesterday.

The husband, Monte Leonard, who says he is the first hairdresser to have bobbed Mary Pickford's hair, was sued for divorce. Because she was able-bodied and unincumbered Judge Guerin held she was not entitled to alimony.

"I will pay her $40 a week to work in my shop," Leonard offered.

But Mrs. Leonard said she'd rather work somewhere else.

MERCURY CAGE SQUAD PREPARES FOR GAMES

Coach Forrest Twogood is handling his Los Angeles Athletic Club basketball team some stiff practice sessions this week in preparation for a pair of tough games coming up on Friday and Saturday. The Mercuries meet the Pacific Coast Club at Long Beach Friday night in a scheduled A.A.U. game and then tackle Jim Kelley's De Paul University team from Chicago at the L. A. A. C. gym Saturday evening.

AUTHOR TOPIC OF LECTURE

"Ricardo Leon," a contemporary Spanish author, will be the subject of a free lecture in Spanish at the Central Library Friday evening at 8 o'clock, by Prof. S. L. Millard Rosenberg of U.C.L.A.

SERGEANT STOPS COUNCIL CLASH

No Blows Exchanged Before Colleagues Seize Burns and Williams

A clash which took Sergeant-at-Arms Daniels into the affray, occurred yesterday between Councilmen Burns and Williams while the Street Opening and Widening Committee was considering the Silver Lake Boulevard project. Willing hands separated the Councilmen before any blows were struck, so no damage was done.

The committee had before it the decision of the Superior Court throwing out the first assessment on the grounds it was spread in an arbitrary manner. The committee made no recommendation after having been informed by Deputy City Attorney Neal that it can direct a new assessment or order the proceedings abandoned.

REAL ESTATE TAX CHANGE ADVOCATED

National Realty Board Head Urges More Just Levy on Property

Reduction of building costs by standardization, economy in the laying out of subdivisions, and a comprehensive study of taxation were listed as three of the important matters that should engage the attention of real-estate brokers by Leonard P. Reaume of Detroit, the president of the National Association of Real Estate boards, speaking before members of the Los Angeles Realty Board yesterday.

Reaume's talk included basic reasons for the expected activity in real estate. One of these is the normal increase of population in the country each year, estimated at 1,500,000.

"That real estate is bearing far more than its rightful share of taxation has been our contention for years," he said. "Since there can be no reduction in the amount of money needed, there should be employed experts and economists to study the situation. This might well be done through a national association of property owners functioning through local realty boards and in turn with the national association."

Preceding his address Reaume, on behalf of individual members of the National Association of Real Estate boards, presented Harry H. Culver, immediate past president of the association, with a loving cup.

Park Gallery Displays Art

The Los Angeles Museum at Exposition Park is showing contemporary American paintings for the month of February. Such artists as George C. Ault, Vincent Canade, Bernard Karfiol, Anne Goldthwaite, Abraham Walkowits and Edward Bruce are included.

Water colors by John Whorf and Elisabeth Spalding are on exhibition in another gallery.

In the print rooms during this month are drawings and paintings by Federico Cantu and drawings by Mater Dominica Febringer.

PEST GUARDS STRENGTHENED

LOS FELIZ GROUP'S OFFICERS ELECTED

Officers and directors for 1930 were elected by the Los Feliz Improvement Association at the annual meeting Tuesday evening. The president is Roland Rich Woolley; first vice-president, John L. Bishop; treasurer, E. J. Herman; secretary, Mrs. Stella A. Griffiths, directors, John L. Bishop, Mrs. Ella M. Braddock, Harry A. Chamberlin, Norman Chandler, H. P. Claflin, J. Duncan Gleason, E. J. Herman, E. P. Leonard, Miss Jane A. Maxwell, Theodore A. Payne, H. A. Van Norman, Simpson M. Sinsabaugh, Joseph H. Stace, Arthur A. Webb, Mrs. Ben Wesley, Guy W. Finney, Ralph J. Scott, Earle C. Anthony, Clifford Gillespie, Dr. George Parrish, Maj. Rupert Hughes, Roland Rich Woolley, Dr. E. H. Schneider, Gordon Whitnall, Mrs. Mamie Wilson, Clifford J. Boyden and Stella A. Griffith. The association's 1930 program includes the beautification of the public parkway on both sides of Los Feliz Boulevard between Vermont avenue and Riverside Drive, in accordance with a plan of the City Reforestation Department.

GUNS IDENTIFIED IN BANK HOLD-UP

Evidence Hits Marsec as Eccentric Bandit

Witnesses Tell of Hideous Masks Worn in Raids

Suspect Accused of Using Stage "Prop" Pal

Two guns of an unusual type—a German Luger and a .22 automatic—may prove to be one of the strongest links in the chain of circumstantial evidence against Pete Marsec, accused eccentric bank bandit, on trial before Superior Judge McComb, it was disclosed yesterday.

The weapons, found in Marsec's possession when he was arrested recently, are the same type as those used during the robbery of a bank at Twenty-fifth street and Central avenue August 17, 1928, according to C. K. Eaton, bank clerk.

Eaton told in detail of how the bandit stood in front of him with a .22 caliber automatic pistol in one hand and with a German Luger in the other. The bandit, he said, wore a putty-colored mask, which covered the upper part of his face.

MEETS HIDEOUS MASK

Eaton also identified Marsec as the bandit by the peculiar shape of his jaw, a slight Scandinavian accent, and the quality of his voice.

A. Levinson, teller in the same bank, told the jury during the morning session of the trial how a bandit wearing a hideous mask met him in the bank shortly after he came to work and demanded money.

"I took one look at him," Levinson said, "and started to run for the janitor's room. The bandit followed, keeping his two guns trained on me."

Marsec is accused of obtaining $12,800 in this robbery single-handed. He also is charged with robbing another bank at 3412 South Hoover street March 20, 1927, in which $2400 was taken. Officers assert that in both instances Marsec gained entrance to the building through the roof during the night and hid in the loft until an opportunity to commit the robbery presented itself.

STAGE "PROPS" USED

According to H. S. G. McCartney, deputy District Attorney prosecuting the case, Marsec used a set of stage "props" in the $2400 robbery. A fake arm with a toy pistol in the hand was rigged up in the attic so that it could be caused to project through an opening in the wall, when the bandit pulled a rope.

This fake accomplice guarded the bank employees while the bandit obtained money and made his escape.

Marsec was arrested by Officers J. P. Quinn and S. T. Richardson at Sixteenth and Main streets recently, when he was seen carrying two suspicious-looking suit cases. The officers assert they found two revolvers with the serial numbers removed and several hideous masks similar to those used by the "prop" bandit, when they searched the luggage.

BIRTHDAY JUST ONE MORE DAY

(Continued from First Page)

he expects in this next year of his life to tap the secrets of the uppermost air currents.

He and Mrs. Lindbergh have specially fitted their new ship for high flying—to determine what aid the high transcontinental blasts can be to swifter commercial air transportation.

It is a fairly long call back to the days when Col. Lindbergh was a college boy on the campus at the University of Wisconsin; a college boy who, reports show, was not particularly interested in high marks but who liked to experiment and follow his own mechanical whims.

HIS EPIC FLIGHT

It was this pioneer spirit, subsequent events reveal, that led him to St. Louis, following his commercial army, and airmail training, to raise money for his Spirit of St. Louis monoplane. He had it built at San Diego and hopped to Roosevelt Field, N. Y., in two flights.

"Well, I'm off," the then Capt. Lindbergh casually observed early on that morning of May 20, 1927.

"I am Charles Lindbergh," he calmly told the vanguard of the frenzied mob that welcomed him and his little silver monoplane to Le Bourget Field, Paris, thirty-three hours and twenty-nine minutes later.

BUSINESS SOUND SAYS RAIL HEAD

(Continued from First Page)

Play. Dwight Baker served as chairman.

Unstinted praise of industrial activities in Los Angeles was voiced by President Gray at the conclusion of an inspection tour on which other Union Pacific executives escorted him yesterday morning. The party first inspected the company's properties and interurban bus lines, and then visited the new Ford plant near Long Beach. In the party were W. M. Jeffers, vice-president in charge of operations; R. E. Adams, vice-president in charge of purchases; J. L. Haugh, vice-president; F. H. Knickerbocker, general manager; R. B. Robertson, assistant traffic manager; E. C. Schmidt, director of news service; W. E. Rauch, industrial agent, and Frank Strong, industrial engineer.

MYSTERY VEILS WITHERS PAIR

(Continued from First Page)

to locate the couple have been unsuccessful.

"The apparent friendliness of Withers and Loretta toward the annulment proceedings," said Belzer, "was nothing but an attempt to fool Mrs. Belzer. They had that friendly talk of last Sunday just so they could disappear as they have done now."

Withers could not be located last night at any of his former addresses, and his friends had no information as to his whereabouts.

COUNTY AIR PLAN TO BE DISCUSSED

Proposed Landing Field at El Monte Will Come Up at Meeting Friday

Details of the proposed El Monte county airport will be discussed by members of the advisory committee on aeronautics of the County Regional Planning Commission at its meeting Friday at 2 p.m., Charles H. Diggs, a member of the commission, said yesterday. He announced that invitations have been given to aviators and groups interested in the selection of airport sites.

Mr. Diggs said he has received letters from Maj. Paul Ferrot, Lieut. Paul Richter and Commander N. M. Lyon, officials of the American Legion, criticizing the selection of the El Monte site and added that the commission will be glad to hear complaints at the Friday meeting.

Members of the advisory committee include Lieut. Paul Penland, Lieut. William J. Fox, Woodruff De Silva, Ethelbert Pavary, Maj. John Jeffers, Lieut. Eaton B. Koger, Lieutenant-Commander Earl Lange, Capt. E. E. McDonald, Lieut. Lawrence McNeil, Lieut. Phillip J. Meaney, Lieut. Donald Parkinson, Capt. Walter Parkins, Lieut.-Col. Roscoe Turner and Lieut. Duff Wilson. The meeting will be held in the assembly room of the Regional Planning Commission.

Coroner's Jury Finds Sandberg Accident Victim

A Coroner's jury yesterday found that Gus Sandberg, Los Angeles Coast League baseball player, victim of a gasoline explosion at his home last Sunday, came to his death through purely accidental circumstances. Sandberg suffered severe burns and died Monday at the California Lutheran Hospital.

M. J. Krug, former manager of the Angels, for which Sandberg was a catcher, was the principal witness at the inquest. He testified that he and Mrs. Krug had dinner at the Sandberg home, 3668 South Cimarron street, and that when they were about to leave they discovered the gasoline tank of their car was empty.

Krug stated that he was holding a match while Sandberg was under his car draining gasoline to put in the empty tank of the Krug machine when the explosion occurred. Sandberg was 34 years of age.

JUDGES INVITED TO DRUG PARLEY

Court Cooperation Needed for Narcotic War

State, County and City Group Host to Study Problems

Dope Traffic in Los Angeles Held at Low Ebb

Chief among many suggestions offered by State, county and city representatives assembled at Central Police Station yesterday noon for cooperative department efforts in the enforcement of the narcotic laws, was the proposal to gain the cooperation of the courts, the various officials announced at the conclusion of the conference.

With this end in view it was proposed to invite the judges of the municipal and Superior courts to attend a luncheon conclave some time next month. At this meeting, it is suggested, the judges will be given an opportunity to examine the problem of curtailing the dope traffic as they meet the various law-enforcement officers before being called up in legal clothing for court action.

MEETING IS SECOND

Second in importance, according to Chief of Detectives Taylor, was the suggestion that some effort be made to send the criminal addict to a prison rather than to the State Narcotic Hospital at Spadra. By criminal addict it was explained, the police mean addicts who have known records as burglars or bandits.

The meeting was the second held within the last week, and was called at the specific suggestion of Capt. Frank Head of the local branch of the narcotic division. Those who attended are President Thorpe of the Police Commission; Chief of Police Taylor, Captain of Detectives Seager, head of the police narcotic squad; Chief Investigator O'Brien of the District Attorney's office, Narcotic Board Attorney Friedlander, Deputy Attorney Van Buskirk, who prosecutes all narcotic cases in Superior Court; Inspectors Plank, O'Ferrall, Peterson and O'Neil of the State Narcotic Division, Capt. Brooks, head of the Sheriff's narcotic detail, County Probation Officer May, and all members of the police narcotic squad.

DOPE TRAFFIC LAW

According to Capt. Seager, dope traffic in the city is at the lowest it has been for many years. Capt. Brooks declared the same favorable condition exists in the county.

President Thorpe, speaking for the Police Commission, declared that this governing body of the police department will do its utmost to see that the police authorities will have every assistance in the way of funds and authority in their fight to rid the city of the narcotic evil.

INJURED WOMAN LIES ON STEPS

Invalid Husband Hears Her Fall During Night But Cannot Go to Aid

Stunned and helpless, Mrs. Mary Bell, 74 years of age, was found by neighbors yesterday as she lay on the doorsteps of her home at 1824 South Westmoreland avenue. Equally helpless to aid her, the husband, J. Edward Bell, an invalid, lay in bed in the house. He had heard the wife cry out as she fell off the steps during the night, but was unable to go to her aid. Neighbors discovered Mrs. Bell's plight at 4 a.m. and sent her to the Georgia-street Receiving Hospital, suffering shock, exposure and exhaustion.

DEPARTURE OF BRITAIN'S ENVOY NEAR

Consul Fisher Shifted to Naples, Italy, Shortly; Noseworthy Successor

Godfrey Fisher, for seven years British Consul for Los Angeles, yesterday announced his transfer to Naples, Italy, where he will join the staff of the Consulate-General in that city. Mr. Fisher said that he will leave for Italy some time early in March and that his successor will be R. L. Nosworthy.

"We will leave Los Angeles with mixed feelings," Mr. Fisher said yesterday. "Of course, we regret leaving our many friends here, but the new post will be a promotion."

Mr. Fisher assumed the post of Consul here July 1, 1923, after serving as Vice-Consul at Baltimore. He succeeded the late C. White Mortimer, who represented his government here for many years.

Mr. Fisher and Geraldine Mortimer were married here March 14, 1925, and the couple have twin daughters, Kathleen and Geraldine, born four years ago. During his term of office here Mr. Fisher has received many noted British visitors and both he and his wife have been prominent in social and civic affairs.

R. L. Nosworthy, Mr. Fisher's successor, is a member of the staff of the Consulate-General at Berlin. He previously was British Consul at Turin, Italy. Mr. Fisher said there will be no changes in the staff of the consulate here before the arrival of Mr. Nosworthy.

COUNCIL APPROVES MAPS

The assessment district maps for the installation of lighting appliances in Merton avenue from Eagle Rock Boulevard to Ellenwood Drive and in Fairfax avenue from Beverly to Wilshire boulevards were approved yesterday by the City Council.

REPRESENTATIVE OF ENGLAND PROMOTED

Godfrey Fisher

BOND ELECTION CALLED

The Council yesterday adopted the ordinance calling a bond election of $510,000 in the Mar Vista region to provide a complete water distributing system. The election will be held the 28th inst.

BORDER CORPSE STILL MYSTERY

Friends Fail to Identify it as Baumgarteker's

Note Hints Body May be That of New Orleans Youth

Buddy Said to Have Buried Him Near Yuma

Identification of the body of a man found in a shallow grave across the border from Yuma, Ariz., remained a deeper mystery yesterday after a personal friend and police officer declared positively that it is not Frank Baumgarteker, missing Los Angeles wine merchant.

The body was first believed to be that of W. Paul Loveland, missing Pasadena architect. While efforts were being made to complete this identification, it was then found to resemble in some particulars that of Baumgarteker, who disappeared November 25, last.

REPORT WIRED

When the body was finally removed to an American undertaking establishment in Yuma, after a five-day wait, it was declared that it was not Loveland. Yesterday Capt. Allen, one of the missing-persons detail, and Sergt. Nord of the police department, both of whom were personally acquainted with Baumgarteker, after viewing the body wired authorities here that it is not the missing vineyardist.

Possibility that the body may be that of William Chauvet of New Orleans, reported to have been shot while attempting a burglary in Yuma, and buried by his partner along the roadside, was expressed by authorities yesterday after receipt of a letter inclosing an anonymous communication.

SHOOTING RELATED

The letter and communication purporting to tell of the death and burial of Chauvet, came from Henry Chauvet, 1769 Julia street, New Orleans, father of the missing youth. The inclosed note, asserted to have been written by a friend of young Chauvet said: "We were buddies and was caught breaking into a store in a hick town and was shot at. Bill was hit. We made our getaway and on the road he died. I buried him along the road at night near Yuma, Aria."

Authorities at Yuma were notified of the receipt here of the letter, and also that Chauvet said that his son had been missing for some time and all he knew about him was that he had started for California.

OFFICER GETS PAIN IN NECK

"Who Shot Me?" He Roars; Federal Building Clerks All Look Innocent

"I've been shot," said Police Officer No. 691 as he appeared yesterday at the office of Assistant Custodian Davis of the Federal Building.

"Shot! With what? You look all right," responded Mr. Davis.

"Paper clips. One of them hit me on the neck."

As a result a vain search was made of various offices of the Federal Building, as the officer said he was standing on Temple street, across from that structure.

"If the government thinks it can hit a cop and get away with it, well,—" said the officer.

In the meantime, no paper wads or clips are being "shot" from Federal Building or City Hall windows.

COURT WILL SET CHARGE IN BIRD CASE

Prosecutor Asks Judge to Rule if Manslaughter or Murder Trial Due

The District Attorney's office has no new evidence against Owen R. Bird, wealthy sportsman accused of shooting Percival G. Watson, a friend, to death November 25, last. Dep. Dist.-Atty. Penney informed Municipal Judge Turney yesterday, Bird's second preliminary hearing on murder charges, reduced by Judge Ballard to manslaughter at the first hearing and subsequently dismissed in Superior Court in order that the murder charge might again be filed, was started yesterday.

By agreement between Penney and defense attorneys the transcript of testimony given at the first hearing on December 12, last, was submitted to Judge Turney for decision, which will be handed down tomorrow, as to whether it is sufficient to warrant a trial on the murder charge.

Watson died as a result of shots fired by Bird in the latter's home, 3514 Dahlia avenue. Following his arrest Bird declared he believed the revolver loaded with blank cartridges, police assert.

Butler Will Be Screen Speaker

In spite of the fact that Dr. Nicholas Murray Butler, president of Columbia University, will be some 3500 miles away, he will be seen and heard making an address to members of the Columbia alumni of Los Angeles at their annual banquet next Wednesday.

The talking picture will bring Dr. Butler before the alumni members because of his inability to come to Los Angeles for the banquet. The recording of Dr. Butler's address for this particular occasion was made possible through the efforts of John Boyce-Smith, vice-president of Inspiration Pictures Corporation, a graduate of Columbia.

The banquet is to be held at the Tec-Art-Studio in Hollywood, where a motion-picture set will be transformed into a specially designed banquet hall. Dr. Butler's address will be projected by portable reproducing equipment.

Close Near in Trio's Trial on Hold-up Charge

Closing arguments in the trial of Clara Bleich, Wilbur H. Fluke and Stanley G. Dearwester, charged with beating and robbing Charles C. Schwabe of $1 on December 17, 1929, will be heard in Superior Judge E. F. Brittan's court this morning.

Young Schwabe took the witness stand yesterday and testified that he took Mrs. Bleich to a bungalow in the 1600 block on Jefferson street and there was beaten and robbed by Fluke and Dearwester.

Mrs. Bleich was in court a year ago when her husband, Edward Bleich, was convicted of robbery and sentenced to Folsom prison. At that time the woman was released on probation.

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example, they should be religiously observed.

— Abraham Lincoln.

Today's Bible Text

Ye are the children of the prophets, and of the covenant which God made with our fathers, saying unto Abraham, And in thy seed shall all the kindreds of the earth be blessed.—Acts iii:25.

PEOPLE ARE LIVING

The death rate is about the only thing that is shrinking in Los Angeles. The ratio for the city last year was 9.8 for each thousand of population. This is less than the rate in any of the nation's big towns. In Boston it is 14.5 and in New York 12.77. The figure for Chicago is 11.08, which is less than the Coroner's bulletin might indicate.

IN BETTER HOMES

The average cost of 50,000 one-family homes in eighty-five American cities this year was slightly over $4900. As construction costs are less than last year this again proves that the average American family is pleasantly housed. Living conditions in the nation have been regularly improving. Uncle Sam's nephews are getting to be a two-garaged folk.

AFRICAN DINOSAURS

The skeleton of a dinosaur nearly forty feet long has just been unearthed in Northern Africa. It is figured that the animal had been dead more than 300,000 years, so that no odor was attached. But the interesting part is that the bones of these massive creatures have been recovered on practically all of the continents. They must have had all the world for a range and all of time to work in. For a sluggish beastie the old dinosaur covered a lot of ground.

PRACTICE OF POLITICS

The President's law-enforcement commission has presented a preliminary program, but has found Congress in no shape to receive it. The commission asks for a joint committee to handle the problems as a whole. They are entitled to this. But the politicians will not consent. There are Senators who do not really care a hoot about law enforcement. They want to talk politics. That is about all they are doing. They propose to keep it up. They prefer partisan advantage to the public good.

FARMS FOR NEGROES

The back-to-the-land movement for the colored brother contemplates the setting up of a lot of small farms in the Southern States. It is figured that with five or ten acres the average negro family could live in comfort and content. The drift of colored voters to the northern cities has created a few problems. There is the question of employment and there is also the matter of political alignment and activity. Politicians in the big cities do not hesitate to exploit the colored vote—if they can. In the Southland the dusky brothers have almost forgotten how to vote. They do not get much chance for practice. That is why sundry philanthropists are inclined to the belief that the negro would be less of an entanglement if he were staked out on a little farm of his own in the cotton belt.

SCIENCE TO THE RESCUE

That the saving of four lives by inhalator squads of the fire department in different parts of the city should have been reported in a single day indicates the advance of science in rescue work by artificial respiration.

In each case the lives saved had been menaced by pneumonia in advanced stages. In one case the squad labored tirelessly for more than seventeen days to save the life of a child before it was pronounced out of danger. In another instance ten days were required, while in another sixteen hours were sufficient and in the fourth but four.

Inhalators have been used less than ten years for life saving in this city. They superseded the old-fashioned pulmotor in department work seven years ago. When one reflects upon the thousands who have perished from pneumonia in former times simply for the lack of oxygen in highly congested lungs one feels inclined to the belief that science is, indeed, a great benefactor of mankind. In the case of the child over which the squad worked for more than seventeen days there seems little doubt that it would have succumbed under former methods of inducing artificial respiration, though both the old instrumental and manual systems have served very well in less advanced cases.

SUPREME COURT CHANGES

Burdened with the weight of years devoted to the public service and feeling the imperative need for rest and recuperation, William Howard Taft has handed his resignation to President Hoover, thus leaving vacant the high office of Chief Justice of the United States. After regretfully accepting the resignation, the President has appointed, pending confirmation by the Senate, which is practically assured, Charles Evans Hughes to fill the vacancy on the Supreme Court bench.

The loss to the nation of so profound and able a jurist as Mr. Taft must deeply impress not only every official and lawyer who has come into direct contact with him as Chief Justice of the highest court in the land, not only every legislator who remembers his conscientious devotion to the public weal during his four years' occupancy of the White House, but every citizen who recognizes how much such men contribute to the stability of the republic. Mr. Taft retires with the distinction of being the only American in the history of the country entitled to write before his name both ex-President of the United States and ex-Chief Justice of the Supreme Court.

Besides these two supreme positions William Howard Taft has undertaken many public duties since his admission to the Ohio bar in 1880. For three years he was judge of the Superior Court of Cincinnati; for two years he held the office of solicitor-general of the United States. In 1901 he was appointed first civil Governor of the Philippine Islands and five years later was sent to Cuba as a provisional Governor to adjust the insurrection there. In the four years preceding his elevation to the Presidency he held the important Cabinet post of Secretary of War; so that all in all this sterling American citizen has devoted more than thirty years of his active career to the service of the republic.

In whatever office the ex-Chief Justice found the nation required the benefit of his trained mentality and accumulated experience, on that particular duty he concentrated every ounce of energy he possessed, cheerily, unostentatiously and effectively. Being by profession a lawyer, it was as Chief Justice of the Supreme Court that his talents were displayed to the best advantage. But even his fine natural physique was strained to the utmost by the demands this unremitting labor made on the human machine. Today the nation anxiously peruses the reports of his physicians and prays that the long-needed rest may bring him a late Indian summer to enjoy in retrospect the fruits of his years of endeavor before he reaches the end of the trail.

Since the resignation of this great leader was inevitable, the nation heartily commends the fine judgment shown by the President in the choice of his successor. The mantle of William Howard Taft could have fallen on no more capable shoulders than those of Charles Evans Hughes. Since the days of John Marshall many famous legal lights have filled the seat of Chief Justice, but none, we venture to say, with a finer record of public service than the one who has just laid down the burden of office or the one who has just assumed that tremendous responsibility.

Mr. Hughes has long been in the public eye as a leading figure in many transactions connected with the administration of public affairs. Since he graduated with honors from the Harvard law school he has been associated with many important movements both national and international. He was elected for two terms Governor of the Empire State. From 1910 to 1916 he was an associate justice of the Supreme Court. He served for four years as Secretary of State. He did exceptionally meritorious work after his appointment by President Coolidge to the court of arbitration at The Hague. His later success as chairman of the American delegation to the sixth Pan-American Conference is fresh in the memory of all interested in the unity of American nations.

In his last position, when he was elected a judge of the World Court by the unanimous vote of all countries represented there, he played a leading part in advancing the cause of international understanding and world peace. And but for the treachery of Hiram Johnson in the critical election of 1916, which swung the California vote to the Democratic column, Charles Evans Hughes might have shared with William Howard Taft the distinction of filling the two highest offices of the republic, Chief Justice of the Supreme Court and President of the United States.

President Hoover's keen sense of values as shown in appointing Mr. Hughes to succeed Mr. Taft is of more than passing interest since before the close of his administration three more vacancies in the Supreme Court are likely to occur; and if President Hoover should be elected for a second term it is possible that, with the exception of Justice Stone, he will have the appointing of a whole new bench. Such a responsibility has never before fallen to the lot of an American citizen and the assurance that President Hoover will exercise that power wisely and carefully relieves the nation of any doubt that its Supreme Court will suffer any radical change in the character of its personnel.

The welfare and soundness of the republic rest pre-eminently on decisions handed down by the Supreme Court. Not even Congress or the Presidency has more power for good or ill over the destinies of this, the most influential nation in the world. The keeping of the Constitution, on which the whole structure of the republic is builded, is in the hands of the Supreme Court. Should a turn of the wheel of fate decree that a whole new bench be appointed during the administration of one President, it is well to know that that one President will be a man of the caliber and consistency of Herbert Hoover.

ADMIRAL OF ANTARCTICA

As a rear-admiral Explorer Byrd will be able to nose out most of the brigadier-generals in the matter of rank, but that phase doesn't interest him. The circumstance that Congress has been able to lay aside its bickering long enough to unanimously approve this advancement is a tribute to the upstanding worth of our glorious adventurer. No politician had the hardihood to either question or criticise.

The LEE SIDE o' LA
BY Lee Shippey

WHEN you see a show like "The Rogue Song," combining grand opera and color photography with motion pictures, it is hard to realize it was only thirty-three years ago that the first motion pictures were projected in Los Angeles.

They were shown in an empty storeroom opposite the old Hollenbeck Hotel on Spring street by a young man whose name was W. R. Humphries, but who, just to lend glamour to the enterprise, signed himself "W. Edison Humphries" on hotel registers and let it be whispered about that really he was the son of Thomas A. Edison. "The old man gave him that machine and kicked him out," the story went, "telling him to go West and make good."

"Then why does he sign himself Humphries?"

"Oh, that was his mother's maiden name."

And so every town through which he passed—and Humphries showed the first motion pictures in most of the cities of California—took a romantic interest in the undoubtedly clever young man who wore long hair and a cane and spoke with such filial pride of Mr. Edison, notwithstanding the reported kicking out.

First Pictures Projected Here

The pictures Humphries showed were the first advance from the old Edison "penny-arcade" pictures into which one dropped a coin while pressing his face against a pair of hooded magnifying glasses. They were only thirty-second flashes, as at that time no film longer than 150 feet was in use. One scene was of the New York fire department responding to a call, another was of a train making seventy miles an hour, another of flying birds. There were only a dozen thirty-second flashes, and the show, of course, had to last more than an hour, so the eloquence of Humphries had to fill the gaps. Before each flash was shown the spectators were told most eloquently just what they were to see—a most helpful plan, as often the picture projected afterward was so dim that the mental picture evoked by the lecturer was much clearer.

First Pictures With Sound

"I'm pretty sure I showed the first pictures with sound, too," says Humphries. "They were flashes of the inauguration of President McKinley. I had a phonograph mounted on a table on rollers behind the screen, and as a band marched across the screen a boy behind the screen pushed the table, and the phonograph played 'The Washington Post March.' It made a great impression when I told the crowd that it was only the beginning—that soon we would be giving them grand operas."

In those days there was no city ordinance to cover motion-picture shows, of course, and only the circus ordinance, which called for a license fee of $50 a day, seemed applicable. So Humphries sold a booklet for a dime and gave the show free. After establishing the show, Humphries sold out to the Talley Phonograph Company and sought greener pastures. He was only an adventuous boy then, more out for a lark than for profit.

Edison's Name the Sesame

The name of Edison was one to conjure with. Humphries never had any money when he reached a town, but always could get credit when he said that he never paid any bills till Thursday, as all accounts had to be submitted to Edison headquarters in New Jersey. "We're doing this more to advertise Mr. Edison's revolutionary invention than with any idea of making expenses," he would announce, "and so we get an expense voucher from headquarters every Thursday."

Those who recall the days of "penny arcades" will recall that some of the pictures shown were not at all puritanical. And one of the films Humphries had was of the "Little Egypt" dance. That was shown only on get-away night, and then only when it was necessary to provide get-away money. Then it was advertised—by confidential word of mouth—as a men-only show—and the hall would be packed at $1 a head.

"Men Only"

It was like the Main-street men-only shows of today—most disappointing from the standpoint of wickedness. But in San Jose Humphries was arrested for presenting a demoralizing show.

"This is a reflection on Mr. Edison," he declared, when brought into court. "I have brought the film with me to show there is nothing immoral about it, and also to show that it is copyrighted by the Edison Company. The librarian of Congress does not copyright immoral films, and you may be sure the entire legal staff of the Edison Company will be available to fight this case and to sue this city for damages for such a reflection on the high purposes of the company and Mr. Edison personally."

Such statements from "young Edison" were alarming. The judge and City Attorney held the film up to the light, saw the copyright stamp and the figures of dancers in perfectly proper poses and hastily dismissed the case.

Humphries might have stayed in the game and become one of the first motion-picture magnates, for he had ideas. By use of colored glass he threw colored pictures on the screen, for instance. But when he took his outfit into San Francisco's Chinatown to show the first motion pictures ever seen there he made his first false step. There was a riot and the machine was demolished and the gay young adventurer went out of business.

LETTERS TO The Times

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

These Panners

LOS ANGELES, Jan. 29.—[To the Editor of The Times:] J. M. Scanland may have had bad luck and he may not be so good at governing his own matter. His letter entitled, "These Editors," libels (oh, pardon me) Mr. Edward Bok, one of the surely honest editors of the old times when editors did not write the contents of their magazines, but bought it in the open market.

He cites another example of a magazine that "brazenly" returned an ordered story on the ground that it had "changed its policy." When the Crowell's took over Collier's Weekly Collier's had $1000 worth of my stuff on hand, for which they had paid me a C. L. A. $1000 honest dollars. They changed their policy and did not want my stuff. They returned it with a full release to me, including permission to resell, and requesting that I keep the change. (I did.)

C. B. LOOMIS.

A Quart a Day If . . .

GLENDORA, Jan. 28.—[To the Editor of The Times:] I have just read a letter in this morning's edition on "The Milk Question." Like the Subscriber, I, too, have wondered why we are not given the benefit of lower milk prices when we are told that the producers are throwing it away. I know of certain cities in the East that quote the market prices on milk as well as on butter and eggs. Why can't the dairies out here do the same thing?

In regard to the slogan, "A Quart of Milk a Day to Keep Fit," more people will enjoy physical fitness by this means if the prices on milk are lowered. I, like many others, would like to use more, but cannot afford it at the present price.

ANOTHER SUBSCRIBER.

Purpose of Imprisonment

SIERRA MADRE, Jan. 30.—[To the Editor of The Times:] In the controversy over the accuracy and usefulness of the San Quentin articles, I am for The Times. In fact, the admissions and comments of the prison authorities show that the story of the released prisoner is substantially correct and it tells things that the people of California are certainly entitled to know.

The Wednesday editorial of The Times puts the matter fairly and constructively. In spite of the human tendency toward "making some one suffer" for injuries received, the purpose of imprisonment should not be one of punishment as a measure of retaliation. That sort of thing never gets anyone anywhere. Discipline of the lawbreaker is properly for the purpose of making of him a law-abiding member of society. Of course, if methods can be devised by which he may make material amends for damage that he has caused, so much the better. That is, if society will recognize its own responsibility for developing conditions that will hold no incentive nor tendency to unsocial acts.

R. O. CAUKIN.

Purpose Evidently Fulfilled

LOS ANGELES, Jan. 21.—[To the Editor of The Times:] Allow me to say that I read the articles written in the Los Angeles Times recently by Prisoner XXXX with utter disgust. Now I ask you, do you really think that the knowledge of overcrowded conditions in our prisons will stay the hand of the hold-up man or terminate the "slicker-en-grease" plans of the shyster? Will they pause in their schemes to wait for less congested conditions in the places where they are likely to land? Or will they continue to think that the other fellow just wasn't quite smart enough? What said article is more apt to do is to set the peewee reformers to wagging.

The man complains about everything and closes his article by saying that he would do all he could in the future to avoid prisons. Is not that a confession that the system is after all highly effective? Could any form of punishment accomplish more?

O. H. W.

WHAT IS A TROJAN?

BY FRED HOGUE

The general conception of him is a 200-pound hunk of beef, with head screwed down so tightly to his chest that there is no neck for an opponent to tackle, with enough hair to mop up the kitchen linoleum, with undershot breast and shoulders that recall one of Tarzan's hairy apes, with massive hindquarters that wriggle like those of a Springer spaniel, and legs that the breeder of a thoroughbred Percheron would envy. I have still fresh in my memory the thunder of his hoofs when he charged across the turf of the Rose Bowl on New Year's Day and pitched some of the All-Americans on the Pittsburgh eleven clear up into the grand stand.

But now I learn that I am all wet. I have seen his statue of heroic size that is to adorn the Southern California campus on June 6, to commemorate the fiftieth anniversary of the founding of the University of Southern California.

At the unveiling of the clay model, that will be produced later in bronze, Dr. von Klein-Smid was there as master of ceremonies and I came away with the well-grounded suspicion that it was he and not Russ Saunders or Arbelbide who posed before Roger Noble Burnham, the sculptor, as a model for the Trojan.

I heard him assure some of the highly decorated hostesses that the statue was "lovely." But I am reserving my opinion until Howard Jones, the Southern California head coach, gives him the once-over.

Numbers of alumni were present, but the football squad was notable by its absence. I asked them if the figure typified their conception of a Trojan; they responded that it was "wonderful."

But I am still sitting in the grand stand watching the Thundering Herd perform on New Year's Day. The only one to whom I could liken that heroic figure was one of the yell leaders.

I asked Dr. von Klein-Smid if this statue, with the shoulders of Gene Tunney and the hips of Theda Bara, typified to him the Trojan of S. C. He replied that it typified the Trojan spirit; intrepid courage, charging forward to meet any opposition.

He told me, further, that the Trojan spirit of S. C. is not merely the spirit of the athletic squad, but of the whole university. The sculptor symbolized the Trojan as the alumni of the university desire that it should be symbolized; and it is the alumni who are paying for the statue.

Perhaps it typifies Dr. von Klein-Smid's idea of the Trojans. But it does not typify mine. I do not mean to be disrespectful; but a maxim from antiquity keeps running through my mind and will out: "All her geese are swans."

I have no quarrel with Roger Noble Burnham. Viewed as a work of art, his heroic figure typifies the Trojan of Homer. But it is the Paris who eloped with Helen, not the Trojan of S. C., who caused the Literary Digest to publish two pages of apology for naming an All-American team without including one member of the Trojan team of the University of Southern California.

Harry Carr first called them Trojans because they fought to the death. Now the University of Southern California seeks to typify them by a heroic figure that Howard Jones would not tolerate on the freshman squad. Burnham is a great sculptor, but the heroic figure that he has created is not a Trojan.

Since writing these observations I have received a visit from a member of S. C., who assures me that the name Trojan now covers the whole university and he has given me a copy of the Trojan creed. "I will never bring disgrace to Southern California, my university, by any unsportsmanlike act or dishonorable conduct.

"I will fight for the ideals and sacred things of Troy, both alone and with many; I will revere and obey its tradition and endeavor to inspire a like respect and reverence in others.

"I will ever remember that I am a Trojan and a keeper of the Trojan spirit, which is exemplified in the virtues of fidelity, ambition and courage."

OLD-AGE PENSIONS

California has been both highly praised and severely condemned for her bill on old-age pensions which went into effect in January. She is the ninth State to adopt a similar law, and according to Abraham Epstein, secretary of the American Association of Old Age Security, California's act represents the soundest of those yet passed. States which have some sort of pension law in effect are: California, Montana, Wisconsin. Those which have pension laws on their statute books are: Nevada, Utah, Colorado, Minnesota, Kentucky and Maryland. In most instances, stress is laid on assistance rather than support, with a minimum residence of fifteen years and the age at 70. It is estimated that more than half the civilized world is covered by some variety of old-age law for thirty-eight foreign countries, including Canada, have systems of state or national old-age pension or insurance plans, and a constantly increasing number of industrial organizations carry employees' pension plans.

F. H. H.

Born in February, you should choose an amethyst, the stone of sincerity, to wear for good luck, according to the old soothsayers, who also gave out the flower of the new month as the primrose, which stands for youthfulness.

W. B. J.

Earliest accounts of the still popular sport of yacht racing describe Grecian vessels, numbering 800, which were owned and raced by Ptolemy in 283 B.C.

The man who [illegible] the ideal woman [illegible] into consideration that [illegible] also be looking for [illegible] man, which is why they [illegible] meet.

WHAT OTHERS THINK ABOUT IT

WATCHED AND WARDED

(Baltimore Sun)

The suspicion that the Watch and Ward Society of Boston did not merely prosecute a Cambridge bookseller for selling a copy of D. H. Lawrence's "Lady Chatterly's Lover" but provided him first with a request for the book and then with a copy of it is not a new suspicion. Some days ago the Boston Transcript pointed to a series of remarkable coincidences. The bookseller did not keep the Lawrence novel in stock; when he was asked to supply one he explained he did not have a copy and did not know where to get one. A day later, however, "Lady Chatterly's Lover" was offered to him for purchase. Remembering his insistent patron, he bought the book and put it aside for that patron. The same day his prospective customer telephoned to inquire if the bookseller had found the book. The next day the purchaser appeared, bought the book and at once asked to have the "dirty" passages pointed out to him. This gentleman was, of course, the Watch and Ward Society's representative.

It may be, of course, that what happened was nothing more than a natural course of events entirely determined by chance. However that may be, it will be a serious thing for the Watch and Ward if any disclosure of facts bears out the suspicion. For if this was its method and if that method is approved, then there is nothing to prevent "planting" allegedly obscene books in any bookstore, or even of writing and printing them in order to plant them. This would confirm the yet larger suspicion widely felt: That with most guardians of the public morals who identify protection with suppression, the chief aim, interest and amusement are found not in the end of "protection" but in the act of suppression.

GREATER THAN THE MOTOR

(St. Louis Globe-Democrat)

When the motor industry gained the rank of the first industry of the United States after being classified as its second for several years, the change and its significance as an index of the life of the country became the subject of voluminous and often suggestive comment. But it seems that even the astonishing motor industry has been outstripped and that the very first place is now held by dairying, whose $3,000,000,000 worth of products, as valued at the farm, is increased to $4,000,000,000 in the increment added by the country's 4000 creameries, its 5000 cheese factories, its 300 condensing plants, and its many ice cream factories.

This $4,000,000,000 industry, compared with which the motor is a $3,500,000,000 one, creates more than a quarter of all the values on the farm, and its 60,000,000,000 tons of milk is worth more than the cotton, the wheat, the potato crops put together, and exceeds the world's tonnage in pig iron production.

COMPROMISE

(Macon Telegraph)

Couldn't the public make this sort of agreement with Mr. Borah: That it will pack up and go to jail if he will just hush?

WHERE CAN I LEARN

Mimeographing?

BY LOUISE L. TEMPLE

[Prepared in co-operation with the Los Angeles evening high schools. Questions concerning free evening classes will be answered if stamped addressed envelope is inclosed. Address Louise L. Temple, care of The Times.]

Full instruction and practice in mimeographing and other kinds of office work are given free by the Banning Evening High School, 1500 North Avalon Boulevard, Wilmington. The school is equipped with mimeograph and speedograph machines, a Burroughs banking machine and a complete educational file. This class meets on Wednesday evening.

Other commercial branches are also given free and students may choose just what they especially need. The classes in business English, shorthand and Spanish meet on Monday and Wednesday evenings, while typing and book-keeping come on Tuesday and Thursday evenings. Hours for all evening classes are 7 to 9 o'clock.

All classes are free and people of all ages are welcome.

Wool is the oldest fiber known in the manufacture of clothing, the Greeks having learned the art from the Egyptians, passing it down on to the Romans, who, in turn, introduced it into Britain.

W. B. J.

THE SONG PIRATE

By James J. Montague

The robin has his own clear song
To sing at eventide;
The grosbeak's carol, all day long,
Re-echoes far and wide;
The bluebird's softer, gentler note—
The loveliest of all—
Comes pouring from his little throat
From spring till frosty fall.
The mocking bird, with stealthy guile,
Just sits and listens all the while.

Deep hid among the moss-hung glades,
Where rustling zephyrs play,
He notes the varying tones and shades
Of every happy lay.
A carol here, a warble there,
He marks, with crafty art
As they drift in from everywhere,
And learns them all by heart.
And when the solos all are done
He sings them over, every one.

And every quaver, every trill
From lark or finch or wren,
Or from the mournful whippoorwill,
The rascal sings again.
And how the little pirate gloats
Because he makes the airs
That he has pilfered from their throats
Sound better far than theirs.
Yet somehow one condones a theft
When it is so adroit and deft.

(Copyright, 1930, by The Bell Syndicate, Inc.)

NOISES OF NIPPON

The Japanese metropolis of Osaka is said to have a population exceeding 2,500,000 souls and is further described as being one of the noisiest places on earth. The mixed nature of the traffic provides a medley of sounds that can be duplicated in few cities. The horns of the taxis and the gongs and whistles of the street cars are practically continuous. There are jazzy bands in nearly all restaurants and they can make Broadway seem like an entry to the graveyard. They have our English talkies there and at each house a lusty Jap shouts out the Japanese equivalent for the dialogue as it goes along. One rather gains the impression that the sons of Nippon like their noise noisy. It is all contrary to ancient impressions. Maybe this is another matter to be blamed upon the rising generation.

PEN POINTS

When law expresses majority opinion, the minority must travel, obey or nurse blisters.

Talkie of man defending his right of way: "What do you mean, you big—Hello, St. Peter."

The new Democratic party in India won't attract everybody. A lot of the natives have names.

How sad to grow old and learn that when knights inhabited the earth the knights also were inhabited.

The idea that Bacon wrote Shakespeare is absurd. Shakespeare wasn't famous enough to require a ghost writer.

But even though you try to be nonchalant and light a Murad you can't keep it up if the lighter won't work.

There are compensations. When money is tight, wives aren't so loose.

The wise British would grant the Filipino a tariff on rope and assure him immediate freedom in principle.

People quarrel during an election, but later they forget the bitterness and generously unite in giving the President advice.

Americanism: A willingness to co-operate loyally with the wisest leaders; a pleasant confidence that results in the world's leaders invariably thinking as you do.

Why shouldn't a man of 45 have a paunch? He is old enough to come to the front.

A hick town is a place where everybody in the audience wishes somebody would drown the brats in the front row.

It is unlawful to take the fleece of unborn lambs, but of course it's all right to issue a bond for unborn posterity.

A husband is an old stick who earns money so his wife can attend the movies and long for a husband like the hero.

Nature grows heavier for the winter, and doubtless America has the most moralists because she needs most.

Air travel is coming fast this time. When at last the railroads are taxed and starved to death there will be nobody to keep off the highways for bus lines.

"I feel confident that the barnacles on the grain-carrying ship will be unhorned," says Senator Nye. Attaboy, Gene! When you smell a mouse, nip it in the bud.

Correct this sentence: "He is his class in college," said the gossip, "but his wife never was anything about it."

The chronic borrower claims that it is possible for a man to be so close you can't touch him.

When there's the devil to pay the Satanic Majesty always seems to charge an exorbitant rate of interest.

The man who is looking for the ideal woman doesn't take into consideration that she may also be looking for the ideal man, which is why they never meet.

RIPPLING RHYMES by Walt Mason

THE ADVENTURER

Adventure doesn't always mean great doings in some distant scene, like shooting tigers from a tree, or chasing whales across the sea, or drifting in a plane alone, to find some land to try then unknown. We envy lads who live in towns, adorned in silks or hand-me-downs, who our rounds, from block to block, all regulated by the clock. In our adventures day by day, some of them have made my shack, which once was gray. There was a mortgage shivers down my back. Once paid it off on time that was majestic and sublime. from my care and keeping as divers tinhorn laws prevailed. That coin I sallied forth to win, and my adventures, week, as I ran down the bone, or failed to get it, with groan, would make a Nimrod hunter quail, as he pursued lion's trail. The stern in the snows, how nobly lonely he goes, where beat and blizzards roll, to his flag upon the Pole. is not obliged to raise a sand bucks in sixty days, or the home for which wrought, by hopes unborne fears distraught. At raised the needed cash, and that mortgage go to smash after months of toil and the home was mine, all debt. And such a thrill of knew as comes, in this world, to few. This is of a sort that may be with a snort by those who the plains and brake some kangaroos and snakes it's adventure just the truly wild and thrilling

THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Little colds may lead to serious ills. You can stop them with Creomulsion, an established medicine, pleasant to take. Creomulsion is a medical discovery with two actions; it soothes and heals the inflamed membranes and increases the body's resistance to disease germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

CREOMULSION RELIEVES COUGH FROM COLDS THAT HANG ON

Creomulsion contains, in addition to other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

POLICE BRIBERY CASE NEAR JURY

Fate of Three Officers Will Go to Panel Today

Arguments Will Continue as Court Reconvenes

Negro Patrolmen Accused of "Protection" Deals

The fate of M. B. Sheffield, Roscoe Washington and Richmond Dunn, colored police officers charged with bribery, will be placed in the hands of the jury in Superior Judge Wilson's court some time today, according to Dep. Dist.-Atty. Dennison who, with Dep. Dist.-Atty. MacKay, is prosecuting the case.

The entire day yesterday was spent in arguments presented by defense and prosecution attorneys. MacKay opened the argument for the prosecution. He was followed by William Christensen, attorney for Washington and Dunn. Tom White, representing Sheffield, then began his argument, which was unfinished when court adjourned last night.

Dennison will make the closing argument for the prosecution as soon as Attorney White finishes.

The trial of the three officers has been featured by numerous disclosures of the asserted workings of bootleg pay-off rings in the Central-avenue district. The three officers were tried once before on the bribery charge but the jury was unable to reach a verdict.

The complaint charges that they accepted money from a known bootlegger to refrain from arresting him on a charge of violating the Wright Act.

HEARING ON PORT PLEA CONDUCTED

Arguments Both for and Against Lines Change Raised Before Lanagan

Arguments both for and against the application of the Los Angeles Harbor Commission's request for a change in harbor lines along the northerly side of the West Basin were heard yesterday by Maj. W. H. Lanagan, United States district engineer, who will forward the testimony to the War Department at Washington for its decision.

The opposition was presented by representatives of the Wilmington Chamber of Commerce, on the ground that the extension of the pierhead lines from the present position will reduce the area of water in the West Basin and, therefore, limit activity of shipping in the Wilmington area in the future.

Harbor Engineer Nicholson represented Los Angeles at the hearing, which was conducted in the district engineer's offices in the Central Building, 108 West Sixth street. The plan submitted by Nicholson asks a revision of combined pierhead and bulkhead lines at the northern, or Wilmington, end of the West Basin, southerly of the existing lines, with two slips each 350 feet wide, extending northerly therefrom distances of approximately 1200 and 1529 feet, respectively.

Nicholson contended that the change, as sought, will provide frontage for the construction of piers of greater length for the accommodation of more ships per pier, while the protestants claimed that the change will eliminate space required for a turning basin in the north portion of the basin.

Police Pension Holder Asks to Return to Duty

Pensioned at his own request on September 13, 1927, after having served twenty years in the Los Angeles Police Department, Charles H. Jarvis, until recently chief of the private police of Warner Brothers, motion-picture company, yesterday filed with the Police Commission an application for his restoration to the department. The request was referred to the Civil Service Commission for a ruling.

When he retired Jarvis was a detective lieutenant drawing $250 a month, and his pension is half that amount.

The commission approved the applications of Capt. L. L. Oakley of Hollenbeck Heights division, who has served twenty-one years on the force, and Captain of Detectives A. J. Farrell of the San Pedro division, who has served twenty-two years, for retirement on pension, subject to approval of the Pension Commission.

Retirement of Patrolmen Harry E. Waterford and Wesley Austin on pension as the result of injuries received in the line of duty also was approved by the Police Commission.

ASSESSMENTS CONFIRMED

The City Council yesterday confirmed the assessments for the improvement of Verbena Drive at Cheremoya avenue. Appeals from the assessments for installation of sewer in Caledonia Way from Palmer Drive to Shasta Circle North will be heard this morning.

POWER LINE TAKES TOLL OF WORKERS

One City Employee Dies, Another Critically Hurt by Contact With Current

High-power electric lines caused the death of one man and probable fatal injuries to another yesterday.

A hob nail, according to police, formed the contact with a line carrying a heavy charge of electricity which resulted in the death of C. W. Kerr, 31 years of age, of 1611 West Sixty-fifth Place. Kerr was working on a high pole at Yucca and Cherokee streets. The nail in his shoe is said to have struck the power line. Kerr was instantly killed.

While repairing a feeder switch on an iron frame at Missouri and Cotner streets Albert Chaple, 24 years of age, of 5149 South Arlington avenue, came in contact with a power circuit. The force of the charge striking through his body hurled him six feet from the frame to the cement floor of the power station. Besides burns which may prove fatal Chaple suffered an injury to his back. He was taken to West Los Angeles Hospital for emergency treatment.

Both men, according to police reports, were employees of the Los Angeles Bureau of Power and Light.

Leigh Larson Isn't "He" But Notable "She"

Girls will be girls, even though their names may not seem to indicate it. Now, take a name like Leigh M. Larson, graduate research worker for the University of California. The Times on the 3rd inst. published an Associated Press dispatch from Berkeley relating that Leigh M. Larson found that the road runner traces its ancestry back 100,000 years to the Pleistocene Age. All would have ended well, only the item concluded with the statement that "Larson revealed that he found road-runner fossils near Los Angeles."

Leigh M. Larson is a girl. She graduated from the University of California at Los Angeles, and did graduate work at Berkeley. She is a former president of Epsilon Pi Alpha and a member of Sigma Xi.

Sounds formidable to read of a girl publishing a pamphlet entitled "The Osteology of the California Road Runner, Recent and Pleistocene." Well—

Miss Larson's betrothal party, announcing her engagement to Harry Dodson was a social event at the San Gabriel Country Club on December 28, 1929, duly recorded in The Times. Several other prenuptial parties have celebrated the romance. She is a daughter of Mr. and Mrs. Adolph Larson, Jr., of 1242 South Norton avenue, and a granddaughter of Adolph Larson, Sr., former president of the board of directors of California Lutheran Hospital.

Doheny Concern Offers to Settle Income Tax Suit

Because of an offered settlement trial of the government's suit against the Doheny Pacific Petroleum Company, seeking $1,100,000 additional income tax, was continued yesterday by United States District Judge James until next Tuesday. The action was brought by the Internal Revenue Bureau.

It was asserted that in 1919 and 1920 the Pan-American Petroleum Corporation transferred 55,000 shares of stock in that company to the Doheny Pacific, owned by Mr. and Mrs. Doheny and their son, now deceased, and J. C. Anderson. The company asserts the transfer was in the nature of a merger, not subject to tax, whereas the government says it was a sale and subject to income tax from the company holding the stock.

It was stated that an offer in settlement has been made by the company.

Shoe Company in New Store

The Davis Shoe Company, operating the Edwin Clapp Stores, has moved from their old location and officially opened their new store across the street at 647 South Hill street.

In the opinion of De Witt C. Davis, who has guided the destinies of the company through many years of business in Los Angeles, the coming year gives every promise of prosperity. The business has shown a steady and consistent growth and an expansion to outlying districts in the near future is planned.

The company, acting as sales agent for the Edwin Clapp shoes, also operates stores in San Francisco.

SOUND TRAIN IN CITY

The Publix sound train, now touring California, arrived in Los Angeles Monday and after stopping at the Paramount studios was driven to the City Hall, where an official greeting was extended by Mayor Porter. The train is locally under the supervision of the two Publix theaters, Paramount and United Artists, and will appear in front of these two theaters at various times during its stay in Los Angeles. It resembles a railroad train although operated as an automobile.

HEARING IN WATER BUREAU DISMISSALS KEPT SECRET

The sudden dismissal of Carl Chapin, head of the commercial division, and J. Hunter Clark, executive assistant to the general manager of the Bureau of Water and Power was the subject of a hearing at an executive session of the Board of Water and Power Commissioners yesterday. At the conclusion of the session it was announced that "there was nothing to give out."

Just what is at the bottom of the dismissal of the two men, whose services were terminated without warning last week by Chief Electrical Engineer Scattergood, was not apparent. The notice of termination of services merely stated in each case that "his own interests have made him neglectful of his duties in the department." Both men declare that they have excellent records with the departments, Chapin for seven years and Clark fourteen years. Both requested a hearing before the board, which is being granted.

Coulter Dry Goods Co. FOUNDED IN 1878

Seventh Street at Olive

Exceptional!

Men's Pajamas

Novelty allover sateen patterns that are most attractive and durable; made with English neck and in a great many designs that allow wide selection; pajamas selling ordinarily at $3.50. $2.85

AT GENUINE AND CONSIDERABLE SAVINGS!

(Second Floor—Coulter's)

Of Interest to Women

Society

by JUANA NEAL LEVY

One of the lovely affairs of the week honoring a popular bride-elect was given by Miss Nancy Adams, daughter of Mr. and Mrs. Frederic Adams of Franklin avenue, who entertained yesterday afternoon with a beautifully appointed tea and kitchen shower honoring Miss Cecelia De Mille, whose wedding with Francis Edgar Calvin is to be one of the brilliant events of Washington's Birthday, the ceremony taking place at 4 o'clock in St. Paul's Cathedral, for which invitations have just been issued by Mr. and Mrs. Cecil Blount De Mille, parents of the bride-elect. A yellow and white color scheme was effectively used in the decoration of the house and tea table and the guests included Mmes. F. Clinton Hutchins, James B. Austin, Joseph Harper, Percy Wilson, Lawrence C. Liggett, Wesley La Fever, Allen Miller, Kenneth Purdy, Carman Belknap, Fern Boyd Irwin, Charles Parr, Woodwirth B. Clum, Paul Gardner, Arthur G. King and the Misses Katherine De Miller, Rebecca Adams, Natalie Shenkelberger, Page Bradshaw, Frances Cunningham, Olive Grismer, Honor Higgins, Helen Jane Hillman, Nancy Hill, Rhoda Jones, Charlotte Leonard, Sheila Gerahty, Julia Faye, Virgia Volland, Gwendolyn Longyear, Prudence Woollett, Jane Woodin, Martha Woodin, Elisabeth Lewis, Patty Lighten, Ruth Moulton, Margarette Tuttle, Rowena Thorn, Elisabeth Saxe, Ruth Turnbull, Gladys Rosson, Marguerite Swope, Marjorie Marston, Irene Mayer, Edith Mayer, Helen McCartney, Helene Rosson, Octavia Ryus, Constance Simpson and the honoree.

Miss Adams is to be one of the bridal entourage.

Felicitations

Congratulations are being extended Mr. and Mrs. Henson Mason Garrett of Idella Rancho, San Luis Rey, over the arrival January 29 of a tiny son who is to be called Hoke. Mr. Garrett, who is the son of Mrs. Mary Elizabeth Shaw of Sea View Terrace, Santa Monica, was graduated from University of California at Berkeley, and afterward motored through Europe for eighteen months accompanying his mother.

Another little stranger who is being heartily welcomed is Gloria Elma Ralphs, tiny daughter of Mr. and Mrs. Elmer Ralphs, who arrived last Friday. Mrs. Ralphs was formerly Miss Gertrude Miller of Boston before her marriage to Mr. Ralphs a year ago. The Ralphs are building a lovely home in Nottingham avenue, Los Feliz Heights, which promises to be ready for occupancy about April 1.

Sunset Affair

One of the smart affairs of the week was the dinner party with which Mr. and Mrs. John J. Brought entertained last evening at their home, 449 South Berendo street, honoring their daughter and son-in-law, Mr. and Mrs. Stephen Metcalf, the affair preceding the musicale of the Macdowell Club, in the Indian Room at the Ambassador, to which the guests motored afterward.

Those included were Mr. and Mrs. Metcalf, Mr. and Mrs. J. Emerson Gee of Mexico, Mrs. C. E. Hutton, house guest of the hosts from Sioux Falls, S. D., and J. K. Hostetter of Portland, Or.

Mrs. Metcalf was Miss Katherine Brought before her marriage last year.

To Hawaii

Mr. and Mrs. Ralph F. Bagley of 606 North Hillcrest Drive, Beverly Hills, left aboard the S.S. City of Honolulu for a short cruise to Honolulu. After their return Mrs. Bagley and their two children will enjoy a few weeks' visit at Palm Springs.

Dinner Party

In honor of Mr. and Mrs. Homer Croy, a charmingly appointed dinner party was given Sunday evening at the Writer's Club in Hollywood by Mrs. Albert Beck Wensell, pink roses and delphinium being combined in the decorations. Covers were arranged for the hostess, honor guests, Mr. and Mrs. Sidney A. Temple, Dr. and Mrs. Ralph Miller, Mr. and Mrs. William Dellamores, Mr. and Mrs. Martin Justice, Mrs. Gibbs, Miss Neeta Marquis, H. Hopkins and A. S. Kesthelyi.

Honors Visitors

Miss Dorothy H. Martin of 1102 North Coronado street entertained Saturday afternoon with a surprise birthday party in honor of Miss Ida May De Vries, who with her sister, Miss Clarris De Vries, are visiting here from Chicago.

A St. Valentine's motif was charmingly carried out. Those enjoying the afternoon, included, the honor guest, Miss Clarris De Vries; Miss Eleanor Sandell, Miss Vera Wilson, Miss Goldie Heiser, Miss Churchille Bartling, Miss Marguerite Jordan, Miss Esther Holt, Miss Marie Harrell and the hostess.

Week-end Outing

Beta and Beta Delta chapters of Sigma Alpha Sorority enjoyed a delightful week-end outing at Hermosa Beach last week-end, the affair taking place at the home of one of the members, and Beta Delta chapter had a mock initiation of new members.

The members included were Mmes. Harriett Hamell, Harlene Pender, Thelma Lipscomb, Lucile Dudare, and Misses Gladys Wiethoff, Millie Merrill, Ina Mae Merrill, Dorothy Keefe, Poretta Fay, Agatha Fay, Doris Chandler, Gladys Duffield, Claudia Erickson, Ruby Nanney, Irma Mullen, Muriel Francis, Clover Baumstark and Madeline Nutting, while guests included Misses Mildred McGovern, Frances Connelly, Princessa Paige and Dorothy Payne.

ILLINOISANS WILL PICNIC

Celebrating Lincoln's birthday, the Illinois Society will hold an all-day picnic on the 12th inst., at Bixby Park, Long Beach, it is announced by F. Henry Necasek, president. In event of rain the affair will be postponed until the 19th inst.

JUNIOR COLLEGE PROUD OF HER

Annual Frolic Takes Place Tomorrow

[Ray Huff studios]

Miss Averie Allen

THE Pasadena Junior League is exceedingly proud of the fact that Miss Averie Allen, its former president, was unanimously elected regional director of Region 7 at the regional conference held in Seattle last month. Region 7 is made up of all the Western States and includes Hawaii. Miss Allen will go on to New York in May to represent the Pasadena Junior League at the national conference. Tomorrow evening the annual frolic of the Pasadena Junior League is to be given, the event this year being in the nature of a talkie by one of the stars of the screen and stage, taking place at Warner Brothers Hollywood Theater and followed by a supper dance at the Embassy Night Club and Montmartre.

Society of the Southland is turning out en masse to both of the enjoyable events.

Mrs. Leet Bissell is president of the Pasadena Junior League and with her efficient committees is planning many novel features for the entertainment of the guests.

Birth Control Advocate Talks to Educators

Mrs. Margaret Sanger, chairman of the Western States Conference on Birth Control and Population Problems, was guest and speaker yesterday at a luncheon meeting of the Twenty Club at the University Club. The club is a group of ministers representing all denominations and professors from local universities. Dr. George Preston Mains of Pasadena presided.

"The Legislative Aspects of Birth Control" was the subject of Mrs. Sanger's address. She contends that with the United States maintaining one of the highest maternity mortality rates of any country in the world and with more than 7,000,000 children under the age of 15 years engaged in gainful occupations, a modification of the Federal laws governing birth control is essential.

Mrs. Sanger has opened headquarters in the Biltmore for the birth control conference to be held here the 20th to 23rd inst.

ANNIVERSARY FETE SET

Observance of the six-month anniversary of the Hollywood Breakfast Club will take place Thursday morning at 8 o'clock at the Sunset Fields clubhouse, 4201 Angeles Mesa Drive, according to announcement yesterday by Nick I. Busch, president. "Wild West" entertainment will be provided by Jules Allen, Ken Maynard, Frank Gage, Al Hull, Arkansas Johnnie, Tom Murray and Jimmie Adams, following which the club members will visit the annual Los Angeles Small Homes Exposition at Leimert Park.

Chef Wyman's RECIPES

Every Tuesday and Friday at 2 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cookery in the lecture room of the Southwest Building, 130 South Broadway.

MOUSSE OF CAULIFLOWER

Trim a medium sized head of cauliflower, cover with boiling water and boil until tender, allow it to get cold, drain well, then rub through a fine sieve, melt two tablespoonfuls of butter in a saucepan, add to it the cauliflower puree and stir until heated. Season with salt, and white pepper, then add one-third of a cupful of white sauce to it, and cook for ten minutes, stirring frequently, beat the yolks of two eggs and gradually stir in, but do not allow to boil. Remove from the fire, beat the whites of two eggs until stiff and dry and stir into the mixture, butter small ramekin dishes and fill with the mixture, place in a baking pan, surround with hot water and bake in a medium oven for twenty minutes; remove from the oven, sprinkle with finely chopped parsley and serve.

CHEESE COLD SLAW

Take a small head of crisp cabbage, shred fine and mix with it six tablespoonfuls of grated cheese, place in a bowl one teaspoonful of salt, one teaspoonful of brown sugar, one-fourth of a teaspoonful of paprika, one tablespoonful of vinegar, one teaspoonful of French mustard, a few grains of cayenne pepper, beat all together, add one-half a cupful of sour cream, mix this with the cabbage and cheese, garnish with rings of pimiento and hearts of celery.

BOILED PEACH PUDDING

Three cupfuls of flour, one cupful of suet, two cupfuls of diced peaches, one-half a cupful of sugar, one teaspoonful of salt, chop the suet fine, sift the flour, salt and sugar together, then add the peaches to it, and the suet, and just enough of the peach syrup to make a stiff batter that can be easily stirred; oil a piece of cloth with melted butter, sprinkle with flour, and place the pudding in it, leaving plenty of room for it to swell, tie, drop into boiling water, and boil for three hours, serve hot with a lemon sauce.

VEAL KIDNEYS PROVENCALE

Place in a saucepan one tablespoonful of butter, two tablespoonfuls of flour and one teaspoonful of oil, a seasoning of salt, paprika and three finely chopped shallots or young onions, allow to cook until the onions are tender, but not brown; take two lamb kidneys, clean them, pour boiling water over them and allow to cook for five minutes. Remove from the water, cut into squares and add to the other ingredients, then add four tablespoonfuls of thick tomato puree and one-half a teaspoonful of lemon juice, if too much liquid remains, add a few dry bread crumbs, pour over toast and serve.

Mrs. Wyman does not reply to letters, but requests for recipes are answered in the department, PRACTICAL RECIPES, published every Friday.—(All rights to recipes reserved by A. L. Wyman.)

Your Baby and Mine

by MYRTLE MEYER ELDRED

SPANKING WON'T HELP MATTERS WHEN SCHEDULE NEEDS READJUSTMENT

Those of us who have turned the question of obedience and punishment over and over, so as to view it from every possible angle, know that we begin to progress as soon as we discard whipping or slapping as a means of enforcing obedience.

Feeling that spanking is valueless as a means of controlling children, we devise other ways to teach children that they must heed good and wise rules made by persons in authority over them.

With the small child there are so many, many things which arise in the day that unless the mother thinks clearly on this subject, she resorts to whipping simply because she knows nothing else to do. The following is a case in which it is clear that spanking in no way helps the situation and yet the mother has continued to use it, one cannot guess for what reason. Probably none, except that she felt she ought to do something.

This mother says: "Mrs. Eldred, I know you do not believe in spanking but how else would you treat the 2-year-old who refuses to take his nap? I talk to him and then I end up by a good spanking. It hurts me more than him, and then the same thing happens again. Is it true that spanking affects a child's mind?"

In this case the mother refuses to recognize that we cannot force a child to stay in any one stage of development. This child has grown out of the necessity for an afternoon nap, as some children do as early as 18 months. He cannot sleep. He isn't sleepy. No amount of spanking can force him to sleep under those circumstances. Now isn't it silly and foolish to use it?

TRY DIFFERENT NAP ARRANGEMENT

Instead, rearrange his day so as to take into account his greater wakefulness. Try several short rest periods during the day, so that the child never becomes overfatigued. Let him lie down with shoes off and listen to some pleasant music or play with some toy quietly about 11 a.m. After his lunch, when he is in a mood for quiet, put him in his bed, leave the blinds up, give him a toy, keep your eye on him and let him stay there quietly for a half to one hour, as long as he is happy.

Why consider this perfectly natural development a conscious effort of the child's to be naughty, an act demanding punishment? It isn't at all.

Unless the child is brutally beaten about the head, spanking in itself would have no effect on the mind, but rather on the child's spirit. It does happen that children "not quite bright," are difficult to manage and parents who lack understanding of their limitations beat them instead of trying to devise more progressive methods of helping them. Their dullness isn't the result of the spankings, but rather the reason why they are spanked.

We have a new leaflet, "An Analysis of Obedience and Punishment," which endeavors to clear up this puzzling subject. It may be obtained by any reader who sends a self-addressed and stamped envelope with her request for it to Myrtle Meyer Eldred, in care of the "Your Baby and Mine" department of this newspaper.

Mrs. Eldred will be glad to answer all questions pertaining to baking and children. A stamped and self-addressed envelope, forwarded to this office will bring a personal reply.

This department offers leaflets on weaning and feeding the child from 6 weeks to 6 years, prenatal care and diet for the nursing mother, constipation, eczema, colitis for the new baby, sleeping, walking, teething, thumb sucking, masturbation, bed wetting, bed wetting, training in sleepy habits, periods of nursing, cod liver oil, orange juice, hives, normal vomiting, refractory children, prune juice, lime water, rupture, styes and boils and cradle cap. Before asking a personal question about one of these subjects, it is better to send a self-addressed stamped envelope for the leaflet you need. If your particular problem is not covered by the above list, Mrs. Eldred will be glad to give you a personal reply.

MUSIC AND MAGIC TONIGHT

Fancy dancing, music and magic are announced as features of the entertainment arranged by the students of the Gordon High School, 1544 Laurel avenue, for tonight. The proceeds are to go to the athletic fund. Numbers announced include Cosmo Morgan, Jr., in feats of conjuring, the Rusha Trio, instrumental selections, fancy dancing and Greek poses.

DOCTORS ISSUE DIET WARNINGS

Too Strenuous Reducing Diets Lead to Serious Results

Statistics from all over the country show an alarming number of girls and women who are paying the penalty of reducing diets which are sponsored by ill-advised people. These slaves to their diet are suffering from many evils. Some have no resistance to the common cold, many have constipation and there are those who are in the first stages of tuberculosis.

Overweight should be avoided but the diet in normal cases should be complete. The system needs regularly proteins, roughage, water and vitamins. The foods which have these elements are meat, fish, eggs, leafy vegetables, fruit and milk.

In planning meals, desserts should not be overlooked. They fill an important place in the diet. Cakes, puddings, fruit pies, custards, ice cream and candy are a fitting climax to a balanced meal. Sugar sprinkled on cereals makes them more palatable and especially inviting to children.

Many cooks have discovered the value of an old rule to use sugar in seasoning vegetables. Carrots, parsnips, tomatoes, peas and cabbage, which are rich in nourishment, are much improved in color and flavor by adding a dash of sugar during the cooking process.

It does not pay to risk your health by denying yourself necessary food in an effort to reduce your weight to compare with that of another. Health depends upon good foods and good foods can be made more appetizing with sugar. The Sugar Institute.

WHEN THE SANDMAN COMES

A Bedtime Story

by THORNTON W. BURGESS

THE CROWS MAKE A BRAVE SHOWING

Not often doth success attend
The ones who foolishly pretend.
—Old Mother Nature.

All talking at once, with Blacky at their head, the Crows of the Green Forest headed for Blacky's nest. It was Blacky's old nest—the one he and Mrs. Blacky had used in the spring. They were very much excited, were those Crows. They were just like a lot of boys starting out for a good time. They expected to have a good time. You see, Blacky had told them he had found Hooty the Owl and Mrs. Hooty in possession of that old nest. They were going to have a good time tormenting Hooty and Mrs. Hooty. At least, that is what they expected.

They were going to have a good time tomorrow, tormenting Hooty and Mrs. Hooty

As they drew near the tree in the Green Forest where that nest was hidden, Mrs. Blacky flew ahead. She wanted to be the first one there. As soon as she came in sight of that nest she began to caw at the top of her lungs, and it was a very angry caw; and all the other Crows knew that the Owls were still there. They spread out so as to form a circle around the tree and the nest; and every single Crow seemed to be trying to outscream every other Crow. Such a noise as they made. It didn't seem possible that they could caw any louder. Yet, when they got near enough to actually see Hooty and Mrs. Hooty, the noise was doubled. Yes, sir, it was doubled!

Now, Crows dearly love to pretend to be very brave. They like to show off in the presence of other Crows. Not one of those Crows alone would have gone anywhere near Hooty, but with so many together they felt very brave and they crowded right around that nest. Mrs. Hooty was sitting just back of it. Hooty was just at one side of it. Both were sitting very straight and glaring angrily at their tormentors. Their big, yellow eyes were very angry looking and very fierce looking. Every time a Crow looked straight at those eyes, he lost his courage. He didn't caw quite so loudly and he hurriedly got a little farther away. Hooty was hissing and snapping his bill and Mrs. Hooty was hissing and snapping her bill.

Now, although that was the nest of Blacky and Mrs. Blacky, you would have seen had you been there that they were very careful, very careful, indeed, to keep on the outside and not get too near the Owls. They urged the others in, but themselves were careful not to get within striking distance of either of those angry Owls. Some of the other older Crows followed their example. It was the younger Crows—the Crows of little experience—who tried to show off. These were the ones who darted in and threatened to pull out some of the feathers of Hooty and Mrs. Hooty, and boasted that they would peck their eyes out. Oh, they made a brave showing, did those young Crows!

Now, all the time Hooty and Mrs. Hooty were growing more and more angry. They were not in the least afraid of those Crows. They were annoyed, but not afraid. All the boasting of those young Crows had no effect, excepting to make them angry. It was astonishing to see them turn their heads. No Crow had a chance to steal up behind either one. Some of those young Crows tried it and were startled to find themselves looking straight into those fierce, yellow eyes. A lot of them drew themselves together and flew straight at Hooty in a black cloud. Hooty merely hissed more angrily than ever. And when the Crows reached him they merely separated, some going one side and some the other. They didn't have the courage to really attack.

Some of the older Crows who were watching sharply saw that Hooty was losing his temper very fast. Those Crows were wise old Crows. They had teased Owls before. They understood the signs. Very soon it would be safer to be somewhere else.

HOUSEHOLD SUGGESTIONS

Once and a Half

A frill for a dress will usually be the right fullness if the length of the material is measured that will be required when finished and then allow half as much again. This will make a nice frill, not too full.

Little Improvements

If the dinner is composed of leftovers and seems a bit skimpy, make hot biscuits or muffins and bring out a jar of home-made preserves and the skimpiness will never be noticed.

Report the Cause

If you know what caused the spots on the dress sent to the cleaner, it is well to inform the firm, so they will know exactly how to go about removing them without experimenting.

Hospital Preference proves the importance of Kotex to your health

Authorities in 85% of America's leading hospitals now insist upon Kotex absorbent ... proving its hygienic safety.

IF there is one time above all others when you want hygienic security, a feeling of safety and absolute comfort, it is when you are selecting sanitary protection. That is why you will appreciate the fact that America's great hospitals (85% of them) are now using Kotex absorbent.

Cellucotton—not cotton

Hospitals know this as Cellucotton absorbent wadding. It is *not* cotton, but a cellulose product which, for sanitary purposes, performs the same function as the softest of cotton, with 5 times the absorbency.

The marvelous absorbency of Cellucotton explains why Kotex *stays* soft longer. This protection gives greater safety and security because it absorbs away from the surface, not in just one particular spot.

Soft, lasting protection

It is well designed, it won't twist and bulge, it can't pack. Sometimes there is a deceptive softness about a pad which soon turns to chafing, uncomfortable stiffness after it's worn. That isn't true of Kotex, as you will soon discover when you try it.

Then, of course, there is the reason most women first began to use Kotex: it is disposable. Kotex Company, Chicago, Illinois.

KOTEX IS SOFT

1—Not a deceptive ... that soon packs into ... hardness. But a ... fleecy softness that ... hours.

2—*Safe, secure* ... mind at ease.

3—*Fastidious* ... of true daintiness.

4—*In hospitals* ... is the absorbent ... used by surgeons ... of the country's ... hospitals.

5—*Deodorizes*, ... roughly, by a special ...

Regular Kotex 45c per box. Kotex Super-Size 65c per box. At any drug, department store.

ADVICE

by DR. FRANK McCOY

Author of "The Fast Way to Health"

SAVING YOUR EYESIGHT

For thousands of years man roamed out of doors, using his eyes constantly, looking at things far and near. His eyes were in the manner given a constant and varied exercise and as a result the sight was good because of its active use and a consequent circulation of good blood.

Within recent years those individuals living in towns and cities lead a more unnatural existence, being cooped up inside of four walls most of the time so that the eyes do not have the opportunities of constantly changing focus. This leads to a never-ending strain that is responsible for much eye trouble.

The eye is the most delicate of all the exposed portions of the body and for this reason has been supplied by nature with eyelids, lashes and eyebrows to protect it. We have, especially in our industries, a serious hazard to the eyes from industrial accidents. It is estimated that in 1924 over 91,000 injuries to the eyes occurred with the loss of at least 3,000,000 working days.

It is very important after any injury to the eye to be sure that it receives the right care. Sometimes even a slight injury may lead on to the loss of sight. A total loss of sight is a very serious impairment and, even when protected by a good insurance policy, the eye cannot be replaced nor the sense of pleasure which the eye gave.

There have been some steps to prevent unnecessary eye hazards, such as having the worker wear a helmet with goggles if he is working with very hot or corrosive fluids; having him wear unbreakable goggles if he is in a trade where particles of hard substances are scattered about. Most of the latest factories are also designed to give the best light and the one most likely to leave the eyes rested.

Serious injuries to the eye are particularly plentiful in steel and iron industries. Workers on buildings are endangered by bits of stone, cement, wood and metal which are always flying about where much construction is going on. Tearing down is even more dangerous to the eye than building. Those who polish or use turning lathes may have small particles whirl into the eyes. Farmers may suffer from injuries from being struck by branches or from insect bites, or from particles of rocks and clods. The farmer is all the more likely to have serious eye complications because he is not near a doctor and neglects his eyes rather than his work.

The most common of the minor eye accidents is the entrance of small particles, which may cause great pain and even infection. Such objects should be removed in a clean and careful way. In treating the minor eye injuries it is always safe to wash the eye with running water. An excellent way of doing this is to hold the eye over a drinking fountain and let the water rush up into it. This applies both for particles in the eye and for burns from acids and alkalies. After the water treatment it is always safest to take no chances with anything so valuable as the eye, but to take the patient to a good doctor. Do not let anyone whose hands are soiled with work touch the eye.

VICTIM OF RAID ACCUSES POLICE

Women Charges Officers Demanded Money

Says They Searched House Without Warrant

Complainant Was Backer of Mayor Porter

Charges that officers of the University division vice squad invaded her home at 646 West Fifteenth street without a warrant, seized what she had in her possession for medical purposes, attempted to counsel her to provide $40 and then booked her under the Wright Act were made to President Thorpe of the Police Commission yesterday by Mrs. Florence E. Gilmour, former supporter of Mayor Porter and a leading member of the women's division in his campaign headquarters.

Her complaint was referred to Commissioners Drake and Coe, composing the complaints committee.

MEETS STRANGER

According to her statement to Thorpe, she became involved with the officers as the result of making the acquaintance of an elderly man named Hefley while riding on an [illegible] street car December 26, last. She said he had remarked on the [illegible] weather, then informed her he was to participate in a reality deal in Santa Monica, but was afraid he was going to be "bunooed." He asked her advice and arranged to call at her home next day, she said. Next day, she informed Thorpe, she complained that he was ill and asked if she had any liquor. She said she did not, but that she had some wine for medical purposes. She admitted giving him a part of the wine, and on being accused by Thorpe said she had given gallons in the house without a permit.

OFFICERS ENTER

She said Officers Payne and [illegible], from the University division, entered her home, one by the front and one by the back door, and despite her protests searched the premises. Later, she said, Captain of the vice squad joined the other two officers and in a grip found a Christmas card from Mayor Porter, also letters from Porter, [illegible] "Bob" Shuler, Hugh McGuire of the Board of Public Works, and William Bryan, deputy City Attorney. They restored the letters to the grip, she said, and then found a five-gallon jar of wine under the [illegible].

She was taken to the University station, booked, fingerprinted and released on $500 bail. Her trial is set for today in Municipal Court. She informed Thorpe that the officers sought to get $40 from her, which Hefley said he had lost in her home, but that she knew nothing of this money. She declared the officers "threatened to make it hot for her unless she took the rap."

TWO DIE OF INJURIES IN CAR CRASHES

Youth Killed When Auto Strikes Telephone Pole; Aged Woman Succumbs

Glenn Bassett, 23 years of age, of [illegible] West Eighteenth street, died of injuries shortly after his roadster struck a telephone pole at Burlington [illegible] and Nineteenth street yesterday. Riding with him was Clarence Johnson, 18, of 3417 McClintock [illegible], who received possibly fatal injuries. At Georgia-street Receiving Hospital it was said that Mundell had possible internal injuries, a broken pelvis and fractured right [illegible]. He was transferred to General Hospital.

Bassett died at the Receiving Hospital. Police who investigated reported evidence that the roadster was going fast and had swerved suddenly just before striking the pole.

[illegible] received late Saturday by Mrs. M. C. Walker, 68, of [illegible] of 2032 Sunset Boulevard, [illegible] she was struck by an automobile, resulted in her death yesterday morning at the Georgia-street Receiving Hospital. Mrs. Walker was crossing Sunset boulevard at Bonnie Brae street when she was hit by an automobile driven by Leonard De Bus of 1937 West [illegible] street, according to police. An inquest will be conducted by Deputy Coroner Nolan, tomorrow.

Robert McClaren, 9, of 3738 [illegible] street, received critical injuries last night when he was struck by an automobile in front of his home. Police interrogated Dr. George [illegible], owner of 227 Ridgewood [illegible], the motorist, who said that the boy darted from between two cars against the left front fender of the physician's car. The boy's leg was broken and he was injured internally. Dr. Kirkpatrick, who treated him at Georgia-street Receiving Hospital, said that the [illegible] condition is serious.

Catholic Order Sells Its Club to Hotel Owner

Sale of the Knights of Columbus clubhouse property at 612 South Flower street for $300,000 was reported yesterday. Dwight Hart, president of the New Rosslyn Hotel, is the purchaser.

The property has a frontage of [illegible] feet and one-half feet on South Flower street and extends to a depth of 132½ feet. It is occupied by a four-story building. This sale gives Mr. Hart added street frontage, he already having acquired the adjoining corner property.

[illegible] will be held soon by the Knights of Columbus club to decide whether a new site for the club shall be acquired, according to P. [illegible], who represented the club in the transaction. [illegible] of Edwards & Wildman, represented Mr. Hart.

OLD RAZOR BLADES CUT FIGURE

Grid Star Tackles Soap Sculpturing

(P. & A. photo)

Jack Schurch and the Statue

AT LAST, the problem of what to do with old razor blades has been solved—not by any venerable delver into economic enigmas, but by a young football player. Jack Schurch, star running guard of the Occidental College team, winner of the Southern California Conference championship. Schurch revealed yesterday that he uses his discarded blades to "sculpt" statuary out of cakes of soap.

Up against it for an efficient implement, he fashioned one out of an old blade and found it served his purpose. Now he uses it during all his spare hours; for sculpturing is Schurch's hobby. His most recent work is a statuette depicting an open-field tackle. It was carved out of a sixteen-pound block of soap and is complete in every detail, even to the cleats on the players' shoes. Observers have pronounced it a remarkable piece of sculpture for an amateur.

FUSION OF CHURCHES SUPPORTED

Ministers of Disciples of Christ and Baptists Get Behind Unity Project

A proposal for fuller co-operation of Baptists and Disciples of Christ (Christians) with a view to final organic union of the two churches, was received with applause by 100 Baptist ministers and 100 clergymen of the Disciples of Christ at a meeting conducted yesterday at Temple Baptist Church.

The proposition was in the form of a report, read by Dr. Otto S. Russell, executive secretary of the Southern California Baptist Convention, setting forth the findings and recommendations of a joint committee of Disciples and Baptists which recently met at Pittsburgh to discuss possible unification of the two religious organizations. The report will be acted on by the Disciples and the Baptists at their next national conferences.

The report states that "no two great communions present so favorable an opportunity for fellowship as do the Northern Baptists and the Disciples of Christ.

"Alike in their faith, their forms of organization, their practice of baptism, their missionary and educational work, it is natural and inevitable that our churches should grow in good will and co-operation."

FUNERAL RITES TODAY FOR MRS. SARAH DAVIS

Chapel services will be conducted at Oberholtzer's funeral parlors at 2 p.m. today for Mrs. Sarah S. Davis, widow of Petral Davis, Washington lumber magnate, and mother of Nellie May Davis. Mrs. Davis came to Southern California from Washington about 8 years ago. She was born in Lockport, N. Y., and subsequently resided in Clinton, Iowa, for many years.

Burglary from Shuler Charged

Theft of a $35 loud speaker from the study of Rev. R. P. Shuler, pastor of Trinity Methodist Church, yesterday resulted in a burglary charge being filed against Jay C. Burt, who already is facing trial on another similar felony count.

The complaint, issued by Dep.-Dist.-Atty. Stahlman, accused Burt of entering Shuler's study on the night of Christmas Eve and stealing the radio instrument. According to Stahlman, Burt was accompanied by John Dee of 3746 South Vermont avenue. Dee is expected to testify for the prosecution. Shuler also will be a witness for the State, Stahlman asserts.

NEW TRIAL SOUGHT BY SCHOOL MASTER

Fred J. Becker, Pasadena schoolmaster convicted of mistreating several boy members of his classes, appeared before Superior Judge Hardy yesterday morning and filed a motion for a new trial, through his attorney, A. D. Orme. Judge Hardy announced that he will hear arguments on the motion at 10 a.m. on the 11th inst.

NEW ARTISTS TO MAKE BOW

Philharmonic Concerts Introduce Slav Composer and Other Musicians Heretofore Unheard Here

The Philharmonic Orchestra of Los Angeles under direction of Dr. Artur Rodzinski this week starts the second half of its 1929-1930 season. The first half of the season has been pronounced the greatest in the history of the orchestra and with this in mind the board of directors, manager and conductor open the second half with a program of unusual interest for the concerts on the 13th and 14th inst.

Four artists will be presented on these programs, three of them in their initial appearance in Los Angeles. Serge Prokofieff, pianist, will be heard in one of his own compositions, Concerto for Piano No. 3 in C Major, Op. 26. Prokofieff composer-conductor-pianist, was born in Russia and at 5½ years of age, composed his first piece.

COMPOSER'S HISTORY

At the age of 13 Prokofieff entered St. Petersburg Conservatory, where he studied for ten years, finishing with diplomas for composition, piano and conducting. This artist's taste for modern music found support in a society of contemporary music in St. Petersburg. His first public appearance took place in the concerts of that society when he was 18 and at the same time he began to publish his compositions.

Prokofieff now is recognized as one of the leading exponents of modern music. Symphony Classique in D Major, by this composer, was performed by the Philharmonic Orchestra during the 1927-28 season.

FIRST PROGRAM

The program will open with Concerto for Piano and Violin in D Major, Op. 21, by Chausson. In this number two gifted artists will appear, Sadah Shuchari, violinist, and Isabelle Yalkovsky, pianist, who since their presentation by the Schubert Memorial in New York have been meeting with continued success in recitals and in their orchestra appearances.

Mina Hager, contralto, will be heard in "El Amor Brujo" ("Love, the Sorcerer") by DeFalla. Miss Hager has appeared with the leading orchestras of the East and has won many laurels for herself in the United States and abroad. Tachaikowsky's overture to "Romeo and Juliet" will be given on this program also.

EARLE LOVE VOW TOLD BY DANCER

Dolores Salazar Opens Suit Against "Affinity" Man

Romantic Wooing of Artist Recital Interrupted

Trial of One Count Starts Before Mixed Jury

How Ferdinand Pinney (Affinity) Earle, artist, won the heart of Miss Dolores Salazar, pretty little Spanish dancer, with passionate words of love, interspersed with quotations from the poets and flights of his own artistic imagery, was described by the young woman yesterday in the court of Superior Judge Archbald, where she is prosecuting her suit against him for asserted breach of prenuptial contract.

"He was always nice and kind to me. He referred to me as a child and expressed his desire to teach me," the dancer said.

The artist was not in court. He is in Paris at present and his side of the case will be presented in depositions.

STORY INTERRUPTED

Miss Salazar was called to the witness stand late yesterday by her attorneys, Roger Marchetti and I. Bear Newman, and in a soft and modulated voice began to sketch to the jury her first meeting with the artist and her relations with him. Her story was only fairly started under the questioning of Attorney Newman, when it was time to adjourn court. Judge Archbald ordered a recess until 10 a.m. today.

Miss Salazar met the artist the first time in April, 1926, she said. Through a mutual friend she, her cousin and several friends were invited to Earle's home in Hollywood. The purpose of the visit was that Earle could see her, with a view of placing her in motion pictures.

PASSES EXAMINATION

"After examining my cousin and myself he told me we were good for the movies and that he would do all he could to help us," Miss Salazar testified.

"During the evening he unburdened himself to me. He told me his wife had left him and he seemed to be very sad. On leaving he told me to keep in touch with him for he was very busy."

The dancer's next meeting with the artist was some months later, on December 7, 1926. This meeting, she said, was arranged over the telephone.

"He told me he remembered me, that he couldn't forget my voice. He wanted me to come and see him that night as he was leaving the next day for New York," the witness declared.

"COME ANY WAY"

"I was not dressed to go anywhere, having only my work dress, a gingham dress on and told him I was not presentable. He said to come anyway. So I went with a girl and a boy friend. Again he said I was a good type for the movies. We spent the evening looking at his paintings and antiques."

From then on their meetings were frequent.

That Earle was given to poetic flights of fancy was evidenced when Miss Salazar told of a trip the artist and she made one evening to Elysian Park to see the sunset.

"'You see,'" he told me, "this is a garden of the gods, like a garden in Greece in ancient times. I am Apollo, you are Minerva. You are a reincarnation of an angel.'"

It was when Miss Salazar told of the time that Earle proposed to her that she halted in her speech and tears came into her eyes.

"It was on the night of December 11, 1926," she began. "I met him that day at 12 o'clock at the Biltmore Garage and he gave me a book of verses. He told me he had a treat in store for me. That evening we went to a cafe and we had a wonderful dinner and then we danced. Once during a dance the music stopped and we found we were the only dancers on the floor. Mr. Earle was extremely embarrassed. He gave the orchestra leader $10 and then he said to me, 'I'm going to take you out of here, to the top of the world, up in the sky.'

"We left the restaurant and drove out to the top of a hill near Hollywood. When we got there it was foggy.

LOVE IN MIST

"'You see, we are in a cloud—next to God,' he told me. Then he took my hand an told me all about the stars and he told me he loved me and asked me if I would marry him." At this point Miss Salazar faltered, then continued with tears in her eyes.

"What did you say?" asked Attorney Newman.

"I—I didn't know what to say. He was such a wonderful man."

At this point a recess was taken.

While the hearing was called for 10 a.m. yesterday, most of the morning was taken up when the question of going to trial on various counts of the dancer's complaint was raised. Two of the three causes of action were temporarily set aside when Judge Archbald granted the plea of Attorney Sam Steelman, counsel for Earle, to abate them.

THREE CAUSES FILED

The breach of promise to marry for which Miss Salazar asked $50,000, and her asserted betrayal under promise to marry, for which she asked $50,000, were the causes of action temporarily set aside. This left the case going to trial on the complaint asserting a breach of prenuptial contract wherein the dancer contends Earle promised her $15,000 in a prenuptial agreement and also $15,000 for a life maintenance. This makes $30,000 damages Miss Salazar is asking in the present action.

The selection of the jury of seven women and five men was completed shortly after 3 p.m. Attorney Steelman, Earle's counsel, accepted the jury without a challenge. Three of the venire were rejected by Attorney Marchetti.

END OF ROMANCE

Earle now is living in Paris with Denise Locon, the French girl he married soon after his parting with Miss Salazar, who charges that after he wooed and won her he took her across the ocean to Paris and then drove her from him.

A number of letters, asserted to have been written by the artist to Miss Salazar, will be introduced as evidence.

BLASTED ROMANCE RELATED TO COURT

Dolores Salazar

REV. W. L. SLEDGE VISITS HIS SISTER

Former editor of the University of Michigan Appeal, and friend of President Hoover and Senator Shortridge, Rev. W. L. Sledge, pastor of the Jenifer Memorial Episcopal Church of Chicago, is a visitor in Los Angeles at the home of his sister, Mrs. Lillian McRoy, 1526 East Twenty-first street. He has served on various commissions under former President Coolidge and President Hoover. He was a representative of the United States Chamber of Commerce at the Philadelphia exposition, and will serve as a commissioner at the World's Fair in Chicago in 1933. He has been sergeant-at-arms at recent Republican national conventions. The Chicago minister expects to remain in Los Angeles for the next two weeks.

DR. V. A. HUMPHREYS FUNERAL CONDUCTED

Funeral services were conducted for Dr. V. A. Humphreys at Pierce Brothers' chapel yesterday afternoon. Interment was at Forest Lawn Cemetery. Dr. Humphreys was born in Middleburg, N. Y., in 1859. He was graduated from Fort Wayne Medical College at 20 years of age. He practiced in Auburn, Ind., and for the past thirty-five years he has been on the medical staff of the Pacific Mutual Life Insurance Company. He leaves his widow, Clara Belle Humphreys, 878 Rome Drive.

NEW STORE OF CLAIRE'S ON WILSHIRE

Chaste Elegance Marks Gown Shop and Business Proves Unusually Heavy

BY OLIVE GRAY

Chaste elegance is the note sounded in the new shop on Wilshire Boulevard, to which the gown business of Claire's recently has removed.

The reception salon, in a rich creamy white, provides a sense of charm, further enhanced by the white marble fireplace, lending a home-like air. Tall vases of white alabaster with trailing fronds of ivy, enliven this effect, while the crystal chandeliers lend an Old World atmosphere, repeated in the quaint furnishings, upholstered in rare tapestries.

The reception salon is circular, providing a distinctive touch which is felt further in the establishment throughout—the fitting quarters being exceptionally well arranged, both upstairs and down. There is no sense of crowding in this place although business is going forth at high pitch. In fact, O. A. Shollem, the proprietor, declares that the early days in the new shop have been exceptionally busy, both old and new clients claiming attention.

Claire's was one of the first, if not the very first, of the shops on Wilshire Boulevard where, at a location nearer town, business has been in progress for more than five years. In further proof of confidence in this great boulevard, the new quarters at 3933, were recently completed and occupied. Mr. Shollem, who first came to Los Angeles in connection with the Ambassador, is well known in business circles and his discriminating taste regarding women's attire has placed his present concern in an enviable position with an exacting clientele.

Screen Cowboy's Case Continued

Trial of Buck Jones, film cowboy, on charges of violating the State labor law was continued in Municipal Court yesterday until the 18th inst. when a representative of the Labor Commission asked more time to obtain witnesses. The delay was not opposed by Jones.

The motion-picture actor is accused of failing to pay wages due three men whom he employed in his Buck Jones Wild West Show, leaving them stranded at Glenwood Springs, Colo., last summer.

WIDOW SOUGHT IN GLAB MURDER

Police Would Question Her on New Information

Girl Describes Woman's Fit of Jealous Rage

McIntyre Accused in Fatal Hit-and-Run Crash

Mrs. Hazel Glab is wanted again by police for questioning in connection with new revelations concerning the unsolved murder of her husband, and more especially over the details of a spasm of rage related to the authorities by Miss Ruby Burroughs.

MRS HAZEL GLAB

Determination to locate the widow of John R. Glab, slain druggist, whose death almost two years ago is under renewed investigation, followed the story of the Burroughs girl on an episode in the apartment of W. R. McIntyre, former policeman and asserted sweetheart of the widow and Miss Burroughs.

Details of the fit of jealousy, which the girl said occurred in the apartment of McIntyre a short time after Mrs. Glab was released from jail following the investigation of the death of her husband, came after the arrest of McIntyre and his incarceration on a hit-and-run charge.

The girl told the authorities, shortly before she was released after giving new information on the death of Glab, that Mrs. Glab found her in McIntyre's apartment. She asserted that the widow broke dishes, overturned furniture, and in her rage cut to ribbons a hat which the Burroughs girl left in the apartment when she fled from the anger of the woman. She also said that Mrs. Glab offered to marry McIntyre before her marriage to Glab, and again after his death.

Mrs. Glab's whereabouts have been unknown, according to the authorities, since December of last year. At that time she left for a visit with relatives in Oklahoma.

A formal complaint charging McIntyre with second-degree murder, fleeing from the scene of the accident and driving while intoxicated was issued yesterday by Dep. Dist.-Atty. Stahlman. The charges grew out of the death of Mrs. Margaret Towers, who was killed by an automobile on New Year's Day. The complaint was signed by Miss Gladys Gould, grand-daughter of the dead woman.

WOMAN STORE CLERK VICTIM OF BANDITS

Two men with revolvers yesterday held up Mrs. K. Kidder, a clerk, while she was alone in the hardware store of R. C. Macy, 6106 Beverly Boulevard. The robbers were young and well dressed, and were quiet and businesslike as they menaced Mrs. Kidder with their weapons and took $45. They escaped in an automobile.

ACTRESS TO HAVE BLOOD TRANSFUSED

Operation Expected to Aid Mabel Normand in Her Fight on Tuberculosis

Although Mabel Normand, former screen star, who is a patient at Pottenger's Sanatorium in Monrovia, has made some slight headway recently in her battle against tuberculosis, Dr. F. M. Pottenger, after consultation with Dr. E. C. Fishbaugh, has decided that a blood transfusion will be advisable to improve her condition, he said yesterday. The transfusion will be performed today or tomorrow.

MABEL NORMAND.

Miss Normand has been a patient at the Monrovia Sanatorium since March, 1929. Since January of that year, however, it had been feared that she was a victim of tuberculosis and subsequent X-ray examinations revealed infection in both lungs. The appearance of the disease followed several attacks of influenza and pleurisy.

After entering the sanatorium, Miss Normand responded to the treatment although as recently as December of last year, her condition was still regarded as serious. Dr. Pottenger said yesterday that there had been some improvement lately, and he hopes for an even more marked change for the better following the blood transfusion.

Miss Normand was told yesterday of the death of her father, Claude G. Normand, on Monday at his home, 125 St. Mark's Place, New Brighton, Staten Island. He was a victim of pneumonia. Mr. Normand was a native of Quebec, Can., and was 59 years of age.

Corporation's "Old Guard" Will Banquet

Veterans of the Los Angeles Gas and Electric Corporation, composing its "Old Guard," will dine tonight at the Biltmore. Addison B. Day, president and general manager, a thirty-five-year employee, will be toastmaster for the 412 members boasting service of ten or more years with the corporation. Entertainment includes music by the Los Angeles Service Orchestra, directed by Santiago Ornelas, Frank Geiger's Troubadours and James W. Foley in a humorous monolog.

Tribute will be paid the memory of members who have passed away during the past year. These include William Baurhyte, Champ S. Vance, E. B. Brown, P. M. Parrell, F. E. Harrington and J. T. Moore.

With tonight's celebration W. B. Cline, chairman of the board of directors, rounds out forty years with the corporation. There are four thirty-five-year men, five thirty-year men and nine twenty-five-year men.

Trade Representatives of Russian Government

Money Being Spent in America

Front, seated, left to right, P. I. Baranov, president, Civil Aviation Council, and Prof. A. N. Toupoleff, designer of the plane, Land of the Soviets; standing, left to right, Bert White, representative Irving Air Chute Company, Los Angeles; L. G. Gershevich, aviation department, Amtorg Trading Corporation; A. V. Petroff, vice-president, Amtorg Trading Corporation; Engineer N. M. Kharlamoff, and Engineer J. A. Feldman.

Armenian Files Damage Suit as Result of Fight

Garabed Kabakjian, a Turkish Armenian, went before Superior Judge Keetch yesterday with a suit for $35,000 damages against John Shermeyan, Ben Kazarian and Suron Abajian, Russian Armenians, for injuries he says he received in a fight with the defendants at Third and Breed streets on May 4, 1928.

Back of the action is a story of misunderstandings caused by a difference of languages. For ten years Kabakjian lived with the defendants in the same house. The difference in their languages led to frequent misunderstandings. The climax was reached, according to the plaintiff, when the three defendants attacked him. He asserts that his left arm was broken, one of his hands was permanently injured, one knee fractured and a number of his teeth knocked out.

NEWS OF THE CAFES

So many stage and screen notables are making Bob Murphy's Chop House, just opened on Robertson Boulevard between Hollywood and Culver City, their late dinner and supper headquarters that it has been necessary to extend the closing hour until 1 a.m.

Following numerous requests Bob Murphy, Radio - Keith - Orpheum headliner, has arranged to serve a novel menu of special delicacies for those engaged in evening appearances in the studios and theaters of Los Angeles and Hollywood.

SERENADERS TO REMAIN

Johnny Hamp and his Kentucky Serenaders, now in their fourth week in the Cocoanut Grove at the Ambassador, have scored such a hit that they have canceled their annual Palm Beach bookings in order to remain here.

Jack Oakie, Clarence Brown, Mae Murray, Raquel Torres, Kenneth Harlan and many other screen notables have entertained by giving supper parties recently in the Cocoanut Grove, it is reported.

TEAS POPULAR

Among the pleasant pastimes enjoyed by members of the film colony and young society folks in Hollywood are the afternoon teas held in the Bottom of the Cup Tea Room, Hollywood Boulevard, opposite Grauman's Egyptian Theater, where each guest is given a free reading with cards or tea leaves by the clever hostess, Nautien Basten.

The tea room also enjoys an excellent patronage during luncheon and dinner, home cooking and pastries being featured.

WOMEN COOKS

The enviable reputation of Polly's Cheerio Tea Room, on Hill street, between Sixth and Seventh streets, for its delicious luncheons and dinners is attributed by the management to the fact that only women cooks are employed. Tempting salads, desserts and puddings are some of the principal culinary delights.

Expeditious and efficient service rendered by the waitresses during the noon hour attracts not only those who dine at leisure but the business people as well.

SPECIAL PROGRAM

Anita Stewart, popular screen favorite, will be guest of honor at the Montmartre Cafe, Hollywood, this evening, when she will present the Brandstatter trophy cup to the winning couple in a dancing contest.

A special program of musical comedy numbers and popular request selections will be played by Gus Arnheim and his celebrated Victor recording orchestra, just returned from their European tour.

ASSESSMENTS CONFIRMED

The City Council yesterday confirmed the assessments for the sewering of Avenue 57 from Pasadena avenue to Carlotta Boulevard after hearing appeals most of the afternoon.

SOVIETS TO BUY PLANE PARTS HERE

Party Visits Factories in City and Studies Methods of Construction

Preliminary negotiations for the purchase of a large quantity of airplane equipment were under way here yesterday by a group of eight representatives of the soviet government who visited a number of airplane and engine factories. L. G. Gershevich, a representative of the Amtorg Trading Corporation of New York, the soviet commercial agency, said his government has entered into a contract with the Irving Air Chute Company for the erection of a factory near Moscow for the manufacturers of parachutes and that a number of technical experts will be taken from the factories of the company to Russia.

The party includes two of the foremost airplane constructors in soviet Russia and these men, Mr. Gershevich said, will make a careful study of American airplane construction.

Mr. Gershevich said the present group is interested only in airplane equipment and that other commissions charged with the purchase of other commodities will visit the United States in the near future. He said the anticipated purchases which the soviet government will make in the United States during 1930 will exceed the $120,000,000 spent here last year.

Spouse's Habits Scored by Wife in Gubin Trial

Testifying that her husband indulged in gambling, Mrs. Rhonie Gubin yesterday took the witness stand in the court of Superior Judge Tryon in the trial of her long-pending divorce action against Frank Gubin, Los Angeles jeweler.

Mrs. Gubin declares that her husband's addiction to gambling endangered the preservation of the family's community property. She asks for a decree of divorce, alimony and the custody of the two children.

Recently Mrs. Gubin hailed her husband into court on an order to show cause why he should not pay temporary alimony of $1500 a month. Judge Yankwich allowed the wife $300 a month.

ZONING FOR VENICE OIL AREA ASKED

City Will Get Royalty on Production of Proposal in Council Goes Through

Councilman Randall yesterday submitted a resolution to the City Council calling for a comprehensive system of zoning the Venice oil area by whole blocks, with the city receiving a royalty in proportion to the area of the land covered by public streets and alleys. The resolution was referred to the City Planning Committee, which now has before it about a dozen applications to drill.

The committee will visit the territory tomorrow afternoon, with recommendations to follow shortly.

In the resolution, Randall warns against the economic loss from haphazard development and proposes that no permits to drill be issued except in full city blocks, the interests of each lot owner to be fully protected. He also proposes that each applicant execute a contract with the city, agreeing to pay over a royalty equal to the proportion of land covered by streets and alleys.

Woman Tells of Being Jilted by Contractor

More testimony relative to the asserted promise of Cleveland O'Neil, Los Angeles building contractor, to marry Miss Ida Dugan, 37 years of age, and his asserted failure to keep it, will be taken today before a jury at the trial of the woman's suit for $50,000 damages in the court of Superior Judge Hahn. The trial began yesterday.

Miss Dugan declared she and O'Neil became engaged on December 26, 1928, and that the contractor jilted her and married another woman.

The witness asserted that she and O'Neil planned for the wedding and discussed the building of a home.

Asked if the contractor ever made any show of affection toward her Miss Dugan said:

"Yes, he would kiss me and tell me how much he loved me, and that he had never found another girl that he cared for. He said that if he ever did lose confidence in me he didn't believe he ever would have confidence in another woman."

DOCTORS LOSE LICENSES

State Board Disqualifies Two After Hearings on Charges of Illegal Practice

Licenses to practice medicine and surgery in California were revoked in the cases of Dr. William A. Lang of Long Beach and Dr. George C. Darrow of Azusa, by the State Board of Medical Examiners at the conclusion of trials on charges that the two physicians had performed illegal operations. The hearings were held in Foresters' Hall, 1339 South Hope street.

Dr. Lang pleaded guilty to one count. He was accused of having performed two illegal operations.

Dr. Darrow stubbornly insisted upon his innocence, setting forth that the patient, Miss J. Peterson, had collapsed and expired while submitting to an examination. He said the woman had informed him that she had attempted to take care of herself. The immediate cause of death, he said, was a blood clot in the lungs.

CASE ON APPEAL

Counsel for Dr. Darrow told the board that the physician had been convicted in Superior Court of second-degree murder as a result of the patient's death, but that an appeal was pending in the District Court of Appeal.

At a night session on the case of Dr. Francis J. Bold of Whittier, charged with having performed an illegal operation prior to the death of Carmelita Wilhite last September, a legal technicality arose which necessitated continuance until 10 a.m. today. Counsel for Dr. Bold, who has been acquitted of murder in connection with the woman's death, asserted the complaint before the board which is filed on "information and belief" is false and insufficient to the demands of the Medical Practice Act. Authorities and arguments are to be presented on the question today.

OTHER CASES

Numerous other cases, including the case of Dr. Roy S. Lanterman, facing charges growing out of the death of Delphine Walsh, 22-year-old Hollywood dancer, remain for the board's consideration.

Special Agents J. W. Davidson, San Francisco, and Alfred Carter, Los Angeles, and Assistant Special Agent William Byrne aided in preparing the cases. Attorneys Ray M. Lyman, San Francisco, and Otto Emme, Los Angeles, led the prosecution.

WARNERS TO BUILD TWO THEATERS

More Than $1,000,000 to Be Spent at San Pedro and Huntington Park

Two new motion-picture theaters of the most modern design and involving joint expenditures of more than $1,000,000 are to be built by Warner Brothers in San Pedro and Huntington Park at once, J. L. Warner announced yesterday. He said bids will be asked for at an early date.

The Huntington Park theater will be an 1800-seat house in Italo-Spanish design with main floor and balcony. The structure will occupy the entire lot on Pacific Boulevard between Zoe and Saturn streets with a frontage of 114 feet and depth of 150 feet. The building will house six stores in addition to the theater and will cost when completed more than $500,000. It will be called Warner Brothers Huntington Park Theater.

Warner Brothers' San Pedro Theater will seat 2000 and will be built on Sixth street just east of Pacific Boulevard, occupying a frontage of 120 feet. There will also be six stores and twelve offices in the building, which will cost $600,000.

Both of these theaters will represent the most advanced types of architecture and construction. Plans include air conditioning and refrigerating plants and also preset remote control switch boards. Both theaters will be built to accommodate the new magnoscope screen.

B. Marcus Priteca is the architect for both theaters. These houses will be the first to be placed under construction under the Warner expansion plan.

SOCIAL RALLY PLANNED

A social rally of the Pennsylvania Society will be held at 8 p.m. Monday in Fraternal Hall, 846 South Figueroa street, A. J. Lossiin, president, announced yesterday. There will be a vaudeville program, card playing and dancing.

PENSIONS SOUGHT FOR A[GED]

Edward J. Ryan, Prominent Eagle on Visit [Here] Tells of Personal Campaign for Indigent [Aged]

Impoverished oldsters, separated from their wives or [family] wildered by changed conditions, saddened, ashamed—that is [the] ever present in the mind of Edward J. Ryan, past Worthy [President] the Fraternal Order of Eagles. It was the picture in his [mind] when he told of one of the most important decisions of his [life].

For thirty-six years he [was] an employee of the [United States] postoffice, working up to a [position] as cashier, with the [handling] of $22,000,000 a year [and] his responsibilities, he [said] day at the Biltmore. He [gave] up his position to do [what he can] to help the aged.

OLD-AGE PENSIONS

As Ryan sees the [only] best solution is a [system] age pensions, and he [will] work for the passage of [such] legislation throughout the States.

"In the last seven years," said, "ten States have [passed] age pension laws. Three [Canadian] Provinces also have [such laws]. I believe the circumstances [are ripe] I look forward to the [passage of a] pension law in New York soon. Everywhere, the [movement] gaining headway."

Ryan said that on his [travels] about the country he [has found] great numbers of "poor [devils]" that he came away from [with] them dismayed. However, [where] or well administered, he [has also] found that they lack the [spirit] that would bring cheer into the lives of the inmates.

SPEAKS TONIGHT

Ryan declared that [the payments] of old-age pensions [are] less than the cost of [caring for] the indigent in [institutions].

The visitor is chairman of the board of trustees of the [Home] organization. He was guest of [honor] at a luncheon given by the Los Angeles Aerie, and Clarence [Hen]dick, Worthy President, will address local members of the order tomorrow evening.

KETTLEMAN HILLS GROUP PLANS SHIFT

Reorganization Projected as First Move in Handling Future Development

A complete reorganization of the Kettleman Hills Oil and Gas Conservation Committee appointed in April, 1929, by F. C. Van Deinse, then oil umpire for the Santa Fe Springs field, was suggested yesterday as the initial move to form a permanent group to handle the future development of the Kettleman Hills oil field.

Judge R. D. Reiter, chairman, announced that the series of sessions will be resumed today and within ten days one of two plans submitted by Carl Beal for the development of Kettleman Hills will be considered for final adoption.

The present committee, headed by Judge Reiter, has served continuously since its appointment, but its members believe that with its reorganization it will be vested with complete authority to handle any situation that may arise. Members of the committee now include Judge R. D. Reiter, chairman; Patrick Longan, R. M. Ferguson, W. H. Berg, J. H. Rainey, W. C. McLaine and Ellsworth McCowan. The new committee will call for a general meeting next week of all Kettleman Hills operators to get their opinion of the plans now under discussion.

BULLOCK'S WILSHIRE

TWO NEW ANSWERS TO:

"What Shoes with Spring's Suits?"

Lieb Due to Arrive Friday to Take Loyola Post

Lil' Elzear Didn't Dive; Just Fainted

CHICAGO, Feb. 4. (AP)—Primo Carnera, the huge muscle man from Italy, was just a big bogey man and not a conspirator. This was the consensus of the Illinois State Athletic Commission today after it had finished an investigation of Carnera's second knockout of Elzear Rioux, the French-Canadian woodsman from Montreal, in the Chicago Stadium punch bowl last Friday night.

Rioux, the commission decided, was scared into a half faint at first sight of the tremendous bulk of the Italian giant and did not deliberately take a "dive." Because of Rioux's unsatisfactory showing, however, he was fined $1000 and suspended indefinitely. No action was taken against Carnera.

CARD-BRUIN GRID GAME AT NIGHT

Coliseum Scene of First After-Dark Conference Football Tilt

The first night game in the history of Pacific Coast Conference football, featuring two conference foes, will be played on October 31, next, Halloween night, in the Los Angeles Coliseum with the University of California at Los Angeles entertaining Stanford, Steve Cunningham, graduate manager at the Westwood institution, announced yesterday.

By next fall, the Coliseum will have lighting facilities installed so as to permit night games, and the Bruins will engage in two night games there and one at the Pasadena Rose Bowl. On Friday night, October 17, next, the local eleven will play the St. Mary's College team in the Coliseum, instead of the Rose Bowl as originally scheduled, and will play the California Institute of Technology on the evening of October 24, next, in the Rose Bowl.

A strong possibility also exists that another conference game will be played at night here next fall. As the U.C.L.A. schedule now stands, Oregon State is to be met on November 22, next, in the Coliseum, but it may be shifted to the night before. It is reported that the northern team is favorable to the change, since they must play the University of West Virginia on the following Thursday, Thanksgiving Day, in Chicago.

The Bruin athletic authorities are turning to night games, because

HURRICANES FACE PURPLE

Rival Polo Teams Tangle at Midwick Today

Opponent for Argentines Will be Selected

Coast Championship Will be Decided Sunday

BY FRANK ROCHE

Whether Stephen (Laddie) Sanford's Hurricanes or Midwick's new high-powered big four will battle it out with Argentina's Four Horsemen of the Pampas for the Pacific Coast open polo championship is the burning question that will be answered today on the Purple Club's picturesque field. This afternoon at 2:30 Midwick horsemen, captained by that hardy veteran, Carleton Burke, cross mallets with the Hurricanes, led by Sanford, polo's best mounted player, in the semifinal game of the title tournament. The winning four automatically moves into the final round against Argentina, which will be staged Sunday at Midwick.

ELMER BOESEKE

Southern California fans will have to pull hard for Midwick today if they expect to see the Coast championship trophy on exhibition here for the next twelve months. A victory this afternoon for the Hurricanes means that two outside teams would be fighting it out Sunday for the Coast championship cup. With this in mind Midwick has geared up its big four to great heights.

HIGH-GOAL TEAM

The team that will wear the famous purple shirts of Midwick are Neil McCarthy, Elmer Boeseke, Eric Pedley and Carleton Burke. They are a twenty-six-goal polo combination and are recognized as one of the best of their stripe in the game.

Opposed to Midwick will be a twenty-two-goal team mounted on some of the fastest ponies in polo. The Hurricane four: Sanford, Gerald Balding, Jim Colt and Lindsey Howard, although outrated four goals on paper, figure to go on the field today with an even chance to take the Midwick riders down the line.

Besides having at their disposal the fleetest string of ponies in the game the Hurricanes are also fortified with the knowledge that they have already beaten Midwick this season.

They accomplished that last Saturday in a special match game which had no bearing on the tournament play. The Hurricanes, led by Balding, handsome English giant, smashed their way to a 9-to-8 victory over Midwick in a game that was full of blood and thunder from start to finish. Balding scored the winning goal in the last twenty-five seconds of play.

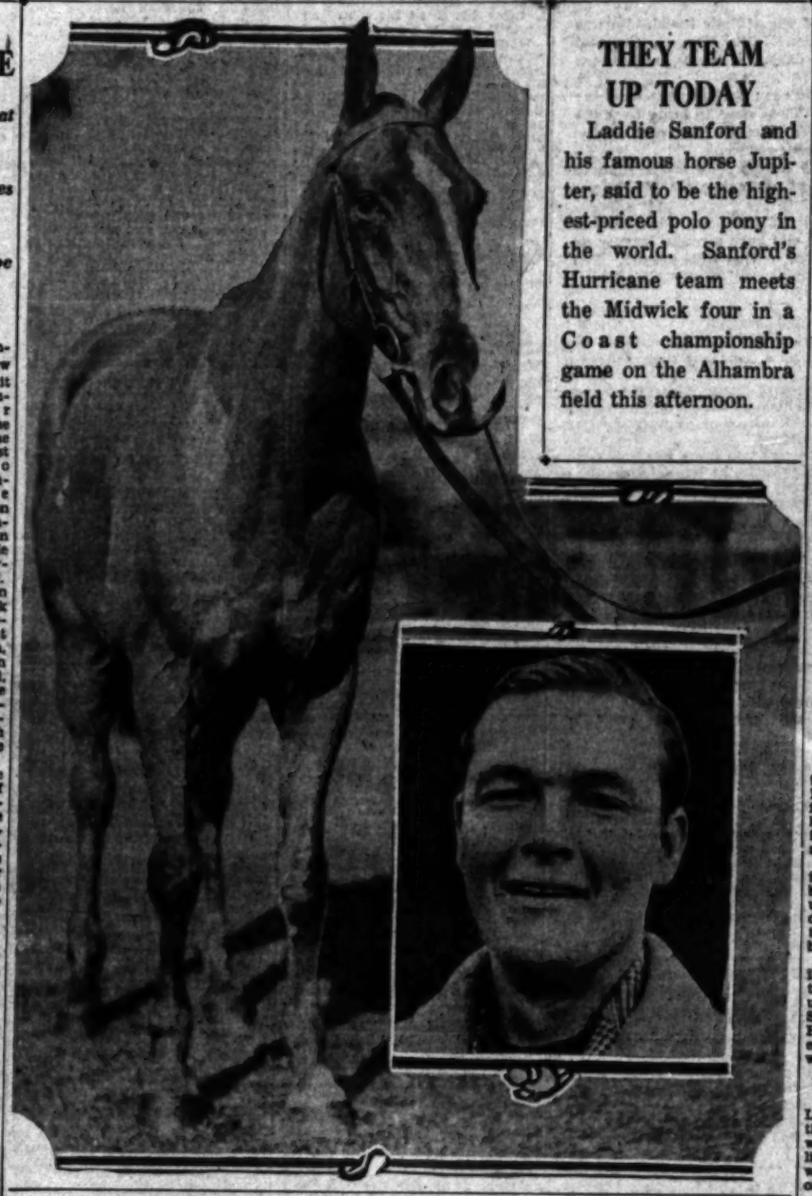
This much can be said in behalf of Midwick for that game. The Purple riders got the toughest kind of breaks in the seventh chukker on five different occasions. Shots that were sure dead ringers for goals bounced the wrong way on Long Elmer Boeseke twice and on other members of the team three times.

The Hurricanes on the other hand bounded the ball in great fashion and they never missed an opportunity to score, it seemed, when they were in position to do so. After all that is what they pay off on and if they can do it again today they will ride right into the final round of the championship play.

SCORING TWINS

Those Midwick twins—Pedley and Boeseke—the West's leading stars, will have a grand and glorious chance to do their best stuff this afternoon. If they are clicking

(Continued on Page 10, Column 5)



THEY TEAM UP TODAY

Laddie Sanford and his famous horse Jupiter, said to be the highest-priced polo pony in the world. Sanford's Hurricane team meets the Midwick four in a Coast championship game on the Alhambra field this afternoon.

LIONS PREPARE TO GREET TOM

New Mentor Reported to be Getting $9000

Del Rey Hills Layout is Attractive One

Approximately 300 Students Eligible to Play

Tom Lieb is slated to arrive here Friday morning to look over the Loyola situation and in all probability sign a contract as head coach at the Lion institution. Walter T. Casey, chairman of the board of athletic control at Loyola, stated last night that Lieb had been telegraphed his railroad ticket and that it was believed he would leave immediately for Los Angeles.

TOM LIEB

Lieb's salary, it is reported, will be $9000 annually on a three-year contract. Loyola Alumni Association, headed by 81 Masters, will help meet this sum. Loyola has a large alumni body, dating back to the old St. Vincent's.

At present there is a brand-new turf field at Loyola's site in the Del Rey Hills, also a cinder track for the short-pantied athletes. Lieb himself was a great discus thrower in his day in addition to starring at Notre Dame as a tackle.

There are no stands surrounding the field at this time but these will be erected soon. All that is holding up the commencement of immediate work on a new gymnasium is the final word from the official board.

Approximately 300 men are eligible for athletics and it will be from this field that Lieb will be called upon to build his teams. Jack Strutzel, a good halfback at Poly High School, was among those who enrolled at Loyola yesterday along with other frosh athletes.

LINDSLEY UPSETS LATHROP

SEATTLE, Feb. 4. (AP)—Wallace Lindsley of Mount Vernon captured the lead in the Pacific Northwest amateur three-cushion billiards tournament here tonight when he defeated Charles Lathrop of Portland 50 to 35 in 87 innings.

FAVORITES WIN IN FIRST ROUND

Brilliant Scoring Features Midwinter Event

Mrs. Higbie Looms as Threat to Local Stars

Chicagoan Shoots 81 in Win Over Miss DeLong

BY EDWARD LAWRENCE

While Southern California's favorite golfing daughters, Mrs. Leona Pressler and Mrs. Gregg Lifur, were playing sturdy golf to win their first round matches in the annual midwinter invitation championship over the north course of the Los Angeles Country Club yesterday, two sterling golfers from the East and Midwest, Miss Beatrice Gottlieb of New York and Mrs. Harlow O. Higbie of Chicago were threatening the supremacy of the West.

HELEN LAWSON

Mrs. Pressler, who established a new south course record of 77, in the qualifying round on Monday, easily disposed of Mrs. Willis Low of California, 7 and 5. Mrs. Low played well, but fell far short of matching the experience of the Southern California and California State champion.

MRS. HIGBIE BRILLIANT

Mrs. J. W. Taylor fell an easy victim before Mrs. Lifur's superb stroking, 5 and 3.

While Lucille De Long's defeat at the hands of Mrs. Higbie, 6 and 4, was not altogether surprising, the margin of victory indicates that the Chicago woman is on her game, and therefore, dangerous. The young San Diego golfer could not keep up with Mrs. Higbie's fine 41-46-81, excellent scoring over the brilliant north course, a fine championship test of golf with many tricky carries.

Mrs. Higbie will be remembered as the golfer who, in the parlance of the links, let Miss Glenna Collett "off the hook," when she had her 3 down and 4 to go in the national women's championship at Oakland Hills last fall.

But Mrs. Higbie was made of sterner stuff yesterday. Her long game was consistently good, and her putting exceptionally so.

MRS. GREEN WINS

Miss Gottlieb found little competition in Mrs. Joe Mayo of Del

(Continued on Page 10, Column 1)

BROOKLYN DIFFICULTIES ENDED

Wilbert Robinson to Stay as Manager; Tenders Resignation as Head of Club; York Takes Over Reins of Dodger Outfit

BY BRIAN BELL
Associated Press Sports Writer

NEW YORK, Feb. 4. (AP)—As a result of a settlement reached today after three hours' discussion by the National League, the Brooklyn club has a new president and keeps its old manager. Frank B. York was named as president for a term of two years, and Wilbert Robinson, for fifteen years manager of the team, was re-engaged in that capacity under a two-year contract.

For three years Robinson has been president, manager and a member of the board of directors. Today he resigned as president and director, York immediately assuming the presidency. The director to take Robinson's place will be named by Joseph A. Gilleaudeau, secretary and a member of the present board of directors, who represents the heirs of the late Charles H. Ebbets. York, the new president, is attorney for S. W. McKeever, vice-president and treasurer, who has been opposed to the retention of Robinson as manager. A vacancy on the board of directors which has remained unfilled on account of the failure of the two factions to agree will be filled by a man to be named by John A. Heydler, president of the National League.

ELECT OFFICIALS

When the board is recruited to its full strength, a meeting will be called by Heydler and the other officials of the club will be elected.

"It's all right," was Robinson's comment after the announcement of the settlement. McKeever and Gilleaudeau were content to let the statement of the agreement, made by Heydler, speak for them, declining to amplify it in any particular. Representatives of both warring baseball factions, however, believed that an agreement had been reached.

For hours the presidents of the other clubs talked behind closed doors, all representatives of Brooklyn having retired to enable the league to discuss the matter and find an answer. The other club owners stipulated before they undertook the problem that their finding must be binding on McKeever and York on one side and Gilleaudeau and Robinson on the other.

When Robinson's three-year contract as manager expired after the 1929 season, McKeever vigorously opposed its renewal. The Ebbets heirs, representing 50 per cent of the stock of the club, just as emphatically supported the veteran baseball general. There the matter rested for months with "Robby" holding over as president, but not recognized by 50 per cent of the club owners as manager. When the Brooklyn club roster was published, no manager's name was listed.

The Brooklyn peace agreement was the principal business of the meeting. The approval of the schedule was only a formality and Barney Dreyfuss was re-elected vice-president without opposition.

PROPOSE CHANGE

A proposal of Emil E. Fuchs, president of the Boston club, that the rules be changed to permit umpires to eject players from games for a specified number of innings, instead of the duration of the game, something on the order of the penalties inflicted in hockey, was referred to the rules committee.

Three new umpires were named, Mike R. Donohue, St. Louis, Mo., promoted from the Texas League; Robert M. Clarke, Washington, D. C., from the International League, and Ted McGrew, Indianapolis, from the American Association. They will succeed Bob Hart, Eddie McLaughlin and Barry McCormick. Nine umpires were renamed, William J. Klem, Charles Rigler, Ernest C. Quigley, Charles B. Moran, Charles Pfirman, John E. Reardon, Louis D. Jorda, Albert D. Stark and George Magerkurth.

HUNTER ESCAPES DEFEAT IN INDOOR NET TOURNEY

BY TED VOSBURGH
Associated Press Sports Writer

NEW YORK, Feb. 4. (AP)—The national indoor tennis championship came close to losing its outstanding favorite today as Frank Hunter, America's second ranking star, was hard pressed by Frank Bonneau, a comparatively obscure New York southpaw.

Hunter finally won, 6-4, 3-6, 7-5, to reach the quarterfinals. However, he needed all his fighting fire to pull through.

Using the same weapons with which Jean Borotra, the Bounding Basque, turned back Hunter in the final of last year's tourney—the volley and smash—Bonneau located a weakness in the hard-driving Hunter's tennis armour and pounded it throughout the match. Occasionally Hunter's slugging forehand passed him cleanly but fully as often Bonneau laced into the ball for smashing overhead kills.

Hunter's next opponent will be Eugene McCauliff, ex-Fordham stylist, who reached the quarterfinals yesterday.

All of Hunter's leading rivals came through in far easier fashion, winning in straight sets.

Of these Harris Coggeshall of Des Moines, Iowa, looked most impressive, smothering Sidney Selig-

(Continued on Page 10, Column 5)

SANDBERG'S PASSING IS LAMENTED BY ARBITERS

Another tribute to the memory of Gus Sandberg, veteran Angel catcher, who recently died from the effects of burns received when the gas tank of his automobile exploded, was received yesterday in a telegram from Paul Genshlea, who expressed the sentiment of Coast League umpires. Genshlea's telegram follows:

"Gus Sandberg's death will be regretted by every umpire who ever worked behind him. A gentleman on and off the field and a proven friend of the umpire. Please express my sincere sympathy to all the bereaved.

"(Signed) "PAUL W. GENSHLEA."

Sarpolis Out to Stop Sensational Winning Streak of Marshall at Olympic Tonight

DOCTOR READY FOR MAT TEST

Karl Develops Defense for Airplane Spin Hold

Everett Favorite to Annex Daro's Main Event

Ted Thye and Cantonwine to Mix in Semi-Wind-up

BY RALPH HUSTON

Recent developments having indicated that Dr. Karl Sarpolis is not only ready and willing, but also entirely capable, of giving Everett Marshall a considerable battle, public interest in tonight's wrestling feature at the Olympic Auditorium has quickened considerably.

EVERETT MARSHALL

The "recent developments" include a couple of workouts, both public and private, in which the doctor displayed more speed than he uncorked in his recent bout with Dick Daviscourt, and added to it a hint of his method of evading Marshall's deadly airplane spin, which has brought down Joe Malcewicz and Stanley Stasiak in recent efforts.

The doctor is blessed with long legs, which he uses to advantage in his flying leg seisures. He twice beat Ira Dern, a spin expert, by holding the hold before Dern could get it started, and then scissoring him for the fall. However, fans who have watched Marshall agree that the blonde youngster will move entirely too fast for Sarpolis, and that the doctor won't have time to break the spin hold.

The bout is a best-two-out-of-three falls to a finish affair, but Marshall has been winning his matches in straight falls, and he may take the doctor that way, but only after a battle. Sarpolis is a fast, clean wrestler, much on the Marshall type. Marshall will weigh about 212 and Sarpolis about 215. The winner probably will meet Nick Lutze in the next show, according to rumors around Promoter Lou Daro's offices.

Ted Thye, an old local favorite who hasn't appeared here since his welterweight days, is down to meet Howard Cantonwine, the 216-pound former Iowan, in the one-fall, one-hour second event. Thye now weighs 195 pounds, and is bent on getting into the highest circle of the heavyweight ranks. He is a crafty, smart wrestler, and figures to win over his heavier opponent.

Dr. P. A. Mullikan, who never has lost a local match, hooks up with Steve Strelich in the 15-minute, one-fall opener. The "Terrible Swede" made his debut two weeks ago, and was a young riot on wheels.

FAVORITES WIN AT LOS ANGELES

(Continued from Ninth Page)

Monte, and won handily, 6 and 4.

Mrs. Roy Green of California, Los Angeles city woman's champion, was forced to extend herself in an excellent match with Mrs. E. B. Eva of the Columbia Golf Club, Portland, Or. Mrs. Green won, 1 and 1, but it was a battle all the way, with Mrs. Eva getting off to a spectacular start when she holed a 150-yard approach shot for an eagle 3.

Both out in 43, and all square at that point, Mrs. Green broke the deadlock by winning eleven and twelve to take a lead she held to the seventeenth green, where the match ended. Mrs. Eva won the sixteenth hole, a crucial stage of the match, but lost the seventeenth to a beautiful birdie 4, when she sliced her second into the barranca, and was down in 5.

In other first-round matches Mrs. C. J. Woerner, Los Angeles Country Club champion, defeated Miss Esther Klinck of Flintridge, 5 and 3; Miss Helen Lawson of Wilshire won from Mrs. Chris Rayser, 3 and 2, and Mrs. F. M. Slade, formerly Miss Hazel Converse, defeated Mrs. Mark Steele, 2 and 1.

The Slade-Steele match was something of an upset.

Today's quarter-finals matches, scheduled over the north course this morning at 9:30, are as follows:

UPPER BRACKET

Mrs. Leona Pressler vs. Miss Helen Lawson.

Mrs. H. G. Higbie vs. Mrs. C. J. Woerner.

LOWER BRACKET

Mrs. Gregg Lifur vs. Mrs. Roy Green.

Mrs. F. M. Slade vs. Miss Beatrice Gottlieb.

The Pressler-Lawson, and Lifur-Green matches will be the 'pieces des resistance" of the day, as there is a good bit of rivalry between the four players. Miss Lawson gave Mrs. Pressler a hard match at Virginia last spring in the Southern California women's championship, and Miss Green is capable of extending Mrs. Lifur, if she is on her game.

Yesterday's outstanding round was not, as might be expected, confined to the championship flight, but was shot by Mrs. V. G. Hutchings, 1924-25 mid-winter champion.

Mrs. Hutchings, after shooting a 77 over the south course in practice Sunday, failed to qualify on Monday when she registered a 92. Playing in the nonqualifiers' flight yesterday the Canadian star scored a brilliant 38-40—78 to defeat Mrs. M. Strange, 6 and 5.

Her card:

Women's par (out)..	383	364	363—39
Mrs. Hutchings	364	344	363—38
Women's par (in)....	534	443	453—40
Mrs. Hutchings.....	444	353	535—40—78

LENGTHEN FINALS

It was announced yesterday that the finals would be thirty-six holes, instead of eighteen, as in past years. This will be a welcome innovation and good training, as the finals of the national women's championship, which will be played at Los Angeles in the fall, is over the full route. The finals will be played Friday morning and afternoon.

Cards of other matches follow:

Green (Out)	584	365 474—43
Eva	364	565 563—43
Green (In)	536	463 54X
Eva	645	563 45X
Higbie (Out)	555	373 373—41
De Long	535	364 464—43
Higbie (In)	534	464 453—40—81
De Long	545	583 465—45—88

Here is the card for Miss Lawson and Mrs. Rayser:

Lawson (Out)	585	364	455—42
Rayser	635	465	375—46
Lawson (In)	445	564	5
Rayser	645	554	6

Mrs. Woerner and Miss Klinck turned in the following card:

Woerner (Out)	655	454	364—42
Klinck	654	464	475—45
Woerner (In)	545	574	
Klinck	646	588	

Following is the complete summary of yesterday's matches:

FIRST FLIGHT

North course, 9:30—Mrs. Leona Pressler defeated Mrs. Willie Low, 7 and 6; Miss Helen Lawson defeated Mrs. Chris Rayser, 3 and 2; Mrs. H. G. Higbie defeated Miss Lucille De Long, 4 and 4; Mrs. C. J. Woerner defeated Miss Esther Klinck, 5 and 3; Mrs. Gregg Lifur defeated Mrs. J. W. Taylor, 5 and 3; Mrs. Roy Green defeated Mrs. E. B. Eva, 2 and 1; Miss Beatrice Gottlieb defeated Mrs. Joe Mayo, 6 and 4; Mrs. F. M. Slade defeated Mrs. Mark Steele, 2 and 1.

SECOND FLIGHT

South course, 9:30.

Mrs. L. B. Elliott defeated Mrs. Clark Reynolds, 2 and 1.

Mrs. E. S. Browne defeated Mrs. L. R. Works, 4 and 2.

Mrs. Ralph Little defeated Mrs. Herman Polita, 3 and 1.

Miss B. Bastheim defeated Mrs. Gus Dunbridge, 4 and 3.

Mrs. R. C. Noble defeated Mrs. Paul Hill, 3 and 2.

Mrs. Pete Daley defeated Mrs. Dave Allen, 6 and 4.

Mrs. W. R. Feniston defeated Mrs. R. M. Bristara, 2 up.

Mrs. Blanche Cupps defeated Mrs. O. K. Thompson, 2 and 1.

THIRD FLIGHT

South course, 10:15.

Miss M. Peterson defeated Mrs. Mary Paper, 4 and 2.

Mrs. W. S. Stanley defeated Mrs. George Herald, 2 up.

Mrs. Conway Tearle defeated Mrs. O. J. Johnson, 3 and 2.

Mrs. G. D. Leas defeated Mrs. C. R. Francis, 1 up.

Mrs. D. H. Hardy defeated Mrs. C. L. Gaulden, 3 and 2.

Mrs. G. C. Howland defeated Mrs. A. O. Comstock, 1 up.

Mrs. Tom Williams defeated Mrs. Lenore Killian, 5 and 3.

FOURTH FLIGHT

South course, 11:00.

Miss Dorothy Kaye defeated Miss B. Aldenberg, 1 up.

Mrs. R. E. Van Zant defeated Mrs. Irene Adelberg, 4 and 2.

Mrs. Fay Palmate defeated Mrs. G. C. Brewster, 3 and 4.

Mrs William Moeller defeated Mrs. F. C. Stevens, 19 holes.

Mrs Sam Hornstein defeated Mrs. J. H. Grohman, 5 and 4.

Mrs. Jewell Schweisier defeated Mrs. F. M. Wertz, 4 and 3.

Mrs. Bob Beckman defeated Mrs. J. P. Govoh, 7 and 5.

FIFTH FLIGHT

South course, 11:45.

Mrs. S. W. Royce defeated Mrs. D. L. Pollock, 2 and 1.

Mrs. Peter Loeffler defeated Mrs. Ralph Cohen, 3 and 1.

Mrs. Esther Lathrop defeated Mrs. R. M. Loftus, 2 and 1.

Mrs. J. McHugh defeated Miss Virginia Kellogg, 4 and 3.

Mrs. D. P. O'Keefe defeated Mrs. A. L. Morrison, 1 up, 19 holes.

Mrs. J. C. Freud defeated Mrs. L. D. Dimm, 4 and 3.

Mrs. A. G. Morse defeated Mrs. V. B. Irvin, 4 and 3.

Mrs. Ernest Price defeated Miss E. Berliner, 5 and 3.

NONQUALIFIERS' FLIGHT

North course, 10:15.

Mrs. R. S. Edwards defeated Mrs. Charles Delaney, 2 and 1.

Mrs. V. E. Nittinger defeated Mrs. N. Van Dyke, 3 and 1.

Mrs. Howell defeated Mrs. Willis Hunter, 5 and 7.

Mrs. Alfred Lee defeated Mrs. S. D. West, default.

Mrs. V. G. Hutchings defeated Mrs. M. Strange, 6 and 5.

Mrs. O. B. Burnett defeated Mrs. George Lauberstetmer, 4 and 3.

Mrs. F. S. Hardin defeated Mrs. J. W. Montgomery, default.

Mrs. E. W. Buckley defeated Mrs. Tom Clark, 1 up.

INTERCITY TEAMS BATTLE TODAY

Second round interclub team matches are scheduled for today in three leagues with the following pairings:

GROUP NO. 2

Midwick at San Gabriel.
Lakeside at Bel-Air.

GROUP NO. 6

Rancho at Brentwood.
Hollywood at California.

GROUP NO. 7

Los Angeles at Wilshire.
Flintridge at Annandale.

De Paul Cage Team in Debut

De Paul University's "Blue Demons" from Chicago flash their mid-western basketball ability on Coach Bill Paige's Hollywood Athletic Club tossers tonight in a game expected to provide some scintillating basketball on the H. A. C. court. The game is carded for 8:15 p.m.

A club team which has broken even in two intersectional games already played this season will attempt to make it two out of three at the expense of the "Blue Demon" six-footers, who will hold a decided physical advantage. Nearly every man on the visiting squad is six feet tall or better, with Center Johnny Ascher the tallest of the tall with his six-foot three-inch stature. Ascher also is one of the leading scorers, along with Clarence "Dutch" Coan and Capt. Manning Powers.

The line-ups:

De Paul U.		Hollywood A.C.
Coan	F.	Cote
E. O'Connor	F.	McCormick
Jim O'Connor	C.	Kearney (C)
Joe O'Connor	G.	Lyons
Powers (C)	G.	McNeece

RABBIT PUNCHES

By PAUL LOWRY

LIEB AND LOYOLA

THE TOM LIEB "scoop" in The Times sports columns yesterday morning started something. The man who batted for sick Knute Rockne and led Notre Dame to a national football championship last fall is on his way to this city to accept a job as head football coach at Loyola.

He was wired a ticket by Loyola authorities yesterday and told to hop on the first train. Lieb has accepted the position conditionally. He wants to investigate conditions on the college's new campus in the Del Rey Hills.

It's a tough row the young coach has ahead of him. He has high aspirations. He wants to carry on as he did last fall. But Loyola also has high aspirations. And the members of its athletic board want to see those aspirations realized.

Generally speaking, they are men who attended Loyola when it was St. Vincent's in the old days. They were stars on the athletic teams when the institution was located where the Olympic now stands.

Walter Casey is chairman of the athletic board. He was a football hero in the days when Walter Hempel, the first major-league coach who ever drilled a team in Southern California, was on the job.

Casey and his confreres have been studying the coaching situation at Loyola for months. They want to bring back the luster of the old days when St. Vincent's was cock of the walk. They want a man who can produce.

They hope to convince Lieb he can't do better than to accept the job as head coach at approximately $10,000 per year and grow up with Loyola.

But if Lieb doesn't take the job, there are other coaches under consideration, and Loyola will have a major leaguer on the campus when the fall football season rolls around. You can bet your dough on that.

* * *

THE RACKET HAS-BEENS

THE "Century Doubles" tournament at the Los Angeles Tennis Club, for which Mr. Bill Henry hung up a handsome cup, achieved all that its author intended.

It brought out of retirement a flock of former greats, chief among whom, of course, were Tom Bundy and Simpson Sinsabaugh, the winners.

But out of the dozen teams entered there were plenty of ex-champions besides those who grabbed the trophy.

A very interesting feature was the return to active tennis of Eugene (Fritz) Overton, who was a great player before he became a wealthy oil magnate and prosperous attorney. Fritz won the Southern California singles in 1906 and 1906 and in the latter year defeated Tom Bundy in the challenge round. From 1906 until last Sunday Overton and Bundy had never faced each other across the net—quite a wait.

Incidentally, Bill De Mille, who had less of a tennis reputation than the other three finalists, was the big surprise of the tournament, holding his end up in fine shape.

Bundy and Sinsabaugh won largely through ability to come through in a pinch as Overton and De Mille led at 5-3 in the first set and 3-0 in the second. The tournament has stirred up a lot of excitement and among those threatening to play next year, who overlooked it this time, are Alphonso Bell, Pacific Coast champion in 1903; Claude Wayne, national clay-court champion in 1914; Trow Hendrick, Pacific Coast champion in 1910, and several other ex-title-holders.

* * *

THE OLD OBSERVER

AFTER a long period of silence "The Old Observer," the anonymous sage of the sport world, is at bat again, with the following:

"Well Paul:

"Black Bill hasn't got the New York flyweight tournament cinched by any means. Willie Davies of Charlevoix, Pa., will hit him with everything but the water bucket and easily keep away from that right of Bill's. You wait and see if I'm not right.

"And you're wrong again on the Angels. They will be lucky to finish third. And this bird Harper was peddled all over the International League, but no one wanted him.

"So don't be silly."

* * *

HIGH FISTIC FINANCE

ANCIL HOFFMAN is going to have a tough time making the financial grade on the Jackie Fields-Young Corbett bout he is staging in San Francisco the latter part of the month.

Fields's welterweight title is not at stake, but he is guaranteed $25,000 with a privilege of 50 per cent of the gate receipts. Corbett gets 10 per cent, the ball park another 10 per cent and the State 5 per cent.

That leaves 15 per cent for Hoffman to operate on—pay the preliminary fighters, help, advertising and what not.

He figures on a $100,000 gate, which will be the biggest turnout San Francisco has made since the ten-round game was legislated into being five years ago.

Cage Blocking is Discussed

BY SOL METZGER

Suppose the cut back play shown yesterday is solved. What should one look for next in this game of basketball he is watching? Here's a play from it that may likely follow, especially if the defense has solved the other one by swapping men? That is, C, instead of covering No. 1, takes No. 2 as his man and leaves B to cover No. 1.

When that is the case here's a corking play to overcome the defense: No. 2 cuts down and past No. 1, as before, making all the motions of taking the ball. But instead of taking it he rushes on by as usual, keeping just to the side of C. No. 1 swings outside of No. 2, dribbling. And he drives for the basket with No. 2 leading him to take a short pass, should an opponent rush him.

Neat legal blocking this one.

Good and Hot Wins Feature

AGUA CALIENTE (Mex.) Feb. 4. Good and Hot, candidate of the Meadowbrook Stock Farm stable for the Agua Caliente Derby, which will be decided next month, won the Golden Orioles, allowance affair, at seven furlongs, which featured this afternoon's race program. Good and Hot, which had finished second-in his last three starts, was restrained behind the early pace of Tonto Rock this afternoon and when ready went to the front to win by two lengths. Tonto Rock saved the place and Jeu De Bar got the show. A field of eight eligibles went to the post with the winner dashing the seven furlongs in 1:23 2-5. Jockey D. Lyons, who had the mount on Golden Prince in the Speed handicap Sunday, rode Good and Hot this afternoon. Agua Caliente officials announced this afternoon that the Coronado Town Plate, annual race for women riders, will be staged the 16th inst. The Coronado Town Plate is patterned after the Newmarket Plate, oldest of the English turf fixtures. Results:

First race, five and a half furlongs—Parisian (Lutz) won; Hercules (Schultz) second; Bunker Hill (Green) third. Never Tell Knights first, but was disqualified. 1:07 4-5.

Second race, seven furlongs—Mr Effort (Teasdale) won; Parisette (Redding) second; Carter Maid (Overzier) third. Time, 1:26 4-5.

Third race, three furlongs—Vellahonh (Morrison) won; Princess Diablo (Malley) second; M. Cocoma (Cuttletti) third. Time, :35 3-5.

Fourth race, six furlongs—Satin Rose (McHugh) won; Lady Beth (Redding) second; Shasta Craft (Talbot) third. Time, 1:13 4-5.

Fifth race, six furlongs—Flying Torch (Richards) won; Leviluse (Hurlbert) second; Conciation (McHugh) third. Time, 1:11 3-5.

Sixth race, seven furlongs—Good and Hot (Lyons) won; Tonto Rock (Colletti) second; Jeudebar (Baird) third. Time, 1:23 2-5.

Seventh race, mile and a sixteenth—Herdsman (Lasswell) won; Polly Timber (Teasdale) second; Ted Healey (Warren) third. Time, 1:47 4-5.

Eighth race, mile and an eighth—Claude C. (Cates) won; Torch (Richards) second; Anonymous (Warren) third. Time, 1:51 3-5.

Pomona Will Take on Oxy

After a week's layoff, Coach Eddie Kienholz's Occidental basketballers again resume practice this week in anticipation of their game next Saturday night with the Pomona Sagehens, scheduled for the Claremont court at 8 o'clock, with the frosh teams engaging in a preliminary tilt.

Having dropped two conference struggles, to Redlands and La Verne, the Tigers are practically eliminated from the race for top honors in the Southern Conference.

The Occidental hoopsters ran away with the championship of the Southern Conference last year with an undefeated record, but it looks at present as if the Tigers will have to be contented with something less this season.

VAN FLEET-DURKEES TO TAKE ON OILERS

Senior Hocker League Standings

	W.	L.	Pct.
Arrowhead Valley Club...	7	1	11
Shell Oil	4	3	8
Van Fleet-Burkees	3	4	7
	0	7	0

With the Shell Oilers fighting to get back into the running for first place and the Van Fleet-Durkees anxious to crawl out of the cellar in the Southern California Senior League, something of a wild-and-woolly ice hockey battle is expected when these sextets clash tomorrow night at the Palais De Glace rink.

Critics believe that Hector Proulx's Station men are about due to "find themselves" and therefore, the Van Fleets will be even-money bets against the Oilers when they skate on the ice.

SAGECHICKS WIN OVER ENGINEERS

CLAREMONT, Feb. 4. — Coach "Beefy" Heath's Sagechick basketball quintet managed to eke out a win against the first-year Caltechmen Saturday night, 29-24. Although the game was close all the way the Pomona yearlings showed from the start that they were the better team and only the inability of the Sagechicks to hit the basket kept the score down. Jack Ludden and "Lanky" Crabtree were the big-point getters for the Sagechicks, Ludden garnering 11, while Crabtree caged the cassba for 9 points. Rod Cross who teams with Ludden at the forward post, kept the Pomona team humping with his fast floorwork and nifty passing.

Pogolotti Is Big Surprise for Christie

BERKELEY, Feb. 4. (Exclusive)—With the sun shining brightly at last so that his athletes may get to work, Coach Walter Christie of the University of California track varsity is confronted with the problem of filling up weaknesses in the quarter-mile and half-mile races. Although there is a presentable group of 440-yard men working out, the list does not include exceptional performers. Those who stand out among the one-lap aspirants are Pratt, Johnson, Sparks, Wright, Reed, Weyman and Lucas. It is a real question as to whether any of the men will get under 50s. consistently.

Today's workout unearthed a real surprise, however, when Capt. Al Pogolotti, Christie's hurdling ace, proved himself capable of turning the 440 in a shade under 50s. Pogolotti will not be removed from the hurdles, however, and his flat running will probably be confined to one lap on the relay. Another man who has quarter-mile potentialities, according to recent practice developments, is Hondahn, the sophomore. In last year's freshman "little big meet" with Stanford Hondahn won both hurdle races.

Christie has a number of fine sprinters on deck, but he is still looking for the men to beat out Hec Dyer of Stanford and the University of Southern California's dash artists.

HUNTER WINS HARD BATTLE

(Continued from Ninth Page)

son of New York University, 6-0, 6-1.

Julius Seligson of Lehigh, former intercollegiate champion, defeated Kenneth Appel of South Orange, N. J., 6-4, 9-7. He will try to succeed where his brother failed when he meets Coggeshall in the quarterfinals tomorrow.

Gilbert Hall of South Orange, who is looked upon as Hunter's chief rival, polished off Ed Burns, New York, 6-4, 6-4. Perrine Rockafellow, who used to play for Colgate, downed Bob Considine of Washington, the youth who shares the national public parks doubles title, 7-5, 6-0; and Herbert Bowman, New York veteran, outdrove Lieut. R. M. Watt of the United States Navy, 6-2, 6-2.

Of the eight men still in the running, seven are seeded players. The eighth, E. E. Jenkins, upset Merritt Cutler, seeded eighth, 6-4, 6-2, in an all-New York encounter.

Jenkins meets Hall and Rockafellow plays Bowman for the right to enter the semifinals.

Hunter and his partner, Harold Throckmorton, New York, making their debut in the championship doubles, defeated John Kirkham and T. E. Shaffer, New York, 6-3, 6-1.

Coggeshall and Richard Murphy of Utica, N. Y., Harvard students, won twice, beating the New York University pair of Alex Miller and Charles Marks, 6-1, 6-1; and M. Kann and C. E. Baldwin, New York, 6-1, 6-2.

Among the other winners were Hall and Appel, who trimmed Thomas Cahalan and Victor Bady, New York, 6-1, 6-0.

Fencing Meet Next Sunday

The first fencing meet of the year will be held Sunday afternoon on the archery grounds of the Ambassador Hotel. It will be held under the direction of Lieut. H. R. Brown, graduate master of the British army school of fencing at Aldershot, Eng.

The event is open to all fencers in Southern California and starts at 2:30 o'clock. Several exhibition matches by professional and amateurs is also scheduled.

Prof. Uytenhove of the Los Angeles Athletic Club and U.S.C., Capt. Duff of U.C.L.A., and Lieut. Brown are enthusiastic over the new interest and predict a new school of fencers here in the Southwest.

HURRICANES FACE PURPLE

(Continued from Ninth Page)

right everything should be hotsy-totsy around the Purple locker-rooms this evening. If they don't—totsy around the Purple locker pionship trophy good-by this year.

It looks like a nice afternoon for the fans, at any rate. The line-ups:

MIDWICK. Rating.	Position.	HURRICANES. Rating.
McCarthy	No. 1	Sanford
Brooks	No. 2	Baldwin
Fedler	No. 3	Coll
Burke	Back	Howard

CARD-BRUINS TILT AT NIGHT

(Continued from Ninth Page)

more people are able to attend games after dark. Last year, the Westwooders' evening affair with Caltech in the Rose Bowl drew some 16,000 fans, while the Bruin-St. Mary's tilt in the daytime attracted but 6000.

The October 4 date on the Bruin football schedule for 1930, is still open, but will be filled before next fall, in all probability, said Cunningham. Santa Barbara State Teachers' College has been suggested as a possible opponent, or an alumni eleven might play the U.C.L.A. varsity on that date.

WEIMAN MAY TAKE WISCONSIN POST

ANN ARBOR (Mich.) Feb. 4. (AP) Rumors on the University of Michigan campus today were that Elton E. (Tad) Weiman, former head coach of the Michigan football team, would be offered a position as line coach at the University of Wisconsin. Weiman declined to confirm or deny the rumors.

Stas Differ on Explosion

BY SOL METZGER

How different the method of Horton Smith from that of Abe Mitchell for playing the explosion. Horton is orthodox. He follows the same general plan for this shot that he does for the others.

With feet worked deep into the sand he takes the club back with a straight left, his weight going chiefly to his right leg on this part of the swing. There is a body pivot to Smith's backswing as his straight left pulls his left hip around and partially raises his left heel from the sand.

But as he starts the club, bang goes his left heel into the sand and with it his hips glide back into their original position, as a comparison of the two sketches above shows.

Golf is a form game. Correct your pivot and you will add yardage to your shots. Sol Metzger has prepared a free illustrated leaflet on The Pivot. Send for it in care of The Times and inclose a stamped, addressed envelope.

(Copyright, 1930, by Publishers' Syndicate)

Trojan Nine Begins Work Here Monday

Trojan baseball players will start working out Monday on Bovard Field, in preparation for the California Intercollegiate League schedule. Student Manager Ted Halfhill will pass out uniforms to a number of veterans, including Capt. Joe Ward, catcher; Holzhausen, first base; Pete Tarchone, third base; "Bing" Boswell, Doug Hanby and Stan Stanier, outfielders.

Dick Schuls and Larry Dihel, varsity twirlers last year, will take charge of the workouts until Sam Barry finishes with his basketball duties. In addition to league games with U.C.L.A., California, Stanford and St. Mary's, the usual series with Occidental will take place, and a series has tentatively been arranged with Arizona. The usual rumor about a summer trip to Japan is afloat again.

New Arena to Open Monday

Joe Lillard, who is in charge of the sale of tickets at the new East-side Auditorium at Ninth and Lorena streets, predicts that the new arena will be packed to capacity when the opening show is staged Monday night. Seats have been reserved for Gov. Young, Mayor Porter, State Treasurer Johnson, U. S. Atty.-Gen. Webb and numerous other State, city and county officials, including all the members of the California State Athletic Commission.

Various improvement organizations on the East Side are taking steps to make the opening of Los Angeles' latest boxing creation a big success.

Manager Leo Newman has Ritchie King and Joe Guerrero, lightweights boxing the main event. Both are local boxers with big reputations as club fighters.

WHITTIER HIGH TEAM SHADES ORANGE FIVE

The Whittier High School basketball quintet nosed out the strong Orange High five at Whittier yesterday afternoon by the score of 29 to 27. The Poet coach started a second-string team, but was forced to jerk it almost immediately to avert defeat. Whittier led at the half time, 15 to 11. Pages, Orange forward, was high-point man for the afternoon with 11 digits, while Kline, center, led the scoring of the winning aggregation with 9 points.

In a preliminary game, the Whittier Class-B basketball squad easily conquered the Orange High lightweights by the count of 34 to 13. Whittier led 13 to 8, at the half.

The varsity line-ups:

Orange (27)		Whittier (29)
Strunk (10)	F.	Wood
Goldthrite (4)	F.	Goetz (3)
Wilson	C.	Kline (9)
Santa Cruz (3)	G.	Marrie
Tobb	G.	Mark

SCORE BY HALVES

Orange	11	16—27
Whittier	15	14—29

Substitutions—Orange: Pierce (1), Douglas (3), c. Whittier: Carmon (3), Arambide (3), Li. Shiffler (3), c. Warner (1).

COLLEGIANS WILL PILOT OUTBOARDS

Washington's birthday has been set as the day for the first of a series of intercollegiate gold-cup outboard races to be held in this vicinity, according to an announcement by Ed Hackett, assistant graduate manager at Occidental College. These races are being sponsored by College Humor, national campus humor publication.

The Washington's birthday event is to be staged at Alamitos Bay, in conjunction with races being sponsored at that time and place by the Southern California Outboard Association. All intercollegiate drivers are urged to take part in the special events which are being put on for their special benefit at that time.

For any further information on the races, as well as for entry blanks, drivers in local colleges and universities are asked to communicate with Ed Hackett at Occidental College.

LA SALLE GO POSTPONED

CINCINNATI, Feb. 4. (AP)—The boxing show scheduled here tomorrow night has been postponed because of an injury to the hand of Vincent Hambright, Cincinnati welterweight, who was to box Bobby La Salle of Los Angeles in the main go. The bout will be fought a week from tomorrow night.

Payne Picked to Win Fight

Cecil Payne on his showing in the two fights he had with Goldie Hess is going to enter the Hollywood American Legion stadium ring a favorite to shellack Johnny Lamar, Mexican lightweight. Lamar hasn't fought a main event at a local club of any size in months but he is rated one of the best fighters in the country at his weight. The Mexican stands a mighty good chance of beating Payne, according to boxing fans who have been watching both fighters in their gymnasium workouts.

Johnny Lamar

Only recently Jack Russell made a deal with Lew Diamond, eastern fight manager who is here with a stable. He claims that eastern promoters are crying for California fighters and that Johnny Lamar would be a big winner in New York and Russell has decided that the East is where Lamar belongs. Jimmy McLarnin made thousands East where he made hundreds of dollars here.

Because Manuel DeLeon, young Mexican bantamweight, is making his first big-league start in the semi-wind-up his opponent, Tommy McCleigh, will be favorite. McCough is a classy performer with a sock. Tommy Hoffman is one end of the special event. An opponent is being sought because Melford Bergland has been suspended.

TILDEN AND PARTNER BOW TO FRENCHMEN

CANNES (France) Feb. 4. (AP)—Henri Cochet and Jacques Brugnon, French tennis stars, won the men's doubles final of the Cannes tennis tournament by default today from Big Bill Tilden and Charles Kingsley. Kingsley was unable to play because of an injury to his hand. Tilden, paired with Cecile Aussem of Germany, defeated Joan Ridley of England and Louis Worms, 6-3, 7-5, today in the mixed doubles final of the Cannes tennis tournament.

TROJANS TO RUN IN A.A.U. RELAY MEET

University of Southern California will enter varsity and freshman teams in the open relays to be staged in the annual A.A.U. relay championships at the Long Beach Polytechnic High School field the 22nd inst.

Three open relays are on the schedule of the meet. They are the four-mile, one-half-mile and medley events of four men each. Trojan varsity and freshmen athletes will also compete in the six open field events.

Pirrone Seeks Ruth Offer From Oriental Team

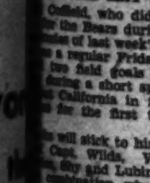
Provided Babe Ruth is serious in his threat to end baseball career unless they give him a three-year contract, Joe Pirrone, baseball impresario, is willing to match Babino on an exhibition tour of California, Honolulu and Japan.

Pirrone last night made an offer of $10,000 to stage exhibitions in California for a fifteen-day period and made an offer of $25,000 to stage games in Japan. The two Colossi of Clout would be played in such cities as not to interfere with major league schedules, while in the Orient would take up the months of June and July.

Pirrone stated that he would desire to buck only one game, but that these offers were not considered only provided they carried out his threat to retire from the Yankees.

EVANS PLEASED WITH BASEBALL PROSPECTS

BERKELEY, Feb. 4. (AP)—Clint Evans, successor to Nibs Price as coach of the University of California baseball squad, wore a smile of optimism as the diamond varsity pounded out new playing grounds on the west Athletic Division of the new California Memorial Stadium in preparation for the Pacific Coast Conference baseball season.



CARL SHY

This year the Golden Bears of California at the Olympic club on Saturday nights in two important struggles. Southern California has but one tilt this week, meeting Stanford at Palo Alto Saturday.

Although the Trojans are slight favorites to finish on top, Evans is so close that virtually anything can happen except a victory for Stanford. By taking two games from California, it hardly possible, but Evans would well worth capitalizing on, the Bruins can draw even footing with Southern California, provided the Trojans do the expected and knock off Stanford. Should the Redshirts prove unruly and spill the beans while U.C.L.A. was thumping California the Bruins would be a first-place possibility for Caddy Works and Co. of which illustrates what a victory this affair is turning out to California, even, is not entirely out of it, but her chances are remote than those of our local

Pirrone Sends Ruth Offer of Oriental T

Provided Babe Ruth is serious in his threat to quit baseball unless the Yanks give him a three-year contract, Joe Pirrone, local baseball impresario, is willing to take Ruthino on an exhibition tour of California, Honolulu and Japan.

Pirrone last night placed the offer of $10,000 to play ten games in California during a ten-day period, and an additional offer of $25,000 to tour through Japan. The ten California games would be played during April so as not to interfere with the League schedule, while the tour of the Orient would take place during the months of June and July.

Pirrone stated that he had no desire to buck organized baseball, but that these offers were to be considered only provided the Yanks carried out his threat to retire the Yankees.

EVANS PLEASED BY BASEBALL TURN

BERKELEY, Feb. 4. (AP)—Clint Evans, successor to Clint Wilpoch as coach of the University of California baseball varsity, wore a smile of optimism on the diamond varsity pranced on the new playing grounds on the west Athletic Development. This year California won the Pacific Coast League Baseball Association championship. This year the loss is practically intact. Evans smiled particular today when he saw Norm Horner unleash his fast ball. Horner won every game he pitched last season. He has speed and control that last time through the games. A real battle between Brick Williamson, catcher's glove promises to be on when Evans sends Williamson and Smith. The former is a veteran last year as a varsity player, while Smith was freshman ball last season and has had considerable experience in club league.

De Paul Five Wins, 36-28

De Paul University basketball team of Chicago defeated the Pacific Coast Club quintet last night, 36 to 28, in a fast, hard-fought game. The score at half-time was 15 to 14 in favor of the visiting tossers.

A feature of the game was De Paul's three O'Conner brothers, Jim, Joe and Bud, all of whom played.

The line-ups:

De Paul (36)		P.C.C. (28)
Conn (2)	F.	Bratton (6)
Jim O'Conner (11)	F.	Rowe (6)
Ascher (6)	C.	Beckert (6)
Powers (9)	G.	Sawyer (5)
Joe O'Conner	G.	McGinnes

SCORE BY PERIODS

De Paul	15	21—36
Pacific Coast Club	14	14—28

Substitutions: De Paul—Johnson, B. O'Conner. Pacific Coast Club—McCain (5), Morgan.
Referee—Dubin.

Bears, Oilers Meet Tonight

Battling for the right to take part in the championship play-offs, the husky squads of the Sunfreze Bears and Union Oil Pirates tangle tonight at the Winter Garden Ice Palace. Only one point separates the two teams, as they start their final drive for amateur ice hockey recognition. Second place, which is at stake tonight, is just as good as first place, for, according to the rules of hockey, the first two teams meet in a seven-game series at the end of the season for the championship.

The Bears are gifted with plenty of good material, especially on their forward wall of speed skaters. Collette, Richards, McLellan and Woodley will keep the Oiler defense busy tonight. Standings:

	W.	T.	L.	Pts.
Gilmore Lions	10	1	0	21
Sunfreze Bears	9	1	1	19
Union Oil Pirates	8	2	1	18

Stanford Five Raps Ignatians

STANFORD UNIVERSITY, Feb. 4. (AP)—In the biggest upset of the current collegiate basketball season, Stanford's varsity quintet tonight decisively defeated St. Ignatius College, 34 to 24.

The contest was fairly even until the second half when, with the Ignatians holding a 17-to-16 lead, McCaddless and Fawcett of the Redshirts broke loose with a flurry of baskets that gave the Cards a 26-to-17 advantage in less than four minutes.

From this point on, the Cards matched the visitors point for point until the end of the game. Stanford led, 14 to 12, at half-time. McCandless, Redshirt center, took high-point honors with 13 points, while Barcellos of the Ignatians collected 7 digits.

TOWEL SPARES VETERAN BOXER

(Continued from Ninth Page)

and his seconds wasted no time throwing the towel into the ring when their boy went down from a one-two to the chin in the fifth.

Sangor was courageous and would have been up at nine to continue a hopeless battle—a battle that could not possibly have ended any other way than it did—but his seconds averted the inevitable.

Mack and Sangor fought at junior-lightweight limits—130½ for Sangor and 133 for Mack. The house was almost capacity.

BEUM STOPS FRASER

The semi-wind-up also produced a technical knockout when big Harry Beum of the George Blake stable stopped Wally Fraser in the sixth round.

Fraser had the best of the fighting all the way up to the sixth and had Beum in distress several times.

But in the sixth Beum landed a right-hand uppercut, and Fraser hit the floor for a three-count. He was pounded into his own corner when he got off the floor, and once again pitched to the canvas. His seconds threw in the towel to save him needless punishment.

The preliminaries resulted as follows:

Freddie Tompkins defested Willie Fausto in a rousing head-to-head and toe-to-toe conflict; Pat Cunningham won from Gene Mullen by a technical knockout in the second round, and Jack Stephens kayoed Bobby Flores in the second round of the curtain raiser.

CALIFORNIA PREPS WIN

The California prep school basketball team handed the El Segundo quintet a 22-to-12 setback last night in the former's gym. Schaefer of the prep squad took the high-scoring honors with ten points. El Segundo held the California team fairly even throughout the first half but blew up in the closing period and were overwhelmed.

TRACK SITE SWITCHED

NEW YORK, Feb. 4. (AP)—The national indoor track and field championships originally awarded to Atlantic City at the annual meeting of the Amateur Athletic Union will be held instead in Madison Square Garden here March 18, Dan Ferris, secretary of the union, announced today.

YOUTHS START OLYMPIC WORK

Early Training is Factor in Development

BY BRAYEN DYER

Taking advantage of the apparent arrival of spring, thousands of boys in Southern California have already started light preliminary training for the 1930 Junior Olympic Games. Meets, of course, are many weeks distant, but practice makes perfect and early training, if light, can be of great benefit to all athletes.

Boyd Comstock, director of the 1930 program, points out that all of last year's champions were diligent trainers and that each of the boys started early with his preparations. Such stars as Robert San Jose, Fernando Ramos, Vane Baker and Jerry Deal didn't just fall into their places of prominence. They got there by hard work.

Youngsters who are planning to enter this year's Junior Olympic Games competition are naturally all hopped up over their chances, inasmuch as Baker is the only one of last year's winners now eligible. And Vane moves on into the senior division where he will find the going much tougher.

Funny thing about the fair-haired Huntington Park boy. Months ago his family announced their departure for South America and Vane left Huntington Park, a town which derived much national publicity because of Baker's athletic prowess. Ten days ago Vane walked into The Times office and announced that he was ready for the 1930 Junior Olympic Games. It turned out that the Baker family did not go to South America, but stayed in Texas for several weeks and then returned here. Perhaps Vane is figuring on winning the senior championship and getting his South American trip that way for the four highest scorers in Southern California are to be given a wonderful twenty-eight-day ocean voyage as a reward for their showing in the finals here.

Junior Olympic Games headquarters have received scores of inquiries about the Latin-American trip since it was first announced in last Sunday's Times. Leaders in educational circles have come forward to commend the executive committee for its foresight in arranging a trip of this nature for youngsters of Southern California. Those who are lucky enough—or, rather, efficient enough—to win the award, will visit seven countries on the voyage from New York to Los Angeles and the entire trip will not cost them a dime.

The executive committee is counting heavily this year on the continued support of student executives in the various schools and organizations enrolling in the Junior Olympic Games. These boys are of invaluable aid, not only to the executive committee but also to coaches at the respective institutions. They handle details connected with staging of meets and keep their contestants posted on the latest news in connection with the program.

Five events are on the Junior Olympic Games schedule, which The Times is now sponsoring in Southern California for the third consecutive season. They are seventy-five-yard dash, basketball throw for accuracy, baseball throw for distance, standing broad jump and chinning.

Bears Lose to Athens Cagers

BERKELEY, Feb. 4. (AP)—Marking up 10 points in the last three minutes of play, the Athens Club basketball team of Oakland defeated the University of California quintet in old Harmon gymnasium here tonight, 33 to 31.

Three minutes before the final gun, the Bears held a 29 to 25-point lead, but Art Furd, club center, sank three shots in succession; and Verne Corbin, center, added one more to give the Athens five a lead the Bears could not overcome.

The Athens team held a 17-to-14 lead at half time. Capt. Perry Ten Eyck, of the Bears, and Ford tied for high-point honors, each with 11 points. The game was marked by a great deal of roughness in the second half, with both Kent Pursel and Carl Vendt of the California five going out of the game on four personal fouls.

BABY JOE GANS IN WIN OVER DIVODI

NEW YORK, Feb. 4. (AP)—Baby Joe Gans, Los Angeles negro, won a decision over Andy Divodi of Brooklyn in a ten-round bout at the Broadway arena tonight. Gans floored Divodi for a count of eight in the sixth round.

Frankie Goosby, Los Angeles, 148, stopped Freddy Kelly, New York, 150, in the second round of a four-rounder.

BASKETBALL

WITH "Dusty" Rhodes leading in the scoring the Block Exchange five last night handed the William Banks quintet a 22-21 trouncing in an overtime game held on the John C. Burroughs Junior High basketball court. The score was tied throughout, the winning basket being made by Rhodes a few seconds before the closing gun.

In two other games held in the Bears' division of the Los Angeles Stock Exchange Institute basketball league, the H. J. Barneson basketballers barely nosed out the Toole-Tietzen cage five by a 13-12 score. Deerfoot, star forward for the Barneson floor-scrunchers, scored the winning basket. The other game was the Gorman-Kaye five bite the dust, when the Rotro & Co. five handed the former an 18-14 defeat. By virtue of its win last night and another win scored over one of the leading teams of the institute, the Exchange five is now on top of the heap and on its way to the title. The deciding games are scheduled to be played some time within the next two weeks.

Y.M.I. TRIMS BRONCHOS

SAN FRANCISCO, Feb. 4. (AP)—San Francisco's Y.M.I. decisively defeated Santa Clara University's basketball quintet here tonight by a score of 31-24. The San Francisco clubmen kept a basket ahead of the collegians throughout the fray and showed slightly faster, steadier work, consistently.

JUNIOR OLYMPIC GAMES

Modern pentathlon, consisting of 75-yard dash, chinning the bar, standing broad jump, basketball throw for accuracy and baseball throw for distance.

Any boy who will not be more than 16 years of age on December 1, 1930, may represent any organization having an athletic director. No individual entries received.

Following Southern California counties: Imperial, San Bernardino, Riverside, San Luis Obispo, Orange, Los Angeles, Santa Barbara, Ventura and Inyo.

Medals or ribbons for winners of city, county and Southern California finals. Free trip to national championships of Atlantic City for Southern California champions. Four Southern California winners to receive free ocean cruise from New York, through Panama Canal, visiting seven Latin-American countries and returning to Los Angeles.

Full details may be secured from your athletic director or by addressing Junior Olympic Games, Times Building, Los Angeles, California.

AND ACTIVITIES AT LOS ANGELES HARBOR

FOREIGN TRADE WEEK IN OFFING

Chamber Sets 16th Inst. for Start of Program

Fourth Celebration Planned on Broader Scale

Exports and Imports Volume Double Since First

BY WAYNE B. CAVE

Foreign Trade Week, after three years of successful sponsoring in Los Angeles by the Chamber of Commerce, this year will take on a State-wide aspect, with observances in San Diego, San Francisco and Sacramento, as well. The period is set for the 16th to the 22nd inst.

As all roads once led to Rome, the State's ultimate aim is to converge all sea highways to California.

Within the four years since the chamber first got folk thinking in terms of the sea, the imports and exports of Los Angeles from and to foreign countries have exactly doubled.

Within that time Southland manufacturies have made their first successful bid to market products beyond the seas, and the port has become an important point for the dispatch of fruit and cotton abroad. It is significant that the State-wide movement fostered by the California State Chamber of Commerce is headed by a Los Angeles man, Clarence H. Matson of the Los Angeles chamber's department of foreign commerce and shipping.

Grover C. Gearhart, president of the Foreign Trade Club of Southern California, will direct the Southland celebration, aided by twenty-one lieutenants, and speakers will address scores of civic organizations during the week on foreign commerce. Posters, essays, contests and the radio also will play their part in exploiting the idea.

The final day will be dedicated to the port, where ships from all over the world will hold open house.

For the first time, Los Angeles will play host May 21, 22 and 23, next, to the national foreign trade convention, accorded this city in recognition of its strides in the foreign fields.

ARMY BOARD AUDITOR ON MISSION TO HARBOR

O. W. Menk, statistician from the Washington (D. C.) offices of the United States Army Board of Engineers for Rivers and Harbors, yesterday began his work of revising the War Department's book on the local port's terminal facilities, charges and practices. The book was last revised in 1922.

Mr. Menk yesterday was in conference with D. E. Hughes, resident engineer for the Corps of Engineers, relative to Federal projects completed, in progress or contemplated. Later, he will incorporate all Harbor Department data in the revision.

The local Navy Hydrographic Office had a busy month in January, according to the report of Maurice Kelly, engineering aide in charge. In addition to all office work, the bureau distributed the following publications: 1427 hydrographic office bulletins, 910 daily memorandums, 1507 notices to mariners, 840 pilot charts, twenty-one charts of the upper air, 60 aviators; 975 marine data notices, and forwarded to the Hydrographic Office at Washington, 230 reports.

Capt. Eugene Lane, well-known Pacific shipmaster, will this week assume command of the Bermuth-Lembke tank steamer Trimountain. The vessel, now at San Francisco, is due late this week to load a fuel-oil cargo at the Shell terminal for Balboa.

Officers of the British tanker San Macedonio, in port from Buenos Aires, reported to the Navy Hydrographic Office an unusual experience with a South American pampero, or local hurricane, while proceeding up the Parana River on New Year's Day.

According to Second Officer W. A. Farrell, the wind rose from a zephyrs to hurricane force in twenty-two minutes and the temperature dropped from 86 deg. F. to 44 deg. in that period. The wind was so strong, he reported, that the funnel of the tanker acted as a sail and the San Macedonio was turned around and swung against the river bank by the gale coming over the top of the jungle.

Six ships of four nations touching as many continents were yesterday's portion at docks of the Outer Harbor Dock and Wharf Company. The Dutch carrier Modjokerto, came in with passengers and freight from the Dutch East Indies for the Java Pacific Line, while the sister ship Siantar departed. The German motor liner Los Angeles was discharging European freight; the Norwegian motorship Chris Knudsen was discharging 3400 tons of Belgian clinker cement, and the Norwegian motorship Graystoke Castle, bunkering and lifting 1500 bags of mail for her westward trip around the world for the Barger Lines.

John Stewart, New York representative of Sir Joseph Isherwood, British naval architect, whose bracketless system of ship construction is so advantageous to tankers, is at Long Beach recuperating from a long illness. He will be here indefinitely.

Long Beach breakwater light will change its flashing red light to a fixed red of 3000 candlepower the 20th inst., according to the local hydrographic office. On the same date a nautophone will be established at this light station to sound

DAILY CATALINA SERVICE

(Except Sunday)

Leave Berth 185, Wilmington district, 10 a.m. and 3:30 p.m.
Arrive Berth 185, 10:15 a.m. and 8 p.m.

SUNDAY

Leave Berth 185, 10 a.m.
Arrive Berth 185, 10:10 a.m. and 8 p.m.

AIR MAIL SCHEDULE

(Mail as early as possible.)

Eastbound (day schedule): Leaves Los Angeles 7:35 a.m. daily, except Monday, connecting at Salt Lake City with eastbound planes. Arrives Salt Lake City 2:15 p.m. Mountain Time. Closing time for eastbound mail: Arcade Station, 6:30 a.m.; airport, 6:45 a.m.; main postoffice and substations, 5:30 a.m.

Westbound (night schedule): Leaves Los Angeles 7 p.m. daily; arrives Salt Lake City 2:45 a.m. Mountain Time; Chicago, 6 p.m. Central Time; New York City, 9:40 a.m. Eastern Time. (Closing time for Arcade Station, 4 p.m.; airport, 4:15 p.m.; main postoffice and substations, 5:30 p.m.)

Westbound (day schedule): Leaves New York City 11 a.m., Eastern Time; Chicago, 8 a.m., Central Time; Salt Lake City, 9:40 a.m., Mountain Time; arrives Los Angeles, 5:35 p.m., Pacific Time.

Eastbound (night schedule): Leaves New York City 8 p.m., Eastern Time; Chicago, 6 a.m., Central Time; Salt Lake City, 9:20 p.m., Mountain Time; arrives Los Angeles, 4:15 p.m., Pacific Time.

Coastwise, southbound: Leaves Los Angeles 11:45 p.m. daily; arrives Bakersfield 12:50 a.m.; Fresno, 2 a.m.; San Francisco, 4:30 a.m.; Medford, Ore., 8 a.m.; Portland, 10:30 a.m.; Tacoma, 12:30 p.m.; Seattle, 1 p.m. Closing time for northbound mail: Arcade Station, 10:30 p.m.; air mail boxes, 9 to 10 p.m.

Coastwise, northbound: Leaves Seattle, 11:45 p.m.; San Francisco, 12:30 p.m.; arrives Los Angeles, 7 p.m.

Sun, Moon and Tide

CITY TO RENEW ELECTRIC PLEA

Rebuttal Testimony Aimed at Edison Company

Latter Concludes Offering Defense Contentions

Injunction Trial Will Last Several Weeks More

Testimony in rebuttal for the plaintiff will be offered today before Superior Judge Collier in the hearing of the injunction suit brought by the City of Los Angeles against the Southern California Edison Company to restrain the company from selling electric power, other than light, to consumers in the city on the grounds the company's franchise expired in 1916.

After taking evidence for three weeks the defense closed its side of the case yesterday with testimony given by R. H. Ballard, president of the Southern California Edison Company. The power executive was on the stand most of the day telling of working agreements his company has had with the city since the expiration of the franchise.

It is the contention of the company that the city is now estopped from bringing a court action for the reason that, although the city knew the franchise had expired, it stood by and permitted the company to go ahead, since 1916, and spend approximately $40,000,000 in improvements; also that the city entered into pole agreements with the company and even went so far as to have the company furnish electric power to certain departments of the city.

The trial will last several weeks more.

CLINIC CHANGES DAYS

Beginning tonight the legal Aid Clinic of the School of Law of the University of Southern California, will be open on Wednesday evenings from 6:30 to 7:30 o'clock instead of on Thursday evenings as in the past, according to announcement of Prof. John S. Bradway, director of the clinic.

UNIVERSITY GETS BRIGHTEST BOY

Herman Robinson Enters as Freshman in Engineering Classes at U. S. C.

Herman Pearson Robinson, who was selected last June as the brightest boy in California by a committee headed by Vierling Kersey, head of the State Board of Education, has entered the University of Southern California as a freshman student majoring in engineering.

Robinson, who was graduated from Venice High School, is a member of the spring semester freshman class. The group of about 200 midyear freshmen start their studies today.

LASKY SIGNS UNKNOWN BEAUTY

Perry Askam Wins Lead in "Sweet Kitty Bellairs;" Natalie Joyce Has Part in Cruze Production; Sam Wood's Daughter Signs With M.-G.-M.

BY GRACE KINGSLEY

If a contest is ever staged to determine the luckiest girl in America, I imagine that Roberta Robinson will be a strong contender for the title.

Without any previous experience, Miss Robinson has just been awarded an important role in the all-star cast of "Dangerous Nan McGrew," a role in which she will actually share screen honors with such stellar favorites as Helen Kane, Victor Moore, Stuart Erwin, James Hall and Frank Morgan.

ROBERTA ROBINSON

But that isn't all the good luck by any means. The principal part is yet to come. She has been signed also on a long-term contract for featured roles.

It all happened this way. Miss Robinson is, it appears, something of a musical genius. Her family, noting her talent, began her training early, and she exhibited the love of genius for its chosen art by winning honors. Her training was climaxed by a course at the New England Conservatory of Music in Boston. Last fall she was one of four in a student body of 4000 to be awarded a scholarship.

Rarely occurs in one person such a combination of beauty, talent and training. Even her family conspired to aid her in a stage career, and were ambitious for her. She hails from Cherryfield, Me., where her family has lived since her father retired from the publishing business.

Parents Assist

Fired by a magazine article concerning the opportunity of young people in the new medium, Mr. and Mrs. Robinson encouraged their daughter to try her luck in New York, and a married sister there chaperoned her on her quest.

She made a long canvass of the theaters and studios without result, until finally at the Paramount studios she was given a screen and voice test. So brilliant were the results that she was at once given a long-term contract and signed for the above-mentioned part in "Dangerous Nan McGrew."

Daughter in Movies

This acting talent, running true to form, is found in another daughter of a well-known director, who is to play in the movies.

Jeanne Wood, daughter of the Metro-Goldwyn-Mayer director, Sam Wood, has just launched out definitely on a career as a movie actress.

Her first role will be in "The Circle," the talking version of W. Somerset Maugham's play of the same name.

Not without training does Miss Wood approach her career. She has been working and studying at the Pasadena Community Playhouse, school for some of our most promising acting talent. She made her first movie appearance with the Duncan sisters in "It's a Great Life," playing a bit with such marked success that she won her present role.

Greta Granstedt With Tiffany

To Greta Granstedt goes a charming role in Tiffany's production, "Sunny Skies," starring Benny Rubin, according to word received yesterday.

Miss Granstedt has played numerous important roles in pictures, including one in James Cruze's M.-G.-M. picture, "Excess Baggage," starring William Haines.

Norman Taurog is directing the Tiffany picture, which is being produced in color.

PERRY ASKAM PLAYS LEAD FOR WARNERS

Perry Askam is due to be about as busy a man as ever hurried about Hollywood from one job to another.

Just at present he is working all day for Warner Brothers in "Viennese Nights," the Hammerstein-Romberg operetta. And at night he hastens down to the Majestic, where he is singing in the Lillian Albertson production of "The New Moon" to hundreds of his admirers.

PERRY ASKAM

Yesterday he was signed by Warner Brothers to sing the leading male role in "Sweet Kitty Bellairs," which, as you know, has been turned into a musical.

Darryl Zanuck made the announcement, along with the admission that Askam is doing such fine work in "Viennese Nights" that his organization simply couldn't see anybody else in the part just assigned to him.

Askam scored his first western hit when he sang in "The Desert Song" under the Albertson management at the Majestic last winter. He formerly sang the same role and others of equal importance in New York.

Cruze Adds to Cast

Judging from the deeply arresting portrayals which Joseph Schildkraut and Myrna Loy were giving in dramatic scenes of the James Cruze production of "The Soul of the Tango," at Metropolitan studios yesterday, that picture will be one of the finest of the year.

Yesterday James Cruze and R. William Neill, the director, gave out the names of other important players who have been added to the cast.

NATALIE JOYCE

Natalie Joyce, for some time out of pictures, has been cast in the character ingenue role and Wilfred Lucas, Olive Tell and Edward Peil, Sr., all have been given important roles.

Bryan Foy Remains

Despite all rumors to the contrary, Bryan Foy, is to remain as head of Vitaphone short subjects, it was said by the Warners yesterday.

Foy will have under his supervision as head of the department, three directors. They are Roy Mack, Herman Raymaker and Carter De Haven.

One of the first series to which Foy will devote his attention is "The Potters."

Warrant Held for Arrest of Man in Bay City

Following a week's investigation, Detective Lieutenants Sperry and Bernascoln yesterday obtained a warrant for the arrest of George Brennan, alias Lemmel Detweiler, held in San Francisco for his participation in a traffic accident near Liberia in which W. J. Coal was killed. The warrant charges Brennan with grand theft of an automobile and forgery.

Brennan, the detectives stated, is also wanted in Gallup, N. M., and Great Falls, Mont., for forgery.

Brennan will be brought back here. According to the detectives, he distributed numerous checks here to which he had forged several local attorneys' names.

Judge Continues Ben Lurie Trial

The trial of Ben Lurie, 42-year-old restaurateur accused of attempting to buy finger print records from a police officer, was continued until 10 a.m. tomorrow by Superior Judge Hardy yesterday. The case was scheduled to be transferred out to another court for trial but the congested condition of court calendars prevented immediate action.

The complaint charges Lurie with giving Officer J. C. MacCloud $300 as the purchase price of the finger-print records of four bootleggers. The officer delivered photostatic copies of the records and obtained sufficient evidence to obtain a complaint against Lurie.

WATER DEVELOPMENT CONGRESS PLANNED

Announcement was made yesterday of plans for a Los Angeles 1930 Water Development Congress under the auspices of the Commercial Board to be held at a downtown hotel within the next ten days, by Elmer B. Nelson, the president. Arrangements are being made to have municipal, county and State engineers and experts on all phases of water development and conservation as it affects Los Angeles give the latest available information.

GIGLI STIRS WITH FINE ARTISTRY

Large Audience Delighted by Operatic Program of Italian Tenor

BY ISABEL MORSE JONES

Mr. Beniamino Gigli entertained a large crowd at the Philharmonic Auditorium last evening in his inimitable manner. His golden voice, innate musicality and the warmth of his friendliness combined with a popular operatic and Latin folk-song program to make the concert typical of Gigli and a gala night of the season. Society, the cinema world and music circles were well represented and the enthusiasm was boundless. This inspired him to many encores and much by-play, which added to the delight of the listeners.

The familiar aria, "Like a Dream" from "Martha," established the even tenor of his way and when he followed the smooth and perfect utterance of the Von Flotow number with "La Donna e Mobile" from "Rigoletto" in full voice, the applause reached the dome. The second group was in quiet mood and the lovely floating tones, the fundamental quality of superlative singing, were used to portray moments of unforgettable beauty in "O bei nidi d'amore," my Donaudy, an arrangement of the Liszt "Liebestraum" to affecting words in Italian by Gigli, and "The Dream," by Grieg. His encore was "The Dream" of "Manon," by Massenet, sung in a richly compelling voice.

Other encores were "Quando Il Tuo Diavce Naeque," by Donaudy, "Vesti la Giubba," from "Pagliacci;" "Life," by Curran; "Mirame Ati," by Fuentes, and many later ones. Gigli was in good voice, happy over the pleasure of his admirers and aware of the large number of motion-picture luminaries in the audience. He gave generously of his best. Having forty-two operas and a large repertoire of smaller tenor numbers at his command with which to display an impeccable technique apparently without effort, he could afford to be gracious, and he was. He was sympathetically accompanied by the young Miguel Sandoval.

Miss Margaret Shotwell, the picturesque pianist who played soli while Mr. Gigli enjoyed an interval of rest, was not well chosen for the part. She gave one the impression of being a talented but not sufficiently well-equipped person, who had been spoiled by adoring relatives and had never recovered. An almost unrecognizable "Hungarian Rhapsody," by Liszt, Debussy's "Claire de Lune" and a thumped "Marche Militaire," composed her first group to which she added the charming "Little White Donkey" as an encore. It proved to be the one number within her limitations.

Notable Musical Comedy Screened

Bernice Claire

And Alexander Gray are cofeatured in "No, No, Nanette," which will have its first local showing at the Orpheum Theater today.

PREMIERE APPLAUSE VITAL

Now that the smoke of the flashlights and arc lamps at the Carthay Circle premiere for Ramon Novarro has vanished, Carli Elinor, managing director of the theater, has a few remarks to make of a retrospective nature.

"I make it a habit," he says, "to see and hear what applause the stars of the various pictures playing at the Circle get upon their arrival at the theater on premiere nights.

"It's a pet idea of mine that the volume of the applause the stars get as they go down 'peacock alley' through the lane of premiere onlookers is an advance indication of the length of the run of their picture, as well as of their current popularity.

"In Novarro's case I am delighted to say that not since Mary Pickford arrived at the theater some few years ago has any star, to my knowledge, received the ovation accorded him by the fans. He was swamped by girl autograph collectors and that means good matinee business during the engagement from women. When the feminine fans broke the police lines and surged through the ropes it was a strong indication to me that Novarro is rapidly taking up Valentino's mantle."

NEW VALLEE FILM OPENS TOMORROW

"Vagabond Lover" Brings New Lothario to Screen for First Time

Forty selected beauties, the Radio Pictures chorus, the Connecticut Yankees orchestra and more than 300 formally attired players appear in Rudy Vallee's first film, "The Vagabond Lover," opening at the R.-K.-O. Theater tomorrow.

RUDY VALLEE

Marshall Neilan, the director, with a colorful story based on incidents in Rudy's life, is said to have produced one of the most lavish musical shows of the current season. Sally Blane is the foil for Vallee's love-making. Marie Dressler and Eddie Nugent are also in the cast.

Last performances of "Dark Streets," starring Jack Mulhall with Lila Lee, will be given today.

"Son of Gods" Has Realistic Funeral Scene

For the first time in the history of the screen, it is said, an authentic Chinese funeral is staged in "Son of the Gods," the First National production starring Richard Barthlemess, which is playing at Warner Brothers' Downtown Theater.

This sequence, done in Technicolor, was enacted on an outdoor set covering ten city blocks. Hundreds of Chinese men, women and children were employed to people this fragment of San Francisco's Chinatown.

The procession, an impressive ceremonial, consists of a series of legend-bearing banners carried on the shoulders of friends of the deceased; a score of paid female mourners, their faces covered with sacks and sobbing constantly; the leader of the procession clapping a pair of cymbals and black carriages. "Son of the Gods" was directed by Frank Lloyd. Constance Bennett has the feminine lead.

Profuse Talent Will Appear at Annual Gambol

With preparations nearing completion for the sixth annual gambol of the Catholic Motion Picture Guild at Philharmonic Auditorium on the 19th inst., Johnny Hines, chairman of the gambol committee, has announced an imposing array of talent.

FIFI DORSAY

Among those who will appear at the 1930 gambol are Elsie Janis, Willie Collier, Lew Fields, Stan Laurel and Oliver Hardy, Bert Wheeler and Robert Woolsey, the Duncan sisters, Polly Moran and Marie Dressler, Robert Armstrong and James Gleason, J. Harold Murray, Charles King, John Boles, El Brendel, Walter Catlett, Stepin Fetchit, Marjorie White and Ed Tierney.

Others are Edmund Lowe, Benny Rubin, Jack Benny, Walter O'Keefe, Eddie Quillan, Frank Fay, Ben Bard, Alan Hale, Eddie Dowling, Neil Hamilton, George Bancroft, Nancy Carroll, Jack Oakie, Kathryn Crawford, Skeets Gallagher, Joseph Wagstaff, Fifi Dorsay and Cliff Edwards.

Eastern Stage Actor Has Role in 'Locked Door'

Local residents acquainted with the New York stage will find a name well known to them as one of Broadway's ranking stars at United Artists Theater, where "The Locked Door" is the current attraction.

This player is William Boyd, star of many outstanding stage successes and remembered chiefly for his role in the original production of "What Price Glory."

Somewhat of a coincidence is Boyd's return to the cinema, said to be due to the advent of talking films, under George Fitzmaurice, the same director for whom he worked in his film debut fifteen years ago. "The Locked Door" is featured by an all-star cast including Rod La Rocque, Betty Bronson and Barbara Stanwyck, who is also from the Broadway stage.

M.-G.-M. Films Now Showing in Many Theaters

With five out of seven major Los Angeles houses running Metro-Goldwyn-Mayer pictures during the week of January 25, last, Leo, the M.-G.-M lion, has been roaring with with even more than his customary enthusiasm.

The presence of "The Rogue Song" at Grauman's Chinese, "Anna Christie" at the Criterion, "Devil May Care" at Carthay Circle, "Not So Dumb" at Loew's State, and Cecil B. DeMille's "Dynamite" at Fox Palace, emboldens Metro-Goldwyn-Mayer to claim a brand-new record for "cornering" the amusement market of Filmland's capital, it is said.

Grauman's Chinese and Carthay Circle give M.-G.-M. a monopoly of the Los Angeles long-run houses for an indefinite period, while the Criterion, Loew's State and Palace theaters are leaders in the popular-priced field. A survey of M.-G.-M. booking reports show the same condition of activity in exhibition prevailed during the week in 58 per cent of the other houses of the Fox West Coast and other circuits.

'Repeats' Called Measuring Stick of Popularity

Thirty-two persons had reported having seen Greta Garbo in "Anna Christie" twice, when the Eugene O'Neill drama started its third week at the Criterion yesterday.

Those who see a picture twice or more are called "repeats" in the parlance of the theater, and the number received is one of the most important popularity measuring sticks of the industry.

The second day after the opening of the picture the first "repeat" on "Anna Christie" was reported. Most of them came during the second week. Usually, it is said, the repeats begin in the second and third weeks, and grow in number until the final week gives the largest total.

'Wedding Rings' Starts Friday

Two songs, which are attaining wide popularity, will be heard in "Wedding Rings," the First National screen drama which opens a one-week engagement at Warner Brothers' Theater in Hollywood Friday. The songs are "Love Will Last Forever" and "That's My Business."

Lois Wilson displays a tuneful voice, as does Olive Borden, it is said. Miss Wilson and H. B. Warner portray the leading roles.

"Wedding Rings" is the story of two sisters who are after the same man. One is really in love with him. William Beaudine directed from the story by Ernest Pascal.

Jury Wheedling Methods Told in 'Ladies of Jury'

Mary Boland, noted comedienne, refuses to state whether she believes the methods that Mrs. Crane, the character she plays in "Ladies of the Jury" at El Capitan, pursues are legitimate ones.

In the farce-comedy, written by Fred Ballard, Mrs. Crane, a woman of social exclusiveness, is impaneled on a jury and decides instinctively that the woman on trial is innocent of the charge of murder. So she proceeds to wheedle the jury into her way of thinking.

"I do believe, however," says Miss Boland, "that this play shows that many times jurymen and jurywomen, too, are more concerned with getting home or to their amusements than with deciding the fate of a defendant."

NEW GUEST STAR WILL PLAY HERE

Frank Craven to Present "Salt Water" With Henry Duffy Players

Frank Craven is on his way to the Pacific Coast to appear as guest star with the Henry Duffy Players in "Salt Water," his latest comedy success. The noted comedian will make his appearance at the Hollywood Playhouse on the 16th inst.

"Salt Water" was written by Dan Jarrett and produced in New York by John Golden. It never has been seen outside that city and the run ended Saturday night, Craven immediately leaving for the West. The noted actor-playwright is due to arrive here tomorrow.

In "Salt Water" Craven will have what he considers the best role of is career, that of a young man who wanted to sail the sea in ships, as had his father before him, but who finally came down to acting as a pilot on a ferry boat. As a playwright Craven has written "The First Year," "New Brooms," "Spite Corner" and "Too Many Crooks" as well as "The Nineteenth Hole."

Principals of 'New Moon' Win Added Laurels

Lillian Albertson and Louis O. Macloon's production of the Romberg operetta, "The New Moon," is drawing capacity crowds to the Majestic Theater, where Perry Askam and Josephine Houston are winning new laurels at each performance. This pair is seen to excellent advantage.

JOSEPHINE HOUSTON

"The New Moon" has been given careful casting, it is said, and creates a spell which lingers long after the final curtain. The company numbers 100, including the male chorus, which shines especially in the song, "Stouthearted Men."

Eva Tanguay on Special Bill at Million Dollar

Vaudeville's noted star, Eva Tanguay, will head the array of artists appearing in the midnight stage revel at the Million Dollar Theater Saturday, according to an announcement.

Another headliner secured for the special late performance is Badji Ali, billed as the human volcano. Due to the numerous requests made by patrons at the last midnight performance, the seat sale of the lower floor has been placed on a reserved-seat basis. "Half Way to Heaven," the first-run Charles Rogers film, will also be screened at the late performance. Its first showing will be today.

'Journey's End' in Third Week

The third week of Robert Cedric Sheriff's graphic war play, "Journey's End," is on at the Belasco Theater.

"Journey's End," it has been noted, discards the recognised traditions of dramaturgy in favor of an interesting experiment in simple and starkly human narration. It depicts a chapter in the lives of a half-dozen Englishment, showing the effect on different temperaments of a terrific common catastrophe.

A gifted and conscientious cast of London actors is engaged in the presentation.

"GHOSTS" AT RITZ

Due to the large number of requests from the patrons of the Ritz Theater, it is announced that "Three Live Ghosts" has been secured for a run of four days at the theater. This picture has created more comment than any to grace the talking screen this season, it is claimed. Robert Montgomery and Joan Bennett are the two featured players.

Chinese Plans News Reel Film as New Feature

Grauman's Chinese Theater will have an added feature in connection with "Dancing Under the Stars" Saturday night, with the filming of motion-picture news reels of the dancing.

The news reel will broadcast pictorially and audibly throughout the world that while most communities may be covered with snow and harassed by winds, Hollywood and Los Angeles are disportin outdoors in the month of February.

M.-G.-M. "Rogue Song" continues to be popular with patrons who are filling the theater to capacity.

POLAND COMPLETES ORIGINAL STORY

Joseph Franklin Poland's original story, at present scheduled for Rosetta and Vivian Duncan, has been completed at the Metro-Goldwyn-Mayer studios. Among the achievements of the young writer-supervisor are a number of Reginald Denny, Glenn Tryon and Laura La Plante successes, Douglas MacLean independent comedies and two of the earlier Colleen Moore films.

BURLESQUE PLEASES

"Girls from the Moulin Rouge," the current show at the Burbank Theater, is one of the best burlesque offerings seen this season and is crowded with comedy, dancing and specialities. Billy (Bumps) Mack and Billy Mossey are responsible for the comedy in the present vehicle. Evelyn Myers, a dainty blond soubrette, scores with a startling dance creation. Beatrice Franklin wins the approval of the Burbank patrons with her singing.

MARIA CONESA TO APPEAR HERE SOON

Maria Conesa, idol of Spanish-speaking countries, and who was to have appeared at the California Theater tomorrow, is en route to Los Angeles from New Orleans and will positively appear on the 13th inst., according to her personal representative here.

Miss Conesa is an accomplished artist and was delayed at New Orleans by border officials. All difficulties have been straightened out and a telegram stated that she was finally on the way.

"FADS" AT FOLLIES

"Fads and Fancies," current on the Follies stage, is proving to be one of the best offered by this theater for some time. Wanda Devon and Francis Parks, soubrettes, entertain in their original manner, while June Hazleton is also seen in a clever presentation. The chorus is well trained for the current production. George Bryant and his Jazz Hounds add pep and zest to the show. Laughs are in order throughout the performance.

PHYLLIS CRANE BUSY

Phyllis Crane, the popular college coed of "So This Is College" and "Fresh From College," M.-G.-M. productions, is now at Warner Brothers playing an important role in "Dumbells in Ermine," which Roy Del Ruth is directing.

WANT-AD RATES

EFFECTIVE DECEMBER 1, 1929.

Rates per line insertion: 20 consecutive times, 24c Daily, 30c Sunday; 15 consecutive times, 20c Daily, 25c Sunday; 10 consecutive times, 16c Daily, 20c Sunday; ONE TIME, 40c Daily, 50c Sunday.

SITUATIONS WANTED: ONE TIME, 25c Daily, 30c Sunday; 3 consecutive times, 20c Daily, 25c Sunday; 6 consecutive times, 15c Daily, 20c Sunday.

PAINTING, DECORATING, GLAZING, PAPERHANGING and KALSOMINING will not be classified but will appear under Wanted, Contractors and Wanted, Situations, Male, at Rates. See Daily and Sun. Rates.

EMPLOYMENT AGENCIES, MOTION PICTURE ADVERTISING, etc., under any classification, Daily, Sunday, Sunday Mag. 75c per agate line; 3 consecutive times, 70c; 6 consecutive times, 65c; 1 time, 80c. Sunday, 3 to 6 consecutive times, 80c; 1 time, $1.00.

Advertisements on rate-holder rate on application.

Advertisements from outside of Southern California must be accompanied by remittance.

MINIMUM CHARGE 2 LINES.

To estimate cost of want ads count 6 words to a line. Words containing more than 6 letters should be counted as two words.

Ads will be published only under the classification under which they are given by The Times for payment of Want Ads. Any mistake will be rectified without time.

Cancellation of advertisements before expiration cannot be made after the advertisements have appeared once. Copy for Monday issue must be received by 9 p.m. Saturday; for Tuesday issue, by 9 p.m. Friday; for Sunday issue, Thursday at 9 p.m. Copy for Want Ads cannot be accepted after 4:30 p.m. except as noted for display advertising.

Display advertising will be accepted by telephone, but The Times will not be responsible for errors in such advertisements. In case of error in publication of advertising will be rectified only by cancellation of charges made for the service rendered.

Proofs of ads in display lines will be furnished when request is made. Closing hour for Want Ads for Monday issue, 12 noon Saturday; for Tuesday issue, 9 a.m. Monday. Cancellation of any advertisement running in the issue of the following day must be received before 9 a.m.
